Corrections

The name Jerry Tollefson appeared in last week's news, this should have read Terry Tollefson. Terry visited at the Ted Tollefson home in Minneapolis, not the Fred Tollefson home.

Joey Scholin gave a report on foods at the 4-H club meeting, not Joey as was printed. Sorry Joey!!

"Dear George:

Things have been a little slower at the Winger Mraket than we would have liked but, after all Rome wasn't built in a day. We're well pleased with the interest that is developing and look forward to the day we can have a good volume of pigs at the Winger Market.

We're at the Market to buy pigs at private treaty every Tuesday morning between 8:00 a.m. and Noon. If you have quality feeder pigs weighing 40 pounds and more it will pay you to give us a chance.

We're still interested in locating a local manager for this operation so if you're interested why not stop in next Tuesday morning and visit with me about it.

Sincerely yours,

Teacher Salary Question Settled In Warren Dist.

Teacher salary schedules in Warren were agreed upon for the 1969-70 school year recently, when members of the Warren Education association by a margin of 64 per cent voted to accept the latest schedule offered by the board of education.

New schedule would provide an average raise of $725 for each teacher presently on the faculty at a total cost of $37,000 to the taxpayers of the district, said Melvin R. Hanson, superintendent of schools. Under present property valuations in the district, the increases will result in an additional tax levy of between 10 and 11 mills, he said.

Faculty members accepted a base of $6,400 for beginning teachers with a BA degree with $250 annual increments in 12 annual steps to a maximum of $9,150. In addition, the schedule provides five lanes for educational achievements at $200 in each lane, also in 12 annual steps. A BA plus 15 teacher would start at $6,600 to a maximum of $9,350, a BA plus 30 would start at $6,800 to a maximum of $9,550; a BA plus 45 would start at 7,000 to a maximum of $9,750 while a teacher with an MA degree would start at $7,200 to a maximum of $9,950.

Settlement of the salary schedule climaxes six months of negotiations between the board of education and the teacher salary committee headed by Rodney Marinucci.

PARTICIPANTS in the special education sessions held at the vocational-technical school recently were Dr. Richard Weatherman, University of Minnesota; Ellsworth Stenswick, Bloomington; Mrs. Barbara Kaufman, state department of social welfare; Eric Allen, area special education coordinator; Marlyn Bartel, director of child study services, Gillette, Wts.; and Ronald Mooers, executive director of the Pennington county welfare department.

Problems Seen For Some Small Communities

A prediction that the economic future of many small communities is not promising in the Northern Great Lakes states was made recently by Wilbur Maki, research coordinator for the University of Minnesota center for urban and regional affairs.

He spoke at the annual meeting of the Northern Great Lakes Resource Development Committee (NGLRDC), a citizen group organized to stimulate development of 119 counties of upper Minnesota, Michigan and Wisconsin.

Maki told delegates that the quality of life in much of the northern Great Lakes region is significantly below the levels demanded by young people and those companies who could relocate away from metropolitan areas.

"Metropolitan areas will continue to grow because there are jobs and services not available in small towns," he said. This growth comes at the expense of small rural communities in declining economic areas.

"New policy proposals point to a restructuring of the countryside of America through the *forging of new inter-community* and inter-regional linkages," Maki said.

He questioned whether or not many regions in the Northern Great Lakes states have either the economic base or population size needed for self-sustaining growth. "This area is peripheral to the national economic core and it also has the additional handicap of poor access to markets and specialized resource inputs," he said.

What will happen to the small communities? Maki believes that some will play an important role if they are located in a growing economic region and functionally near larger growth cities.

"Participation in decision making also affects the level of satisfaction of citizens," Johnson told delegates. Political decisions too often continue to be based on traditional satisfactions and patterns rather than on choices arising from current analysis.

"Many villages are unable to provide enough emergency or welfare support for their citizens and poverty has become evident in tragic amounts," he said. A part of this problem is the growing cost of medicare and welfare both in rural areas and among urban families who originated in rural areas.

"Solving rural development problems starts with organized citizens in private and public sectors selecting priority programs for implementation," said Johnson.

Local District Receives Funds For New Program

Thief River Falls school district 564 was among 13 Minnesota school districts and two other educational agencies receiving grants totaling more than $368,000 for development and operation of experimental and innovative projects.

Thief River Falls will receive $18,766 to sponsor a workshop to design a regional instructional materials center, an inter-district council and an advisory council for special education. These are the first steps in upgrading services for handicapped students in school districts in 12 northwestern Minnesota counties.

The program is supported with funds allocated to Minnesota by the U.S. office of education under title III of the elementary and secondary education act of 1965. Recipients were selected by the department's office of planning and development from 82 proposals submitted in February.

Oklee Mfg. Co. Contracts for 20,000 Cushions

Wally Groberg, president of Oklee Manufacturing company, stated that new contracts for 20,000 seat cushions and 5,000 windbreaker jackets have been negotiated for delivery in the next 90 days. Dollar value of the order is almost $200,000.

Groberg said the OMC research and development department is working out the original prototype cushions for the new Fiberglas boat which Arctic Enterprises will produce at Karlstad. The cushions will have leopard vinyl identity, the same as on their snowmobile.

OMC has recently submitted samples and bids to manufacture a winter insulated jacket and is hopeful that it may be successful in making 15,000 or more of these with the Arctic patches on back and sleeve.

Meanwhile, construction of an addition to the main plant connecting it with the former school bus barn, is progressing according to schedule, to be operative by June 15. This will provide 16,000 square feet of floor space under one roof at this location.

OMC presently has 41 employees and is planning on a year around work force of 55 to 60.

Before I had a chance to say, "Guess who,"-Jack knew it was I. We're like that—maybe it's because we're twins.

We've always been close. When we were small, we had a private adventureland out in our back woods. Hardly a day went by that Jack didn't help me out of some scrape. He was the one who was able to entice me down from that tree when I fell halfway from the top—and lay paralyzed with fright between two branches. I bailed him out of several misadventures, too.

When it came to college—we chose the same one. And it's been nice. Every now and then we get together and talk out our problems, just as we always have. We go to church together, too.

We're glad Mom and Dad made the Church an important part of our lives. When we think of graduation and the inevitable parting of our ways, it's good to know that each of us has an ever-present source of strength and guidance in God and His Church.

Counting calories? Then take a look at these golden Potato Fans. An ideal mate for leg of lamb or roast beef, each serving adds only 125 calories to the menu.

To create the fanned effect, the potatoes are partially slashed and filled with onion slices. Then a coating of low-calorie salad dressing and bread crumbs is added, turning to a golden crispness during baking.

Include potatoes often in your diet menu. They're a bargain in nutrition and a saving in calories.

Calorie-Trimmed Potato Fans

6 small potatoes (3½ oz. each)
2 small onions, cut into thin slices
⅓ cup low-calorie salad dressing, Italian or French
2 tablespoons dry bread crumbs, seasoned

Peel potatoes. Make vertical slashes ¼ inch apart to within ¼ inch of bottom of each potato. Insert onion slices in slashes. Coat well with dressing and sprinkle with crumbs. Bake, covered, at 425 degrees for 45 minutes. Uncover and bake 10 to 15 minutes longer. Baste frequently with dressing. Makes 6 servings. Approximately 125 calories per serving.

No other popular pickup goes to the lengths Chevy does to save you money.

Several lengths, in fact. Like offering pickup boxes that range in length from 6½ feet to a huge 9-footer.

No matter what size you prefer, you'll get a full measure of Chevy's Pacesetter Value with each model. For instance: the biggest power choice among popular pickups. Six or V8. And the smoothest ride in trucks.

Inside the double-steel cabs, you'll find such Pacesetter Values as thick foam seats. Which provide stretch-out room for three.

Wrap it all up in a small price and it becomes pretty clear: Chevy will go to great lengths to please you.

Somebody once asked Anton Bruckner: "Master, how, when, where did you think of the divine motif of your Ninth Symphony?" "Well, it was like this. I walked up the Kahlenberg, and when it got hot and I got hungry, I sat down by a little brook and unpacked my Swiss cheese And just as I open the greasy paper, that darn tune pops into my head!" —Peter Altenberg

The Reports Are In

Members of the Thief River Falls adjustment panel submitted their reports on Friday of last week, and there seemed to be *only* one item of agreement. Each of the panelists recommended that the school district contract its teachers for a nine-month term in 1969-1970. Beyond that point the reports were varied.

What makes the situation so frustrating for all concerned is that both sides have valid points in the argument but these points clash head-on in several cases.

For instance, teachers claim that they should be able to earn as much for teaching in the Thief River Falls district as they would teaching in other districts. This is a valid point. The school board claims that this district has a lower tax base and resulting greater effort toward education, and therefore has been more than holding its own in salaries. This is also a valid point.

The school board claims that teachers have negotiated an annual salary and therefore should be expected to work the same amount of time as other workers for a comparable annual salary. This is a valid point. Teachers maintain that they have been working nine months and paid for nine months and additional work should require additional pay. This is also a valid point.

Both teachers and school board have said that a 12-month contract and a full year of school in session are coming, but the board wants it to come entirely next year while the teachers want to stay at nine months. There is no offer of meeting on middle ground at this time.

Of the reports submitted, we liked portions of the one made by Joe Forberg, representing the teachers' council. His suggestions that the school board solicit assistance of the faculty in planning and implementing a longer school year, and that the board move gradually toward a 12-month schedule, are sensible, in our opinion. We do not question the board's right to set a 12-month contract, but we do question the probability of the board and administration to make it work. Cooperation seems to be a necessity in making a transition successful, and we don't feel that spirit prevails at the present time.

Kenneth Nelson made several interesting comments in his findings. One was that there had not been enough communication between the administration (we assume this includes the school board) and the teachers to prepare them properly for the 12-month system. This is apparently true. The board evidently underestimated the amount of communication necessary to create teacher understanding of the plan, or overestimated the willingness of the faculty to want to understand.

His idea to phase out the nine-month system to create a 12-month system over a three-year period seems moderate. Whether school law would permit the method he proposes is open to question, but it could probably be arranged. Teachers are contracted on an annual basis and not on a four-year program such as Nelson suggests.

And his note to the commissioner of education that the public will not long tolerate prolonged salary negotiating periods which disrupt the educational process for two to four months each year is probably right. Teachers and administrators with their minds on their pocketbooks can not devote clear thinking to instruction and administration. Education of youngsters is bound to suffer to some degree as a result.

What will eventually come of this, we fear, is loss of local control in the school districts and compulsory or binding rulings by state departments or the courts. The educational systems which have existed over the years will be changed because of economic pressure rather than academic need. And we think this is too bad.

Borrowed Nonsense

During a lull at the discotheque, the girl impulsively declared. "Let's get married, Tom. I don't want to wait around until I'm 35, have wrinkles, bags under my eyes, and a fat stomach."

"Well," Tom said, "If that's the way you're going to look at 35, let's forget it."

"The five dollars entitles you to two questions," said the fortune teller to the anxious girl sitting across the table

"Isn't that rather a lot?" the girl asked.

"Yes it is," said the fortune teller. "Now what is your second question?"

Show Off Maturity

The following item was suggested to us by a member of the Pennington county safety council:

Every kid shows off. It's part of growing up. But, when you're old enough to drive a car, you're no longer a kid, and showing off behind the wheel is definitely kid stuff.

A mature driver has nothing but scorn for the showoff who guns his motor, cuts in and out of traffic, squeals his tires, cheats the light, or bulls his way through traffic.

Some grownups act like kids on the job, too. They show off their muscles by trying to lift too much.

They show off their "experience" by working in the hot stuff without properly covering up.

And, they indulge in potentially dangerous horseplay.

A fellow who has really come of age doesn't have to resort to the tricks of a child to impress people. So, let's show off our maturity.

Let's show it off in traffic by driving carefully, skillfully, and with consideration for the rights of others.

Let's show it off on the job by being a safe and considerate workman.

Let's show it off around the house by setting an example in kindness, intelligence, and safe conduct that our family can respect.

If we do this, we not only safeguard the lives of others, but we make a positive contribution to a better life for everyone.

That Mean Mother

Origin of this article has been lost somewhere along the line, but the commentary has appeared in several newspapers in the state and has been used by speakers at various events:

I had the meanest mother in the whole world. While other children ate candy for breakfast, I had to have cereal, eggs or toast. When others had cokes and candy for lunch, I had to eat a sandwich. As you guess, my supper was also different from other children's.

But at least I wasn't alone in my suffering. My sister and two brothers had the same mean mother.

My mother insisted upon knowing where we were at all times — you'd think we were on a chain gang. She had to know who our friends were and what we were doing. She insisted if we said we'd be home in an hour that we be gone one hour or less — not one hour and a minute. I am nearly ashamed to admit it, but she actually struck us. Not once, but each time we did as we pleased. Can you imagine someone actually hitting a child just because he disobeyed?

Now you can begin to see how mean she really was.

While the other girls were wearing miniskirts and smoking cigarettes we had to be little granmas and were called old fashioned. Mother would not even let us go to the drive-in movies. How could she be so mean!

The worst is yet to come. We had to be in bed by nine each night and up early the next morning. We couldn't sleep till noon, like our friends. So while they slept, my mother actually had the nerve to break the Child-Labor law. She made us work. We had to wash dishes, make beds, learn to cook and all sorts of cruel things. I believe she lay awake at night thinking up mean things to do to us. She always insisted upon our telling the truth, even if it killed us, and it nearly did.

By the time we were teen-agers, she was wiser — and our life became even more unbearable. None of this tooting of the car horn by the boys for us to come running.

She embarrassed us to no end by making dates and friends come to the door to get us. I forgot to mention, while the friends I had were dating at the mature age of 12 and 13, my old, mean mother refused to let me date until the age of 15 and 18. Fifteen, that is, if you dated only to a school function. And that was maybe twice a year.

My mother was a complete failure as a mother. None of us has ever been arrested, divorced or beaten his mate. Each of my brothers served his time in the service of this country. And whom do we have to blame for the terrible way we turned out? You are right — our mean mother.

Look what all we missed. We never got to march in a protest parade, not to take part in a riot, burn draft cards, and a million and one things that other children did.

She forced us to grow up into God-fearing, educated, honest adults.

Using this as a background, I am trying to raise my three children. I stand a little taller, and I am filled with pride when my children call me mean.

Helm were in the race for two positions on the TRF school board.—Lorna and Karen Moe, accompanied by Stanley Torgerson, won top honors in the Pennington county Share-The-Fun contest when they presented a vocal duet, "Buttons and Bows," Friday night in the city auditorium.

Letters to the Editor

The Grand Forks social security office has no plans for either discontinuing or changing the service it is bringing to Thief River Falls.

Our field representative, Ted Hoversten, will continue to be in the city auditorium every Tuesday from 9 a.m. to 2 p.m. He will also be at the auditorium on an appointment basis on Fridays as often as necessary to provide good public service.

Speculation about a change in service apparently stems from announcement about a Presidential order that will realign regions. Under this proposal, Minnesota will be in the Chicago region rather than in the Kansas City region.

Minnesota was in the Chicago region at an earlier time. This did not then follow strictly along state lines. Pennington county continued during that period as a part of the Grand Forks social security district. We have received no information indicating any change in the areas to be served by individual offices under the proposed realignment.

The Grand Forks office hopes to be able to continue service to Thief River Falls as in the past. Any information to the contrary at this time is sheer rumor and speculation.

Legislative Letter

from ANDREW SKAAR
STATE REPRESENTATIVE

A bill incorporating major changes in the Snowmobile Code has now been passed by both the House and the Senate and is ready for the Governor's signature. Registration provisions have been included in this legislation for both dealers and manufacturers. This is not the season for snowmobiling but I would be happy to explain the changes in this legislation to any interested individuals.

The State Department Appropriation Bill is the last appropriation bill to be acted on by the House. All of the House and Senate appropriation bills are somewhat different and those differences will be resolved in conference within the next five or six days and will then receive full legislative approval.

The House measure calls for a total funding of $150 million to operate agencies of state government for the 1970-71 biennium. This represents an increase of 23 per cent over the appropriation for the current biennium. It also represents a budget figure 2.5 per cent less than that recommended by Governor LeVander.

The major increase for the forthcoming two-year fiscal period will be $8.5 million allocated for increased salaries for state department employees. You will recall that the House earlier passed a comprehensive salary measure for these workers.

A total of 201 new positions in state government are authorized by the bill, including 45 additional staff positions for the present Bureau of Criminal Apprehension. The Supreme Court is allocated eight new staff positions under the measure.

A figure of $631,480 for maintenance of the Capitol Square Building is included in the bill. This, of course, is contingent upon the approval by the Legislature of the purchase of this building.

A study of the complete bill discloses some interesting items. For example, an appropriation of $2,000 is made for the Governor's portrait. As you know, each outgoing Governor is "painted" and his portrait hung in the halls of the Capitol.

We find an appropriation of $50,000 for the Fort Snelling Sesquicentennial, which will be observed during the next biennium. There's an appropriation of $19,000 for "weed control on tax exempt and tax forfeited land." And, there's also an allocation of about $15,000 for muskellunge propogation and management.

Some individuals as well as some department heads will be less than completely happy with the action of the legislature. However, I feel that the appropriations are responsible and will adequately meet the needs of the state for the coming biennium.

Social Security Payments Total $149,000 in Co.

Social security benefits totalling $149,000 a month were going to 2,117 Pennington county residents at the beginning of this year, according to Clifford Kittelson, district manager for social security.

Almost one-fifth of the beneficiaries in the Grand Forks district are under 60. These include the disabled and their dependents and young widows and children of deceased workers.

The number in Pennington county under 60 was 357. This figure breaks down into 204 under 18, 39 between 18-21 and 114 between 22-59.

Most of those in the 18-21 range are college or trade school students. Many of these would have been unable to continue their educations without the help of social security benefits, Kittelson said. An unmarried student between 18 and 22 may receive benefits on a parent's social security record while he is in full-time school attendance.

Monthly payments to the widow and two or more children of a worker who dies range from $82.50 to $434.40 a month. The amount depends upon the worker's average earnings. Payments to the young family of a worker who dies while he is young can total in excess of $85,000.

Almost all people in Pennington county 65 or over are eligible for hospital insurance benefits under medicare. About 95 of every 100 over 65 are signed up for medical insurance under medicare.

An automobile manufacturer has predicted that in 15 years, seven out of every 10 automobiles will be air conditioned.

Demand Is High for Agriculture Grads.

Higher salaries and a strong demand continue to dominate the employment picture for 1969 agricultural graduates at the University of Minnesota and other midwest universities, according to Ralph E. Miller, placement director for the university's college of agriculture, forestry and home economics.

The annual survey of 14 midwest land-grant institutions reveals a 5.5 per cent increase in estimated starting salaries as compared to a year earlier.

The demand is high for graduates in sales and management positions in business and industry, and contributes the most to the salary increase. But the demand is strong in all areas, Miller says.

Participating in the survey were Minnesota, Illinois, Iowa state, Kansas state, Lincoln, Michigan state, Missouri, Nebraska, North Dakota, Ohio state, Purdue, South Dakota state, Southern Illinois and Wisconsin universities.

Participating universities report on placement of 1968 graduates and estimate job prospects and salaries for 1969 graduates.

In 1968, the 14 universities graduated 4,167 students with bachelor of science degrees, 1,128 with master of science degrees and 568 with doctor of philosophy degrees. The number of graduates at the B.S. and M.S. levels was higher than a year earlier and the number of Ph. D. degrees down slightly.

Private industry took 22 per cent of the graduates and graduate study accounted for another 19 per cent, down from 25 per cent a year earlier. Other areas employing agriculture graduates were teaching and extension, nine per cent, farming and farm management, 10 per cent, and government work, eight per cent. Military services took 27 per cent of the graduates, up sharply from 19 per cent a year earlier. Other types of employment accounted for the remainder.

Average monthly starting salaries for 1968 graduates were estimated at $626 for B.S. recipients, $766 for an M.S. and $1,025 for a Ph. D. In 1967, the estimated averages were B.S. $591, M.S. $703 and Ph. D. $954.

Students graduating this spring with their military obligation completed are faced with numerous job opportunities in some cases. Placement officers at the 14 universities estimate starting salaries for this spring's graduates will be $649 for a B.S. degree, $802 for an M.S. degree and $1,067 for a Ph. D. degree. These figures are from 4.5 to eight per cent higher than similar estimates a year ago.

Sales and management positions in business and industry, food science and vocational agriculture teaching positions in high schools continue to present the most opportunities.

The placement officers estimate sales and management positions as 33 per cent of the available jobs. Twelve universities reported this area as the one with the strongest demand.

For advanced-degree graduates, strongest demand was indicated in the areas of university teaching and research positions, industry and food science.

In rapid-fire order at a special meeting Thursday noon, the Thief River Falls board of education adopted a salary schedule agreed to by the district's teachers, set the school calendar for 1969-1970 and rescinded the policy salary guide adopted on January 29 of this year. It was an unspectacular climax to a controversy which has stirred emotions since shortly after the first of the year, and which produced an adjustment panel which ran its legal course without visible accomplishment.

Meeting with the board Thursday noon, the faculty negotiating council affirmed its acceptance of the salary schedule adopted by the board. Details of the schedule had been hammered out in a near all-night session last Monday and presented by the negotiating council to the rest of the teachers a day later.

Adopted by the board in official action on Thursday was a 190-day schedule with a starting salary of $6,500 for a BA degree teacher with no prior teaching experience. This is a $500 increase over the 1968-1969 base salary of $6,000. Summer school salaries were set at $120 per week.

Top salary in the BA lane of the 190-day schedule is $9,700 after 12 years of experience. Teachers with a BA degree and 15 additional credit hours will have salaries ranging from $6,700 with no experience to $9,900 with 12 years experience. BA plus 30 credit hours will command a salary of $6,900 to $10,200, while a BA plus 45 hours will range from $7,100 to $10,400.

In the MA lane, teachers with an MA degree will start at $7,300 with no experience and advance to $11,100 after 13 years of experience. The range will be from $7,500 to $11,300 for an MA plus 15 credit hours and from $7,700 to $11,500 for an MA plus 30 credit hours.

To Cost $135,000

Supt. Lloyd M. Johnson said that the salary increase is projected to cost School District 564 an additional $135,000 or a boost of about nine per cent from the current school year. The district has approximately 180 people on the instructional staff who are affected by the contract negotiations.

In addition to the salary raises, the board granted a boost of 10 per cent in extra-curricular salaries.

Considered to be a significant part of the settlement was the

CRAFT DISPLAYS drew considerable interest at the achievement day held by Pennington county homemakers on Friday at Zion Lutheran church. Among the exhibitors, left to right, are Mrs. Marvin Olson, 59'ers club; Mrs. Alvin Bursiad, Kralka club; Mrs. Clarence Williams, Chat and Chew club; and Mrs. Raymond Parnow, Kralka club. Stanley Sahlstrom of the University of Minnesota technical institute at Crookston was the guest speaker.

Summer School Will Start Here June 16

Summer school for students in Thief River Falls School District 564 will begin on Monday, June 16, according to principals in charge of the program. They include William Desrocher, elementary; Neil Taverna, junior high school; and Richard Eklund, senior high school. Daily sessions will be held Monday through Friday until August 1.

Remedial, make-up and enrichment programs will be offered in the academic program, and all classes will be held at the Lincoln senior high school or Washington elementary school. Bus transportation will be made available for all rural and cross-town students.

High school class sessions will be four hours in length, except for typing, which will be two hours in length. Classes extend from 8 a.m. to noon. Elementary classes will be two hours in length—either 8 to 10 a.m. or 10 a.m. to noon.

Tuition is free for students who reside in the district, with non-resident tuition fee based on cost. A one dollar matriculation fee will be charged for all students. Courses which have insufficient registration will be cancelled and tuition and fees refunded. Students attending summer school for credit are expected and required to maintain regular attendance.

Elementary registration will be held on Monday, June 9, with junior and senior high school registration on Monday, June 16.

Senior High School

Courses offered for one academic credit in the senior high school are the following:

Newfolden Board Rejects Plat for Consolidation

Board of education of Marshall County Central school district No. 441, Newfolden, voted unanimously to reject the plan as proposed in the plat calling for consolidation of District No. 441, Newfolden, and District No. 564, Thief River Falls, at a meeting held May 20. This terminates all proceedings for the proposed consolidation.

The Newfolden board adopted the following resolution on a motion by Ervin Strandquist and seconded by Duane Krohn:

"Whereas, the Board of Education of Marshall County Central School District, Independent District No. 441 as representatives of the people of the district, accepts the vote on the school building bond issue of 494 for to 259 against as a clear mandate from the people of the district to build a new school and remain in operation as an independent school district.

—Now therefore, be it resolved that the Board of Education of Marshall County Central School District, Independent District No. 441, in accordance with the provisions of M.S. 122.23, hereby rejects the plan as proposed in the plat calling for consolidation of School District No. 441 (Marshall County Central) and School District No. 564 (Thief River Falls) as approved by Duane Mathies, Commissioner of Education, on April 17, 1969."

River level above the dam in Thief River Falls is being drawn down approximately two feet this week to permit Northwestern hospital to do some cribbing work along the bank, according to Morris Owen, superintendent of utilities for Thief River Falls.

Pennington Co. Dairy Princess Contest Slated

Three Pennington county girls have entered the Pennington county dairy princess contest which will be held on Saturday, at 5:30 p.m. in the meeting room of the Pennington county courthouse in Thief River Falls. Judging will begin at 5:30 p.m., followed by a dinner for all contestants, according to K. E. Gigstad, chairman of the event.

The three girls that have entered so far are Barbara Breiland, Susan Kleinvachter and Grace Dalager. The search is still on for more contestants from the county and any girl living on or coming from a dairy farm, who would like to be a contestant, is asked to call the Pennington county agent's office.

Miss Breiland is the daughter of Mr. and Mrs. Tim Brieland, rt. 3, Thief River Falls. She is a member of the Happy Acres 4-H club, active in Lincoln high school activities and this year was FFA sweetheart.

Miss Kleinvachter is the daughter of Mr. and Mrs. Adolph Kleinvachter, rt. 3, Thief River Falls, and is active in many Lincoln high school activities.

Miss Dalager is the daughter of Mr. and Mrs. Hoarace Dalager, St. Hilaire, and is active in Pennington county 4-H work along with high school activities.

The chance of a lifetime awaits some Minnesota dairy farm girl who will become Princess Kay of the Milky Way XVI. Princess Kay will be a dairy farm girl who has completed high school, is over 16 but not 24 years old on June 1, 1969. She must be in good health, must not be engaged or married, and agree that she will not become engaged or marry during her reign if chosen Princess Kay.

John W. Lang

Lang Promoted In Management By Land O'Lakes

John W. Lang of Thief River Falls was promoted to production and procurement manager over both Land O'Lakes turkey processing plants at Aitkin and Thief River Falls effective in May, according to E. E. Palmer, Land O'Lakes turkey division manager.

Lang has been with Land O'Lakes for 26 years. For the past nine years he has been in charge of Thief River Falls turkey operations, including turkey processing plant, procurement and hatchery.

He will continue in this capacity with added responsibilities which include production and procurement at Land O'Lakes Aitkin turkey processing plant. Lang will continue to make his home and headquarters at Thief River Falls.

Land O'Lakes operates a total of four turkey processing plants, including Albert Lea and Ellsworth, Iowa, in addition to the above. The four plants process turkey products for the three food industry markets: consumer, food service and food processors.

Bonds Sold for Housing Project

Bonds totaling $1,235,000 were sold by the Housing and Redevelopment authority of Thief River Falls last Wednesday to Morgan Guaranty Trust company of New York City. Interest rate was 5.625 per cent on the 40-year issue.

Only one other bid was received, that from the Chase Manhattan bank, at 5.75 per cent. The bonds were for financing construction of the senior citizen housing project in the southwest portion of the city.

Ruby Peterson Is Honored At Bridal Shower

Miss Ruby Peterson was honor guest at a surprise bridal shower on Tuesday at the Wendell Jorgenson home. Upon arrival, she was presented with a corsage composed of a scouring pad, cheese cutter, tea strainer, pastry and bottle brushes, can opener and measuring spoons, secured to a pot holder. The bride-elect was then ushered to a special chair placed beneath a canopy of yellow and white streamers centered with a paper mache bell. Accenting the gift table was a white paper mache umbrella edged in pink.

The events of the evening were announced by the honored guest reading the little papers attached to her corsage. The program began with a duet, "Be Thou My Guide", by Mrs. Lorna Hanson and Mrs. Wendell Jorgenson. Mrs. Alfred Hagenbeck was in charge of the devotional meditation based on Psalms 23 and 100. The games were led by Mrs. Raymond Molskness. Following the opening of the gifts by the bride-elect, lunch was served. Mrs. Robert Leen led the table prayer.

Those attending were Miss Peterson's mother, Mrs. Orvin Peterson, and her fiance's mother, Mrs. Alma Ohnstad, together with Mrs. Earl Arnold, Mrs. Bruce Blazer, Mrs. Norman Jorgenson, Mrs. Ronald Heisel, Mrs. Alfred Hagenbeck and Mrs. Ronald Hanson.

Also Geraldine Peterson, Mrs. Richard Johnson, Mrs. Roger DeLap, Mrs. Wendell Jorgenson, Mrs. Duane VonWald, Mrs. Robert Leen, Audrey Kleven, Mrs. David Sheridan, Mrs. John Flom, Mrs. Clarence Peterson, Mrs. Archie Ptacek, Wanda Ptacek and Mrs. Raymond Molskness.

Miss Sandy Dahl and Miss Audrey Johnson planned the shower and served as hostesses.

Miss Peterson and Arnie Ohnstad will be married May 31 at the Assemblies of God tabernacle in this city.

Courneya Speaks At Deer Park Garden Meeting

Terry Courneya, Pennington county agent, was guest speaker at a recent meeting of the Deer Park garden club held at the John Cullen home. To correspond with the club's projects, "Growing Roses", he gave a planting demonstration by planting a floribunda rose. He also gave a pruning demonstration and showed samples of what could happen to an unpruned rose.

Following the demonstrations, slides were shown, featuring roses in arrangements. Jan Cullen served as narrator. A trip to the Peace Gardens was discussed and a committee was appointed to make plans. Selected were Mrs. Ernest Swanson, chairman, Mrs. Lee Lloyd and Mrs. Richard Radnecki.

All the members attended the meeting. They answered roll call by giving the chief industry of their chosen state.

The next meeting of the club will be held June 3 at the Richard Radnicki home.

Sherry Sabo-Bryce Ernst Vows Said at Zion Church

Miss Sherry Diane Sabo, daughter of Mrs. Mardella Sabo of Thief River Falls, and Bryce Ernst, son of Mr. and Mrs. Melvin Ernst, also of this city, exchanged marriage vows on Saturday, May 3, at 8 p.m., at Zion Lutheran church.

Rev. Reuben Wangberg, pastor at Trinity Lutheran church, officiated at the services. Mrs. James Dalager presided at the organ. She played the traditional wedding marches and also accompanied Mrs. Curtis Ness, a cousin of the bride, as she sang, "Song of Ruth" and "The Lord's Prayer."

The chancel was graced with candelabra, potted lilies and arrangements of lavender mums with coordinating lavender bows. On the altar was a spray of daisies.

The bride was escorted to the altar and given in marriage by her brother, Orlan Sabo. She was attired in a floor-length gown of white taffeta styled with an A-line skirt. Lace floral motifs, re-embroidered with seed pearls, accented the bodice and were scattered on the front of the skirt. A watteau train, secured at the neckline, created back interest. An organza petal headpiece outlined with seed pearls held her veil of silk illusion and she carried a cascading bouquet of white mums and stephanotis centered with a purple orchid.

Miss Myra Sabo of this city attended her sister as maid of honor. Bridesmaids were Susan Sorum and Doreen Seefeldt, friends of the bride. All wore lavender street length gowns styled with high gathered necklines. Deep purple ribbon marked the waistlines and formed streamers down the back. Their headpieces were lavender veils topped by lavender and purple ribbon bows. Each carried a nosegay of white daisies centered with a cluster of purple violets, accented with lavender gladioli petals. To complete their attire, they wore purple shoes and white gloves.

Donavan Erlandson, a friend of the groom, was best man. Groomsmen were Rodney Ernst, a brother of the groom, and Steve Honebrink of Bemidji. Serving as ushers were Dean Kaushagen and Gary Borgen. All wore white tuxedos with lavender carnation boutonnieres. The groom's boutonniere was a sprig of stephanotis taken from his bride's bouquet.

The mother of the bride was attired in an aqua three-piece ensemble with white accessories. Her corsage was composed of pink and white carnations with pink ribbons. The mother of the groom wore a beige dress topped by a lace coat and accented with a corsage of yellow and white carnations with yellow bows.

Special guests attending the wedding were grandmothers of the bride, Mrs. Minnie Myrom and Mrs. Inga Sabo, both of Thief River Falls.

The mother of the bride hosted a reception in the church parlors following the ceremony. Mrs. Raymond Nelson registered the guests while Mrs. Orlan Sabo served the punch.

The tiered wedding cake, trimmed with lavendar and topped with three wedding bells accented with daisies, was cut and served by Mrs. Russell Nelson and Mrs. Roy Ernst. Mrs. Jimmy Deraney and Mrs. Fred Sommerfeld poured. Serving as waitresses were Susanne Bedard and Debbie Hall. Jeanne Anderson, Ruth Ann Lafrenz and Sandra Deraney presided at the gift table.

Approximately 100 relatives and friends attended the ceremony and reception. They were from Waterloo, Iowa; Winnipeg, Man., Canada; Grand Forks and Fargo, N. D.; Hamilton, Mont.; Albert Lea, Minneapolis, Moorhead, Alexandria and the area surrounding Thief River Falls.

For her going away attire, the bride wore a white dress and coat ensemble accented with baby blue accessories.

The bride and groom are graduates of Lincoln high school. The bride is employed by North Star Abstract & Title Guaranty, Inc., Minneapolis, and the groom is employed by the City of Fridley.

Mr. and Mrs. Ernst are at home at 1715 Stevens Avenue south, Minneapolis. Photo—Fax Studio

WCTU Discusses Advertising Of Tobacco, Alcohol

Two topics were discussed at the WCTU meeting held recently at the Anna and Elsie Koglin home on South Arnold. They were the recommendation of the Federal Communication commission to ban advertising of cigarettes and tobacco on radio and television, and the bill considering the removal of broadcasting the use of alcoholic beverages.

Miss Anna Koglin was in charge of the discussion on cigarette and tobacco advertising. For those desiring to write proper authorities regarding this proposal, she provided the names and addresses. She also had postal cards available.

Miss Elsie Koglin informed the group of the bill to remove the broadcasting of the use of alcoholic beverages. She also gave the name and address of the chairman of the Interstate and Foreign Commerce Committee, considering the bill.

The meeting began with the singing of the hymn, "This Is My Father's World." Agnes Langren was the pianist. Mrs. Earla Ripley was in charge of the devotional meditation, "The Three Friends of Jesus", based on John 15:14-17.

During the social hour, those attending had the opportunity of purchasing two booklets, "Paul Harvey's address on alcohol problems in America" and "The Million Dollar Report and Expose." Lunch was served by Elsie and Anna Koglin.

Ranum And Steinert Engagement Is Told

Mr. and Mrs. Oscar Ranum of Thief River Falls announce the engagement of their daughter, Julie Ann, to Stephen Michael Steinert, son of Mr. and Mrs. Gordon Steinert of Red Lake Falls.

Miss Ranum a senior at Lincoln high school, is a candidate for graduation on Thursday, May 29. Her fiance is a graduate of the Lafayette high school, Red Lake Falls, and is enrolled in the auto-body department in the Thief River Falls area vocational-technical school.

No wedding date has been set.

Campanula Club Plans Annual Planting Project

Annual project of planting flowers on the Pennington county court house lawn was discussed at a recent meeting of the Campanula garden club. The discussion included the types of flowers to plant, colors, cost and date of planting.

Mrs. Marie Fischer and Miss Olga Johnson were appointed by president Mrs. Garda Nelson to order the plants. Miss Bernice Knutson volunteered to bring the plants to the site and Mrs. Anna Magnuson and Mrs. Hjalmer Peterson offered to serve lunch following the planting.

Also included on the agenda were the personal impressions of the Horticultural Society spring workshop at Argyle by those who attended.

The meeting was held at the home of Mrs. Garda Nelson with Mrs. L. A. Meyer, vice president, presiding. Eleven members were present together with Mrs. Axel Engelstad, a guest.

Elaine Gullingsrud To Wed C. Abentroth

Mr. and Mrs. Clarence Gullingsrud of Ada announce the engagement of their daughter, Elaine, to Charles Abentroth, son of Mr. and Mrs. Erle Abentroth of rural Cummings, N.D.

Miss Gullingsrud, a recent graduate of the Thief River Falls area vocational technical school, is presently employed as a cosmetologist at LeMoine's Beauty Salon in this city.

A member of the Lincoln high school faculty, Mr. Abentroth is a speech and debate instructor.

The wedding date has been set for June 28 at St. Bernard's Catholic church in this city.

Engagement Told Of Pierson-Grandstrand

Announcement is made of the engagement of Judy Karen Pierson, daughter of Mrs. L. M. Becker, Tasmania, Australia and John E. Pierson, Homer, Alaska, to Wesley Donn Grandstrand, son of Mr. and Mrs. Alvin Grandstrand of Viking.

Miss Pierson will graduate in June from the Dental Assisting course at Mankato State college.

Mr. Grandstrand attended Dunwoody Industrial institute. He is now serving his military obligation at Fort Lewis, Washington.

No date has been set for the wedding.

It costs less to operate a central air-conditioning system a full summer than it does to take a short, inexpensive vacation. One manufacturer of air-conditioning equipment says that the average operating cost of a central cooling system in a normal size, three-bedroom home is about $71.00. What kind of a vacation can you have for that amount?

Dufault-Normendin Vows To Be Spoken

Mr. and Mrs. Delmore Dufault of Crookston announce the engagement and approaching marriage of their daughter, Constance, to Richard P. Normandin, son of Mr. and Mrs. Elle Normandin, also of Crookston.

Both are 1966 graduates of Central high school, Crookston. Miss Dufault is presently employed by Arctic Enterprises in this city. Mr. Normandin is serving in the U.S. Navy, currently stationed at San Diego, Calif.

A July wedding is being planned.

KITCHEN KARNIVAL

Features from the Kitchen of

MRS. LEONARD MELIN
rural St. Hilaire

Occasionally someone asks how the recipes for Kitchen Karnival are selected. They are obtained in various ways. Many arrive by mail, telephone or are brought into the office. Others are solicited by chosing names at random from the telephone directory, city directory or subscription file. Occasionally someone gives information about a certain recipe "that I think you'd like for your recipe collection." Several have been submitted by correspondents for the Times. Such was the case with today's recipe for Kitchen Karnival. It was submitted by Mrs. H. Altepeter of the Black River area.

Regardless of how the recipes are received, all are welcome.

RHUBARB MARMALADE

3 lbs., rhubarb, cut into one-inch pieces
2 medium oranges
1 small lemon
1½ cups golden raisins
6 cups sugar
2 cups coarsely chopped walnuts

Method: Quarter unpeeled oranges and lemons. In a large, heavy saucepan, place rhubarb, orange and lemon slices, raisins and sugar. (Do Not add water.) Cover and place over low heat, bringing to a slow boil. Remove cover and continue cooking until thick. Add chopped walnuts. Remove from heat, pour into hot sterilized jars and seal.

Two recipes were submitted by Mrs. Leonard Melin. The other one, for a molded salad, will appear in the next issue of Kitchen Karnival.

Mr. and Mrs. Leonard Melin farm 760 acres, 11 miles west of St. Hilaire. They reside in Polk Centre township and are very active in the affairs of the community. Mr. Melin has served as president of the Red Lake Electric co-operative board of directors for approximately 13 years. Mrs. Melin is a member of homemakers club and garden club in her community. During her spare time, she enjoys knitting and sewing.

The Melins have two children: Tom, a freshman at Northland Junior college, and Shelly, in seventh grade at the St. Hilaire school.

The family attends services at St. John Lutheran church in this city.

Evangelical Free Mother-Daughter Luncheon Held

Adola Anderson, a missionary to the Congo, was the guest speaker at the annual mothers and daughters luncheon held recently at the Evangelical Free church in this city. Her theme was "My Mother's Bible", the theme chosen for the luncheon. To correspond with the theme, a three generation tribute was given by Mrs. Arthur Moe, Mrs. Everett Kompelien, and Konnie Kompelien.

Two former members of the congregation were in attendance and participated in the program. They were Mrs. Wallace Christensen and Mrs. Lester Gustafson, both of Brainerd. Mrs. Christensen sang an appropriate selection and Mrs. Gustafson was in charge of the devotions.

Mrs. Clyde Christensen served as program chairman. Mrs. Wallace Relerson, chairman of the Woman's Missionary Federation, welcomed the guests, and the Junior Girls chorus provided several selections.

The luncheon was prepared by members of circles III and IV. Serving it were the men of the congregation.

IRS Will Begin Area Business Compliance Check

A compliance survey of many business firms in this area will be conducted during May and June by revenue officers, George O. Lethert, IRS district director has announced.

The current survey is not designed to determine whether returns are accurate, but only whether all required returns have been filed by business taxpayers. Most businesses comply conscientiously with the tax laws, Lethert indicated, however, some taxpayers may not be aware of all the tax returns which apply to their operations. These may include returns covering income, withholding, social security, and a variety of miscellaneous excise taxes.

"Field area surveys are a continuous part of the regular IRS program to maintain high levels of taxpayer compliance with the tax laws," Lethert said. Any delinquencies determined generally are the result of misunderstandings and oversight.

The survey will also check the completeness of the IRS master file of business taxpayers in this area.

Spec. 4 Bacon Is Recommended For Bronze Star

Spec. 4 Bruce D. Bacon, son of Mr. and Mrs. A. K. Bacon of Thief River Falls, has been recommended for the Bronze Star medal for heroism in connection with military operations against a hostile force in the Republic of Vietnam, according to word received by his parents here.

The action occurred on April 19 while Spec. 4 Bacon was serving as advisor to regional and popular forces at Quang Duc, Vietnam. The commendation accompanying the proposed citation states the following:

"On this date, the K-34 North Vietnamese army artillery battalion unleashed a savage barrage of rocket and mortar fire on the MACV compound. At the first impact of enemy fire, Specialist Bacon immediately began to alert U.S. personnel and with complete disregard for his own personal safety, continually exposed himself to enemy fire in order to insure regional force soldiers were correctly positioned along the compound defense.

"After the defense had been secured by the regional force soldiers, Specialist Bacon proceeded in a very professional manner to coordinate air support while the compound was under intense enemy artillery and small arms fire.

"Specialist Bacon's instantaneous and professional demeanor, coupled with his courageous example and aggressive determination during the attack, was considered a major factor in the defense of the compound. Specialist Bacon's heroic actions were in keeping with the highest traditions of the United States army and reflect great credit upon himself and the military service."

To Make Changes In Farm Storage Loan Program

Changes will be made in the farm storage and drying equipment loan program effective May 30, according to Winton Knutson, chairman of the Pennington County Agricultural Stabilization and Conservation committee.

Changes are being made in order to slow down the rapid acceleration of the program and reduce government expenditures as an aid in the fight against inflation.

The changes will affect applications approved by the county committee after May 29. Farmers who have unfiled applications which can be completed should file them immediately if they wish the county committee to take action on them before May 30.

Bathroom Floor Cleaning Made Easier

If you're planning a new bathroom or powder room this spring, take a look at off-the-floor water closets before making your final choice.

This advice comes from the Plumbing-Heating-Cooling Information Bureau, which notes that such fixtures have been used in public washrooms for years because they make floor maintenance easier.

Honor Fitzsimons For Efforts in Medical Program

Representative Richard Fitzsimons, Argyle, was presented the certificate of meritorious service of the American academy of general practice by Wallace E. Mathews, M.D., president of the Minnesota academy of general practice, at a GP club meeting on May 15 in Minneapolis.

Rep. Fitzsimons was awarded this honor for his leadership in the study of medical education and ways to increase the supply of practicing physicians for the people of the state of Minnesota.

Rep. Fitzsimons, chairman of the House appropriations committee, has led the study of Minnesota medical education among the state's legislators for the past five years. He is widely acclaimed as the best informed member of the legislature on the subject.

The certificate of meritorious service of the national family physician's organization is a high honor and has been awarded only twice in the past 22 years.

The House appropriations committee has recommended that $340,000 be granted to Duluth for the basic sciences program. This will allow approximately 60 additional students to enter medical school for their first two years at Duluth. They would then transfer to another medical school, such as the University of Minnesota, for completion of their education.

The University of Minnesota would receive $475,000 for the expansion of its present health science facilities. This will increase the enrollment for medical students, dental students and nurses. Hennepin county general hospital will receive a grant of $500,000 for the development of a family practice training program.

Mayo clinic would receive $100,000 for group practice programs in rural communities. Both Duluth and the Northern association for medical education would receive $200,000 to continue their studies as to the location of a second medical school.

Board, Teachers Agree on 69-70 Salary Schedule

(Continued from Page 1)

establishment of the 190 days as a basis for computation of salaries for persons hired beyond that period, primarily in the vocational - technical school. A former 10-month contract will now be based on 200 days, an 11-month contract on 220 days and a 12-month contract on 240 days. The normal 190-day salary of extra duty teachers will be divided to determine a daily wage. This wage will be applied to additional days for which that teacher may be contracted.

For instance, a teacher with an MA degree plus 30 credit hours and seven years of experience would receive $9,500 for a 190-day contract. This divides out to $50 per day. On a 240-day contract (12 months), that teacher would receive $50 per day for each day in excess of 190 days, or $2,500 for the additional 50 days. Total salary would be $12,000.

School Calendar

School calendar adopted for 1969-1970 is as follows: August 25-29, in-service and workshop for teaching staff; September 1, Labor day, no school; September 3, opening day for all students; October 9 and 10 educational association meetings, classes in recess; December week of 21st and 30th, Christmas recess; January 5, 1970, classes resume; March 27 and 30, Easter recess for Good Friday and Easter Monday, May 29, high school graduation and June 5, last day of school year.

Action Was Rapid

Several questions were brought forward following the opening of discussion at 12:30 p.m. Teachers council members requested a caucus, met briefly outside the board meeting room, and returned within several minutes to affirm acceptance of the prior agreement.

The board meeting was then convened by Dr. H. R. Achenbach in the absence of Dr. George Martin, board chairman. Member Morris Owen was also absent from the meeting. In rapid-fire order, Dr. Achenbach obtained motions, seconds and votes on adoption of the schedule, setting of the calendar and rescinding action of January 28 when the policy salary guide was adopted. There were no dissenting votes on any of the motions.

Contracts were expected to be issued Friday or today and to be returned by the end of this week.

May 20 Action

Meeting to canvass ballots following the school election May 20, the board also opened bids on blacktopping of the entrance and parking lot at the area vocational-technical school. Border States Construction company of Fargo, N.D., submitted the only bid of $8,978 or $1.34 per square yard. The board considered the bid to be very good and awarded the contract with work expected to be completed by June 20.

Mr. and Mrs. Will Bartsch and family and Mr. and Mrs. W. Lloyd Spray were supper guests Saturday evening at the Gerald Olson home at Roseau. Other guests were from Gatzke, Roseau and Salol. The supper was in honor of the first birthday of Olson's son, Michael, and the wedding anniversary of Mrs. Olson's parents, Mr. and Mrs. Spray.

Mrs. A. Carlson Formerly of TRF, Dies In St. Paul

Mrs. Andrew (Carrie) Carlson, 82, of St. Paul and a former longtime resident of rural Thief River Falls, died May 19 at St. Paul. She had been a resident of the Harmony nursing home in that city for over a year. Funeral services were held on Thursday, May 22.

A native of North Dakota, she was born at Grafton on Oct. 17, 1886 and grew to womanhood in that community. In 1910, she was united in marriage to Andrew Carlson. The couple settled on a homestead in Pennington county, living and farming that same farm for over 50 years. Age and failing health forced their retirement in 1963. Since then Mrs. Carlson and her husband had resided in St. Paul.

She is survived by her husband; one daughter, Mrs. Leonard Larson, and two sons: Harry and Melvin Carlson, all of St. Paul; four grandchildren, two great-grandchildren, and two brothers: Halvor and Albert Findriny, both of Grafton, N. D.

She was preceded in death by a daughter and two sisters: Josie and Clara.

To Study Pellet Possibilities for Sugar Beet Tops

Minnesota department of economic development has agreed to help finance a feasibility study concerning the establishment of a sugar-beet-top pelletizing plant in the Moorhead area.

In accord with a proposal made by the Moorhead office of economic development, which calls for Dr. James Murray, Moorhead state college economics professor, to be study director, the state department will provide $2,300 toward the study. The city of Moorhead will contribute $800.

According to the study proposal prepared by Dr. Murray and W. E. Morse, director of the Moorhead Office of Economic Development, it may prove feasible for the large volume of sugar beet tops currently plowed back into the soil in this region of the Red River Valley to be left out in fields to freeze dry and gathered in December or January for pelletizing in a new plant built for this purpose.

In pelletized form, the tops could be shipped to cattle-feeding areas as a key protein supplement and possibly marketed in considerable quantities locally to expanded cattle feeding operations.

Potentials involved in the proposal, Morse indicates, are:

Establishment of a new plant increasing employment opportunities; expansion of the commercial tax base for an area school district and community if such a plant is built; adding considerable value to a major farm product grown in this region; increasing the opportunities for cattle feeding in this area; and providing another line of equipment for farm machinery dealers in the area to sell.

In letters to Morse and Dr. Murray announcing the state grant, J. Kimball Whitnay, commissioner of the Minnesota department of economic development, noted, "The proposal coincides exactly with our program to involve the expertise of the State Colleges to develop economic information, which will benefit the area served by the individual institution as well as the State of Minnesota."

The $3,100 provided by the state and the Moorhead office will cover salaries of Dr. Murray and some other consultants, especially people at the agricultural experiment station at Crookston who have done detailed research on some technical aspects of utilizing super beet tops; transportation costs and clerical, telephone and printing expenses.

Cancer Society Memorial Head Suggests Gifts

With Memorial day approaching, the Pennington county unit of the American Cancer society is placing special emphasis on its "Living" memorial program, according to Mrs. Charles Krause, unit memorial chairman.

"Making a contribution to the society's memorial fund is a very important way to commemorate a loved one who has died of cancer or other cause," Mrs. Krause pointed out.

"Funds of the American Cancer society, including memorial gifts, go toward saving lives in the present, as well as in the future, through coordinated programs of research, education and service."

The American Cancer society sends a dignified memorial card in the family of the person in whose memory the gift is made and also sends an acknowledgment and receipt to the donor. Memorial gifts should be made to American Cancer society.

This high honor has been awarded only twice in the past 22 years.

Vandalism, Car Mishaps, Thefts Noted by Police

Thief River Falls police department reported a number of thefts, vandalism and car accidents during the past week.

On the 19th it was reported that a beige or brown 12x12 rug was taken from the east side of the Northland state junior college student center. Value of the rug which was outside the building drying, is estimated at $70.

At 12:20 p.m. on May 19 a car driven by Edwin Evenson, Portland, Ore., was going west on Fourth street when it collided with a car driven by Kermit Poppenhagen, city, who was traveling south on Arnold avenue. Damage to the Evenson vehicle was $150 while the Poppenhagen vehicle sustained $100 in damage.

A break-in was reported at the Hageman's Secondhand store on the 19th and the case is still under investigation by the police department.

On May 20, Mrs. James Helgeland reported that their trailer house had been broken into while they were out of the city. Some fishing equipment and small tools were reported missing.

Also on May 20, Donald Klopp reported that a tackle box was taken from his vehicle. Value was estimated at $6. Due to the alertness of a local citizen, the theft and the thief's car were described to the police department and a party was contacted, the theft admitted and the tackle box recovered.

It was reported on May 21 that the door on the dog pound was broken and vandalism was done to one of the statues in the Riverside park area.

It was also reported that vandalism was done to the door at Larson's Style center, and the parks and recreation department reported that the windows at the bath house at Tindolph beach were shot out with a BB gun. Anyone having any information about these acts is asked to contact the local police department.

4-H Picnic for Marshall County Slated June 15

Marshall county 4-H picnic is to be held June 15 at the Old Mill state park. As in the past, softball and several activities have been planned for this event.

Over 40 adult and junior leaders attended the 4-H Federation meeting Monday evening in Newfolden where the annual picnic was discussed.

Paul Edman, P.K.M. member service director, spoke to the group about the 1969 4-H light bulb sale promotion. It was decided that individual clubs be contacted about this sale.

The program consisted of talks by Ivan Sjoblom, with the assistance of Charles Edgar, on "Project Meetings" and Linda Potucek on "Better Meetings".

The next federation meeting will be held June 23 in Argyle. Florian Friskies will be in charge of lunch and McCrea will furnish a master of ceremonies.

Teachers Over 62 May Be Eligible For SS Benefits

Teachers 62 or older covered by social security may be eligible for social security benefits during the summer months, according to Clifford Kittelson, district manager. A teacher may receive a benefit in any month that he earns $140 or less.

Some schools divide the nine-month salary into 12 payments to provide income over the summer months. A teacher may receive these payments and social security benefits if he is not working and earning over $140 a month in those months.

A teacher who is the widow of a man who was insured under social security may receive reduced benefits during summer months as early as age 60.

Any teacher interested in information or in applying is invited to contact the Grand Forks social security office.

Registration Now Taken for BSC Music Clinic

Registrations are now being received for the 22nd annual summer music clinic at Bemidji state college, according to Dr. Theodore W. Thorson, director.

"Indications are that the 1969 summer session will match last year's registration of 1,080 students and directors for the two weeks," Thorson said.

The first week, August 3-9, will feature classes and workshops in choir, orchestra, band-wind ensemble, youth orchestra, stage band, piano institute, baton and a cheerleaders institute.

The second week, August 10-16, will offer stimulating sessions in band, baton and stage band. All students now in the 11th grade and above may register.

Faculty for the first week will be Richard Hoffland, choir, director of choral activities, Millikin university, Decatur, Ill. and conductor of the 1968 Minnesota all-state choir; Hermann Herz, orchestra, conductor Florida symphony, Orlando, Fla.; John Paynter, band-wind ensemble, director of bands, Northwestern university, Evanston, Ill.; James Berg, youth orchestra, orchestra director, Robbinsdale, Minnesota public schools; Ralph Mendenhall, stage band, director of Minnesota Vikings and Minnesota Twins bands, lead trumpet for many dance and show bands, Minneapolis area, teacher in Minneapolis public schools.

Leake Karikas, piano faculty at Bemidji state college, will teach the piano institute and Brenda Ooten, professional twirler and teacher from Knoxville, Tenn., will teach baton. Faculty for the cheerleaders institute will be furnished by International Cheerleading foundation, Kansas City, Mo.

For the second week, the following faculty will headline the sessions: Vaclav Nelhybel, band, composer and clinician, New York City; John Paynter, nationally known clinician and guest conductor (Gopher and Beaver bands); Glenn Cliffe Bainum, in his 17th year; Allan Gillespie, director of bands, University of Connecticut; Brenda Ooten on the baton and Ralph Mendenhall for stage band.

Directors have an opportunity to study with the clinic faculty in seminar type classes with each course meeting two to three hours a day in group sessions. In addition, directors may observe applied faculty working with students, study privately and take other course work if desired. A director's "reading band" will cover new publications during the second week.

For more information and descriptive brochure on the 22nd annual music clinic, write to Dr. Theodore W. Thorson, director of the music clinic, Bemidji State college, Bemidji, Minnesota, 56601.

Sarah Strande Retires from Oklee Business

After 33 years on Main street in Oklee, Sarah Strande has retired.

The proprietor of Sarah's Gift Shop and Ready to Wear has completed closing out her merchandise and her store quarters are being remodeled to become the new home of Geline's Beauty Nook.

Miss Strande, who grew up in Johnson township, worked as a clerk at Melby's store for 25 years before establishing her gift shop in 1942.

Sullivan Hurls One Hitter; LHS, Warren Gain District

by Bob Wieltoski
Times Sports Writer

Pitching was once again the big story as Thief River Falls and Warren advanced into the District 31 tournament on Friday by stopping Alvarado and Goodridge respectively. Poor defense on the part of the Huskies and Indians also proved to be a big factor in the two wins for the Prowlers and Ponies.

In the opening game against Goodridge, Warren's Greg Hildenbrand hurled a two-hitter and struck out 12 as he shut out the Huskies, while his teammates tallied eight runs in the game as the Ponies won 8-0.

In the second contest of the day, the Prowlers' Dan Sullivan threw a one-hitter and struck out 14 in gaining an 11-0 win over the Alvarado Indians. It was the lefthanders' second win of the season against three defeats and upped the Prowlers season mark to 10-7.

Prowler pitching has been the story in the last six games as the staff of Tony Johnson, Dana Stromberg and Sullivan has given up 12 hits and eight runs, four of them earned, in the last 42 innings. In that span the Prowlers have lost to Warroad and Crookston, but have topped Climax, Warren, Red Lake Falls and Alvarado.

The 14 strike-outs for Sullivan is the high for a Prowler pitcher this year. The shutout was the third shutout for the staff, as Sullivan has two and Stromberg one.

Sullivan kept the bats of the Indians in check on Friday and only one base runner was able to reach third. In the last inning Jim Anderson gained first on an error by Sullivan on a grounder hit in front of the plate. Sullivan threw wild to first with Anderson moving to second on the play. He moved to third on a ground out to second, and Sullivan retired the next two batters on a pop-up to the first baseman and a strike-out.

The Prowlers, who lost the toss of the coin and had to be the visiting club on the score board, picked up six runs in the second inning, one in the sixth and four in the seventh.

In the six-run second inning, 10 batters went to the plate, with Gordy Peterson leading off with a walk, followed by Tom Wurst's single. Dana Stromberg loaded the sacks when the first baseman dropped a throw on Dana's grounder to third. Scott Filippi, the Indians' pitcher, walked Brian Peterson to bring in Gordy Petersan with the first run of the game. Sullivan reached first on a fielder's choice as Wurst was thrown out at home on a grounder to third. When the catcher, trying for a double play on Sullivan, threw wild to first, Stromberg and Brian Peterson scored with Sullivan ending up on third. Don Balmor struck out for the second out of the inning, but Tim Duke singled to right field, driving in Sullivan with the fourth run of the inning.

Duke came home as Daley singled to right and the ball got by the right fielder. Daley moved all the way to third on the play. Tony Johnson singled to left field, driving in Daley with the sixth run of the inning. Gordy Peterson, up for the second time in the inning, struck out for the final out of the frame.

The only hit off Sullivan was by Greg Pribula who singled to center in the fourth inning. He was out later, tried to second, on a fielder's choice. Pribula was the only Indian in the contest that Sullivan failed to strike out.

The Prowlers added a run in the sixth inning as Duke led off with a single and moved to second as Daley walked. When the shortstop failed to make a play on Johnson's hot liner, the bases were loaded. Wurst then drew a walk bringing Duke home and the Prowlers led 7-0 with two out in the sixth. Stromberg grounded out second to first for the final out.

In the seventh Sullivan started things going as he singled to left field and move to second as pinch hitter Dale Gilbertson walked. They advanced to third and second on a wild pitch, with Sullivan coming home on Mike Hamerlinck's ground out to second. Hamerlinck hit for Duke in that frame.

Ken Lindquist, hitting for Steve Daley, singled to drive in Gilbertson. Johnson's single to left moved Lindquist to second and they both moved up a base on a wild pitch. Mike Hamilton, batting for Gordy Peterson, tripled to right field to drive in two runs as the Prowlers led 11-0. Steve Joppru struck out to end the inning for the Prowlers.

Warren-Goodridge

Six errors by Goodridge and six extra base hits proved to be the big difference in Warren's win over the Goodridge Huskies in the opening round of sub-district action at Thief River Falls on Friday afternoon, as the Ponies scored a 8-0 win over the Huskies.

Big blows for the Ponies, who collected eight hits, were three doubles, two triples and a home run. Warren jumped to a 3-0 lead at the end of the second inning as Larry Graham doubled home the first two runs of the game and then scored later in the inning.

The Ponies tallied one run in the fourth as John Amundgaard tripled and came home as the Huskies' shortstop threw wild to the plate on a fielder's choice.

They added two more runs in the fourth inning on Swanson's triple and two Goodridge errors, added one more in the fifth, and the last run came on Swansons' home run to center in the sixth inning.

Controlled Fires To Be Used for Deer Management

Game and forestry officials from the Minnesota conservation department announced recently that small, controlled fires will be utilized this year to stimulate the growth of brush and shrubs preferred by deer.

Called "prescribed burning", the management measure has proved an effective and inexpensive method of encouraging the sprouting and growth of important species of deer browse.

The officials said there are 3,000,000 acres of state forest land where extensive deer management work can be carried out. Most of the burning projects will be conducted in the areas revealed this past winter as lacking sufficient habitat to sustain deer in critical periods. A number of these sites are located in the northeast part of the state.

Size of the burns will be limited from one to 10 acres. A number of small burns are preferred to a few large burns since deer tend to avoid large open areas devoid of cover.

Agreement between the two divisions of the department on the use of prescribed burning opens the way for a step up in management of state forest lands for game production purposes.

The expanded use of prescribed burns to create game habitat means that the conservation department regards wildlife as an important product of the forest—not merely a by-product resulting from management aimed at producing timber.

To achieve the desired result, burning must be done in the proper place. Uncontrolled wild fires may cause serious damage and frequently fail to produce the desired effect, according to the officials.

Summer Hockey Camp at Bemidji Still Has Openings

What's believed to be the first exchange of youngsters between an American hockey school and a foreign hockey school will begin this summer when 14-year-old Gunnar Johansson of Sweden spends six weeks at the Olympic development summer hockey school at Bemidji state college.

Johansson, who attends a hockey school operated by Arne Stromberg, head coach of the Swedish National hockey team, will participate in sessions on the Bemidji campus from July 1 through August 10, according to Murry Williamson who directs the camp along with Bob Peters, Beaver hockey coach.

Next year an American youngster will journey to Sweden to attend Stromberg's school, Williamson said. The American will probably be selected from a special group of 13 and 14 year olds who will attend this year's Olympic development school from July 27 through August 10, added Williamson, former U.S. National general manager-coach. Currently 30 openings remain for this special session.

"We feel that both Minnesota hockey and Swedish hockey will benefit substantially from this exchange program," Williamson said. "Eventually we may develop a similar arrangement with a hockey school in Denmark, too".

Registration has been brisk for all segments of the eight-week summer hockey program, although openings remain in all periods, Williamson noted. Persons wishing to register or to obtain further information about the school may contact Peters at the Bemidji state college athletic department.

The camp's recreational program has been expanded to include floor hockey under the supervision of camp activities director and former Bemidji state football coach Don Palm, Williamson also announced. Other planned activities include golf, tennis, basketball, camping, hiking, horseback riding, bowling and archery. The camp runs from June 15 through August 10.

Public Schools Fall Below 1,000 First Time in Minnesota

A milestone in Minnesota education was reached last month when the total number of public school districts in the state fell below 1,000 for the first time in this century.

"This is a significant point in efforts to bring quality education to all students through school districts which are large enough to offer a comprehensive program of education from kindergarten through grade 12," said Commissioner of Education Duane J. Mattheis.

At the end of April, there were 445 districts with elementary and secondary programs and 549 with elementary schools only—a decrease of over 85 per cent since 1947, when the legislature passed the first state school reorganization law. Then there were 7,606 districts.

The number of districts will continue to decline as the July 1, 1971 deadline for consolidation of districts with elementary programs only approaches. The 1967 reorganization law requires all public schools to be in a district with elementary and secondary programs by that date.

In 24 of the state's counties, there are no school districts without secondary programs, according to Eugene Eininger and B. N. Henrickson of the state department of education's school district organization section. They are Anoka, Clay, Cook, Cottonwood, Dakota, Dodge, Faribault, Freeborn, Hennepin, Itasca, Kittson, Koochiching, Lake, Mower, Norman, Olmsted, Pipestone, Ramsey, Renville, Scott, Sibley, Traverse, Waseca, and Washington.

Seven more counties have only one elementary district each—Aitkin, Grant, LeSueur, Lincoln, McLeod, Red Lake and Stevens. Twelve counties have only two elementary districts—Becker, Carlton, Cass, Chisago, Jackson, Lac Qui Parle, Lake of the Woods, Lyon, Martin, Nobles, Pennington, and Yellow Medicine.

Minnesota was ranked fifth in the nation in the total number of districts in 1967—the last date for which national figures are available. Only Nebraska, South Dakota, Illinois and Texas had more districts, according to the "Digest of Educational Statistics—1968", published by the U.S. department of health, education and welfare. Both Illinois and Texas had enrollments of over two million, compared to the all 1967 Minnesota public school enrollment of less than 865,000 students.

States with comparable public school enrollments have fewer districts. Wisconsin, for example, had 921,032 students in 1967 but only 487 operating districts. Tennessee, with 151 districts, had enrollment of 874,333. Louisiana's 66 districts enrolled 840,314.

Many districts with secondary programs are also thinking about consolidation. A trend is developing toward merging small high school districts into "units which can and will offer a unified and comprehensive program of education at a reasonable cost to local taxpayers," says the 11th biennial report of the state advisory commission on school reorganization, issued earlier this year. The commission chairman is Donald E. Swenson, Richfield.

Since 1967, seven pairs of districts with secondary schools have voted to merge: Hanska and New Ulm; Boyd and Dawson; Chisago City and Lindstrom-Center City; Cokato and Dassel; Lake Bronson and Karlstad; Baudette and Williams; and Hitterdal and Ulen.

Changes in population due to a declining birth rate and increasing urbanization will have a great impact on rural areas and increase the need for consolidation, according to the commission report. Figures show that many districts in the state may be on the brink of sharp decreases in elementary enrollment.

Officials List Building Plans At Newfolden

Due to unexpected increases in building costs, the board of Marshall county central school District No. 441, Newfolden, considered it necessary to make a number of changes in the original building proposal.

According to a release received from the school, the new structure was changed very little in size or form but some changes were made in the type of construction material to be used. Most of the changes were made in the amount of site work called for and in the extent that the existing building would be changed.

The old part of the existing building that houses the industrial arts shop and the part that contains the administrative office and developmental reading room will be removed completely and will be replaced by rooms in the new structure. Present plans call for the middle section of the old building between the elementary wing and the existing gymnasium to be left standing.

It is expected that the three rooms in the lower part of this section will be remodeled enough to provide for a special education classroom and an elementary library. One room may be used as additional eating space for the cafeteria if access can be gained to it by making a doorway joining it with the lunchroom.

The present home economics room, now in the elementary wing, would be converted to a kindergarten room. The rooms directly above the existing gym would be used to provide space for a developmental reading room and for an elementary music room. Some of these room assignments may be changed later if further study indicates that this would be beneficial. The four classrooms upstairs in the old building between the gym and the elementary wing would not be remodeled. This area would be blocked off and would not be heated, but could serve as a storage area.

Present plans also call for reroofing the elementary wing and the lunch room with some roofing work to be done in the part of the old building that contains the existing gymnasium. The heating system in the parts that remain of the existing school building will also be changed. It is expected that low pressure steam heat will be used, fired by natural gas with standby fuel oil instead of coal as is now the case.

The tunnel under the road that was proposed to connect the new building with the old building has been deleted from the plans for the present time, as the board felt that the estimated cost of approximately $40,000 was too high to warrant inclusion.

ORDINANCE NO. 341

AN ORDINANCE LICENSING AND REGULATING DANCING IN ESTABLISHMENTS LICENSED FOR THE SALE OF NON-INTOXICATING LIQUOR.

The City Council of the City of Thief River Falls do hereby ordain as follows:

Section 1: License Required. No person shall dance in any premises licensed for the sale of non-intoxicating malt liquor, nor shall any person, whether the owner of such premises or his agent or employee, permit or suffer dancing in such premises unless a license therefore has been issued permitting dancing therein under the terms of this ordinance.

Section 2: Application and Fee. Any person licensed to sell and dispense non intoxicating malt liquor may make application to the City of Thief River Falls for a license permitting dancing in the premises licensed for sale of non intoxicating malt liquor, such application to be accompanied by the license fee of $250.00, which is hereby established. The license fee shall be prorated for an unexpired portion of a license year, provided, however, that the minimum prorated fee shall be $50.00.

Section 3. Renewal. The license fee above provided is an annual fee and shall be due and payable with application for renewal of said license. Renewal of said license shall be contingent upon the recommendation of the Chief of Police.

Section 4. Duration of license. The license year shall commence on July 1 and terminate on June 30 of the following year.

Section 5. Age Restriction. No person under the age of twenty-one (21) years of age shall be permitted to dance in any establishment licensed under this ordinance, nor shall they be permitted on the premises during the hours of dancing.

Section 6. Doorman. The owner of an establishment licensed under this ordinance shall be responsible for providing a doorman to be on duty at all times during the hours of dancing to enforce the minimum age requirement as set out herein.

Section 7. Hours. No public dance shall be held or conducted between the hours of 1:00 o'clock a.m. and 8:00 o'clock a.m. of any day.

Section 8. Floor Space. No license shall be issued to any establishment where the floor space available for and which is to be maintained for dancing in which the public participates does not meet Council approval.

Section 9: Seating Capacity. No license shall be issued to any establishment which does not have seating capacity for at least 75 persons.

Section 10: Enforcement. It shall be the responsibility of the Chief of Police to make periodic inspections of any establishment licensed under this ordinance.

Section 11. Penalty. Any person violating any provision of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by [illegible] not more than $100.00 or by imprisonment for not more than 90 days.

Section 12. This ordinance shall take effect from and after its passage, approval and publication.

Section 13. Section 21.209 of the Municipal Code of Thief River Falls is hereby repealed.

LHS Tennis, Golf and Track Squads Win District Titles

by Bob Wieltaski
Times Sports Writer

Thief River Falls Prowlers tennis, golf and track squads all repeated as District 31 title holders on Friday and Saturday, as they each defended their titles of a year ago successfully.

The Prowler tennis squad captured the tennis crown at East Grand Forks; the golf squad nosed out Crookston on the Pirates' own course for the golf title, and the track team had an easy win in the district as they scored 82 points, outdistancing East Grand Forks by 18 points.

The three district crowns added to the district titles won by the wrestling and basketball teams this past winter, bringing the number of district crowns to five so far this year. The baseball crown is also expected to go to the Prowlers this year.

Tennis Results

The Prowlers top singles men, Steve Edlund and Kip Poppenhagen, who battled for the District 31 singles title last year, did the same this year, with Edlund coming out the winner for the second straight year as the Prowlers won the District title by scoring 13 points. Crookston was second with 8 while East Grand Forks tallied two points. The event was held at East Grand Forks.

In first round action both Edlund and Poppenhagen drew opening round byes, advancing into semi-finals of the matches. In that match Edlund defeated Dave Ross of Crookston by 6-0 and 6-1 scores, while Poppenhagen stopped Joy Forney, East Grand Forks, by set scores of 6-2 and 6-4. Both then met in the final of the singles with Edlund coming out on top by set scores of 6-2 and 6-0. Both will now move into the Region Eight tournament.

The doubles tournament was won by Crookston as they teamed their number one singles and number two singles men to combine the squad of Bruce Reichart and Scott Johnson. They defeated the Prowlers Mark Thyren and Don Jorgenson for the crown in the round robin event. They defeated the Prowlers by 6-2 and 6-2 scores.

The results of the matches are as follows:

Singles

First Round

Steve Edlund, TRF, bye; Dave Ross, C, defeated Bill Gray, E.G.F., 8-6 and 6-1; Joy Forney, E.G.F., defeated Dennis Martin, C, 11-9 and 6-1; Kip Poppenhagen, TRF, bye.

Semi-Finals

Edlund defeated Ross, 6-0 and 6-1; and Poppenhagen defeated Forney, 6-2 and 6-4.

Finals

Edlund defeated Poppenhagen, 6-2 and 6-2.

Doubles

Mark Thyren and Dan Jorgenson, THF, defeated Steve Gravseth and Clive Weitzel, EGF, 8-6 and 9-7; Bruce Reichart and Scott Johnson, Crookston, defeated Steve Graveth and Clive Weitzel, EGF, 6-1 and 6-3. Reichart and Johnson, C, defeated Thyren and Jorgenson, TRF, 6-2 and 6-2.

Golf Results

Thief River Falls edged Crookston on the Pirates own home course for the District 31 golf crown on Saturday and will send four players to the Region Eight meet this week.

The Prowlers had a 231 stroke total while Crookston was second with 234. Taking medalist honors for the match was Greg Claussen, with a 75. Joy Moum was second as the freshman for the Prowlers had a 76. He was followed by Cal Wicklonder with a 77, Tim Carlson with a 78 and Rob Womack with an 83. All four of these boys will now compete in the Region Eight tournament. Two other Prowlers golfers taking part in the meet were Roger Reierson and Paul Olson, who shot an 86 and 93 respectively.

Other teams scoring behind Thief River Falls and Crookston were Red Lake Falls, 253; Warren, 264; and East Grand Forks, 280.

Track Results

Although missing 10 lettermen from last year's District 31 championship squad, the Thief River Falls Prowlers track squad captured their second straight District 31 crown on Saturday at the University of North Dakota track.

The Prowlers rolled up 82 points, compared to East Grand Forks 64, while a top favorite, Crookston, finished third with 58 points.

Head coach Jim Sims indicated that he was real pleased with the performance of the boys, especially the younger ones who came through when the going got rough. He added "I knew we would be strong in the dashes and thought we had a good chance in the relays, but a lot of the boys came through for us in the other events."

Pacing the Prowlers on Saturday were Rex Rugland and Rich Habedank, as they placed in three events and were members of the 880 yard relay team.

Rugland was the top performer for the Prowlers as he took firsts in the 100 and 220 yard dashes and finished fourth in the long jump. Habedank finished third in the 100 yard dash, second in the 220 yard dash and third in the long jump, while anchoring the 880 yard relay team.

Besides Rugland's two first finishes, the Prowlers 880 and mile relay teams picked up first place finishes and Ralph Swick took top honors in the high jump.

Only one record fell during the meet and that was the Prowlers' Gary LaValley's mile record which he set two years ago at 4:43.3. On Saturday Don Jamieson, East Grand Forks, ran the event in 4:41.3.

Wayne Wagner was the top point-getter in the meet as the Crookston star took first place in both the high and low hurdles and first in the long jump.

Other Prowlers scoring points were Scott Vettelson, second in the shot put; Mark Kays third and fourth in the shot put and discus; Wayne Olson, third in the discus; Tim Olson, third in the high and low hurdles; John Swick, second in the pole vault; Neil Rondorf, fifth in the high hurdles and mile run; Kim Murphy, third in the mile, Don Schindler, third in the 440; Randy Wentzel, fourth in the 440, both were also members of the relay teams; Darrold Rodahl, third in the high jump; Gary Kayser, second in the 880 yard run; John Harris, fifth in the 880 yard run; Brian Bowman and Jim Dee were also members of the relay teams.

Both the first and second place finishers in each event will move into the Region Eight tournament at Bemidji on Saturday.

The summary of the District 31 track meet is as follows:

3 Arrested for Dynamiting Fish

Three Foley men were arrested by conservation officers last month while using dynamite to take fish from the Rum river northwest of Milaca. Richard Hoffmann, 34; Leo Brenny, 24; and Leon Renner, 26, all pled guilty and were fined $100 and costs.

Assistant chief conservation officer F. W. Johnson said dynamiting fish has become a rare offense in recent years.

Using dynamite to take fish was a frequent violation following the first World War when the explosive was commonly used to clear land.

"Use of dynamite has declined steadily with the advent of heavy equipment and the regulations on purchase of dynamite have been tightened up so that we seldom encounter a case these days."

District 31 Baseball Tourney Set For Tuesday

Pairings for the District 31 baseball tournament which will be played at the fairgrounds in Thief River Falls on Tuesday and Wednesday were completed on Saturday as the south half of the sub-district 31 tournament came to a close.

On Tuesday at 8 p.m. Fisher will meet Warren, and in the 8 p.m. contest Climax will meet Thief River Falls.

Saturday at Climax the Fisher club pulled the upset at the tournament as they defeated the Crookston Pirates by a 2-1 score for their first win of the year. In the second game Climax upended Red Lake Falls by the same 2-1 score.

In games played on Friday at Thief River Falls, Warren stopped Goodridge 8-0 while the Prowlers stopped Alvarado 11-0 to move into the District 31 tournament.

The championship game is set for Wednesday at 7 p.m. at the Thief River Falls diamond.

NSJC Golfers End Season

Northland state junior college golf team placed 11th in the national junior college Region XIII golf tournament held in Brainerd this past weekend.

Taking the number one position was Itasca state junior college who finished the 36-hole tournament with a score of 624. Austin state junior college was second with 634; Willmar was third with a 644 and Rochester was fourth with a 451.

Greg Gustafson of Itasca was medalist for the event with a 140 for 36 holes.

This completes the Northland state college golf program for the year with two of the team members expected back for next season. They are Emery Wicklonder and Scott Brummer, while John Adolphson and Jay Guillomette, both sophomores, have completed their junior college careers, according to Al Adams, Northland golf coach.

The 25th annual O.K. Dolva Memorial golf tournament will be held on June 8 at the Hawley golf course, beginning at 8 a.m. with registration for the championship flight which will tee off at 8:30 a.m.

The tournament will be nine-hole match play with the number of entrants limited to 108 golfers.

Entry fee is $6 and can be mailed to the Hawley golf club along with score, or golfers can also register by phoning 643 in Hawley.

Lower flights must be entered and paid by 9 a.m. with the championship flight a nine-hole qualifying round at 8:30 a.m., with the low eight scores entering the championship match play flight. Those who do not make the cutoff will play 18 holes of medal play for merchandise prizes. A trophy for the champion plus merchandise will also be given.

All other flights are match play with prizes for winners, runnersup and consolation winners. Age limit is 18 years. Those under 18 must play in the championship flight.

Ray Sauer, Walker, is the defending champion and will be shooting for his third straight win in the tournament.

Trawlers Used Again On Lake of the Woods

University of Minnesota researchers are making final preparations to begin the second season of a three-year study of commercial fishing, its effect on sport fishing, and fish populations in Lake of the Woods. Like last year, the University research program will include studies of experimental netting, experimental commercial trawling, and sampling of commercial fishing on the lake.

According to Eugene Heyerdahl, research associate in the University's Department of Entomology, Fisheries and Wildlife, test netting with experimental gill nets and small fish sample trawling will be conducted in various areas of the lake throughout the summer to supplement the sampling programs of the Minnesota Conservation Department personnel.

"The purpose of this sampling program is to provide information on the sizes and kinds of fish present in different areas of the lake for comparison with the anglers and commercial fishermen's catches," he explained. Data on sport fishing is being obtained through a continuing creel census by the Department of Conservation.

Sampling with the experimental commercial trawler will begin during the latter half of June. This year's schedule is as follows: June 23-28, July 7-12, July 14-19, July 28-Aug. 2, Aug. 4-9, Aug. 18-23, Aug. 25-30, Sept. 8-13, Sept. 15-20, Sept. 29-Oct. 4, and Oct. 6-11.

In conjunction with the sampling from the commercial trawler, the researchers will also continue their study of how the trawl operation influences the bottom organisms and water quality of the lake. The crew will work out of Warroad, and public observers will again be invited and encouraged to take part in the trawling operation.

Last year, the experimental trawler was on the lake on an 11-week schedule beginning June 23, and ending October 12. But due to weather conditions and gear maintenance, trawling was conducted only 48 of the 66 scheduled days.

All trawl operations were conducted under the direct supervision of University biologists from the Department of Entomology, Fisheries and Wildlife and Minnesota Conservation Department Law Enforcement personnel. Trawling was confined to American waters not now closed to commercial fishing, and outside the 15-foot contour. Last year the trawling operation covered 0.8 percent of the American waters.

The following table shows the total summer's catch in pounds and percentage of total catch, of the experimental trawl operation carried out last summer.

Species	lbs.	pct.
Walleye	1,922	1.27
Sauger	1,040	0.69
Northern Pike	246	0.18
Tullibee	135,594	89.98
Perch	700	0.40
Burbot	9,756	8.47
Sucker	1,398	0.92
Other	20	trace
Totals	150,682	100.00

In addition to the experimental netting and experimental commercial trawling, the University study will also include samples of catches of standard commercial gears fishing various areas of the lake. A tagging study will be conducted during the latter part of June in order to help predict fish movements and competition between commercial and sport fishermen for walleyes.

According to Heyerdahl, results of all aspects of the University study on Lake of the Woods will be made available to the public as soon as they are available.

The project, which will continue through the 1970 fishing season, is one of the several studies being conducted for the state legislature through its special interim Lake of the Woods-Rainy Lake Commission. Commission members are J. Kimball Whitney, state commissioner of economic development, chairman; Jarle Leirfallom, Department of Conservation commissioner, and Sherwood O. Berg, dean of the University's Institute of Agriculture.

Getting a "TWIN BIG LIFT" from Minnesota Twins, Rod Carew (left) and Tony Oliva (right), is Princess Kay of the Milky Way, Linda Loowagle of Marshall, Minnesota. "Dairy Night at the Met" (June 18) is one of the highlights during the month-long "June is Dairy Month" promotion. Approximately 1500 dairy farmers and others interested in the Minnesota dairy industry will be out in force to watch the Minnesota Twins beat the California Angels. The pre-game activity will be a "hand milking" contest between Lieutenant Governor James B. Goetz and Minnesota Twin Charles Manuel at 7:30 P.M. on the 18th. The milkers will be pulling for the championship milking stool award. Umpire for the contest and a milking champion herself will be Princess Kay.

RL Falls To Have Largest Class For Graduation

Largest class in the history of Red Lake Falls will graduate on Thursday at Lafayette high school in the school auditorium at 8 p.m. The class includes 72 members.

Commencement speaker will be a former member of the Lafayette faculty, Harold C. Kraft, intramural director, head baseball coach and associate professor of physical education at the University of North Dakota. Kraft's address to the 1969 graduates will be "What Price Unity."

Selections will be given by the high school band and chorus. Richard Wilson will deliver the salutatory address and Laura Hendrix will give the valedictory. Mrs. Adelore Cota will present an American Legion auxiliary award and the American Legion award will be presented by the commander of the American Legion post in Red Lake Falls.

Members of the graduating class are as follows:

David Lawrence Arel, Karen Marie Audette, Theresa Moureen Audette, Bonnie Jean Baril, Barbara Ann Bendel, Gregory Thane Beyer, Patricia Ann Boyer, Mary Kay Brummer, Coral Jean Casavan, Susan Lynn Christie, Nancy Jo Columbus, Carol Marie Cota, David Martin DeHaan, Sally Ann Delorme, Audrey Jean Demarais, Donna Jean DeMarois and Nancy Ann Derosier.

Also, Gemma Evann Drees, Cary Lee Efto, Rodney Wayne Fering, Linda Kay Ford, Shelley Wynne Geckstetter, Arlene Gervais, Russel James Gervais, Coleen Marie Goulet, Cheryl Kay Grove, Tim Gerard Guillemette, Jeanette Marie Guzek, Kathy Marie Hams, Laura Ruth Hendrix, Donna Lee Hinze, Linda Kay Hofius, Steve Allen Huot, Judy Ann Kappedal and Barbara Jean Kees.

Also, Douglas Lawrence Kres, Patrice Ann Keifenheim, Ronnie Michael Kennedy, Geraldine Ann Knott, James Allen Knott, Lorraine Mary Knott, Kathleen Mary Lager, Lois Ann LaPlante, Cynthia Marie Lizotte, Dale Robert Langtin, Roberta Lynne Miller, Lucilla Anne Miksatko, Kathleen Luella Mohr, James Michael Murphy, Paula Ann Musil, Dione Mae Perreault, Charlene Carla Petersen and Dennis Roy Piche.

Also, Elizabeth Jane Poirier, Roger Gerard Proulx, Linda Noreen Reep, Mary Kay Remick, Norman John Richard, Judy Mae Roi, Gary Henry Sauve, Stephen John Schafer, Joel Michael Schmitz, Michael Joseph Schmitz, Joette Marie Schue, Dolbert Lee Schultz, Eugene Leon Skala, Cheryl Ann Stephens, Marilyn Alice Swanson, Peter Jonathan Villwock, Lloyd Robert Walker, Bonnie Jean Weiss and Richard Charles Wilson.

Maves Receives AF Commission

James Maves, son of Mr. and Mrs. Wilbert Maves, Thief River Falls, is one of 41 graduating seniors at North Dakota state university in Fargo to be commissioned a second lieutenant in the U.S. army at graduation exercises on May 29.

Conducted jointly with the Air Force, commissioning ceremonies will be presided over by Col. Stanford A. Ensberg, commandant of the Air Force ROTC detachment at NDSU. Maves is to be commissioned in the armor branch of the U.S. Army.

Former Plummer Man Instructs Science Winner

Greg Von Bokern, 17-year-old Trocy high school science student under the instruction of Willis Mattison, former resident of Plummer, won fourth place in his division at the International Science Fair held in Fort Worth, Texas recently. He invented a machine that he called "Static III," which electronically predicts storms and severe weather conditions.

Besides a handful of certificates and ribbons, Greg won $100 for first place in the meteorology division, took another first in the geo-physics, and was runnerup in the army's general research competition. He was also awarded a two-week cruise aboard a navy research vessel, departing from Washington, D. C., some time this summer.

Willis Mattison accompanied the young scientist to Fort Worth. Mattison is a graduate of Pershing high school in Plummer.

Pouliot Heads Red Lake Falls American Legion

Gregg Pouliot was named commander at the recent meeting of Gunder Auslad Post 22 of the American Legion in Red Lake Falls. Other officers for the 1969-70 year elected were Ed Etterman, first vice commander; John Mead, second vice commander; Bill Landman, third vice commander, Lynn Keifenheim, adjutant; Harold Spears, house committee, two years; Neil Prenevost, finance officer; Louis Longtin, sergeant at arms; Ray St Marie, athletic officer; Charles Stephens, child welfare, and William Brummer, service officer.

Charles Keifenheim and Tim Schmitz were chosen by St. Joseph's school to go to Legionville in Brainerd the first week in June. Louis Schafer is the alternate. They will receive instruction in school patrol and safety programs, and are sponsored by the local unit of the American Legion.

Three $50 grants, offered by the Legion Post, are available to Red Lake Falls students who will attend or are attending one of the three schools of higher education in our area: Northland state junior college, Crookston technical school, and the vocational school in Thief River Falls. Application forms are available at the Lafayette high school.

The unit will again sponsor the summer Junior Legion baseball program.

More Than 1,200 Refund Checks Are Held by IRS

Uncle Sam owes a lot of people money. More than 1,200 undelivered refund checks are being held by the IRS, according to George Leihert, district director. Taxpayers listed as not receiving their refund checks are through Dec. 31, 1968, and the list does not include refunds due on returns filed during 1969. The largest amount shown is $4,458; the smallest check is for $1.

Reasons for nondelivery include cases where the taxpayers have moved without reporting a forwarding address, as well as errors in determining the correct spelling of the name or address.

Here is a list of taxpayers in this area:

Jerald D. and Lavay J. Flickerson, Walter H. Kinghorn Jr. and Kenneth J. Larson, all from Thief River Falls.

If your name appears on this list, Leihert urges you to contact your local revenue service office. A form will be furnished for your signature to request remailing of the refund check to you now.

Glad It's Over

There were expressions of relief on both sides Thursday when formal agreement on the 1969-1970 faculty salary schedule was finalized by board resolution. Needless to say, the general public will also feel a relaxing of anxiety now that the issue has been settled for another school year.

Concessions were made by both sides in the question, and there will be individual cases where inequities of one type or another will exist. This is the case whenever a fixed schedule with division lines is in force, and it is virtually unavoidable. To tamper with the fixed schedule in an attempt to correct these inequities, however, is to play with fire and likely get burned. It is best to proceed on the basis on which agreement was reached.

When a business deal is made, it is sometimes difficult to tell who made the best of the bargain. Ideally, a business transaction should be to the mutual satisfaction of the parties involved. This is likely the case in the salary settlement here, with some disappointments on both sides being overridden by the total settlement package.

From an observer's standpoint, we would say the teachers did all right again this year. They didn't get the $7,000 minimum which was an announced MEA goal, but they did obtain a raise which was significant in most cases. And they effectively negated both of the board's sincere attempts—to establish a 12-month school year and institute a totally new concept in salary schedule locally. A raise on the average of nine per cent is a good raise.

Perhaps the board—and the district in total—fared better than it might have fared as well. They didn't get their 12 months of work for an annual salary negotiated, but they were spared a major walk-out, mass resignations, picketing or other tools of the union trade. There will be school on a normal basis next fall....it will just cost more than it did last year. And the costly fringe benefits which can be highly expensive items to the district were deleted.

The actual agreement to terms at the official board meeting Thursday noon came quickly and undramatically. Prior to that meeting there was a private meeting among at least some members of the school board, faculty negotiating team and administration which extended into the not-so-early hours of the following morning....and a faculty meeting to discuss the agreement which would not be officially proposed by the board until later. With the groundwork laid in these sessions, adoption of a prepared resolution was swift and simple on Thursday.

If new contracts did not go out on Friday, they will be given to teachers today. It is expected they will be returned by Thursday with a Memorial day holiday on Friday.

And so life returns to its normal hectic pace and calm and serenity once again prevail on the Thief River Falls educational scene. Like the board and teachers, we're glad its over.

Beating the System

Rep. H. R. Gross of Iowa has reported that a dozen enterprising young persons in Montgomery county, Md., have figured out a way to beat the "system".

Each of the dozen, six male and six female, draws $55 a week in unemployment compensation, which they pool in a common kitty. In a four-week month, their take exceeds $2,600. They rent a six bedroom house, complete with swimming pool and sauna bath, buy their food and have enough left over for a few luxuries.

They pay no taxes on their unemployment benefits, of course. On an individual basis, each probably qualified for food stamps and possibly for medical benefits. The situation caused a newspaper writer to comment, "Whatever else may be said in criticism of young people these days, certainly no one can accuse them of being dumb."

Congressman Gross is also listed as the author of the following article entitled "Our Poverty Warriors":

The City of Chicago is apparently a lousy place to plan a war on poverty. Perhaps the poor people there depress the planners; or there are too few indoor swimming pools to permit the proper relaxation.

At any rate, Dr. Deton J. Brooks, Jr., who draws down $30,000 as city's top poverty warrior, chose to hold a three-day conference for 46 of his poverty-fighters at the plush Wagon Wheel Lodge in Rockton, Ill., 100 miles from Chicago.

The Wagon Wheel Lodge offers such ammenities as private, stocked trout ponds and indoor swimming pools where the poverty moguls staged cocktail parties staffed by $2.50 an hour bartenders and $5 an hour lifeguards.

Dr. Brooks took the Chicago Tribune — which exposed this lavish junket — that he held it 100 miles from Chicago because federal officials wouldn't let him take his employees to lunch in the city at government expense. As a result, the taxpayers will shell out nearly $2300 in expenses for this affair, including two bills of $62.50 and $39.90 for "shortcake and ice cream."

Does anybody remember Sargent Shriver, former head of the so-called war on poverty, telling a House committee that it was going to be "a prudent program . . . It is prudently planned in that every dollar allocated will be spent to help the poor . . . There is no contemplated huge new bureaucracy?"

Think about that when you reflect on the federal income tax you're paying this year.

No End in Sight

F. G. Clasen wrote the following editorial in the Anoka Union:

The administration of President Nixon inherited many knotty problems and much unfinished business from the Lyndon Johnson reign including the Vietnam war, racial troubles, deficit in balance of payments, unbalanced budget, violence and crime in our streets. But the one great problem that threatens to engulf the Nixon Government is the runaway inflation, fed by the loose-spending policies of LBJ and his [illegible], which defies all efforts to curb it, and is causing considerable anxiety among administration financial advisors.

Government measures to control the situation include tight money caused by higher interest rates, continuance of the federal income tax surtax, some cutbacks in federal spending—none of these have halted the rise in consumer and industrial prices or slowed the business boom which is plunging ahead unchecked.

Of course, the danger in government manipulations of the economy in trying to cool down the inflationary spiral is still the bogeyman of a recession—or worse yet, a deep depression. A gradual slowing down of the galloping inflation is what's wanted, but unemployment, pay cuts and layoffs could be the ultimate result of too much government maneuvering—which is what haunts the economic doctors who are administering the medicine to curb the money supply.

This inability to stem the inflationary flood has produced some side-effects which are all to the good. Economists are now realizing that this country can't spend itself to prosperity; that government spending is the surest path to inflation; that continuing higher prices don't stop the American consumer from buying; that the first step in curbing inflation should have been cutbacks in government spending and programs for spreading the tax dollars around without any thought of tomorrow.

Let us hope that it isn't too late—that a balanced federal budget will be forthcoming and that factor will be enough to prevent a real bust and resulting depression.

Big Names Coming

Members of the Thief River Falls Concert association will have the opportunity to hear two "big names" perform during the coming season, following the signing of contracts recently with Allied Concert services. Coming to Thief River Falls will be Fred Waring and the Pennsylvanians and Doc Evans and his Dixieland band.

They will be joined on the four-concert program by pianist Margaret Barthel and a men's octet known as The Cormen.

The local concert association is to be congratulated for its efforts. With excellent leadership and organization, it has obtained sufficient financial support to secure top attractions in its series. Appearance of these top attractions have, in turn, stimulated membership sales for the following year.

Support of the association has brought to Thief River Falls the concerts which local residents would otherwise have to travel many miles to witness, if they could see them at all. Continued support will mean more concerts of high caliber in the future.

Interesting Opinions

"The epithet beautiful is used by surgeons to describe operations which their patients describe as ghastly, by physicists to describe methods of measurement which leave sentimentalists cold, by lawyers to describe cases which ruin all the parties to them, and by lovers to describe the objects of their infatuation, however unattractive they may appear to the unaffected spectators." —George Bernard Shaw

Letters to the Editor

To the Editor:

Open letter to all citizens interested in promoting good and wholesome entertainment in our community.

The quality of the films being shown in our local theatres has long been a matter of great concern to our council. The recent showing of the movie "Candy", which showed a full week, makes us feel compelled to speak out on this subject. We are quite sure that many of you have already made known your disapproval to the management.

We appear to be in an age when our nation seems to be drifting farther away from the things of God. Our Supreme Court and other lawmaking bodies cannot see fit to draw the line between what is decent and what is filth. We think that the time has come for the good and decent people of our community to stand up and be counted. We cannot condone the kind of fare being meted out to us by the film industry. We cannot ignore the fact that we, the general public, must shoulder much of the blame for the caliber of the entertainment we have today.

The big argument of our local theatre manager is "We show what the people want to see". We vigorously disagree with the statement and find it deplorable that our community and our nation as a whole would have such a reputation.

Wake up, people! The time for action is now. Like it or not, the attendance at our local theatre seems to bear this out. The fact remains that we seem to have become so involved with our T.V. sets and other pastimes that we have become almost totally oblivious to what is going on around us. We have allowed the scum and the riff raff to take over and dictate what is to be shown throughout the country.

Perhaps an evening out at the movies is not your idea of entertainment. However, we must support the good pictures and use our influence to encourage others to do so. We cannot just sit back and ignore this situation, hoping that it will go away. We would like to see more vigorous law enforcement both at the state and local level. We feel that this will go a long way toward making our theatre a worthy contributing factor rather than a detriment to our community.

If people would not flock to our theatre to see the filth that is offered today, it would soon disappear from our movie screens. *It is a known fact that* these businesses thrive on the trade of the teenager and other young people. A special effort should also be made to encourage them to support good entertainment. The welfare of our community and nation is at stake.

Therefore, we urgently solicit your support in this effort as well as others we may propose, in the hope of making our community a better and more wholesome place in which to live and work.

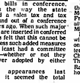
CAPITOL COMMENT

BY

MARTY McGOWAN



Last week was the week of decision in the Minnesota state legislature. It was also the week of conference committees and all day sessions as the legislature works toward completing business this weekend for another two years.

The real reason for holding this biennial five-month struggle—the major appropriation bills to operate state government—has now come to a head. Both houses have passed their versions of these bills and they have gone into conference. In essence this means that 10 men will decide the fate of each of these major spending bills.

Each house proceeds independently on coming up with spending patterns for the state. One house might feel more strongly about spending for the University of Minnesota while the other house might feel equally as strongly that the money would better be spent in the state colleges. While their total spending might be about the same, the emphasis could be different. These are differences which must be worked out in conference.

The reference to 10 men deciding the fate of these bills refers to the fact that usually five conferees are appointed from each house. The speaker has this duty in the house of representatives, while the committee on committees, headed by Sen. Gordon Rosenmeier, the power in the senate, makes this decision for that body. The chairmen for each delegation must get together and work out a time and place for conference. Then these chairmen have to get their conferees notified and to the meeting place.

The conferences are conducted in secret and it is not possible to hear the horse-trading that goes on to reach an agreement. When the conferees have worked out a bill with all details in agreement, a report is written embodying the changes. These reports then go back to each house first to accept the report and then to repass the bill as amended by conference.

Usually there are attempts to amend these major spending bills when they are first reported to each house. These amendments have often been attempted in committee and failed and for public consumption another attempt must be made to amend the bill on the floor—nearly always without success.

When a bill has been conferred and differences worked out it is almost impossible to amend the revised bill. This would mean going back into conference again and in the closing hours of a session time does not permit such reconsideration. This means that the decision worked out by the 10 conferees nearly always becomes law, which reduces the power of all the other 192 legislators. Unless they have been one of the conferees on a major bill they have spent five months in session, only to become a rubber stamp in the final days.

Admittedly the general outline of such major bills was worked out by committee members who have a voice. And it is seldom that any major revisions are made in these bills—but they could be added in conference. Conferees are under no obligation to adopt the bill as presented in conference. They are there to stand behind the position of their respective houses in adopting the bills as they did. But they can and do change bills in conference. Witness the way the state acquired a sales tax and tax relief fund out of a conference two years ago. When such major changes are inserted in conferred bills it is felt that this cannot be done unless such added measures have at least had a committee hearing—whether or not they were ever adopted by either house.

From appearances last weekend it seemed the total spending pattern for the next two years will be about the $2 billion level set by Gov. LeVander in his budget message back in January. There will be some variations with more emphasis by the legislature on certain areas than the governor had requested. He will also be aided in funding this budget by what has come to be known as the "Hatfield Shift," the transfer of certain state obligations into the next fiscal year, plus some revised income estimates that Commissioner Rolland Hatfield has found just in time to make things come out even. He says this added income has become evident in the months the legislature has been in session, and this could well be true. At any rate it is mighty helpful at this time.

The final day for passing any legislation is Saturday, May 24. Under a constitutional provision no legislation can be passed on the final day, which is Monday, May 26, so for all practical purposes the work will be done Saturday.

Is KING SIZE Dr Pepper just another soft drink?

NOT ON YOUR LIFE, SIR!

Of one thing you may be sure: King Size Dr Pepper *is not* just another soft drink. (There are enough of *those*, already!)

Dr Pepper is delightfully different, with a bright, frosty taste completely its own. Fresh and cheerful as a morning in May, with two full glasses in every King Size bottle.

A real pepper-upper, too. And today's *active* folks—those who set the pace—need the extra energy that more-than-refreshing Dr Pepper gives them.

Try King Size Dr Pepper. Today, tonight, or tomorrow. Your first taste will be the beginning of a beautiful friendship. Of that, too, you may be sure.

MINNESOTA HISTORICAL SOCIETY

ONCE FLOWN over the nation's Capitol in Washington, D.C., the above flag was presented to Valley Home in Thief River Falls by the Veterans of Foreign Wars and auxiliary in Thief River Falls. Pictured left to right are Mrs. Les DeBriyn, auxiliary president; Otto Baker, superintendent of Valley Home; and Donald Houlek, commander of VFW Post 2793. The VFW and auxiliary also provided the flag pole and base, with the base made and installed by Orville Ellingson. A flag was also presented to Oakland Park Nursing home as part of the organizations' Americanism program. Area residents are reminded to fly their flags on Memorial day Friday.

Memorial Day Service Is Planned Here on Friday

American Legion Post 117, in cooperation with Veterans of Foreign Wars Post 2793, will conduct Memorial day services Friday at 11 a.m. at Friendship Gardens at Riverside park in Thief River Falls. Rep. Andrew Skaar of Thief River Falls will deliver the Memorial day address.

Preceding the memorial services, a procession will march from the city auditorium to the park. Included will be color guards, gold star mothers, Boy Scouts and honored guests. In case of inclement weather the program will be held in the city auditorium.

The American Legion-Municipal band will play "American Heritage", colors will be advanced and the invocation will be given by Rev. Merrill Harris of United Methodist church. The American Legion auxiliary chorus will sing "Poppy of Sacrifice", prior to Rep. Skaar's address.

Following the address, the chorus will sing "No Man Is an Island" and placing of wreaths will take place in honor of the war dead. Taps will be played, the "Star Spangled Banner" played by the Legion-Municipal band, benediction given by Rev. Harris and the colors retired.

M. R. Levorson of the American Legion and H. B. Rafteseth of the Veterans of Foreign Wars will again decorate more than 400 graves in 25 cemeteries in Pennington and eastern Marshall counties. Any person knowing of servicemen's graves not decorated by Thursday evening should contact either Levorson or Rafteseth.

Rep. Andrew Skaar

Fair Board Will Meet Tonight

Directors of the Pennington county fair board will meet tonight at the Rex cafe meeting room in Thief River Falls at 8:30 p.m.

Main business for the evening will be the appointment of department heads, disposal of the women's building and general preparation for the fair which will be July 30 and 31 and August 1, 2 and 3. Anyone interested is welcome to attend.

Habedank Will Attend FFA Meet In North Dakota

Peavey company will sponsor a trip by Richard Habedank, Minnesota president of Future Farmers of America, to the North Dakota state FFA convention at Fargo, June 4-6.

This exchange program will provide Habedank the opportunity to meet with other FFA leaders. Richard is the son of Mr. and Mrs. Kenneth Habedank of Thief River Falls, and has been active in FFA as well as other extracurricular activities at Lincoln high school.

His school activities include band, orchestra, debate, newspaper staff, science club, senior class president, student council, National honor society, National athletic honor society, Roaches pep club president, Winnipeg model UN delegate and track.

Habedank has served as local FFA chapter secretary and president and Region I reporter and president before becoming state president. He was the state FFA public speaking winner in 1968 and state extemporaneous speaking contest winner in 1969. He has also been honored with the Farmhouse Leadership award.

Karen Muzzy Is Ribbon Winner In History Fair

Karen Muzzy, a pupil in Ronald Novak's sixth grade class at Northrop school in Thief River Falls, received a white ribbon for her project entered in the second annual Minnesota history fair held in St. Paul recently.

The fair is sponsored by the Minnesota historical society and is held each year to give fourth through sixth graders an opportunity to display projects made during their studies of state history. The projects made include dioramas, drawings, scrapbooks and other types of art media.

Fifty-five cities and over 40 counties were represented by over 100 projects. Two-thirds of the entries came from outside the Twin Cities, the farthest coming from Thief River Falls. The projects were judged on the basis of how well they dealt with some aspect of Minnesota history.

A PLAQUE in memory of Northland state junior college alumni killed in Vietnam was presented by the Northland student body to the college on Tuesday. Making the presentation to college president Victor Charles (left) was Doug Johnson, NSJC student senate president. The plaque reads: "Memorium, Northland Alumni Who Gave Their Lives in Viet Nam: Mark Warren Longtin, Red Lake Falls; Lynn Gregory Hiebert, Thief River Falls; and Eddie Lee Evenson, Thief River Falls.

"Coffee House" Concert Set By Junior College

Northland state junior college will present its annual "Coffee House" concert in the Thief River Falls city auditorium on June 5 at 8 p.m.

Featured in the program will be several vocal selections by the college choir and numbers by the college band. The concert is under the direction of David Morken, vocal director, and James Solsten, band director. Everyone is invited to attend. Refreshments will be served.

Welle Withdraws Application for Building Permit

Thief River Falls city council met on Tuesday night and heard a request from Ed Welle, Moorhead, that his application for a special use permit be withdrawn. This action came as the result of a petition signed by neighborhood residents in Thief River Falls who objected to the building of a three-story apartment house on Maple avenue near First street.

The council approved the plans and specifications for additional 1969 sewer and water extentions and moved to advertise for bids which will be opened on June 24 at 2 p.m. in the office of the city clerk in the basement of the city auditorium.

The council approved a dance permit to Ralph Jorstad, owner of the Spur in Thief River Falls, accepted the resignation of Charles Rose, a lineman for the city, and hired Leo Knutson as a heavy equipment operator for the street department effective June 1.

Third and final reading of the sub-division ordinance was held by the council and will become effective following publication.

Newfolden Sets Annual Program On Memorial Day

Memorial day services will be held in the Newfolden high school gymnasium on Friday at 10:30 a.m.

Program will begin with the presentation of colors by the Newfolden American Legion, followed by the "Star Spangled Banner" sung by the audience and accompanied by the Newfolden high school band.

Opening remarks will be given by the commander of the Newfolden American Legion and the Scripture and prayer will be read by Rev. Gene Sundby.

"Days of Glory" by Cacavas, will be played by the Newfolden band under the direction of Janette Chilgren, and Rev. Donald Krebs will give the Memorial day address.

Following the address, a high school girls sextet, under the direction of Vera Craig, will sing "The Man of Upright Life", after which the prayer and benediction will be given by Rev. Sundby and the colors will be retired.

209 To Graduate from Lincoln Thursday Night

Adventist School Sets Graduation

Graduation exercises will be conducted at the Seventh-day Adventist church at 8 p.m. tonight (Wednesday) for the eighth grade class of the Seventh-day Adventist school in Thief River Falls. Wayne Juhl of Greenbush will be the speaker and Rev. D. C. Perry will give the invocation.

Special music will be provided by Mrs. M. Webber, Mrs. D. C. Perry and Mrs. Jerome Bray. A reception will be held honoring the graduating class at the Seventh-day Adventist school following the graduation exercises.

Members of the graduating eighth grade class include Donovan Anderson, Bryce Bray, Keith Johnson and Susan Limesand.

Sabo Will Head TRF PTA Council For Next Year

P.T.A. council of Thief River Falls and St. Hilaire met Wednesday for election of officers for the 1969-70 school year and a summary of the past year's meetings.

Officers elected for the coming year were Les Sabo, president; Robert Sorvig, vice president; Mrs. Donald Lerud, secretary; and Mrs. Paul Furuseth, treasurer.

Retiring officers include John Sampson, president; Ragnvold Aaker, vice president; Mrs. Chet Auboi, secretary; and Mrs. Harry Sjulson, treasurer.

A P.T.A. booster committee was also formed to stimulate interest in the organization.

Northland Sets Play Next Week

Drama department at Northland state junior college in Thief River Falls will present its third production of the year, "John Brown's Body" by Stephen Vincent Benet, Monday and Tuesday, June 2 and 3, at 8 p.m., in the Lincoln high school auditorium.

"John Brown's Body" is not a play in the conventional sense, but an epic poem. The drama department is taking the poet's words and, with the benefit of very little scenery, will try to disclose the nature of the personalities that move through the work and at least a part of the tragic vision which Benet had of our country during the Civil War.

Cast includes Daryl Augustine, Thief River Falls; Dale Hanson, Clearwater; Mark Erickson, Mentor; Tom Kimball, Angus; Doug Johnson, Thief River Falls; and Wayne Mortinson, Thief River Falls.

Also Bev Borgen, Thief River Falls; Susan Schumacher, Plummer; Barb Morinville, Brooks; Sharon Erickson, Crookston; Darlene Finstad, Thief River Falls; and Jackie Myrin, Thief River Falls.

The play is under the direction of Roger Vaughan, speech and theatre instructor at the school.

Tickets are on sale from cast members or at the box office at one dollar for adults and 75 cents for students. Northland students will be admitted free with their activity card.

Plummer Plans Memorial Service Friday Morning

Memorial day services will be held Friday in the Plummer school gymnasium at 9:30 a.m.

Program will begin with the processional by Amelia Eskeli, seating of honored guests, gold star mothers, fathers and sisters, and the presentation of colors. The "Star Spangled Banner" will be sung by the audience and the invocation will be given by Rev. Henry Carriere.

A reading, "They Softly Walk", will be presented by Beverly Fallon and a musical selection will be sung by a boys' trio.

Rev. Carriere will give the Memorial day address and the audience will sing "God Bless America". The benediction, by Rev. Carriere, will follow and the colors will be retired prior to the recessional.

Following the service, a tour will be conducted through the cemeteries in the Plummer area. Following is a schedule of the visitation to the cemeteries:

Plummer Catholic, 10:15 a.m.; Emardville, 10:30 a.m.; Brooks Catholic, 11 a.m.; Brooks Presbyterian, 11:15 a.m.; Finnish, 11:45 a.m.; and Clearwater, 12:15 p.m.

Two More Enter County Dairy Princess Event

Two more Pennington county girls have entered the Pennington county dairy Princess contest, according to Terry Courneyn, county agent. This bring the number of entries in the contest to five.

Entries for the contest will be taken up to contest time on Saturday. The judging of the contest will take place at 5:30 p.m. in the meeting room of the Pennington county courthouse in Thief River Falls.

The two new entries are Judy Aandal, daughter of Mr. and Mrs. Ray Aandal of Goodridge, and Karen Bendickson, daughter of Mr. and Mrs. Henry Bendickson, also of Goodridge. Both are active in the Mavie 4-H club.

The three other contestants in the contest are Susan Kleinvachter, Barbara Breiland and Grace Dalager.

The local winners will compete for the Region One Dairy Princess title on June 10, with the winner of this contest advancing to the state contest to be held in August.

Princess Kay will be crowned on the opening night of the 1969 Minnesota state fair. She is the full-time goodwill ambassador for the dairy industry of Minnesota. She will travel over 30,000 miles in her year's reign.

Events Planned For Cub Scouts

Bookmobile Area Offered Summer Reading Program

Northwest Regional Library bookmobile will carry on a summer reading program this summer for children up to the fourth grade who make use of the bookmobile. The title of the program is "Here Comes the Bookmobile", and to join the group a boy or girl must read and report on three books. The library will put his name on a card with this title on it. After that, every time he reads a book, a bookmobile sticker will be placed on his card. There is space for 12 stickers, so members of the club must read 15 books to complete the program.

The program will begin the first week in June and will continue until the July 12. In the first week in August there will be a party in each area visited by the bookmobile, to which all children who have completed the program will be invited. There will be entertainment and treats for everyone.

In addition, Miss Bertha Hastad, bookmobile librarian, will hold a story period for children who are served by the bookmobile. Beginning the first week in June, she will have a story period at each stop that the bookmobile makes. The first story period will be on "Shells". All children in the area served by the bookmobile are invited to attend this story period at their nearest bookmobile stop.

Jaycees Earn State Awards

Thief River Falls Jaycees received eight awards at the annual state convention held in St. Paul Friday and Saturday. Nine delegates from Thief River Falls attended.

Art Heinze, out-going chapter president, received a gold key as one of the outstanding chapter presidents in the state, and Bob Ekeren received a silver key as one of the outstanding state directors.

In the records and recognition (R & R) competition, the local Jaycees received first place awards for projects in the following Jaycee portfolios: public relations, health and safety, Christmas and religious activities, agriculture and conservation and project of the year—mental retardation. A second place certificate was received in the ways and means portfolio.

The Thief River Falls chapter was competing against other Division II chapters, which are Jaycee chapters in cities with population between 4,000 and 10,000. The majority of the state's 180 chapters are in Division II.

Jaycees representing the chapter at the convention were Art Heinze, Bob Ekeren, Wallace Sparby, Ed Foldoe, Bob Poissant, Mike Blasek, Dr.

Carol Sorenson Is Bride Of Korydon C. Chervestad

Miss Carol Marie Sorenson and Korydon C. Chervestad exchanged marriage vows at a candlelight ceremony on Saturday, April 5, at 8 p.m., at the Zion Lutheran church at Oklee.

Parents of the couple are Mr. and Mrs. Ralph Sorenson of Plummer and Mr. and Mrs. Orlando Chervestad of Oklee.

Rev. Charles Gunderson officiated at the double ring ceremony with approximately 400 relatives and friends in attendance. Miss Sandra Groven served as organist and soloist. For the processional she played the traditional Lohengrin Wedding march and preceding the ceremony, she sang, "Because" and "The Song of Ruth". As the couple knelt at the altar, she sang, "The Wedding Prayer".

Forming the background for the bridal party were Easter lilies, candelabras with sprays of blue and white mums, complemented by a matching floral arrangement on the organ. White candles, with white satin ribbons and lilies of the valley marked the pews along the center aisle.

The bride was given in marriage by her father. She was attired in an empire fashioned, floor-length gown of silk organza over satin. The fitted bodice was styled with long sleeves that tapered to a point over the wrists. Accenting the softly scooped neckline was a Venetian lace motif re-embroidered with seed pearls. A matching lace panel flowed down the front of the skirt and bordered the detachable chapel-length train of silk organza over satin. Her shoulder-length veil was held by a princess crown of crystals and pearl tear drops. She carried a white cascading bouquet of glamellias, bridal roses and an orchid with white ribbon streamers.

Mrs. Wendell Hene of Hibbing, a college friend of the bride, was matron of honor. Other attendants were cousins of the bride, Mrs. John Koistor of Bemidji and Elaine Linder of West St. Paul, and a sister of the groom, Miss Lana Chervestad of Oklee.

They wore similar floor-length gowns of Mediterranean blue crepe styled with elbow length sleeves and dramatized by a back panel trimmed in Venice lace. A blue satin ribbon marked the empire waistlines. Each carried a camelot cluster of white glamellias accented with greens and bows.

Bonnie Delage of Thief River Falls, a niece of the bride, was flower girl. She was attired in a floor-length gown, similar to the ones worn by the other attendants, and she carried a white basket with a cluster of white garden flowers.

Ringbearer, Kurt Wiseth of Goodridge, a cousin of the groom, carried the rings on a satin pillow.

Attending the groom as best man was a friend, Dennis McGeary of Thief River Falls. Groomsmen were Marvin Hedlund of Alvarado, a friend of the groom; Richard Mathson of Olivia, a friend of the couple; and Gerald Tasa of New Hope, a cousin of the groom. Serving as ushers were Orrin Linder of Littlefork, a cousin of the bride; John Koistoe, Robert Solheim, both of Bemidji; and Glenn Hofstad of Oklee, all friends of the couple. All wore black tuxedos with white boutonnieres.

The mother of the bride was attired in a pink ensemble with coordinating pink accessories. The mother of the groom wore a blue ensemble with matching accessories. Both wore identical corsages of white glamellias as did the grandmothers of the groom, Mrs. Knute Evenson and Mrs. Sena Chervestad, who were honor guests at the wedding.

Following the ceremony, the parents of the bride hosted a reception in the church parlors. The decor was in blue and white, the bride's chosen colors. Centering the serving table was a four-tiered wedding cake, accented with touches of blue, clusters of white roses and miniature doves. The upper pillared tier was topped with a miniature bride and groom, backed by a Christogram. Descending the staircase attached to the cake was the miniature bridal party.

Mrs. Marlyn Johnson, sister of the bride, and Mrs. Gunnie Gunderson, cut and served the cake while Mrs. Duane Pederson, sister of the bride, and Mrs. Glenn Tasa, aunt of the groom, served it. Mrs. Harvey Delage, another sister of the bride, and Mrs. Robert Wiseth, an aunt of the groom, poured.

Serving as reception host and hostess were Mr. and Mrs. Elmer Hanson, brother-in-law and sister of the bride, and Mr. and Mrs. Juell Chervestad, uncle and aunt of the groom. Harriet Storslee, a friend of the bride, registered the guests as cousins of the groom, Mrs. Richard Mathson and Mrs. Robert Salheim, served the punch.

Waitresses were Jay Chervestad, Connie Tasa, and Vickie Wiseth, cousins of the groom, Shirley Walhaug and Sonja Myrum. Gayle Medd, Dianne Tram, Ione Holstad and Ramona Chervestad, opened and arranged the gifts. Vance and Valerie Wiseth, cousins of the groom, were the gift bearers.

Relatives and freinds attending were from Eau Claire, Wis.; Fargo, Thompson, Grand Forks, Drayton, Larimore and Williston, N. D.; Minneapolis, St. Paul, Olivia, Bemidji, Pengilly, Chisholm, Hibbing, Alvarado, Gary, Mahnomen, Erskine, Trail, Gully, Goodridge, Thief River Falls and Plummer.

For the wedding trip to Nashville, Tenn., and surrounding areas, the bride wore a blue suit with matching accessories.

The bride is a graduate of the Plummer high school and Moorhead state college. She is employed as medical technologist at Northwestern hospital. The groom, a graduate of the Oklee high school, is engaged in farming and is stationed with the National Guard unit of Grand Forks.

Driscoll and Korpi Vows Exchanged in New Jersey

Marriage vows were exchanged at the Methodist church at Tuckertown, N. J., on Saturday, April 19, by Miss Audrey Driscoll of Parkertown, N. J., and Naval Airman Larry Korpi.

The bride is a daughter of Mr. and Mrs. Edward Driscoll of Parkertown, N. J. Parents of the groom are Mr. and Mrs. Elmer Korpi of Middle River.

Rev. George Groom officiated at the double ring ceremony. Attending the two o'clock ceremony were approximately 30 relatives and close friends.

As the traditional wedding march was played by the organist, the bride was escorted to the altar and given in marriage by her father. She was attired in a white street-length gown. It was styled with a gathered skirt topped by a lace bodice with long sleeves of matching see-through lace. An organza petaled headpiece held her veil of silk illusion and she carried a large nosegay of white carnations surrounding an orchid.

The bride chose her sister, Mrs. Shirley LeVance of Tuckertown, N. J., as her only attendant. She was attired in a pink street-length gown complemented by a matching pink veiled headpiece and a bouquet of pink and white carnations.

Adr2 Ralph Thornton of Tuckerton attended the groom as best man. Ushers were Atn2 Patrick Roile, Massena, N. Y., and Edward Driscoll of Tuckerton, N. J.

The groom and his attendants wore dress blue US Navy uniforms.

For her daughter's wedding, Mrs. Driscoll was attired in a blue dress accented with white lace and a blue corsage. The mother of the groom was unable to attend.

Following the ceremony, the parents of the bride hosted a reception at the New Gretna House, New Gretna, N. J.

The newly-weds are now guests at the groom's parental home in Middle River where an open house reception will be held Sunday from 2 to 5 p.m., for all friends and relatives in the area. Upon their return to Tuckerton, N. J., where the groom is stationed with the US Navy, they will be at home at 225 Clay Street.

Thief River Falls day at Assiniboia Downs at Winnipeg will be observed on Saturday, June 7. Free tickets to the race track may be obtained from the Thief River Falls Chamber of Commerce office, according to Merle Smith, executive secretary.

Assiniboia Downs will designate one race on the day's program as the Thief River Falls race, with the winner to receive a cooler blanket from the local Chamber of Commerce. Mayor A. E. Jacobson will present the blanket to the owner of the winning horse in the winner's circle following the race.

In past years the event has drawn a large number of persons from Thief River Falls and the surrounding area, and the demand for tickets this year indicates that another large delegation will be on hand this year.

Mayor Stephen Jubo of Winnipeg has issued an official proclamation to delegate June 7 as Thief River Falls day in Winnipeg, urging citizens of that city to "extend our American visitors a most cordial and warm welcome to our city."

The proclamation notes that Mayor Jacobson will "head a large group of friendly visitors to Winnipeg in observance of the annual Thief River Falls day" and that "we in Winnipeg over the years have shared our times of tragedy and joy with our friends in the Thief River Falls area, as they have with us."

Mayor Jubo said he takes the opportunity "to pledge anew our warm affection and understanding held together over the years by the sincere hand of friendship across the long undefended border that separates our two nations."

Check 380 Cars In TRF Jaycee Event Last Week

Results of the Thief River Falls Jaycee car safety check held Thursday and Friday on First street between Main and Knight avenues were announced this week. With a total of 380 cars checked, a number of mechanical deficiencies were noted.

One car had faulty brakes and 24 had faulty headlights, with deficiencies in 29 turn signals, 18 brake lights and 18 tires. Four cars had cracked glass. Nine cars checked had either poor or non-functioning windshield wipers and washers, eight cars had horn problems and six had faulty exhaust systems

Co-chairmen for this Jaycees event were Tom Erickson and Larry McDowell. The cars were being checked as a safety reminder for those driving over the Memorial day weekend.

At the Jaycee bicycle safety check held May 10 and chaired by James Richter, a total of 510 bicycles received inspection and licensing. The bicycle check is another safety project of the local Jaycees.

THANK YOU
On behalf of all the Senior Citizens of this area and myself, we wish to extend a Sincere Thank You to all the Hostesses and volunteer people for the work they did, to the Business Establishments for their contributions and gifts which were given for our Recognition Day on May 17, 1969. Our day was a big success. Everyone had a great time meeting old friends, as well as making a lot of new friends. We are already looking forward to next year.
Thanks again,

State BPW Meet Adopts Obscene Mail Resolution

Resolution supporting legislation prohibiting obscene mail was adopted at the 48th annual convention of the Minnesota Federation of Business and Professional Women's clubs, Inc., held May 23-25 at Alexandria.

The resolution, recommended by the Thief River Falls BPW club was presented by state civic participation chairman, Mrs. Clarice Collins of this city. The adopted form stated: "We, the Minnesota Federation of BPW clubs, Inc., go on record to support state and federal legislation prohibiting the mailing of pandering advertisments which offer for sale erotically arousing or sexually provocative matter.

In presenting the resolution, Mrs. Collins informed the group that a large number of unsolicited obscene mail is coming into our state from New York, California, Illinois and Iowa. Mail of this type is getting into the hands of children. To curb receiving such mail, Mrs. Collins said that upon receipt of such a letter, one should go to the postoffice with the offending mail and ask for form 2150. This form requests that your name be removed from the mailing list. If the company still sends literature after 30 days, she stated that the postmaster should be notified. He will contact the postmaster general who will take the matter to the Attorney general, asking for a federal court order directing compliance.

Mrs. Collins stressed the urgency of quick action as these companies change their names and addresses frequently. She also stated that since this is a federal matter, senators and congressmen in Washington, D. C., should be contacted, requesting help in stamping out this practice. Names and addresses of congressmen and senators were supplied.

Working locally with Mrs. Collins in preparing the resolution were Mrs. Norma Hanson, legislative chairman; Mrs. Ruth Wilson, president of the local club, and Mrs. Ellen Spray, publicity chairman, who presented the matter at a recent club meeting.

Also of interest locally were the awards presented at the convention banquet. Mrs. Dolores Johnson, past president of the Thief River Falls club, received a gold card for having signed up five new members during the past year. This is the third consecutive year she has received this award. The Top Hat Award, given annually to a person or organization for promoting women in business, was presented to Northwestern Bell telephone company. In the absence of W. L. Huffman, vice president of Minnesota operations, the award was accepted by George Weikert, Minnesota public relations manager. Making the presentation was Mrs. Clarice Collins of this city.

Out-going president, Marian Olson of Crookston, presided at the convention. Honored guest was Past National president Miss Fannie Hardy of Little Rock, Ark.

At the election of officers, Jule Ann Johnson of St. Paul was chosen president. Among the other officers elected was Ida Mae Geittmann of Bemidji, who will serve as second vice president. Clarice Collins of Thief River Falls was appointed as State emblem chairman.

Attending the convention from Thief River Falls were Dolores Johnson, Ruth M. Wilson, Stella Krankkala, Clarice Collins and Inga Shetler.

"Dear George:

This has been one of those unusual years in the feeder pig business. Prices have held stronger this late in the season than any year we can recall other than 4 years ago when we had a somewhat similar market. What's ahead is anyones guess.

As of today we do have a $17.50 price on the 40 pound pigs brought to the Winger Market. Higher prices are paid for the really top quality pigs. Extra pounds above 40 are at 15 cents up to 60 pounds and then 10 cents above 60.

Remember, we're at the Winger Market every Tuesday morning between 8:00 A.M. and Noon to buy your pigs at private treaty.

Pfc. M. Westman Military Rites Set For Thursday

Military funeral services will be held Thursday at 1 p.m., at the Westaker Free Lutheran church in Newfolden for Pfc Myles Westman, 19, of rural Middle River. Westman died in combat on Tuesday, May 13, in the A Shau Valley in Vietnam. He was serving with the 101st Airborn division.

Rev. Gene Sundby and Rev. Val Hauck will officiate at the services. Special music will be provided by Mrs. Stanley Holmans, organist, and Mrs. Deland Elseth, soloist. Interment will be in the church cemetery with the Green Funeral home in charge of arrangements.

Serving as pallbearers will be Van Swanson, James Seidel, David Myhrer, James Larson, Jeff Mereil and James Nelson.

Military honors will be accorded by the Otto Knutson American Legion Post, 427, Newfolden.

Myles Westman was born Nov. 27, 1949 at Warren. He received his elementary education at Newfolden and graduated from the Newfolden high school with the class of 1968. On June 14, of that year, he entered the service, leaving for overseas duty on January 8, of this year.

Survivors are his father, Elvin Westman of rural Middle River; three sisters: Mrs. Donovan (Arlene) Johnson of Thief River Falls; Mrs. Raymond (Gloria) Rybakowski and Mrs. Galen (Julionn) Erickson, both of rural Middle River; three brothers: Eldor Westman, Newfolden; Glen, Coon Rapids; and Dales, living in Texas; and a number of nieces and nephews.

He was preceded in death by his mother.

Sharron Mack, 7, Dies Monday At Grand Forks

Sharron Mack, seven-year-old daughter of Mr. and Mrs. Donald Mack of rural Oklee, died Monday at Deaconess hospital in Grand Forks, N.D.

Funeral services for Sharron Mack will be held Friday at 2 p.m., at the Assemblies of God tabernacle in this city. Rev Robert Leen will officiate. Interment will be in the Greenwood cemetery.

The body will repose at Sinding's Funeral chapel from Thursday noon and at the church for one hour prior to the time of services. A complete obituary will be in the Monday edition of the Times.

Funeral Services Held Today For "Tillie" Olson

Funeral services for Ida Mathilda "Tillie" Olson, 80, of this city who died Friday at Northwestern hospital, were held today (Wednesday) at 1 p.m. at the Green Funeral chapel.

Rev. Harold Peterson, pastor at Trinity Lutheran church, officiated at the services. Mrs. Sherman Idso served as organist and soloist. Interment was in the Lanstad cemetery, near Gatzke.

Serving as pallbearers were Stanley Gibson, James Gibson, Kent Gibson, Thorvald Olson, Keith Espeseth and Steve Espeseth.

Ida Mathilda Olson was born Feb. 9, 1889 near Quandahl, Iowa to Ole and Elizabeth Olson. She attended school and grew to womanhood in Iowa. In 1916, she came with her family to Minnesota, settling near Randen. There she lived for many years, serving for a time as clerk of the township board. In 1932, she moved to Thief River Falls to make her home with her mother and a brother, Thorvald. She never married.

Survivors include two brothers, John V. Olson and Thorvald Olson, both of Thief River Falls, and a number of nieces and nephews.

In addition to her parents, she was preceded in death by three brothers.

Mrs. F. Rohrer Funeral Services Held on Tuesday

Funeral services for Mrs. Frank (Eleanor) Rohrer, 53, of this city, were held Tuesday at 2 p.m., at Sinding's Funeral Chapel. A resident at 410 Arnold avenue South, Mrs. Rohrer, died Friday at Northwestern hospital.

Rev. Harold Peterson, pastor at Trinity Lutheran church, officiated at services. Mrs. Arnold Hammer served as organist and soloist. Interment was in Greenwood cemetery.

Pallbearers were John Graff, Ed Graff, Ed Johnson, John Johnson, Melford Sand and Leonard Sand.

Mrs. Rohrer, the former Eleanor Butcher, was born May 27, 1915 at Somerset, Wis., to Mr. and Mrs. Victor Butcher, now deceased. She attended school at Somerset. In 1931 she came to Thief River Falls, living here until she moved to Goodridge in 1946. For the past 10 years, she had resided in this city. Until her retirement in November of last year, because of ill health, she had been employed for 14 years at the Oakland Park nursing home.

She was married on March 1, 1946 at Stillwater to Frank Rohrer. He survives.

Also surviving are two brothers: Arthur Butcher of Stillwater and Elmer of Hammond, Wis.; and six sisters: Mrs. Esther Sullivan of New Richmond, Wis.; Mrs. Albin (Jeanette) Moe of Cumberland, Wis.; Mrs. Carl (Florence) Erickson of Osceola, Wis.; Mrs Al (Iva) Schafer of Dresser and Mrs. Walter (Ruth) Parkins and Mrs. Joe (Genevieve) Jenkins, both of Barronette, Wis.

Services Held At Strathcona For Wm. Lade

William F. C. Lade, 77, a resident of the Strathcona community since 1921, died unexpectedly Sunday afternoon at his home in Strathcona.

Funeral services for William Lade were held today (Wednesday) at 2 p.m., at the Gustav Adolph Lutheran church at Strathcona with Rev. Phillip Peterson officiating. Mrs. Milo Coltam was the soloist and Miss Sharon Syverson served as organist. Interment was in Greenwood cemetery at Strathcona with the Collins Funeral home in charge of arrangements.

Pallbearers were Warren Braateo, Luel Sovde, Victor Hoverson, Adolph Ornquist, Richard Nordlund and Bertrom Jevne. Military honors were accorded by the Moen-Zimek Post 88 of the American Legion of Greenbush.

William F. C. Lade, a son of the late Fred and Amelia Lade, born Feb. 3, 1892 in Grant county. There he attended school and grew to manhood. He served with the United States Army during World War I. Following his discharge from service, he returned to Grant county where he resided until 1921. He then moved to Roseau county, settling at Strathcona, where he had since made his home.

He was married in 1952 to Minnie Jergens. She preceded him in death in 1960.

Survivors are one brother, Emil Lade of Alexandria and two sisters; Mrs. Gust (Annie) Zarbock of Villa Park, Ill., and Mrs. Kurt (Laura) Lahse of Barrett. Four brothers and four sisters preceded him in death.

Otterson Tells Of Benefit from OEO Programs

With the coming of summer many communities throughout the three and one-half counties served by Northwest Community Action, Inc. (NWCA) will have the opportunity to benefit from the summer Neighborhood Youth corps (NYC) program, reports Dwayne Otterson, executive director.

NWCA serves as a co-sponsor of this program which is administered chiefly through Inter-County Community council at Oklee. This program employs youths from low income families, ages 16 through 21, who will be returning to high school in the fall.

The youths assist communities, public agencies or private non-profit groups on various work sites or summer job positions. They work 28 hours per week, at $1.30 per hour, and are paid by the department of labor through Inter-County Community council.

Another program which NWCA administers for the department of labor as part of its employment services project is operation mainstream. This program, directed by Otterson, employs 20 men who are the heads of households and have had difficulty securing year-around employment. Men who take advantage of this program are older persons or young marginal farmers with large families. The NWCA office, the welfare offices and the employment security office help recruit employees for this program.

At present the two worksites at which operation mainstream enrollees are employed are Zippel bay and Hayes Dam state parks. At Hayes dam in Roseau county the main purpose of the work project is to clear 120 acres of lake basin and to develop the public use areas. At Zippel bay in Lake of the Woods county and main purpose is to improve the timber stand, roadside beautification and to develop camping areas.

Forest rangers and state park representatives predict that more people will visit these parks this year than ever before and they encourage area residents to take advantage of the camping facilities at these parks.

Bakke Receives Insurance Award

Darrell M. Bakke of Thief River Falls was cited for outstanding life insurance service at the annual convention of the National Association of Fraternal Insurance counsellors which met at the Hotel Muehlebach in Kansas City, Mo., recently.

Bakke was awarded a certificate of recognition for the "Three-Quarter Million Club" in 1969. As a fraternal insurance counsellor, he was required to complete an extensive basic and advanced training course and meet established production requirements. He has been a representative in this area since Oct. 1, 1963.

Oklee To Host Two Norwegian Events in June

Oklee will be the host town for two Norwegian gatherings in June. Northwest Telelag will be held on June 6 and 7, and the annual Setesdalslaget to be held on June 13 and 14.

The Telelag convention will include such items on its program as Norwegian music and dancing, a film from Telemark, Norway, and Norwegian culture. The convention will open on Friday, June 6, with registration at community hall at 10 a.m.

The Setesdalslaget of America will hold its 60th anniversary at the community hall in Oklee with Norwegian costumes, dancing and afternoon sessions starting at 2 p.m., and evening sessions beginning at 7 p.m. on June 13 and 14. After each evening's sessions will be oldtime dancing with music by Ralph Berg and his orchestra.

An officer of the organization from the local area is Miss Thora Skomedahl of Thief River Falls, who is serving as active treasurer.

Everyone is invited to attend both the Telelag and the Setesdalslaget.

Social Security Man Here Tues.

Ted Hoversten, field representative of the Social Security district office in Grand Forks, N.D., will be in Thief River Falls at the city auditorium on Tuesday from 9 a.m. to 2 p.m.

Reports on Viking News of the Week

Mrs. Orville Peters
Thief River Falls, 681-[illegible]

Mr. Clarence Gustafson was honored at a 7 o'clock dinner party at the Rex cafe in Thief River Falls, Thursday evening, given by all the school faculty of the Newfolden school. Mr. Gustafson has served as a custodian and bus driver for the school for the past 28 years. Mrs. Gustafson was presented with a corsage and Mr. Gustafson a boutonniere. Mr. Gustafson was also given a gold watch awarded from the school for his many years of faithful service. Mr. Gustafson will now retire.

Mrs Paul Flodstrom and Mrs. Virgil Hjelle visited with Mrs. Douglas Olson and new baby daughter at the Northwestern hospital in Thief River Falls on Tuesday.

At a very impressive capping exercises held at the St. Luke's school of Nursing, Duluth, recently, Miss Darleen Melvie, daughter of Mr. and Mrs. Ernest Melvie Sr., of Viking, was among the class of 64 students capped. Her parents, together with Mr. and Mrs. Ernest Melvie Jr., Kristi and Kevin, all of Viking, Mr. and Mrs. Douglas Wahl and Shane of Princeton, Minn., and Mr and Mrs Louis Hugg of Stacy, Minn., attended the exercises. Mrs. Melvie Sr. remained in Duluth to visit with her daughter Darleen and went on to Stacy and Princeton, to visit with her daughters and families for a week.

Mr and Mrs. Virgil Hjelle, Clark and Stephen were dinner guests Sunday at the Mrs. Paul Flodstrom home.

Accidents And Thefts Noted in Police Report

Thief River Falls police department has noted a variety of cases during the last few days.

On Friday it was reported that a billfold and purse were stolen from a locker in Lincoln high school.

It was reported at 7:30 p.m. Friday that a car driven by Sara Howick, rt. 1, was going south on Riverside, and had stopped in the lane of traffic to make a left turn when struck by a car driven by William Rondorf, rt. 1. Damage to the Howick vehicle was $150 while the Rondorf vehicle received $200 in damage. Miss Howick complained of neck and head injuries.

It was reported by Arvid Lee Friday that his garage was broken into, but the loss is unknown to the police department at this time.

On Saturday at 6 p.m. a pickup driven by Gerald Bulger, rt. 2, was going west on Ninth street and was struck in the left rear by a car driven by Merle Kruschke, rt. 3, who was going north on LaBree avenue. Damage to the pickup was $160 while there was no estimate of damage to the Kruschke car by the police department.

Another accident was reported on Saturday when a car driven by Carl Onkka, city, was traveling south on Main and starting to make a left turn unto Fourth street when struck in the rear by a car driven by David C. Thompson, city. Damage to the Onkka vehicle was $150 while the Thompson vehicle received $175 in damage. Mrs. Onkka, a passenger in the Onkka vehicle, was taken to Northwestern hospital and treated for neck injuries.

It was reported on Monday that a break-in occurred at the Club pool room, with entry made through the rear door. Over $100 was reported as being lost.

On Tuesday Mrs. LeRoy Scholin, city, reported two wheel covers were taken from her car. They are valued at $18.

Spec. 4 Waale Named Recipient Of Bronze Star

Spec. 4 Steven T. Waale, son of Mr. and Mrs. Hans S. Waale of Thief River Falls, received the Bronze star medal on April 13 near Bear Cat, Vietnam.

The medal was received for heroism in action while engaged in ground operations against a hostile force in Vietnam.

A field communications chief assigned with Company C, 3rd Battalion of the 9th Infantry division's 60th Infantry, Waale entered the army in May of 1968, completed his basic training at Ft. Polk, La., and has been serving in Vietnam since last October.

Spec. 4 Waale is a 1966 graduate of Lincoln high school. He holds the Air Medal and the Combat Infantryman badge also.

Arne Rantanen Is Conservation Camp Trip Winner

Arne Rantanen, 15, Middle River, will be Marshall county's junior leader delegate to the state 4-H conservation camp June 2-6.

Delegates were chosen on the basis of their conservation achievements, interest in good leadership potential and willingness to assume responsibility, according to Mary Evert, home agent.

Arne has been a member of the East Valley 4-H club and active in the conservation project for that time. Last year he received the Marshall county 4-H conservation award.

The University of Minnesota's forestry and biological station at Itasca state park will be the setting for the camp again this year. Main objectives of the camp are to promote the 4-H conservation project through leadership training and to recognize the 4-H junior and adult leaders for their past and potential leadership in the conservation project.

Other objectives of the camp are to provide a meaningful group living experience in an outdoor setting and to make the delegates more appreciative of Minnesota's natural resources.

The camp will provide both adult and junior leaders with an opportunity to study a variety of topics including use of maps and compasses, entomology, forestry, wildlife habitat, Minnesota plants, firearm safety, water ecology, birds and mammals and air pollution.

The adult leaders attending camp will receive leadership training as county project chairmen. They will also participate in subject matter with the junior leaders.

THESE FOUR BEAUTIES took advantage of the warm sun on Tuesday as they were out getting their tan at Tindolph beach. The warm weather that the area has been experiencing during the past few days has brought out water skiers on the Red Lake river along with many sun bathers like the ones shown above. Temperatures climbed into the 90's on Tuesday and high humidity added to the general discomfort of those unfortunates who couldn't take the time for sunbathing.

3 Prowler Teams Enter Region 8 Play

by Bob Wielinski
Times Sports Writer

Three Thief River Falls spring sports teams will be represented in three Region Eight tournaments this coming week as members of the golf, tennis and track teams will be entered in the regional tourneys.

Both the tennis and track squads will be at Bemidji for the Region Eight meets on Saturday, with both events beginning at 10 a.m. The regional golf tournament will be held at Walker this year with tee-off time also set for 10 a.m. The meet was scheduled for Friday but because of Memorial Day the meet was moved to another day, either Wednesday or Saturday.

Taking part in the tennis tournament at Bemidji on Saturday will be Steve Edlund and Kip Poppenhagen who finished one-two in the District 31 tournament singles last week. Edlund finished the season by going undefeated in District 31 and has stopped just about everyone in Region 8 likewise, with his only loss of the season

coming at the hand of a Bemidji Lumberjack.

Edlund is expected to take the Region Eight singles title this year and move into the state tournament the following week. He was entered in the state tournament last year. Poppenhagen moved from the doubles team where he was playing at the beginning of the season for coach Whitey Olson's netmen. Poppenhagen, since becoming a singles man, has been defeated twice, but has proven that he also could be a possible man to go to the state tournament.

Favorite to capture the Region 8 golf title this year is Roseau, which has a veteran team back from last year and finished in the top 10 in the state meet last year.

The Prowlers, coached by Jack Boyer, will take four hackers to the regional meet in Walker this week. They include Jay Maum, Cal Wicklander, Rob Womack and Tim Carlson. Moum, a freshman on the squad this year, was runner-up medalist in the District 31 meet held last week in Crookston. Wicklander and Carlson were right on his heels, while Womack just made the cut to make it to the regional tournament.

Coach Jim Sims, who lost 10 lettermen during the spring track practice for one reason or another, will take 10 boys to the Region Eight meet at Bemidji on Saturday. Last Saturday the young Prowlers, with only three seniors on the team, won the District title which was supposed to be won by a strong Crookston team.

Going to Bemidji on Saturday will be Rex Rugland, top point-getter for the Prowlers in the district meet, who will be entered in the 100-yard dash, 220-yard dash and as a member of the 880-yard relay team.

Rich Habedank, a senior on the squad and four-year veteran, will be entered in the 220-yard dash and is also a member of the 880-yard relay team.

Scott Vettelson, another senior, surprised Simms in the shot put last week and finished second in the event to enter regional competition. John Swick will be entered in the pole vault where he finished second, while Ralph Swick will be entered in the high jump. Gary Kayser will be entered in the 880-yard run.

Members of the relay teams that took first place are Rugland, Jim Dee, Brian Bowman and Habedank in the 880 and Dee, Bowman, Randy Wentzel and Don Schindler in the mile.

Bemidji is a top favorite to win the Region Eight tournament but the Prowlers, along with Park Rapids, will be making a strong bid for the title this year.

Basketball Camp Set at Fergus Falls in July

Once again this year the Otter Tail empire basketball camp will be staged for boys throughout the state of Minnesota. The camp is open to all boys ages 10-16 who have not been a member of the junior varsity or varsity team in high school.

Last year the camp was the first of its kind to be held in the northern part of Minnesota. A total of 196 boys participated in the program and were pleased with the coaching staff of Duane Boglien, George Hanson and Phil Jackson.

This year the three will be back once again, along with Bill Fitch, University of Minnesota head basketball coach. The program was two weeks last year, but this year there will be three weeks of the camp.

Dates of the camp are from July 7 thru July 11, July 21 through July 25 and August 4 through August 8.

For further information about the program, interested boys should contact Thief River Falls basketball coach Whitey Olson.

Mr. Farmer! Do You Want to Bet?

Bet this year's crop? Bet all the work, worry and expense that goes into growing it as well as the profit it can yield?

Too big a risk for sound business, isn't it? But that is just what you do when you fail to protect your crop with Dawson Hail Insurance. A hail storm can wipe out your crop so quickly. It is playing your luck a little too far to gamble your year's income that it won't happen to you.

See us now for crop hail insurance. It may be the most important decision you will make this year.

Oven-Fried and Broiled Fish Are Variety on Menu

When the fisherman in the family brings home his catch during the season, it's up to the homemaker to preserve the fine flavors by cooking the fish properly.

The key to fish cookery is to avoid overcooking or undercooking, according to Verne Mikesh, extension nutritionist at the University of Minnesota. Cook fish only until it flakes easily when tested with a fork. Then the fish will be moist and flavorful.

Although fish are delicious fried in a skillet, don't limit yourself to this method if you expect to serve many meals of fresh fish during the season. For a clean range and a smoke-free kitchen, Miss Mikesh suggests frying them in the oven.

Serve the oven-fried fish with baked or scalloped potatoes, a green vegetable like asparagus, spinach or broccoli for color and a salad of lettuce and tomatoes. Top off the meal with a fruit dessert.

For variety, broil the fish. Broiling enables you to cook fish with relatively little additional fat. To complete the meal, serve hash brown potatoes, green beans, a tossed green salad and ice cream or ice milk. If you're a weight watcher, omit the hash brown potatoes. Such garnishes as slices or wedges of lemon, parsley sprigs, radishes or green pepper rings will enhance the fish platter by adding color and crispness.

Here are directions for preparing oven-fried and broiled fish:

OVEN FRIED FISH FILLETS (6 servings)

- 2 pounds fish fillets
- 2 teaspoons salt
- 1 cup milk
- 1 cup fine bread crumbs
- 4 tablespoons butter

Cut fillets into serving portions. Add salt to the milk. Dip the fish in the milk and roll it in the crumbs. Place fish in a well greased shallow baking pan. Pour melted butter over the fish. Place the pan on a shelf near the top of a very hot oven (500 degrees) and bake it 10-15 minutes or until the fish is brown and flakes easily when tested with a fork. Serve immediately on a hot platter.

BROILED FISH (6 servings)

- 2 pounds fish fillets or steaks
- 2 tablespoons melted butter
- 2 tablespoons lemon juice
- 1 teaspoon salt
- ½ teaspoon paprika
- One-eighth teaspoon pepper

Place the fish skin side down in a well greased baking pan. Combine the remaining ingredients and mix well. Pour the sauce over the fish. Broil fish about four inches from the heat for 10-15 minutes or until the fish flakes easily when tested with a fork. Baste the fish with the pan sauce at least once during broiling.

If you wish to use pandressed fish instead of fillets or steaks turn them after 5-8 minutes. Baste and broil them 5-8 minutes more or until the fish flakes easily when tested with a fork.

Racing Season Begins Friday at Tri-County Track

Thrills, spills and action will highlight the opening day of stock car racing at the Tri-County Speedway, one mile west of Oklee as the racing season will begin Friday (Memorial Day) at 2 p.m.

After the Friday opener there will be racing every Sunday at 2 p.m. This is the second year that the Speedway has been in operation. It was formed as a non-profit organization under the direction of Norb Kaiser a year ago. About 35 racing cars were on hand for most of the events last year with the crowds estimated from 1,200 to 1,800 people.

The association's board of directors held regular meetings throughout the winter and spring months in making preparation and improvements for the track this year. Members of the board are Marvin Johnson, Red Lake Falls, president; Don Nowacki, Warren, vice president; Dick Rour, Fosston, secretary-treasurer, and Lynn Lucken, Winger, Warren Torgerson, Clearbrook, Allen 'Bud' Homme, Thief River Falls, and O.M. Sundrud, Oklee, directors. Wayne Beck of Oklee is the track manager.

Ladies Softball Meeting Monday

Thief River Falls Ladies softball organizational meeting will be held on Monday at 8 p.m. in the meeting room of the Thief River Falls city auditorium. All those interested in playing or sponsoring a team this year are asked to attend this meeting as teams will be organized and schedules set for the coming year.

Lyle Gilbertson On U.S. Cruiser

Radio Seaman Lyle A. Gilbertson, United States Navy, son of Mr. and Mrs. Lyle Gilbertson of rural Newfolden, is presently serving aboard the cruiser USS Saint Paul off the coast of Vietnam. His ship, on its fourth deployment to Vietnam waters, patrols the coastline, ready to answer all calls for fire support from navy and marine spotters stationed ashore.

Card of Thanks

We wish to express our sincere thank you to our many friends and relatives who visited our wife and mother while she was in the hospital. Thank you Dr. Arnold Berg, nurses, nurses' aids, and others who were kind at the hospital. Thank you Rev. and Mrs. Robert Leen for your many visits and prayers with our loved one who has gone to be with our Lord. May God bless each one of you. Neal Paulson, Lorraine and Neal Jr. 1t43p

In Memoriam

Four years have passed since
that morning in May
When God ended your suffering
and called you away—
No more to hear your dear
laughter ring. . .
Nor your sunny warm smile,
which was—everything!
Still . . we do not question
God's many ways
Tho we have lived through
many lonely days—
Your beautiful memories we'll
always share
Kept deep in our hearts,
Till we meet you—up there!

In memory of our dearest son and brother Monti who passed away May 24, 1965. Sadly missed by his dad and mom, Bennie and DeLores Miramonte, sisters DaniLe, Monica and Anita, and brothers, Vince and Paul. 1t43c

Prowlers-Fisher Gain District Baseball Finals

by Bob Wielinski
Times Sports Writer

Dann Stromberg broke up a fine pitching duel between Thief River Falls Prowler pitcher Tony Johnson and Climax's Andy Muhonen on Tuesday night as he smashed an inside the park home run in the top of the ninth inning. The Prowlers scored three times in that inning to gain a 4-2 win over the Vikings in the semi-finals of District 31 action at the fairgrounds.

In the opening game of the semi-finals on Tuesday night, Fisher toppled Warren 3-2 in eight innings, as a Warren error paved the way for the Flyers, who posted their second win of the season.

The championship game scheduled for tonight at Thief River Falls has been pushed back to Friday at 7 p.m., as Fisher has graduation tonight (Wednesday) and Thief River Falls holds its graduation exercises on Thursday evening.

Pitching was again the story in both games. Viking Andy Muhonen allowed only five base hits and walked three while striking out 19 Prowlers in the contest. A total of 11 Prowlers were victims of one or more strike-outs during the contest with Steve Daley leading the parade with four; Gordy Peterson, three; Tony Johnson and Dan Sullivan two each while the rest of the nine starters plus two pinch hitters also fanned.

The game was marred by Climax errors which led to two of the three runs in the top of the ninth inning. They committed four during that inning and eight for the entire game. The Prowlers, meanwhile, had more than one opportunity to score but couldn't come up with the hit that was needed. They stranded eight base runners during the contest, and twice had men on second and third but failed to produce a hit as Muhonen struck out the side to get out of trouble.

The Prowlers scored in the first inning as Tim Duke drew a lead-off walk, moved to second on a wild pitch, stole third and on a delayed double steal took home on the play which found Tony Johnson going down to second after reaching first on an error by the shortstop. This put the Prowlers ahead 1-0.

Johnson ran into trouble in the third inning as Climax scored one of its two runs of the game. Lead-off batter Jim Tronnes singled, Steve Paulsrud singled and Ken Mickelson sacrificed to advance the runners. Tronnes was thrown out, Johnson to Don Balmer, on a dribbler back to the mound by Wayne Kobbervig. Andy Muhonen singled home Paulsrud with the first Viking run, knotting the score at 1-1. Johnson walked Jim Mauritson to load the sacks for the Vikings, but struck out Butch Amundson for the final out of the inning.

The game remained a pitchers' duel until the ninth inning when Stromberg led off with an inside the park home run. The hit was a shot into left center field, with the ball taking a bad bounce over the leftfielder's glove and rolling all the way to the fence some 340 feet from home plate. Stromberg, hampered by a pulled muscle in his leg, was waved home by coach Ralph Skay and the throw to the plate was off target as Stromberg slid home for the go ahead run.

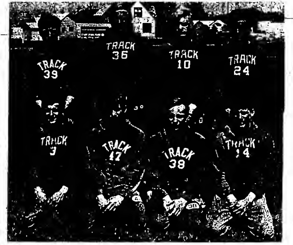
Dan Sullivan singled, moved to second on a wild pitch and to third on Don Balmer's grounder to the pitcher. Muhonen threw to third base trying to get Sullivan, but the third basemen dropped the ball, allowing Sullivan to be safe and Balmer to reach first base. Sullivan danced around at third and drew a wild throw from Muhonen, enabling Sullivan to score and Balmer to move to second. Muhonen then struck out Tim Duke and Steve Daley for the first two outs of the inning with the Prowlers leading 3-1.

Tony Johnsan reached first on an error on the thied baseman. Another delayed steal was attempted. The throw was cut off by the Vikings' shortstop as Johnson went into second standing up and the shortstop threw home trying to get Balmer. The throw was wide of the mark and went to the back stop with Johnson going to third on the play. With Tom Wurst at the plate, on the fourth pitch Johnson tried to steal home but the catcher put the tag on him for the third out of the inning. The Prowlers led 4-1 going into the bottom of the ninth inning.

Climax made a try to knot the game as Mauritson drew a lead off walk and Butch Amundson hit a grounder which looked like a double play to third baseman Gordy Peterson. He lost the ball with runners safe at second and first. Dave Palm then grounded to shortstop Stromberg who turned it into a double play, going to Brian Petersan at second to Tim Duke at first. Mauritson moved to thied on the play and Darrell Larson singled him home for the Vikings' second run of the game.

Johnson hit Tronnes with a pitch, giving Climax runners on first and second with the winning run at the plate. Paulsrud singled to left to fill the bases. Johnson then got Mickolsan to ground to second for the final out of the game with the Prowlers winning 4-2 and advancing into the finals of District 31. They will play on Friday night at 7 p.m. at the Fairgrounds in Thief River Falls against Fisher.

DISTRICT 31 CHAMPIONS in track were the Thief River Falls Prowlers, who won their second straight title last Saturday at the University of North Dakota. Members of this year's team are, left to right, front, Kent Gibson, Tim Olson, Jon Swick, Kim Engelstad, Scott Vettlesan, John Harris (holding trophy), Randy Wentzel, Brian Bawman and Jerry Brieland; middle row: Dennis Nabben, Ralph Swick, Don Schindler, Steve Espeseth, Darrold Rodahl, Jerry Myers, Gary Kayser, Larry Langevin and Joey Kayser; back row, Terry Quiram, student manager, Phil Wold, student manager, Mark Larson, student manager, Rex Rugland, Mark Kays, Wayne Olson, Kim Murphy, Dave Holm, assistant coach Quentin Jones and head coach Jim Sims. Missing at the time of the photo were Richard Habedank and Jim Dee, both of whom will be entered in the Region Eight meet on Saturday.



REPRESENTING THIEF RIVER FALLS in the Region Eight track meet will be 10 members of the local squad. Eight of the members are, left to right, front, Jon Swick, Don Schindler, Brian Bowman and Randy Wentzel; back, Rex Rugland, Scott Vettleson, Gary Kayser and Ralph Swick. Missing at the time the photo was taken and also entered in the Region 8 meet are Rich Habedank and Jim Dee. The meet will be held at Bemidji on Saturday.

MEMBERS OF THE DISTRICT 31 championship golf team, the Thief River Falls Prowlers, are from left to right, Paul Olson, Rob Womack, Roger Relerson, Tim Carlson, Cal Wicklander and Jay Moum. Womack, Carlson, Wicklander and Moum will represent the Prowlers in the Region Eight tourney at Walker this week. The team is under the direction of Jack Boyer.

MOVING INTO REGION EIGHT competition for the Thief River Falls Prowler tennis team are Steve Edlund and Kip Poppenhagen. They finished one-two in the District 31 tournament held last week with Edlund, left, defeating Poppenhagen for the District 31 singles crown. Edlund is the top choice to capture the singles position in the Region Eight meet on Saturday at Bemidji and gain the state tournament for the second straight year.

Three Swimming Classes Filled For This Summer

Three swimming classes which will be held this summer for all Thief River Falls school district children are already filled, according to Franklin junior high school swimming pool director, Dale Folger. There are still openings in five other classes. Filled for the summer are the minnows, sharks and beginners classes. There are openings in the advanced beginners, intermediates, swimmers, junior and senior livesaving classes.

Anyone interested in enrolling in the latter five classes is asked to contact Folger at 681-1012.

Students taking swimming lessons this summer should report to the Franklin junior high school swimming pool dressing rooms not earlier than 10 minutes before their scheduled lesson. They are also asked to bring a towel, bathing suit, a bathing cap (for girls) and leave all valuables at home.

The complete swimming schedule for use of the Franklin junior high school swimming pool for the summer is as follows: (Please clip and save as this will be the only time that the complete summer schedule will be published.)

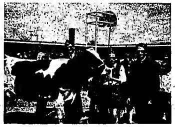
MEMBERS of the local FFA chapter who took part in the dairy demonstration at Washington Elementary school last week are from left to right, Don Johnsan, Bob Wold, Curtis Swanson, and Mike Swenson. The members were striving to impress upon the youngsters the important role the dairy industry plays as a major food producer, and to show them where these products actually originate.

BARRY HOGAN, chapter secretary and Region I sentinel, gives a helping hand to Kay Melvie, who is feeding milk to a small Holstein calf, as a part of the program the FFA chapter put on for the grade school children last week.



THIS HOLSTEIN cow played a major role in the program put on by the local FFA chapter last week, as they brought a cow and calf to school to stress to the youngsters the importance of the dairy industry and familiarize them with aspects of production, marketing, and processing. Pictured here are Bab Wold, chapter treasurer; Jodi Nelson, a student at the Washington school; and Mitch Kezar, Region I reporter, who also owns the cow and calf used in this demonstration.

Remind Veterans In Colleges To Return Cards

Veterans administration today urged veterans and servicemen now enrolled in Minnesota colleges and universities under the post-Korean GI bill to complete and return VA certification of attendance cards as soon as possible.

The certification was formerly required monthly for the veteran or serviceman to be paid his monthly VA educational assistance allowance. Now it is sent to college-level GI bill trainees only once during each enrollment period.

The veteran or serviceman is asked to indicate if there has been a change in his enrollment as shown on the card, or if he terminated enrollment. To help the VA anticipate his future educational assistance needs, he is also asked to check whether he will enroll in the same program and school for the next period.

On the back of the card is a reminder that if the veteran or serviceman fails to complete and return the card to the VA office indicated on the card he will receive no further payment from the VA.

Minnesota veterans who have questions relating to educational benefits under the GI bill should contact the VA center, St. Paul, or their county veterans service officer.

Largest cheese in the world, displayed at Neillsville, Wis., weighs 17½ tons, and took the production of 16,000 cows and 43 hours of continous manufacture. The cheese measures 6½ feet wide, 5½ feet high and 14½ feet long.

Taxpayers May Claim Losses in Flood This Year

Many taxpayer inquiries are being received in local revenue service offices on how to claim flood losses for federal tax refunds, according to George Lethert, IRS district director.

If you have a tax claim due to flood losses this spring, IRS suggests you file your amended return using Form 1040X.

Form 1040X allows taxpayers to correct only the item which was in error. A complete copy of the original return is not required. However, care should be exercised that all entries at the top of the form—name, address, social security number, marital status and other information—appear the same as on the original return, Lethert said.

Normally flood losses this year would be claimed on the 1969 return to be filed in 1970, Lethert said. Any taxpayers who sustained flood losses prior to April 15 can elect to claim the loss on the 1968 return to secure an earlier tax refund. Those who filed timely returns have until July 15 to amend their 1968 returns.

Forms 1040X can be obtained from any Internal revenue service office.

Vocational Schools In Minnesota Have Over 12,000 Enrolled

The 20 area vocational-technical schools in Minnesota now enroll over 12,000 full-time, post-high school students—a 30 per cent increase from last year, according to Duane J. Mattheis, state commissioner of education.

Figures for April show that 12,030 post-secondary students were enrolled at the schools—a jump for the 6,748 registered in September of 1967 and an increase of 629 from September, 1968 enrollments.

Enrollments at each school were as follows with September of 1967 and April of 1969 listed respectively:

Alexandria, 657 and 944; Anoka, 38 and 473; Austin, 327 and 370; Bemidji, 136 and 118; Brainerd, 153 and 235; Canby, 231 and 251; Detroit Lakes, 229 and 209; Duluth, 632 and 994; Eveleth, 106 and 123; Faribault, 222 and 316; Granite Falls, 187 and 244; Hibbing 166 and 205; Jackson, 362 and 436.

Also Mankato, 236 and 656; Minneapolis, 782 and 1,073; Moorhead, 244 and 321; Pine City, 134 and 106; Pipestone, 191 and 231; Rochester, 112 and 46; St. Cloud, 444 and 680; St. Paul, 1,458 and 1,888; Staples, 355 and 414; Thief River Falls, 280 and 379; Wadena 216 and 262; Willmar, 554 and 604; and Winona, 316 and 450.

The increase is due in part to the opening of two new area schools in Duluth and Mankato. In addition, the area school at Anoka, which operated on a limited basis in 1967-68, now has over 400 students. Area schools at Alexandria, Brainerd, Duluth, Faribault, Granite Falls, Minneapolis, St. Cloud, St. Paul, Thief River Falls and Winana had enrollment increases of over 25 per cent.

Vocational enrollment has increased over five-fold since 1961, when there were only 12 area schools. "The more new schools we build," Mattheis said, "the more interested people become in them."

Many schools must offer double shifts and evening classes to meet the demand. Robert P. Van Tries, assistant commissioner for vocational education, said, "Last year we had a utilization factor of 181 per cent in our area schools. Where we had room for 100 students, we were teaching 181 each day by using double shifts and evening classes."

The greatest need for facilities today is in the Twin Cities area. Forty-three per cent of the 18-21 age group is in the Twin Cities area, but only three of the 20 area schools are located there. Several groups of school districts, as well as individual districts, in the Twin Cities area are conducting studies and preparing proposals for vocational-technical schools in their communities.

Post-secondary training can mean good jobs for students who do not go on to college—and a recent U.S. office of education study showed that only 20 per cent of the high school graduates receive college degrees.

"Many students attend college and take courses they are not cut out for," said Van Tries. "Many people simply are not aware of the opportunities for vocationally educated students. All June 1968 graduates who were available for work found jobs. Starting salaries ranged from $350 to $700 a month. Our area schools offer courses leading to jobs in 149 occupational fields, so there is opportunity for people with many different interests and talents.

"Many more high school graduates could benefit from vocational courses and the needs of employers for these graduates continues to increase," he said.

Bank Debits Up 17 Per Cent in City for April

Bank debits in Thief River Falls during April showed an increase of 17 per cent from the same period a year ago, according to statistics released by the Federal Reserve bank of Minneapolis. In dollars, Thief River Falls bank debits volume during April was $14,965,000. In the same month of 1968, the total figure was $12,759,000.

Bank debits for the most part are checks against depositors' accounts and thus represent payments for such things as goods, services and debts. They also include all debits against checking accounts of individuals, partnerships and corporations, and of states and political subdivisions. They do not include debits to the accounts of other banks, the United States government and savings accounts.

Khapra Beetle Found on British Ship at Duluth

Confirmation of the presence of Khapra beetle on a British ship docked at the Port of Duluth and quarantine of the cargo was reported today by Commissioner Robert W. (Bob) Carlson of the Minnesota department of agriculture.

The Khapra beetle is generally regarded among the worlds most dangerous enemies of stored grain. In the Far East its depredations are considered to be a major economic factor in the reduction of food stocks in underdeveloped countries.

Commissioner Carlson stated that all precautions are being taken at the Port of Duluth to prevent any infestation establishment. The cargo of twine and wire has been placed in quarantine and will be fumigated. In addition, the entire area will be treated with a malathion application. The ship, the MV Duniemia of British registry, will depart for Detroit under quarantine for fumigation there.

Entomologists of the Minnesota department of agriculture state that the Khapra beetle is a persistent pest, difficult to eradicate or control. It is capable of very rapid reproduction. Infestations in southwestern United States have been effectively eradicated but at a considerable cost, since the eradication requires complete envelopment of infested structures in tarpaulins in the application of fumigation controls.

Commissioner Carlson stated that specimens of the Khapra beetle were intercepted during examination of the ship by port inspectors of the Minnesota department of agriculture and forwarded to the U.S.D.A. laboratory in Washington, D.C., for positive identification. Quarantine action was taken immediately upon confirmation of identification 25 hours after the specimens were dispatched to the laboratory. The cargo will be held until after fumigation and further inspection.

Before mechanical refrigeration was perfected in the latter part of the last century, melting ice was frequently used to cool sick rooms. President Garfield's sick room was made comfortable with an arrangement that used 436 pounds of ice per hour.

Save the Lakes Symposium Set At Detroit Lakes

A special "Save the Lakes" symposium for persons interested in preserving and improving the quality of Minnesota lakes will be held August 18-19 at Detroit Lakes high school.

The program will focus on lake pollution and eutrophication, what it is, what causes it, the technology needed and available to control it, and the type of community action that can and must be taken to achieve effective quality control.

Among the featured speakers for the two-day meeting are Minnesota Governor Harold LeVander; Gerard Rohlich, director of the eutrophication information center at the University of Wisconsin; Carl L. Klein, assistant secretary of the interior for water quality and research; and A. F. Bartsch of the federal water pollution control agency in Corvallis, Ore.

In addition to speeches and panel discussions, the program will include a tour of the Detroit Lakes area to show examples of eutrophication - pollution, and some of the things being done to control or prevent it. Highlight of the tour will be a look at the operation of a new lake weed cutting machine which is part of the research project being conducted at the Pelican river watershed district.

At the closing session of the symposium, State Senator Gordon Rosenmeier of Little Falls will discuss the legislative interest in Minnesota lakes. Also, Robert Irvine, Detroit Lakes, attorney for the sponsoring watershed district, will explain how action plans were developed in the Detroit Lakes area.

Registration will be limited to 350. A fee of $8 per person will cover conference materials and a copy of the published proceedings. A separate fee of $8 will cover the cost of two luncheons and one banquet. Registration will be accepted on a first-come, first-served basis.

Sponsoring the symposium are the Pelican river watershed district, Cormorant lakes watershed district, Minnesota water resources board, city of Detroit Lakes and the University of Minnesota through its agricultural extension service.

The average person consumes about 45 tons of food in his lifetime.

"I feel very safe and secure in our Maverick, little as it is. It really holds the road. My husband bought it for me as a shopping car, but every morning, he says, 'well I guess I'll take the Maverick to work today."
Mrs Kenneth Miller North Babylon, N.Y.

"I wanted a car and foreign cars are hard to fix. So my brother said Maverick was coming, and I waited. It's a great car to learn to drive with. You can park it and drive it so easily. I really love it."
Miss Susan Gere, Bronxville, New York

"We bought the Maverick as a second car when a tree fell on our import. Maverick handles better and feels solid and safe on the road. When I hit a bump in the other car it was like going over a mountain. Maverick really flattens them out and I'm getting 25 miles to the gallon."
Mr. Jack Orben, Computer Specialist, White Plains, New York

"Everybody keeps coming over to look at it. The other night three cars stopped. We thought we had company. Everyone in our neighborhood says for the price it's unbelievable. It looks like it cost much more."
Mrs. Robert J. Stalz, Oser Park, New York

FORD MAVERICK $1995*

*Manufacturer's suggested retail price for the car. Price does not include: white sidewall tires, $32.00; accent group, $39.00; dealer preparation charge, if any; transportation charges, state and local taxes.

"Bull's-eye!" The arrow flew straight to the heart of the target.

And so, straight to the heart of the matter fly the minds of young people today. In this age of advanced technology and far-flung communication, youngsters are better informed, geographically, politically, scientifically and economically than at any other time. No vague generalities, no sugar-coated probabilities will satisfy them. They want the facts and straight-to-the-point answers.

That's why your church recognizes the importance of having trained and devout leaders and teachers for its youth programs.

Graduation time salutes these people who give so much of their time and training to the Christian development of our children. Their dedication and devotion reflect their love of God in their ministry to the men and women of tomorrow.

"How is it that our memory is good enough to retain the least triviality that happens to us, and yet not good enough to recollect how often we have told it to the same person?" —La Rochefoucauld

A Time to Remember

Memorial Day, 1969, will be different this year than it was a year ago for many people across the United States. During the past year they have lost husbands, brothers, sons, fathers or sweethearts on the battlefields of a far-off war which they do not understand.

But while the cause may not be fully understood nor the path to victory entirely clear, death in the service of one's country must be accorded the highest tribute, the greatest honor, the deepest gratitude. To those who served their country and gave the supreme sacrifice, this nation owes a debt which can never be repaid.

So it has been over the years as the men of the United States have taken up arms to defend this land against those who would wage war against it. Always they have been successful, exhibiting a fighting spirit which is borne of love of country and typifies the purpose and resolve of the people of this nation.

It is truly fitting that on this Memorial Day we pause in tribute to the men who have sacrificed themselves so that their country may be the land of freedom and liberty, and that their families may continue to enjoy peace and security.

Let us make this Memorial Day a time of tribute. Fly your flag with pride and bow your head in humility. It is a time to remember.

Can Farmers Unite?

Division among farmers across the country—resulting from diverse methods of production and types of crops produced as well as an inherent attitude of independence—has thus far prevented the formation of a united front in bargaining for farm prices. The various agricultural organizations seek the same basic goal but in different manners.

Bob Graham, manager of PKM Electric cooperative at Warren, heads a business that is close to the farmer. The following thoughts which he expressed in the current issue of the PKM News should be of interest as a possible solution to the problem.

"The need for farmers to unite in common cause to solve the ills of agriculture has never been more urgent.

"Because of the long standing and widely divergent philosophical approaches to the problem of depressed farm prices assumed by the various farm organizations, it is naive to suppose that they will eliminate their individual identities in a common effort to arrive at a solution. Human nature being what it is, the existing power structure of leadership just simply would not permit this to happen. And perhaps over the long run this is as it should be.

"Recognizing this fact, the purpose of a united front on the part of farmers could perhaps best be achieved through a new vehicle, a United Farm Front Organization consisting of representatives of the leadership of all the present farm organizations, structured from local to national levels. It would bear the same relationship to its constituent organizations that co-op wholesale associations, like Minnkota or Midland, now have with their local co-ops.

"A possible bar to this approach would be the question of 'who is to be top dog?' Leaders of national prominence would perhaps be reluctant to assume a subordinate position to any of their confreres. This stumbling block might be circumvented through selection of a leadership committee comprised of the heads of each of the existing organizations. It would function like baseball where the club owners, which the public recognizes as the real power, meet from time to time behind the facade of a baseball commissioner who is a mere figurehead that keeps the office open and handles routine day to day affairs.

"Such an arrangement would preserve present organizations, yet provide a vehicle for dialogue that could lead to a compromise farm price solution program behind which farmers of all philosophies could be rallied through the medium of respective traditional organizations."

What Is An American?

We're quite sure that we have run the following description before, but the message bears repeating once in awhile just to help us maintain a proper perspective:

He is the fellow who yells for the government to balance the budget, then takes the last dime he has to make the down payment on a car.

He whips the enemy, then gives him the shirt off his back.

He yells for speed laws that will stop fast driving, then won't buy a car if it can't make 100 miles an hour.

He knows the line-up of every baseball team in the American and National Leagues—and does not know half the words of the "Star Spangled Banner."

He'll spend half a day looking for vitamin pills to make him live longer, then drive 90 miles an hour on slick pavement to make up for lost time.

He ties up his dog but lets his sixteen year old son do whatever he wants.

He will work hard on a farm so he can move into town where he can make more money so he can move back to the farm.

He couldn't fight his way out of a paper bag, but spends 20 bucks for ringside seats, and tells the professionals how to fight.

We're the country that has more food to eat than any other country in the world and more diets to keep us from eating.

We're the most ambitious people on earth, and we run from morning until midnight trying to keep our earning power up with our yearning power.

We're supposed to be the most civilized Christian nation on earth, but still can't deliver payrolls without an armored car.

But we're still pretty nice folks. Calling a person "A Real American" is the best compliment you can pay him. Most of the world is itching for what we have, but they'll never have it until they start scratching for it as an individual.

Ready to March

The following editorial appeared in the Long Prairie Leader:

Wanna join my protest march?

Grow a beard, don't wash or bathe, make some four-letter-word signs, wear grandmothers' round glasses, borrow your wife's wig and away we'll go. We'll march on St. Paul and Washington, smash windows, throw trash, use vile language, loot liquor, destroy property . . . and we'll probably get our way.

My march is to protest the Department of Taxation "establishment"!

We won't object to the amount of our tax . . . or how our tax money is used . . . or how it is misused . . . not this time!

We will merely ask our Congressmen why 381 super Americans managed to not pay a cent of income tax last year. Each one of them had an income above $100,000, but not a one paid a penny of federal income tax last April. Actually 21 of them had incomes of more than $1 million, but paid no income tax.

We will ask our Congressmen why the middle and lower income people have to pay up on time or go to jail. Are not the rich subject to our laws? If our laws are so unjust that they pertain only to certain unprivileged classes of people, then they should be changed . . . or why weren't they changed long ago? Did it take public disclosure to wake you up, Mr. Congressman? Is a wrong only wrong when the voters find out about it?

Our Congressmen in Washington will all agree with us when we march and publicly curse the "other party." They will fill the air with promises and thump their chests in indignation. They will denounce the rich and their lobbyists . . . before they join them at cocktails.

But we shall bust more windows, sling human increment at policemen, wave our arms and demonstrate when in television camera range, and our efforts shall be rewarded . . . because we will be unreasonable . . . and reason gets you nowhere with the "establishment" . . . only threats, and abuse, and publicity . . . especially publicity, because Washington fears the public may awake and start putting two and two together and getting four . . . and they might remember . . . not for long . . . but maybe until the next election . . . and an awakened public is bad for politics.

The aroused public might question the politicians' campaign speeches that all Democrats are bad . . . or that all Republicans are bad . . . the voter might decide instead that easily led, easily influenced, easily bought politicians who succumb to powerful groups or lobbyists are the real evils.

The awakened, aroused, remembering public may suddenly find there is a time for reason . . . at election time.

Mr. Congressman if your war in Vietnam is right for the ordinary people of America and not only for the big war manufacturers and the Pentagon generals and admirals, then we have no quarrel with our tax load. But patriotism should also move the 381 super rich to want to do their part.

So as of now, we of the midwest plains are tired of your babble which says nothing in a few million well-chosen words . . . of your bowing to public demonstrators who should be jailed . . . of your failure to keep a watchful eye on our money which we send to you in ever-increasing sums . . . of your subsidies to the rich and powerful so they become richer and more powerful . . . of your two sets of standards—one for the public and another for those with money and influence.

Mr. Congressman . . . this country is at war . . . this country is in the midst of its worst racial strife in history . . . this country faces run-away inflation . . . this country is "burning" like Nero's Rome . . . and you are fiddling!

TOPICS OF THE TIMES

Quite a few families in this area have received bad news from Vietnam during the past few years. For them Memorial Day Friday, May 30, will have special significance.

—0—

The state tax on cigarets has been raised four cents a pack to 12 cents, in addition to a stiff federal tax. It has got to a point where a man is smoking money rather than tobacco.

—0—

When you see a girl these days wearing a micro-miniskirt, it's hard to tell whether she is going to a party or to the swimming pool.

—0—

Property-owners here, as elsewhere, will have to dig deeper than ever to pay their real estate taxes which are due May 31.

—0—

Remember way back in a more stable era when you knew from one year to the next what your dollar would fetch in the way of goods and services.

—0—

The secretary of defense tells us that military costs won't come down when the Vietnam war is ended. Wonder how come?

—0—

In 1936, we read, the chemicals in the human body were worth 98 cents, while today they are worth $3.50. That shows what inflation will do for you.

—0—

The Minnesota Poll shows that slightly more than half of DFL voters now favor the sales tax, but party leaders continue to chide the Republicans for having enacted the law.

Letters to the Editor

To the Editor

I read your article called "The Poor Poor" and am again impressed with the fact that you lean heavy on the side of contempt for the less fortunate. You did concede that there are some "truly needy". With half the world going to bed hungry every night, I guess there must be some. Having grown up in Northern Minnesota, I'm only too well aware of how the ball bounces and I've never been on welfare. At the same time, I realize how fortunate I was to have been able to make my own way, since any kind of aid at all was handed out with a superiority that must have made the recipient feel that he'd almost rather starve. But hunger is the second greatest human need. Read "The Siege of Leningrad" to find out what people will do when hungry. So we swallow our pride.

At the same time up there, you have the rich getting rich, don't you, while the poor get poorer? And you're raising taxes all the time. There are very subtle ways of making a man who needs a job lose his job, and taking away from an ernest and hard working farmer, his little piece of land. He has chosen his way of providing for his family and like some of our Afro American friends, he doesn't need anything else but to be allowed to make his way in his own way without obstacles being put in his path.

Are you really charitable? Not so it hurts. No, you don't travel up there. You're afraid you'd find out what the world is really like, afraid to get outside of the comfortable groove you've made for yourselves. But you do have to send your boys to Vietnam. Consequently, the youth, the minority races, and the poor (most of them) seem to be the victims of our present society.

CAPITOL COMMENT

BY
MARTY MCGOWAN

Session of the legislature which just completed its biennial work Monday will not go down in history as one of the more notable sessions. This is probably because it didn't have any notable aims. It set out to hold the line and not increase taxes and with that basic goal in mind, it succeeded. Maybe that in itself ranks as a major accomplishment.

The session two years ago will be remembered as the one that enacted the sales tax. A session about 35 years ago will be remembered as the one that put through the state income tax. The session of 1959 still holds the record as the longest one ever. The recent session set no such major records.

On the other hand if one wants to consider the quantity of work—not the quality—there were some lesser records set by the 1969 session. There were more than 3,000 bills introduced in the house and about 2,700 introduced in the senate. This can be regarded as verification of Murphy's Law. That is the theory which holds that the work load will expand to fill the time and space available. So long as the legislature is in session bills will be introduced and in fact there were bills still coming in during the final days.

As for bills signed, that total was not available when this was written. The governor is still considering the bills enacted in the closing days. This total of bills signed can be misleading since there were many bills dealing with such things as the designation of hiking trails and the salary of the probate judge in Podunk county. These measures may be vital to the people involved but it does seem a less expensive way could be found to achieve these results—like handling such matters on the local level.

If one major accomplishment is to be found in the 1969 session, it would be the enactment of a metropolitan sanitary district, an agency with power to act to deal with the ever-pressing problem of disposing of the wastes of almost two million people. That is a matter which just had to be solved now.

If there is a great failure of the 1969 session it was the failure to do more in the way of tax relief or funding for the three major cities of the state. These cities are becoming populated by the poor and the elderly. Property values are declining in the rush to the suburbs and it is impossible to pile any greater tax load on the urban property owners. There is beginning to be grave doubt that such cities can govern themselves, that in time they may have to be taken over by larger operating units. The 1969 session did little to meet these problems.

Back in January the governor outlined a budget of nearly $2 billion and as it turned out that was what was enacted. The urgent needs of education, buildings, welfare and such matters were met to keep pace with the times, but no great push was made to get ahead of the times. The line was held and by dint of some fancy bookkeeping of shifting obligations into succeeding years, plus some increased taxes on luxuries of cigarettes, wine and liquor, the budget was said to be balanced.

Fortunately the legislature did not boost the salaries of members. The senate first proposed an increase of 75 per cent—as a coattail rider to increases for state officials—but the house, in a well-publicized display of righteous indignation by its leaders, rejected the idea. Such an increase would have been poorly received at this time. As one senator proclaimed, "The public wouldn't know or care that we raised the salary of the commissioner of securities to $19,000 but they would certainly know that we boosted our pay from $400 to $700 per month." How true. And if it had been enacted the public would not feel it would be getting any better service or better legislators for that increase.

So the legislators have dragged themselves home again, completely tired mentally and physically. It is hard work and they work hard at it, particularly at the end of the session. If the proposed constitutional amendment came out of the session to let the legislature spread its 120 days out over the two-year period—and the amendment is adopted by the people—this would be one small step to remove some of this last minute congestion and exhaustion and thus give Minnesotans more service for the money they are now paying their legislators.

It was good to have been with you in these columns for the past five months and possibly we can do it again in two years.

Camp Courage Open To Campers Starting June 15

"I've comped out. I've learned to swim, I've even learned to cook hamburgers!" Where do the handicapped make such discoveries?—at Camp Courage.

June 15 its doors will open to more than 800 physically handicapped, blind, and speech and hearing handicapped children and adults.

The camp, embarking on its 15th season, offers six sessions for the physically handicapped, to run concurrently with three sessions for speech and hearing handicapped youngsters. The physically handicapped unit represents nearly every major physical and visual handicap: cerebral palsy, muscular dystrophy, multiple sclerosis, arthritis, polio and those crippled from accidents and strokes.

Jim Olson, the camp's director and his staff have a full schedule of recreational activities planned for this summer. Campers may participate in swimming, canoeing, archery, nature crafts, nature study, overnight trips, cookouts, camp crafts, travel camps and a variety of other activities.

Progress at Camp Courage over the past year includes the completion of an additional cabin and a craft and nature building for speech and hearing handicapped children, an addition to the speech and hearing center, the acquisition of approximately 85 acres of additional farm land and lakeshore property and completion of an outdoor recreation area.

Camp Courage, Maple Lake, is owned and operated by the Minnesota Society for Crippled Children and Adults, Inc. (MiSCCA), a United Fund agency.

Campers Advised About Tents and Sleeping Bags

Many campers would like to know more about selecting equipment, but excitement in their upcoming adventure often keeps them from concentrating on sensible purchasing.

That's the opinion of Mrs. Edna Jordahl, extension home management specialist at the University of Minnesota, who points out that more than 50,000,000 people will do some camping this year.

Mrs. Jordahl gives some tips on selecting sleeping bags and tents, two items often purchased by campers.

Sleeping bags range in price from about $6 to $160. The frequency with which you intend to use the bags should help you decide the price you want to pay.

A good quality bag has an outer cover of sturdy army duck with a heavy-duty zipper which can be opened and closed from either the inside or the outside of the bag. The zipper runs along the lower edge as well as the length of the bag and can be opened so the bag lies flat.

Read the tag to find out the content of the filling. The warmest filling is 100 per cent goose or duck down. Next for warmth are fillings of polyester and acetate. Acrylic, wool and kapok are not as warm.

Be sure to check the length of the bag so it is comfortable for the user and long enough to cover neck and shoulders. For insulation between sleeping bag and ground and for comfort, you may also want to buy a sturdy rubberized air mattress.

If you are in the market for a tent, look for one that can be set up in less than five minutes, is light weight (50 pounds or less), waterproof, mildew-resistant and compact for storing. A sewed-in floor helps to keep equipment and supplies dry and keeps rodents and insects out. Both fabric and metal parts should be reinforced at strain points. Well made felled seams, screened doors and windows and easy sliding zippers are marks of good quality. Light-colored tents are likely to be cooler than tents in dark colors.

The umbrella-type frame from which the tent is hung is a favorite because of quick assembling. Tent prices will range from approximately $50 to $165.

GOODRIDGE SIXTH GRADE made its annual trip to Minneapolis and St. Paul recently. Pictured from left to right are front, Candace Wells, Vicki Johnsrud, Judy Srnsky, Ellen Sanders, Gilda Manderud, Llewelyn Troska, Dale Anderson, James Halvorson and Kendall Jenson; middle row, Mrs. Esther Whalen, sixth grade teacher, Francis Kotrba, Kathy Horachek, Sherry Johnsrud, Carol Zinter, Nancy Srnsky, Bernadette Sturre, Gail Srnsky, Danny Johnsrud, Mr. Henricksan, elementary principal, and Justin Dahlen, bus driver. In the bus are Paul Solberg, John Wayne, Gerald Johnsrud, Gene Marquis, Suzette Horachek and Carolyn Dahlen.

Goodridge Sixth Grade Takes Trip

Twenty-three students of the Goodridge elementary school sixth grade returned recently from a three day trip to points of interest in Minnesota.

Highlighting their trip was a visit to Minneapolis-St. Paul where they toured the Minnesota state capitol, historical society building, science museum and planetarium and other points of interest.

Evening recreation was provided by attending a major league baseball game between the Minnesota Twins and the Baltimore Orioles. The class also attended the Cinerama theater where they saw "Ice Station Zebra".

The trip is an annual event for the sixth grade as a culmination of the study of Minnesota history, with most of the expense money raised by the members of the class.

Accompanying this year's class, besides their teacher, Mrs. Ester Whalen, were Mr. Henrickson, Goodridge elementary principal, Mrs. Robert Johnsrud and Justin Dahlen, the bus driver.

Students making the trip this year included Dale Anderson, Carolyn Dahlen, James Halvorson, Kathy Horachek, Suzette Horachek, Kendall Jenson, Danny Johnsrud, Gerald Johnsrud, Sherry Johnsrud, Vicki Johnsrud, Francis Kotrbo, Gilda Manderud, Gene Marquis, Ellen Sanders, Paul Solberg, Judy Srnsky, Nancy Srnsky, Bernadette Sturre, Gail Sunsdahl, Llewelyn Troska, John Wayne, Carol Zinter and Candace Wells.

Some of the comments the students made about the trip are as follows:

"I though the baseball game was best of all," Danny and Jim; "I liked the Planetarium best, because it was amazing how real the stars looked," Kendall; "The three things I thought were best were 'Ice Station Zebra', the baseball game and the capital building," Paul; "The most fun was the zoo at Como Park," Sherry, "I liked the St. Paul science museum and art center best because I think I learned the most there and it was interesting," Bernadette; "The most outstanding and educational thing was the Capitol. It is very beautiful," Ellen; "I think the movie 'Ice Station Zebra' was the best", John; "The baseball game and the movie weee best," Gerald; "The capital was the best because we learned a lot about government there," Suzette and Gilda; "People say our capital is the most beautiful of all state capitols and I agree with them". Frances and Carolyn; "I think the capital was the most memorable because it showed us so many different building stones, and because of the Quadriga," Llewelyn.

Former Resident Receives $1,000 Teaching Award

Dr. Arlette I. Rasmussen, daughter of Mr. and Mrs. Werner Rasmussen, former residents of Thief River Falls and currently of Flossmoor, Ill., was among six instructors at the University of Delaware who were awarded the excellence in teaching award recently. Each award was in the amount of $1,000.

Dr. Rasmussen joined the Delaware faculty in 1961 as an assistant professor in the college of home economics. She received her undergraduate degree from Northwestern university. In 1958 she was awarded her master's degree and in 1961 she received her Ph.D. from the University of Wisconsin, where she was a research assistant.

The awards this year honored tenured faculty members who excelled in teaching. Nominations were invited from students, faculty and the administration.

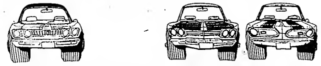
Why is a GTX priced $260.00 more than a GTO?
Because it carries
*$420.82 more equipment.

The Fearsome Foursome.



Our GTX comes with standard performance equipment like automatic transmission. Heavy-duty springs and shocks. And exhaust extensions. All of which are extra-cost options on GTO.

But here's the real clincher for Supercar buffs: GTX is powered by a standard 440-cubic, 375-hp V-8. (You can't get an engine that big for a GTO no matter what you do.) Then, if you decide to take a shot at sanctioned racing, you can arm a GTX with the ultimate power plant—the 425-hp Hemi.

Some other crucial differences. GTX is built on a 116" wheelbase, has 11" heavy-duty brakes and front torsion-bar suspension. GTO has only a 112" wheelbase, 9½" brakes, and still rides on bouncy coil springs.

All of which should tell you why GTX costs a bit more than GTO. And what we mean by Fearsome Foursome. (Besides GTX, there's the 340-cubic 'Cuda, Top Stock Eliminator at the '69 Winternationals. Road Runner, Motor Trend's "Car of the Year." And Sport Fury, with all the way up to a 440 cu. in. V-8.)

The Fearsome Foursome. Four cars that don't fool around. But if you're serious about owning an out-and-out Supercar, so are we—about giving Superdeals. We're ready to prove it. Anytime.

AN EARLY MORNING FIRE destroyed a portion of the rear of the A & W Drive-In in Thief River Falls Saturday and caused extensive smoke damage to the remainder of the business. Robert Ohlhauser, owner of the drive-in, stated that neighbors noticed the fire and called about 5:30 a.m. He said it would be an estimated two weeks before the drive-in would be able to reopen for business, and that announcement of the reopening would be made later. The above photo shows the kitchen of the drive-in, adjacent to the back room where the fire started near a clothes washer and dryer.

Youths Honored For Heroism in Flood Near Huot

Willord Brunelle presented a plaque Saturday evening to the young students of Red Lake Falls who aided in the rescue of the Brunelle family April 10. In making the presentation, Brunelle read from the inscription:

"To the following boys for their heroic action in saving my family and parents from the flash flood on April 10, 1969:

"Jim Hoflus, John Brummer, Scott Brummer, Dean LaChance, Allen Page, Mike Toulouse, Mike Altepeter, Rickey Altepeter, Clyde Fering, Rodney Fering, Bob St. Marie, Doug Kees, Mike LaCoursiere, John Harren, Denny Juhl.

"Presented by Willard Brunelle."

The plaque will be on display at Lafayette high school—a tribute and reminder of the courage and heroic actions of the group of boys who were present at the Robert Larson farm home and prevented great tragedy when water and ice of the Red Lake river broke through the dikes and flooded the area near Huot.

Entertained at a dinner at the Legion club on Saturday, May 24, when the presentation was made, were the young students, and Mr. and Mrs. Robert Larson and son, Drew, Mr. and Mrs. Lawrence Goulet, Mr. and Mrs. Albert Gervais Jr., and Mr. and Mrs. Brent Larson, guests of Mr. and Mrs. Willord Brunelle and Mr. and Mrs. Joseph Brunelle.

PRINCESS CANDIDATES for Pennington county's entries in Northwest Dairy day [illegible] honored guests at a dinner following judging Saturday evening. Left to right are Karen Bendickson, 18, daughter of Mr. and Mrs. Henry Bendickson, Goodridge; Susie Kleinvachter, 17, daughter of Mr. and Mrs. Adolph Kleinvachter, TRF; Grace Dalager, 17, daughter of Mr. and Mrs. Horace Dalager, St. Hilaire; Judy Aandal, 17, daughter of Mr. and Mrs. Raymond Aandal, Goodridge; and Barbara Breiland, 18, daughter of Mr. and Mrs. Tim Breiland, TRF. Misses Bendickson, Kleinvachter and Breiland were named to compete in the Region One contest at Northwest Dairy day.

Many Entries Noted for Annual Dairy Day Event

FOUR-YEAR SCHOLARSHIP to the University of Minnesota under the Reserve Officers Training corps program was presented Thursday morning to Richard Habedank, son of Mr. and Mrs. Kenneth Habedank of Thief River Falls and member of the 1969 graduating class at Lincoln high school. The full scholarship includes all fees, books and tuition for four years of college training. Making the presentation at special awards ceremonies was Col. Brummer of the ROTC instructional staff at the university.

With only a week remaining until the 20th annual Northwest Dairy day, all indications point to another year of good participation and a successful show, according to Merle Smith, secretary of the sponsoring Northwest Dairy Improvement association.

As of Saturday, 157 entries had been received for the dairy cattle show and late entries this week are expected to push the total near or over the 200 mark. Quality of cattle entered in the show has improved over the years since the first dairy day was held in Thief River Falls, reports Stuart McLeod, association president, and quality is expected to be high again this year.

Included in the day's activities next Tuesday, June 10, will be the Region One Dairy Princess contest, a preliminary to selection of Minnesota's Princess Kay of the Milky Way at the state fair this fall. Candidates for the honor will compete at dairy day and will represent each of the 11 counties in the region.

Pennington county held its contest Saturday at the Pennington county courthouse in Thief River Falls and selected three finalists from among five candidates. Advancing to Region One competition will be Karen Bendickson, 18, daughter of Mr. and Mrs. Henry Bendickson, Goodridge; Barbara Breiland, 18, daughter of Mr. and Mrs. Tim Breiland, Thief River Falls; and Susie Kleinvachter, 17, daughter of Mr. and Mrs. Adolph Kleinvachter of Thief River Falls.

Judges for the contest were Mr. and Mrs. Conrad Swanson and Mr. and Mrs. Harold Rosendahl of Ada. Following the contest, the contestants were guests of honor at a dinner held at the Hi-Bi Drive-In banquet room.

Other counties in ADA region one have also been holding princess contests and finalists will be announced in a later edition of the Times. Counties included in the region are Beltrami, Clearwater, Polk, Kittson, Lake of the Woods, Mahnomen, Marshall, Norman, Pennington, Red Lake and Roseau. Polk county is divided into East Polk and West Polk for the princess contest and dairy show, since the two portions of the county are served by county extension offices in Crookston and Fosston.

Current plans are to hold the dairy show in the city parking lot just west of Knight avenue between Second and Third streets. If weather is threatening early in the morning, the event will be moved to the livestock pavilion at the Pennington county fairgrounds.

Special awards and prizes will be provided to contestants in the dairy show again this year, with recognition to be made of a former Dairy day participant who is now actively engaged in dairy farming. In commemoration of the 20th annual event, a special dinner for persons connected with the event over the years will be held on Monday evening.

Northland 'Coffee House' Concert Set on Thursday

Northland state junior college choir and band will present their annual "Coffee House" concert Thursday evening in the Thief River Falls city auditorium on Thursday at 8 p.m. The choir is under the direction of David Morken and the band is directed by James Solsten.

Choir numbers include "Good Night" by Robert Schumann; "The First Kiss" by Johannes Brahms; "Happiness" by Franz Schubert; "The Dance" by Schubert; "A Place in the Sun, arranged by William Simon with lyrics by Ronald Miller and music by Bryan Wells; "Breathe Into Our Souls" by Austin C. Lovelace, "The River" by Calibi-Mogol; "George M" (choral overture) by George M. Cohen; and "Be Thou My Vision", arranged by Carlton Young.

Guitarist will be Milton Yergens with Barbara Hamerback playing flute accompaniment and Donnie Bengston as pianist for the choir. A boys' quartet will sing "Dry Bones" and "Viva L'Amour".

Band numbers will include "Sunday Morning" by Neal Hefti; "This Guy's In Love With You" by Burt Bacharach; "Promises, Promises" by Bacharach; "Garbage" by Jerry Herman; "Do You Know the Way" by David Bacharach; and "Let It Go" by Hale Rood.

The public is invited to attend the concert with refreshments to be served.

THREE MEMBERS of the cast for the play "John Brown's Body", which is being presented Thursday at 8 p.m. in the Lincoln high school auditorium by Northland State Junior college are, left to right, Darlene Finstad, Sharon Erickson and Wayne Martinson.

Joan Lundquist Is Marshall Co. Dairy Princess

Marshall county dairy princess contest was held May 24 at the Middle River high school. Named as Marshall county dairy princess was Joan Lundquist, daughter of Mr. and Mrs. Milton Lundquist, Middle River. She and her two attendants, Leola Chapman, daughter of Mr. and Mrs. Ray Chapman of Newfolden, and Karen Wagner, daughter of Mr. and Mrs. John Wagner of Middle River, will move into competition for the Region One Dairy Princess title at Thief River Falls on June 10.

Seven Marshall county girls from dairy farms in that area were entered in the Marshall county dairy princess contest. Others in the contest were Sally Tanner and Carolyn and Catherine Gusa, Middle River, and Dianna Gast, Argyle.

Jaycees To Meet Tuesday Night

Thief River Falls Jaycees will hold their regular meeting on Tuesday at the Elks club rooms beginning with a social hour at 6:30 p.m. Supper is scheduled for 7 p.m. with the meeting to follow at 7:30 p.m. All Jaycees and their guests are asked to attend this meeting.

Store in Gatzke Is Burglarized

Mrs. Ingeborg Loven, who recently took over management of the Gatzke store, reports that burglars entered her store May 25 through a window in the living quarters at the rear of the building. Mrs. Laven does not live in these rooms.

The entire stock of cigarettes was taken. The thieves, apparently in search of money, had opened and ransacked drawers. Missing was the steel file cabinet which contained all records of sales and accounts.

Last Monday afternoon Larry Dahl discovered the missing file cabinet in the ditch between Middle River and Gatzke. The box had been pried open and its contents left intact. Papers, however, were water soaked. Mrs. Loven, grateful for the return, has been busy trying to dry things out.

Marshall county Sheriff Oscar Erickson is investigating the case. It is reported that a similar robbery occurred at Fourtown on the same night.

Legion To Elect New Officers

Monthly meeting of American Legion Post 117 will be held in the Legion club rooms at 8 p.m. Tuesday. Special business includes the election and installation of officers, along with regular business.

Commander Allen Paulson urges that all members be in attendance.

Cuppett Presides At Legion Event

Golden anniversary of the founding of the American Legion will be noted by the 9th District Legion and auxiliary members attending the annual district convention at Mahnomen, Friday and Saturday.

Over 400 Legion and auxiliary delegates are expected to attend sessions which will be conducted by James Cuppett, Thief River Falls, 9th District Legion commander, and Mrs. Olger E. Olson, Warren, 9th District Legion auxiliary president. Large delegations will attend the convention from Thief River Falls Post 117 and auxiliary.

Two special events during the convention are of interest to the general public, which is invited to be on hand to participate. Traditional memorial services will be held Friday at 7 p.m., on the Mahnomen county courthouse lawn. The services will be preceded by a short parade of participating units.

Always a convention highlight is the grand convention parade, slated for Saturday at 4:30 p.m. Nearly 50 units are booked for this year's parade, including bands from Fertile, Waubun, Gary, Mahnomen and the 9th District Legion Band. Also taking part will be the Thief River Falls Bridgettes.

The parade will also feature the Crookston 40 & 8 Locomotive, antique fire engines from Gary and Mahnomen and a number of pioneer automobiles. The parade route will extend the length of the Mahnomen Main street and no parking will be permitted on this street from 3:30 to 5:30 p.m.

James Cuppett

Folks planning to be on hand for the parade are advised that there will be ample parking on side streets and in special parking lots. The parade assembly area will be in the parking lot south of the Mahnomen school. A review stand for dignitaries will be

Oklee Mfg. Co. Expands To Use Trail Building

Oklee Manufacturing company has announced tentative plans by the Trail village council to remodel the former freezer plant for use by OMC.

Wally Groberg, OMC president, said operations would start on Monday, June 10, with five sewing machines and a payroll of six to eight employees. He said indications were that there would be two four-hour shifts to accommodate local arrangements of providing part time employment for the ladies in Trail. Art Weberg was active in working out plans for Trail.

Applications for work will be received at a meeting to be announced for the week of June 9, but those interested may also see Mrs. Parsley at the Oklee plant any time prior to June 9.

Building Permits Up To $619,000

Building permits issued in Thief River Falls during April for new buildings and repairs and alterations were valued at $515,000, according to the Federal reserve bank of Minneapolis. This was an increase from $421,000 for permits issued during April of 1968. The cumulative valuation for 1969 is $619,000 as compared with $567,000 in 1968.

Lifeguard Serves At Beach . . . To Stop Swimming

A lifeguard has been placed at Tindolph beach in Thief River Falls, according to Mike Mongoven, city parks and recreation director. Purpose of the lifeguard is not to be on guard while swimmers are in the water but to keep them out of the water.

Because the river is lower than normal by two feet due to drawdown for building by Northwestern hospital, youngsters are able to walk three-fourths of the way across the Red Lake river—before they hit an eight-foot drop-off. The younger children think it is great fun to accomplish this feat, but there reportedly have been four youths who have been near drowning in the past week because they hit this drop off and couldn't swim.

Parents are asked to keep their children away from the river, especially if there are no older youths or adults with them to supervise, Mongoven said.

The guard at the beach is there for one purpose—to keep children from a possible tragedy. Help of parents is also being sought to keep the children away from this dangerous situation until the lifeguards are on duty and the pool is open and marked for public use.

Brooks School To Consolidate With Oklee Dist.

Voters from the approved plat of school district 626, Brooks, voted 42 to 40 for consolidation with Independent school district 627 of Oklee at the special election was held Thursday, May 22, at Brooks, and called by Edward Arntson, Red Lake county school administrator.

Sidney Myhre and Vern Felling were elected at Brooks to serve on the board of Independent School District 626 at the election held Tuesday, May 20. Myhre received 108 votes, Felling 101.

They succeed John Reinbold and Frederick Berberick who had not filed for reelection, and will serve a term of three years.

Weekend Gives Soggy Holiday

Residents in the area suffered through a rather damp Memorial Day weekend, as Thief River Falls received 1¾ inches of precipitation from Saturday through Monday.

The moisture was well distributed over the soggy holiday as .31 inch was recorded on Friday, with .16 on Saturday and 1.15 inches recorded on Sunday. Precipitation for Monday was .11 inches.

Marilyn Joy Sabo Speaks Vows at LaPort City, Iowa

Vows were spoken at Trinity American Lutheran church in Waterloo, Iowa on Saturday, May 24 by Miss Marilyn Joy Sabo and Ronald L. Edsill of LaPort City, Iowa.

The bride is a daughter of Nels Sabo and Mrs. Helen Sabo, former residents of this community.

For her wedding the bride chose a floor-length gown of imported organza styled with long tapered sleeves enhanced with an insert of Chantilly lace. Matching lace formed the mandarin collar and flowed down over the fitted bodice. Similar lace motifs were scattered across the front of the A-line skirt. Forming back interest was a train attached at the shoulders with a self bow, flowing into a full length chapel sweep. Her bouffant veil of pure silk English illusion was caught to a lace petal headpiece re-embroidered with crystals and seed pearls. She carried a cascading bouquet of mint green carnations, miniature roses and twining ivy. Tucked in her bouquet was her going away corsage composed of miniature pink and red roses.

Miss Avis Sabo, a sister of the bride, was maid of honor. Bridesmaids were Linda Sabo, another sister, and Kathy Edsill, a sister of the groom. Kimberly Kay Linnenkamp, a niece of the bride, served as flower girl. All wore identically styled gowns of mint green brocade designed with matching silk illusion act sleeves and flowing trains. Brocaded headpieces held their mint green veils and each carried a bouquet of mint green carnations.

Friends of the groom served as best man and groomsmen. Danny Ziegler, a nephew of the bride, was ring bearer. Ushers were Ron Ziegler and Ben Linnenkamp, brothers-in-law of the bride. The men of the wedding party, together with the fathers of the bride and groom, were attired in black tuxedos with white carnation boutonnieres.

For her daughter's wedding, Mrs. Sabo wore a mint green crepe dress topped by a matching lace coat. White accessories and a corsage of mint green carnations and roses completed her attire. The mother of the groom wore a dress in a darker shade of green with seed pearl embroidery, complemented by white accessories. Her corsage was identical to the one worn by the mother of the bride. Similar corsages were presented to the grandmother of the bride, Mrs. Inga Sabo of Rosewood, and the grandmother of the groom, Mrs. Luverne Clark. Both wore knit dresses in shades of mint green.

A reception followed with employees of Baldwins Beauty Salon, where the bride is employed, assisting with the various duties. Serving the reception were members of her mother's church circle.

Among the 175 guests in attendance were relatives and friends from Thief River Falls, Forest Lake and White Bear Lake; Rock Island, Ill., New Hampton, Fredricksburg, Charles City, Cedar Falls, Jesup, Gilbertville and LaPort City, Iowa.

Following the reception, Mr. and Mrs. Edsill left for a wedding trip to the Lake of the Ozarks.

KITCHEN KARNIVAL

Features from the Kitchen of

Mrs. Leonard Melin
rural St. Hilaire

Two recipes were contributed recently by Mrs. Leonard Melin. The first one appeared in last week's Kitchen Karnival. Today's, for a molded Cranberry salad, is very suitable for an afternoon or evening social event.

Molded Cranberry Salad

- 1 lb. can cranberry sauce
- 1 cup sour cream
- dash of salt
- 1 cup diced marshmallows
- 1 tablespoon plain gelatin
- ½ cup juice from canned plums
- ¾ cup canned Italian plums, diced and drained
- ½ cup diced celery
- ¼ cup chopped walnuts

Method: Beat cranberry sauce, sour cream and salt. Add marshmallows. Soften gelatin in plum juice and dissolve by placing over hot water. Add to cranberry-cream mixture. Chill till partially thickened. Fold in plums, celery and walnuts. Pour into individual molds and chill till firm.

Since last week's Kitchen Karnival carried the information about the contributor, I am sharing with you a recipe from my personal file. It is for Rhubarb Sauce. Served warm, it is a perfect topping for ice cream. It can also be used as a topping for a fresh unfrosted cake or eaten plain with cream.

Rhubarb Sauce

- 2 tablespoons quick-cooking tapioca
- ¾ cup boiling water
- ¾ cups sugar
- ⅛ teaspoon salt
- ¼ cups diced rhubarb
- ½ teaspoon vanilla or grated orange rind (optional)

Method: Combine tapioca, water, sugar and salt in top of double boiler. Cook until tapioca is clear, stirring frequently. Add rhubarb, cover and continue cooking until rhubarb is tender. Add flavoring and cool slightly.

State DFL Chairman Blasts Legislature

State DFL chairman Warren Spannaus has called the 1969 session of the Minnesota Legislature "the least productive and the most self-serving session in recent memory."

At a news conference today called to give his first over-all assessment of the recently-adjourned Legislature, the DFL chairman said, "It can't be said that anyone in Minnesota is significantly better off as a result of this session except a few special interests.

"In essence, it was a do-nothing session presided over by a do-nothing Legislature and a do-nothing governor.

"The lawmakers completely failed to face up to the most serious and most pressing problems confronting Minnesota. In fact, I challenge the Republican leadership, who must accept responsibility for this dismal session, to point to a single measure of major statewide importance that resulted from these past five months.

"Certainly it can't be in the area of aid to elementary and secondary education, where the state is still paying less than half the cost of operating local schools and where they made only a token effort to help distressed school districts.

"Certainly it can't be in the area of financial assistance to municipalities—probably the single most important problem in the state and the Legislature's biggest failure—where the lawmakers forced the cities to raise even higher the already over-burdened property taxes.

"Certainly it can't be in the area of helping rural Minnesota, where nothing of any significance was enacted and where the Legislature failed to take even the smallest step against corporate farming.

"Certainly it can't be in the area of higher education, where they granted the University of Minnesota and the state colleges $63 million less than what the institutions requested and where they forced substantial tuition increases in both systems.

"Certainly it can't be in the area of crime control, where Minnesota remains one of only two states without statewide control of the purchase and carrying of firearms.

"Certainly it can't be in the area of tax equity, where no effort was made to correct the serious injustices of the 1967 sales tax law, particularly the huge and unlimited tax relief granted to large businesses at the expense of the average taxpayer.

"Certainly it can't be in the area of fiscal responsibility, where the lawmakers enacted the 'LeVander shift' of $98 million and thus laid the groundwork for a major fiscal crisis in 1971.

"Certainly it can't be in the area of traffic safety, where the proposals for motor vehicle inspection and driver re-examination were ignominiously rejected.

"Nor did the governor's program, such as it was, fare any better. The only proposals with which LeVander was closely identified were state government reorganization and the 'crystal waters' bill, and even those came through only after they were badly emasculated and hardly recognizeable. Reorganization, in fact, had strong DFL support and yet the governor couldn't get more than half his program through.

"It's nothing short of incredible that a governor whose own party controls both houses by solid majorities can present such a minimal legislative program, and even then, through his own timidity and inaction, see so little of it become enacted.

"What, then, did the legislators do for five months? It's true that they did manage to remove the limitations on their own per diem expense accounts, and they did manage to vote a 60 percent increase in their own pension benefits. They would have given themselves a healthy salary boost, too, but saner heads prevailed.

"And they managed to apply a double standard in disposing of two election contests. Without hesitating a moment in unseating a challenged DFLer, the House whitewashed a case involving a Republican and thus showed that neither integrity nor consistency were among this Legislature's strong points.

"There were, of course, some solid accomplishments coming from this session, but these were not among the state's top priorities and for the most part they were long overdue. For example, the lawmakers approved a lowering of the voting age, a suspension of the minimum-price liquor law, a strengthening of the Human Rights Department and a number of important Metropolitan Council measures, especially the sewer bill. They failed again, however, to make the Council's members elective rather than appointive.

"Even in areas crying out for relief, such as the Iron Range tax situation, the Legislature was moved to act only grudgingly and under great pressure. In this case it took two marches on the Capitol and DFL vows to make it a major campaign issue to get the Republicans off dead center.

"In short, the GOP accomplishments of this session were few and secondary while their failures were many and legion.

"While our schools deteriorated, the Republicans fiddled their thumbs. While our cities desperately sought new revenues, they procrastinated. While taxpayers cried out for tax equity, they looked for excuses not to act.

"The Republicans have controlled the Legislature and the governor's office for two sessions now, and yet it can't be said that any group of citizens or any area of state concern has benefited in a meaningful way from their tenure. No one, that is, except some special interests, and I plan to have a great deal to say about that in the very near future.

"Suffice it to say now that the Republican ranks were riddled with conflicts of interest, four of which came to light during this session alone but with which the leadership failed to deal either with sanctions or with a code of ethics for legislators.

"What it all boils down to is that the Republicans have demonstrated they are incapable of governing Minnesota effectively and responsibly. It's time for a change. It's time for an end to one-party rule in Minnesota that is unresponsive to the needs of the people.

"This is the message the DFL plans to carry to every county in this state, and when the message is received and digested, I'm confident it will result in a complete repudiation of the do-nothing Republican governor and the do-nothing Republican Legislature."

Red Lake Falls Loses Service Of Ambulance

Red Lake Falls and surrounding area residents will be without ambulance service as the result of Ralph Petterson's decision to discontinue operation of the service.

A public meeting has been called for at the Red Lake Falls community hall for everyone in that community on June 3 at 8:30 p.m. Whether a private individual can incorporate the ambulance work into his regular job or if an organization of volunteers would be a possible answer must be resolved, reports the Red Lake Falls Gazette.

Petterson has offered his vehicle and equipment to be used until some arrangements for the purchase of the proper type of a multiple use unit equipped for emergencies can be made.

A certificate of completion of a Red Cross first aid course would probably be required of a volunteer or operator of the ambulance and a series of three classes will be offered in Red Lake Falls for men and women as soon as the class can be organized.

Every organization is asked to send a representative or a group to the meeting to ask questions or offer suggestions.

Hayes Lake Dam On Roseau River Given Approval

A $150,000 appropriation for a dam at Hayes Lake state park to create a major recreational water area has been recommended to the department of conservation by the 1969 Minnesota legislature.

Rep. Andrew Skaar, Thief River Falls, has announced that the Hayes Lake state park project was among those approved by the legislative building commission to receive top priority for park improvements during the 1969-71 biennium.

The dam project, which will span the north branch of the Roseau river, will create a man-made lake of about 180 acres, with an average depth of from 10 to 12 feet. The dam will be about 30 feet high and is to be constructed from earth fill and reinforced concrete to impound water upstream for approximately two miles, according to the lawmaker.

Skaar points out that the resulting man-made lake will provide opportunities for swimming, boating, water skiing and fishing in the state park that was created in 1967.

The lawmaker explained that capital improvement appropriations for the coming two years were allocated by the legislature in a lump sum to the commissioner of conservation to finance numerous projects. The legislative building commission recommended a total of over $2 million for capital improvements in state parks.

"The Hayes dam project is one of the top priority developments identified by both the legislative building commission and the department of conservation," Skaar explained.

State park capital improvements are financed by appropriations from the natural resources fund, state park permit receipts and the non-users highway tax receipts.

Of the $1,745,500 to be expended the coming two years to improve state parks, $300,000 will be derived from the non users fund, $445,500 from the permit fund and $1,000,000 from the natural resources fund.

The natural resources funds are provided by dedicated use of a one-cent per pack tax on cigarettes established in 1963 to accelerate the development of the state's natural and recreational resources.

'TWAS

A month before vacation
When I looked at my car,
The model was old and
Had been driven too far,
The inside was ripped,
The seat was all torn,
The brakes didn't work
And also the horn,
The windshield was busted
The old clutch was broke,
The gas line was clogged
And so was the choke.
I cried and I moaned
And started to cuss,
Something had to be done
About my old bus.
So I went to Tunberg's
And am now all aglow,
It like their ad said
I got more for my dough.
Now I laugh at the bumps
And get mileage galore,
My new car looks swell
And here's something more
Tunberg's sold me my car
On a long easy plan,
My payments are low,
I'm a happy man.
This vacation I'm driving

Armor the Answer?

The following editorial comment was written for publication in the May issue of the American Rifleman:

Violent crime centers in the big cities. The murder rate in communities above a quarter million population is almost exactly twice that of the Nation as a whole and nearly 4 times what it is in the suburbs, according to the FBI Uniform Crime Reports. Rape is twice as common and robbery 3 times as common in the larger cities as it is over the Nation.

Among the multitude of "solutions" offered is, of course, the banning of firearms. It is no solution at all. Even where it has been long attempted, as in New York City, knives, rocks, and other objects have been wielded with deadly success as substitutes for guns. Crime costs the Nation an estimated 21 billion dollars a year. (Statistical Abstract of the U.S., 1967).

So we offer here a solution to crime in the big cities. It may be costly, but it will not cost 21 billion dollars a year. It may be uncomfortable, but not nearly as uncomfortable as being hit over the head, stabbed, raped, or smashed by vandalizers of humanity. It has positive assets that deserve attention.

Let us suppose, in short, that we armor the populations of our large cities from head to foot. The advantages of such a plan under our present-day civilization are far more numerous than they ever were during the Middle Ages when tin suits were in high style.

Armor today, as used by some military and police, consists of plastics and synthetics and is far lighter and tougher than the riveted or linked ironware of earlier days. A head-to-foot suit, or "cap-a-pie" in knightly language, could be mass produced at not much more than a well-dressed urbanite spends for a couple of good suits or stylish gowns. Government subsidy, undoubtedly would be forthcoming for those who needed it, as it is for almost everything.

And look at the advantages! By installing small portable air-conditioners inside each suit of armor, nearly all the major problems of urban living, except cost, could be banished.

Air pollution wouldn't be a bother. The conditioner would filter it out.

Noise would cease to be a nagger with the helmet visor closed.

In case of nuclear war, danger from radiation would be minimized.

Would-be rapists would be totally frustrated, even more so than they were in the heyday of the chastity belt.

Pedestrian injuries, especially from small foreign cars, would be reduced.

The auto fatality rate, now 7 times the gun homicide rate, could be cut sharply if all motorists were fully armored.

Knives, the first or second choice of many big-city felons, would become virtually useless along with blackjacks, clubs, rocks, knucks, and other such weapons. Needless to say, the armor would turn most if not all bullets.

With the addition of a snorkel, flippers and flotation unit, a suit of armor would make it possible to swim once more in the polluted waters of our big harbors.

Another advantage: Think of the exercise to be derived from walking around in armor!

Are we joking about all this? Well, quite possibly. On the other hand, in our modern civilization there is much to be said for armor and we have just said it. We think it is every bit as logical as some arguments against guns.

Funny Money

John Pfund carried the following comment in his column, "Johnny On the Spot", in the Norman County Index at Ada:

Tax dollars are a special kind of money. They are easier-to-spend and harder to pay than any other kind. Tax dollars appear to be supplied free by the government, whereas it is easy to see that regular dollars come from work. Tax dollars have more people handling them, but fewer watching over them. They buy more things people don't want than regular money does, and they have a tendency to make regular dollars buy less of what people do want. Tax dollars are encouraged to go overseas, but regular dollars are told to stay home. Tax dollars hurt more people than they help. One would think they would go out of style, but each year there are more of them. Only a few people worry about tax dollars. Most are concerned. A friend of ours thinks it would help if every reference to sums collected and spent by government were made in terms of "tax dollars" (symbol T$). Perhaps it would also help if they were printed in blood red ink instead of green?

Borrowed Nonsense

The 10-year-old was asked to write a school paper on care of the teeth. He came up with these three basic rules: One. See your dentist at regular intervals. Two. Brush your teeth after every meal. Three. Watch out for shovers at the drinking fountain.

In Another's Words

Kenneth Fairbanks is an inmate of the state reformatory for men at St. Cloud. He apparently has been using some of his time there for deep thought, for his article in the prison's bi-weekly publication "The Pillar" shows a considerable amount of thought.

There is an overabundance of emphasis on "telling it like it is. Today's younger generation, and many spokesmen for minority groups, are constantly clamoring for someone to "tell it like it is". Well, Kenneth Fairbanks is "telling it like it is" in his article, but we doubt that it is the way that the vocal minorities would want to hear it.

"Most likely, when some people finish reading this article, they are going to call me a traitor to my people and other worse names, but that is just part of the game called life," he writes.

"I am an American Indian and proud of it. That is beside the point right now, because this is not going to be an article on how I am prejudiced against or how I haven't got the same chance as the white-man or how the white-man should pay me a million bucks for land that was taken for beads and trinkets," Fairbanks writes.

"This is going to be an article that in some soft-spoken words is going to try and tell the rest of my race and other minority races to get off their dead-ends and take advantage of what the so-called majority is offering.

"If every one of you sat down and read your history books of the world, you would find that the EDUCATED races were the ones that got ahead. The people that could drop their outmoded customs and pick up the ones that were to their advantage," he noted.

"Did you ever stop to think what this country would be like if the 'white race' wouldn't have brought their ideas and inventions along with them in the conquest of this (then) new world? Most likely we would still be running around with fur drawers and buckskin shoes, warring against our neighbors, just because we were raised to trust no member of a different tribe."

He goes on to tell of talent that he has seen in Indian children, and laments that they have failed to put that talent to use in earning a living in later years. Fairbanks says he has been in institutions for 20 out of his 26 years, and that his thinking had been that it was "....easier to go out and drink and steal from other people than to settle down to a good job, where you have to work for a good living".

"Now people can see where I have gotten from such ideas," he writes. "I am what I am, but I just hope that by this article I can get it across to someone out there that there is no need for a minority race. Read, study, and do, and you will find that instead of the minority you will be the majority and many, many people will look up to you. BE A HUMAN BEING!!!!"

He believes in Indians keeping their customs, but Fairbanks says the main thing in life is: In order to get ahead you have to get along. Then he concludes:

"The truth hurts, but the first thing that must be done is to QUIT going to the bars, QUIT wasting your money on unnecessary items when it could be used to feed, clothe and let your children be on equal terms with the rest of the children in school. Use your money on your houses, your land and the general improvement of your community. To learn correctly, the child must have good examples, and if all they see is drinking, fighting, and general laziness, then how in hell do you expect your children to be good in their manner of dress, habits and general behavior?

"I could go on and on, but I have found that the longer an article like this is the less it does. I would like to close with stressing the main point of this thing, and that is: To get ahead, get an EDUCATION!!"

Factless Fears

Fear that technology will take away jobs is not based on actual fact. The truth is that the "technological revolution" has created more jobs than it has eliminated.

People with a minimum of technical education can expect to earn as much, and pull as much weight, as the average college graduate when he starts out, reports the U.S. office of education. Many young people in today's world are better suited by education, interest and background to fill a role in the technological fields than those requiring a college degree.

The main problem today is finding people to fill technician's jobs. One out of three jobs available is currently unfilled, yet well over a million more will open in the next few years. The problem is very real for businessmen and the opportunity is great for our youngsters.

To get a copy of a new booklet called "25 Technical Careers You Can Learn in Two Years or Less", write to Careers, Washington, D.C. 20202. (Maybe you CAN get something for nothing.)

Books for Adults

Rally round, all you mystery fans' the super-sleuths of the Whodunit? brigade. "House Above Hollywood," by Velda Johnston is one of the usual good mysteries meriting the Red Badge of Mystery seals. Carol, the daughter of a literary great, sets out to learn why he committed suicide a decade previously.

She hires on as personal secretary to a has-been in the movie industry and the sense of forboding that permeates the book begins the moment she meets the "star boarder" at the former movie queen's home. (He is, she also learns, the woman's heir.) The thunder-clap finish, in which the searcher is the one sought in a frantic dodge and pursuit game on a rain-drenched California estate as the heir-to-be realizes the threat this secretary is to his financial future, assumes a fantastic pace before the climax. There is a rockslide during which Carol slides into the path of an onrushing car and enough hairbreadth escapes to satisfy the most avid thrill-seeker.

"Whose What?" you ask, with that puzzled come-again tone in your voice. Next time you come up against this sort of puzzle, come in and borrow the book by the same title, and settle the doubt. "It's a collection" by Dorothy Blumberg, and embodies most of the common expressions we so often hear but may not know the derivation of— things like Cleopatra's Needle, Calter's Hell, Coxey's Army, Dr. Eliot's Five Foot Shelf, Fulton's Folly, Martha's Vineyard, Poor Richard's Almanack, Diogenes' Lantern, St. Elmo's Fire and countless others.

Some have been absorbed into everyday usage, others are just used to fit particular situations like the original happening, place or thing. Either way, whenever you wonder how a certain expression got started, get your copy of "Whose What?" and help yourself to the answer.

Have you noticed the beautifully illustrated monthly magazine called "Civil War Times" just lately added to the magazine shelves? We are indeed indebted for this to Mrs. Hans Chommie, who has been donating it as a memorial to her late husband, whose hobby was Civil War material and writings. There are more facets to the Civil War than anyone would at first imagine. If you want to pursue this further, don't miss the copies of the magazine on the shelf reserved for those beginning with C.

Also, some of the library's collection of records are now ready for loaning out to anyone wanting to use them, on a seven-day basis. They're on the shelf near the charge-out desk. We invite you to check them out on your card, with the reminder that they should never be dropped in the book chute. You know what happens to records when books fall on them! We expect to have wear and tear take its toll of them in time, but to have one phased out because it was returned by way of the book chute would be a terrible waste of something good. The smorgasbord of titles suggests that any taste in music can be catered to.

Conjecture of the wildest kind is the mood of Superstoe, by William Borden. Superstoe decides that he is going to take over the government of this country, and manages to accomplish that objective in a highly unethical manner. We won't tell you any more than this about the plot, but suffice it to state that it wears the stamp of the highly unusual. Clever writing plus the improbability of the event's happening, yet the realization that it could happen, combined with an interesting bit of supposition that is both entertaining and a little disturbing.

I liked the crispness and aptness of the dialog especially well, and trust that you will also find much here to intrigue you. If you think that Superstoe is the answer to our country's dilemma, you may have supporters for your view. If you think not, perhaps the time has come for you to take more interest in what is happening. And me. And the rest of us, for it's our future that the Superstoes of the world are threatening.

Teenagers, "Eyes in the Fishbowl" is a neat and funny (in spots) story, when it isn't sentimental, which really isn't too often. The storyteller is a shoeshine boy who hangs around the ritzy Alcott-Simpson shop to get warm, to absorb the perfume of the place where the "other half" shops, to upgrade his clientele and therefore his take-home pay, and just to luxuriate in the atmosphere. One day the store detective walks up, looking as "neat and chummy as a penguin," and the bubble bursts in his face.

He tells of the many times that this detective has escorted him out of the place in times past, sort of bouncing him off a few walls along the way. But this time the detective was really on the trail of a girl shoplifter, and here is where the shoeshine-boy gets personally involved, and so does the story, which you're bound to like from the very beginning. Look for the red and purple jacket with the guitar-playing teenager on the front cover.

Juniors will like "Do Not Annoy the Indians," by Betty Baker. 'Way back when, in the long ago, it took a letter months to cross the country, and the trip bristled with danger, 13-year old Jeff was suddenly faced with being the man of the house and having part of the responsibility for getting the mail cross-country on time.

With hostile Indians, a bossy older sister and a younger brother who could be pulled through the window by Indians lurking outside, you have a notion of what it took just to face each day and live long enough to see nightfall. But, made of stern pioneer stuff, and equal to the worst that could happen, he manages to come out on the victory side of the battle zone and prove himself the hero of the day. And don't you like stories that end that way, after the cause seemed hopeless?

Little readers will all ask for "Mommies Are for Loving," by Ruth Penn, and all about the things that make Mommies and Daddies so special to kids. Daddies, for instance, are for saying: "I'm busy now. Later." or, "You heard your mother." or, "Isn't it time for you to go to bed?" But most of all Daddies, like Mommies, are for loving! As if you didn't already know all about that.

"Johnny and the Monarch" is a reading laboratory book, the story in beautiful color, of a little farm boy, his dog Duke and duck Dora, who find a monarch butterfly in the path one day. Later, the monarch laid a beautiful small green egg on a leaf and they all watched it until it hatched into a beautiful monarch butterfly. But the monarch soon flies off, and they all go home.

Dairy Month To Promote Health Of Dairy Foods

Minnesota dairy farmers, along with the entire dairy industry, are urged this month to begin the observance of the 33rd annual June Dairy Month promotion of milk and all other "Honest-To-Goodness" dairy products.

June has traditionally been the month set aside to make an all-out effort by the entire dairy industry to reach consumers and remind them of the nutritional value of real dairy products.

"Dairy farmers have realized the value of promotion and are increasing their support of a strong advertising-research program through their American Dairy association," states Cliff Markuson, manager of ADA of Minnesota.

The American Dairy association had its beginning right here in Minnesota with the prime purpose being the promotion of dairy products. The American Dairy association is really the dairy farmers' voice in the market places of America and is financed by the dairy farmers themselves.

"Dairy farmers are to be commended for their active interest and support in the job of selling their own products," Markuson said.

"The imitations have captured approximately 25 per cent of the market of dairy products and the dairy farmer thinks that this has gone just far enough," Markuson added.

"The dairy farmer is to be commended for providing us with the most nutritious, healthful and best food buy of any food known."

Actually it's a process computer, specially designed for Otter Tail, and considered to be one of the most advanced of its kind anywhere in the United States.
What does it do?
In the Dispatch Room at Otter Tail, this computer is programmed to read the "energy flows" on our tie lines and generators every two seconds, 24 hours a day, every day of the year.
This means that if trouble occurs anywhere in the system, the computer will diagnose it and institute corrective measures instantly. The dispatch computer is programmed to make decisions on the best source of supplying additional electric power to a trouble spot . . . and it adjusts Otter Tail generators accordingly, in any part of the system.
To you, as an Otter Tail customer, this means that you can rely upon the dependability of Otter Tail electric service more than ever before.

Johnson, Sullivan Pace Prowlers to District Title

Region Eight Tourney Begins Tues. at TRF

by Bob Wielinski
Times Sports Writer

For the second straight year, the Thief River Falls Prowler spring sport teams have made a clean sweep of all four District 31 titles. The last was the baseball title which they won on Friday night by stopping Fisher by a 13-2 score.

The district title was also the fourth in a row for coach Ralph Skay, who won the district title for the 13th time in 17 years as head coach of the Prowlers. In that period, however, the Prowlers have only won the Region Eight title three times.

The Prowlers will move into the Region Eight tournament, also scheduled for Thief River Falls, as was the District 31 tournament. The Regional tournament is expected to get under way tonight (Monday) if the diamond is dry enough to play the game, as the weekend rain has drenched the field. First round pairings for tonight's (Monday) games will find Bemidji, District 29 winners, meeting Ada, District 30 winners, at 6 p.m. In the second contest it will be the Prowlers of District 31 meeting Warroad, winners of the District 32 crown, at 8 p.m. The championship game is scheduled for 7 p.m. on Tuesday evening.

In Friday's District 31 championship game the Prowlers were paced by the hitting of Tony Johnson, who in five trips to the plate had four hits and eight runs batted in. Johnson had to share the hero's role on Friday night once again with one of the Prowler pitchers, as Dan Sullivan pitched a one-hitter and gave up two runs while striking out 13 and walking none as the junior lefthander evened his season record at 3-3.

The Prowlers opened the game in the top of the first inning as they scored twice. Leadoff batter Tim Duke doubled to right field, and Steve Daley reached first on a fielder's choice with Duke moving to third. Daley stole second and Johnson lined the first of two doubles to left field, scoring both Duke and Daley with the first two runs of the game.

The Prowlers added one run in the third inning as Duke, Daley and Johnson all singled and Tom Wurst drove in the third run as he drew a walk.

Fisher came back to cut the Prowler lead to 3-2 in the bottom of the third as Mark Kummer reached on an error by the Prowler rightfielder, Jerry Morben, and scored on Tim Wagner's single to center field. A throwing error on the part of Sullivan moved the runner to third and a wild pitch by Sullivan brought the run home.

The Prowlers added three runs in the fourth inning as Don Balmer singled and Duke reached first on an error by the first baseman. Daley was caught looking at a third strike for the second out of the inning; bringing up Johnson who hit a home run over the fence as the Prowlers upped their lead to 6-2.

Five runs in the fifth inning made it 11-2 in favor of the Prowlers as Morben singled, Sullivan reached on an error and Balmer doubled to left, scoring two more runs and bringing in a relief pitcher for the Flyers Pete Anderson. Ken Gunderson was greeted as Duke drove in Balmer with a single. He moved to third on Daley's single, and both scored once again as Johnson doubled to left field for his sixth and seventh runs batted in during the contest.

Gunderson retired the side in the sixth with Laren Haake coming in to pitch the seventh inning for Fisher. The Prowlers added two runs off him as Mike Hamerlinck, pinch hitting for Duke, walked, Daley doubled, moving Hamerlinck to third, and Johnson reached on a fielder's choice with Hamerlinck scoring. Daley was thrown out pitcher to home on the play. Johnson stole second and moved to third and came home on Fisher's catcher's throwing error which sailed to center field trying to catch the fleet-footed Johnson, as he came home on the play for the Prowler's 13th run of the game.

Bemidji Wins Region Eight Golf Crown

Bemidji captured the Region Eight golf title on Wednesday at the Walker country club at Walker. The Lumberjacks, as the result of their win, will send four players to the state tournament to be held June 6 at the University of Minnesota.

The 'Jacks, in individual placings, finished one, two and three with a player from Roseau fourth and Rob Womack of the Prowlers fifth in the individual standings. Womack will be entered in the state tournament also.

The Jacks finished with a 247 score, while the defending champion the Roseau Rams were second with 259, Thief River Falls was third with 264 and Ada finished fourth with a 276 stroke total.

Advancing into the state high school tournament will be Dave Sutton, Bemidji; Ed Demery, Bemidji; Jim Antos, Bemidji; John Harris, Roseau; Rob Womack, TRF; Greg Clausen, Crookston; Paul Hanson, Mahnomen; Mark Haluptzak, Bemidji; and Bob Lundbohm, Roseau.

Sutton was Region Eight medalist with an 81, with Demery finishing with an 82. Antos and Harris each had 84, while Womack and Clausen each fired an 85 and the other four all carded 86's.

Other Prowler scoring was from Tim Carlson, 89; Cal Wicklander, 90; and Jay Moum, 91.

Blackduck Man Spears Walleyes And Pays Fine

A Blackduck man has pled guilty to illegally possessing walleye pike following his arrest last month by state conservation officers. Glen Lutgen, 20, was arrested on April 26 at Castle creek in Itasca county with 155 walleyes he had speared during the spawning run.

Lutgen was fined $100 in court at Squaw lake and officers confiscated the fish, a spear and two spot lights. Lutgen has two previous convictions on game and fish law violations and once served 45 days in jail on a deer shining charge.

GOING OVER the high hurdles in the Region Eight track meet at Bemidji was Paul Hewitt, Park Rapids. Hewitt took first in the event with a time of 15.2 seconds. Rain and high winds hampered the meet throughout the day. Thief River Falls placed third in the meet behind Bemidji and Park Rapids. No Prowlers qualified for the state track meet which will be held this coming weekend in Minneapolis.

Bemidji Win Region Track Title; LHS 3rd

Thief River Falls Prowler track team finished third in the Region Eight track meet held at Bemidji on Saturday, as the meet was run in high winds with rain falling throughout most of the meet.

Bemidji won the Region Eight crown with 60 points, as the Park Rapids Panthers were second with 39 points and the Prowlers followed with 17½ points. Roseau was fourth with 13½ points, rounding out the top four places in the meet.

The Prowlers were unable to place anyone first or second in the meet and thus failed to get a man entered in the state track meet to be held in Minneapolis this coming weekend.

Rex Rugland and Richard Habedank were third and fourth in the 220 yard dash, while Rugland was fourth in the 100 yard dash. Ralph Swiek finished fourth in the high jump, while the Prowler 880 and mile relay teams both finished second in both events. Members of the 880 relay team were Jim Dee, Rugland, Bawman and Habedank, while the members of the mile relay team were Dee, Bawman, Randy Wentzel and Don Schindler.

Christian Bros. At Warroad To Build Addition

Christian Brothers, Inc., Warroad, announced recently that they will be increasing their present building by 100 by 125 feet, which will give the company some 12,500 feet of space to manufacture hockey sticks.

The new addition is being constructed by Prichard Brothers of Thief River Falls and will cost some $110,000, including equipment and building costs, according to Hal Bakke, company president.

The building now being used by the company has 2,400 feet of floor space. The building program will give the company more than five times the space it has now and will allow the addition of new machinery which will be increasingly necessary as the company grows.

Between eight and nine acres of land have been purchased by the company from Don Stoskopf and Ed Schille and the building will be built between Stoskopf's Readi-Mix and Eddie's cafe in Warroad.

Bakke, in talking of the company's future, added that the firm is putting out 400 sticks a day now and with the new building and additional help hopes to produce up to 2,000 sticks in an eight-hour day.

Peak employment for the company is 11 at the present time and it is expected that there will be jobs for 10 men full-time and five women full-time during the peak season. This estimate is based on a 40-hour week. "If sales in the next 60 days are as good as they have been during the last 60 we will have to go to a double shift to meet orders," Bakke said.

Christian Brothers corporation was founded in 1964 and has maintained a steady growth since that time.

The company started out in the back of the Lake of the Woods Dairy building, and later utilized the old drug store in Warroad for storage, wrapping and some assembly work. It has been in the former Milender body shop building for the past three years.

Shares in the company have been sold locally in Warroad up until the first of January and a new stock issue sold by brokers was entirely sold out. The sale of the stock has given the growing company working capital for the present expansion program.

Plans for the future of the company may include an expansion into hockey accessories, possibly next season, including hockey pucks and goal cages. The development of a hockey stick and equipment bag is also underway and a few have been sold, Bakke said.

Board of directors and officers of the company include Hal Bakke, president; Bill Christian, vice president; Roger Christian, treasurer; David O'Conner, secretary; and Ted Rowell Jr., director.

Stan Mikita, Chicago Blackhawks, is vice president in charge of product development for the company, and will be in Warroad in the latter part of June with his family.

Christian Brothers hockey sticks are now widely used by leading amateur and school teams throughout the midwest and in Canada. The complete stick line includes models in every price range and for all age groups. The new expansion of the company make its slogan, "Hockey Sticks by Hockey Players", even more widely known across the country and in Canada.

Detroit Lakes To Host Junior Golf Tournament

A junior golf tournament for boys up to 18 years of age will be held at Detroit Lakes June 7 and 8, with prospects of more than 100 entries from a three-state area.

It will be the third annual event of its kind sponsored by the Detroit Lakes junior chamber of commerce. All boys who will not have reached nineteen years of age by Sept. 1, 1969, are eligible to enter.

The championship flight will be limited to 16 players; all others will be eight players. The tournament will be limited to the first 120 entries. Entries should be mailed to Ford Hermanson, Tournament Chairman, Route 2, Detroit Lakes, Minnesota 56501.

Housing for all contestants who will remain in Detroit Lakes overnight will be provided in homes. The Saturday noon and evening meal are provided.

Three Clubs Share Trap League Lead

Three teams remained undefeated in the local trap league standings as the result of Monday night's shooting. They are the Pharmacy team, Jenson Mink Farm and the Trap Club, which just joined the league on Monday night.

Two more teams were added to the league this week, bringing the number of teams participating in trap shooting to 14. Besides the Trap Club, the other team that entered on Monday night was the Shrine club.

The Pharmacy team and Jenson Mink Farm ran their records to two straight wins and lead the league in team standings. The Jenson team edged the Lind Motor team by a 119-109 score. The Jenson team had one 25 recorded by Paul Larson, while Harold Cyr had a 23 with a one handicap for a 24 total. For the losers, Floyd Ball and Dick Bjorkman had 25's with their handicaps.

The Pharmacy scored a 108 to 97 win over the Mostue Floral club which was two men short and had to use two 15's for dummy scores. The Pharmacy was paced by Stub Pahlen and Jim Huseth with 25's while George Mostue paced his team with a 22 and five handicap for a 25.

The only actual 25 for the night and first of the season was scored by Bob Mattson of the Times team, which lost its second straight match this week, losing to the Union State Bank team by a 121 to 115 score.

Because of the addition of the two new teams, the schedule for the rest of the year will have to be re-drawn. Next week the Times hopes to have the schedule for the coming week along with the results and standings.

Team results are as follows:

WASH-A-RAMA washers with 22-pound capacity are included in the equipment at the all-new Brite Spot Launderette which is now open for business at the corner of Fourth street and Knight avenue in Thief River Falls. Mr. and Mrs. Stan Keller, owners, stated that the washers are designed to handle rugs, blankets, spreads, drapes and other heavy or bulky items. The Launderette will be open Monday through Saturday from 7 a.m. to 10 p.m. with Mr. and Mrs. Gene Sevre as attendants.

ASC Makes Changes In Farm Loan Plans

Changes in farm loan programs administered by the Agricultural Stabilization and Conservation Service have been announced by the Pennington county office. Service fees are increased for commodity price support loans and several provisions of the farm storage and drying equipment loan program have been revised.

Service fees for price support loans disbursed after May 31 on grains and similarly handled commodities will be $8 per loan on farm stored commodities and $4 per loan on warehouse-stored commodities, according to Wallace Sparby, local office manager. This is a $4 increase for the on-farm crop loans and a $2 increase for the warehouse loans. Service fees are intended to cover administrative costs of county ASCS offices for processing loans. No increase in service fees had been made for several years.

The interest rate on commodity price-support loans remains unchanged at approximately 3½ per cent. While this is less than the government pays for interest, any increase would tend to be self-defeating, in reducing government costs, USDA officials said. An increase would tend to discourage redemption of loans on commodities. This, in turn, would increase CCC's loan and investment costs.

However, an increase in interest on farm storage and drying equipment loans is included in the several changes made in this program which helps finance on-farm grain storage bins and dryers with Commodity Credit corporation funds. The new provisions will be effective May 30.

Changes in the facility loan program are being made to limit

Rt. Rev. Msgr. Merth

Msgr. Merth To Note 50 Years In Priesthood

Rt. Rev. Msgr. A. I. Merth, former pastor of St. Bernard's church in Thief River Falls for over 20 years, will celebrate the Golden Jubilee of Priesthood at Sacred Heart parish in East Grand Forks on Sunday, June 15.

On that Sunday all of the parish Masses will be offered for his intentions. A parish program will be presented in his honor at 2 p.m., and an open house in the Sacred Heart auditorium from 2 p.m. to 4 p.m. will give parishioners and friends an opportunity to extend felicitations to Msgr. Merth.

Monsignor Merth was ordained to the Catholic priesthood on June 14, 1919, at Josephinum Pontifical seminary, Columbus, Ohio, where he studied for 20 years preparing for the priesthood. His first assigned ministry in the Diocese of Crookston was as assistant pastor of the Immaculate Conception cathedral in Crookston.

In March of 1922 he was appointed pastor of St. Stephen's church in Stephen. In November of 1924 he was assigned as pastor of St. Bernard's church in Thief River Falls, where he remained for over 20 years.

In October of 1947, Msgr. Merth was named as pastor of Sacred Heart church, East Grand Forks, and charged by the Bishop of Crookston to construct a new parish church and school. Under his direction, the parish of Sacred Heart has built a church, high school and gymnasium, grade school, rectory and an addition to the convent.

During his years in the priesthood, Rev. Merth has received many honors in the diocese including being named a Domestic Prelate with the title of Rt. Rev. Monsignor by Pope Pius XII; superintendent of schools in the Diocese of Crookston, and consultor to the Bishop of Crookston, a post he still holds.

Kraemer Named Co-Op Manager

Board of directors of Consumers Cooperative association, Thief River Falls, announces that Jerome G. (Joe) Kraemer has accepted the management position for the remainder of 1969.

Kraemer has been with the association for 14½ years. He succeeds Jerry Odegaard who has accepted employment with Arctic Enterprises in this city.

Goodridge Gets Building Loan

A loan of $41,700 has been approved by the Farmers Home Administration to construct four apartments at Goodridge for rental housing for rural citizens. The loan is to be paid back over a 50-year period at 5½ per cent interest. The Times was informed of the approval in a telegram from Congressman Odin Langen.

Highway Dep't. Plans Projects For This Area

Receive Entries in NW Dairy Princess Contest for Tuesday

RECOGNITION of five years without a loss of time accident was given to Pennington county by representatives of the Selby Mutual Insurance company Tuesday at the regular county board meeting. The only such award made by the company in Minnesota, it represents acknowledgement of approximately 600,000 man hours without a loss of time mishap. Pictured left to right are Les Ihle, local insurance agent for the company; Odin Hanson, county commissioner, Joe Seidel, Pennington county highway engineer; Merle Landberg, county commissioner; and Dick Farnham of the insurance firm. Farnham praised Seidel for his interest in safety and said that the five-year award is "almost unheard of" among governmental groups.

Eight counties have selected their candidates for the Northwest Dairy Princess title and reported the entries to the Northwest Dairy Improvement association. A successor to Vurnte Hopwood of Ada as Northwest Dairy Princess will be selected at the 20th annual Northwest Dairy day to be held Tuesday in Thief River Falls.

Entries in the dairy show received this week, added to the 157 entries received through last Saturday, will assure another large show this year. Judges will be Dr. Ed Fredericks and Dr. Bill Mudge. Judging in the dairy show will begin at 10:30 a.m. with a showmanship demonstration to be held at the start of judging.

Vicky Erickson of Viking, who showed the grand champion grade animal of the 1968 show, will receive a purebred dairy calf at this year's event. Jerry Muzzy of Thief River Falls received the expense-paid trip to Waterloo, Ia., for the International Dairy Cattle congress as showman of the reserve champion purebred.

Kathy Boman of Twin Valley, who showed the grand show champion in 1967 with a grade cow, copped grand show champion honors last year with her grand champion purebred Holstein. She was not eligible for the Waterloo trip, however, since Dairy Day rules state that a contestant can win only one of the major awards in the show. Kathy received a purebred calf for her 1967 win.

Showmanship winner in 1968 was Susanne Bruggeman of Thief River Falls, and she will assist in the showmanship demonstration to open judging of classes on Tuesday. The show will be held outdoors on the city parking lot between Second and Third streets on Knight avenue if weather permits. In the event of rain, the show will be moved to the livestock pavilion at the Pennington county fairgrounds.

Princess Contestants

Contestants for the princess contest reported by county committees to the Northwest Dairy Improvement association, sponsor of Dairy Day, include the following:

Pennington—Susan Kleinvachter and Barbara Brelland, Thief River Falls, and Karen Bendtekson, Goodridge.

Marshall—Joan Lundquist and Karen Wagner, Middle River, and Leola Chapman, Newfolden;

Red Lake—Robert Miller and Patricia Beyer, Red Lake Falls, and Yvonne Bluemke, Oklee;

Roseau—Sharon Sarteberg and Teresa Karlsson, Roseau, and Sheryl Hogen, Greenbush;

Norman—Gayle Krogstad, Ada; Dianne Miller, Borup; and Jeanette Tjon, Twin Valley;

Lake of the Woods—Jonn Ubel, Williams;

East and West Polk—Phyllis Olson and Linda Swenson, Fertile, and Barbara Rustad, McIntosh;

Clearwater—Darlene Katzenmeyer, Lake Itasca; Carol Merseth, Clearbrook, and Denise Kvande, Bagley.

Day's Activities

All interested persons are invited to participate in the day's activities which are entirely free to the public. In addition to the judging and placement of dairy classes, major interest is centered in the princess coronation and the annual parade which follows the coronation. The queen will be crowned in the area of the dairy show (whether at Knight avenue or the fairgrounds) and the parade will take place downtown as soon as the coronation is completed.

A special guest for the day and participant in the coronation program and parade will be Linda Lauwagie of Marshall, Princess Kay of the Milky Way.

Board Opens Bids For Gravel, Sets Hearing on Road

Pennington county board, meeting Tuesday at the commissioners room in the courthouse in Thief River Falls, opened bids for graveling of county roads and set a date for a hearing for condemnation of right-of-way along SAR 28.

Bids were opened for the graveling of certain roads in the county with the low bidder of three being Thorson, Inc., of Bemidji. The Bemidji firm was awarded the contract at $20,520.

The board instructed the county auditor to set a hearing for 1 p.m. on June 18 for the purpose of giving the board the right to acquire by condemnation the right-of-way along SAR 28.

They also called for bids to be opened at 11 a.m. on July 14 for improvements to 500 feet of CAR62.

A delegation appeared before the board and asked for improvements of CAR62, which is an extension of Tindolph avenue to highway 59, south of Thief

Construction Progresses on New Junior College

First new building on the campus of Northland state junior college is scheduled for completion on September 1, and college officials hope to move into the building before September, as the construction work is ahead of schedule.

This first building contains over 25,000 square feet of space, according to Victor Charles, college president, and will house a library, administrative rooms, electrified study rooms for private study, rooms for mathematics and physics, lecture auditorium with 88 seats, three-section biology lab, five-section chemistry lab, dark room and language rooms.

It will also include a 25x60 foot student commons area, where students and faculty will be able to purchase between meal lunches from vending machines. A concrete slab patio with shrubs and glassed-in corridor links parts of the building. Conference rooms and a college bookstore are also included in the present building, being built at a cost of $600,000.

A new activities building is also being planned, and will provide 22,491 square feet of space. Construction on this project, approved by the Minnesota

UNDER CONSTRUCTION is the first new building on the campus of Northland state junior college, east of Thief River Falls on Highway 1. The building is scheduled for completion on September 1, but construction is presently ahead of schedule. College officials hope to be able to move into the new building before September. There are approximately 25,000 square feet of space in this building. A new activities building is being planned, with 22,481 square feet of space. Construction is expected to begin on this building early next spring. Cost for the present building is $600,000, and the expenses for the new addition next spring are expected to be $682,275, of which $120,000 will be used for site development, including athletic fields, landscaping and blacktopping parking lots. The new building will be located just north of the present building, and will include a gymnasium and recreational equipment. The college building itself includes a library, administrative rooms, electrified study rooms for students, rooms for math, English, history, social studies, language and science, and a student commons area. Courses offered by the college will parallel those of most four-year colleges, and credits are transferrable.

Tuura and Lund Vows Are Exchanged at Middle River

Baskets of yellow and white gladioli marked with yellow chrysanthemums graced the chancel at the First Lutheran church at Middle River at 2 p.m. Saturday, May 10 for the wedding of Miss Marlene Tuura and Jerome Lund. Ivory satin bows graced the pews.

The bride is a daughter of Mr. and Mrs. Arne Tuura of Middle River. Parents of the groom are Mr. and Mrs. Edwin Lund of Gatzke.

Rev. Phillip Peterson officiated at the double ring ceremony attended by approximately 250 relatives and friends. Miss Anella Aune, a friend of the bride, was the organist. She played the traditional wedding marches and also accompanied Miss Diane Ruud, a cousin of the groom, as she sang, "Song of Ruth" and as the couple knelt at the altar, "The Lord's Prayer."

The bride was escorted to the altar and given in marriage by her father. She was attired in a floor-length gown, designed and made by her mother. Fashioned of ivory metallic crepe with lace overlay, the gown was styled in empire fashion with a stand up collar and long lace sleeves. Creating back interest were covered miniature buttons and an inverted pleat marked by a large bow with streamers flowing down the length of the train. Her [illegible] veil, also made by her mother, was of tulle. It was held in place by a bow enhanced with a lace petaled flower edged with miniature seed pearls. She carried a cascade bouquet of yellow roses and orange carnations. Her pearl earrings were a gift from the groom.

Mrs. Wayne Larson attended her sister as matron of honor. She was attired in an orange brocade floor-length gown. Accenting the empire waistline was a deep orange velvet ribbon that tied in back in a bow. A matching velvet ribbon held her veiled headpiece. To complete her attire, she wore white gloves, a gift from the bride, and carried a cascade bouquet of orange carnations and green foliage.

Attending the groom as best man was his friend, Wayne Larson who is also a brother-in-law of the bride. Ushers were Michael Tuura, brother of the bride, and Donavon Ruud, a cousin of the groom. The men of the wedding party wore black tuxedos with yellow carnation boutonnieres. The groom's boutonniere was a yellow rose.

For her daughter's wedding, Mrs. Tuura chose a peach colored dress complimented by white accessories. The mother of the groom wore a green lace dress, also with white accessories. Both wore identical corsages of yellow roses and white carnations.

Attending the ceremony as honor guests were the grandparents, Mr. and Mrs. Hans Langlie and Mrs. Constance [illegible] The grandmothers were presented with corsages of white carnations.

A reception in the church parlors followed the ceremony. Mr. and Mrs. Francis Johnson, aunt and uncle of the bride, served as host and hostess. Friends of the family assisted with the serving.

A four-tiered wedding cake, iced in ivory with orange roses and green leaves, centered the serving table. A miniature church topped the cake and descending the staircase from the church was a miniature bridal party. The cake was baked and decorated by the mother of the groom and Mrs. George Severts, an aunt of the groom. Mrs. Severts and Mrs. Edwin Anderson, great-aunt of the bride, cut and served the cake while Mrs. Orvnid Rokke, aunt of the bride, and Mrs. Alrick Lund, aunt of the groom, poured. Kim Rokke and Doreen Ruud, cousins of the bride and groom, respectively, distributed the groom's cake.

Miss Connie Severts, cousin of the groom, presided at the guest book. Serving the punch were Mr. and Mrs. Duane Brown, friends of the couple. Mr. and Mrs. Alton Walseth, Kay Henning and Tom Super opened and arranged the gifts.

Out-of-town relatives and friends attending were from Valley City, Devils Lake, Bismark and Grand Forks, N. D.; Minneapolis, Cottonwood, Buffalo, Cloquet, Hibbing, Thief River Falls, Newfolden, Gatzke, Grygla, Holt, Bemidji, Moose Lake, International Falls and Warren.

For her going away attire, the bride wore a pink A-line dress with matching plaid jacket and white accessories.

The bride and groom are graduates of the Middle River high school and they will make their home in this city at 1102 North LaBree. The groom is employed by Arctic Enterprises, Inc. Photo—Middle River Record

Diane Lindquist Marries At Littleton, Colorado

Saint Mary's Catholic church in Littleton, Colo., was the setting for the Saturday, April 26, wedding of Miss Diane Marie Lindquist and Clark Brian Scott, both of Littleton, Colo.

The bride is a daughter of Mr. and Mrs. Vernon C. Lindquist of St. Hilaire. Parents of the groom are Mr. and Mrs. William H. Scott of Wisconsin Rapids, Wis.

Rev. Msg. John Ebel officiated at the double ring ceremony before an altar graced with bouquets of white gladioli accented with pink carnations.

The bride was escorted to the altar and given in marriage by her father. She was attired in a silk organza floor-length dress styled with a fitted bodice with three-quarter length sleeves and a slightly scooped neckline. Her A-line skirt featured a bustle back, that flowed into a sweeping train. A rosebud headpiece held her bouffant veil of silk illusion and she carried a crescent bouquet of white roses and stephanotis. In carrying out the old, new, borrowed and blue tradition, her wedding gown was borrowed from her sister.

As her only attendant, the bride chose her sister, Mrs. Darrel Mercil of Moorhead. She was attired in an empire fashioned, floor length gown of rosey pink peau de soie with coordinating headpiece. Her crescent bouquet was of pink and white carnations.

Joseph Cominielie, Denver, Colo., a friend of the groom, was best man. Ushers were Fred Hothan and Robert Ottmstede, friends of the groom that reside in Littleton, Colo.

The mother of the bride was attired in a pastel pink sheath with a lace top and white accessories. Her corsage was of deep pink sweetheart roses. The mother of the groom wore a two piece yellow ensemble accented with white accessories and a corsage of white baby roses.

Immediately following the ceremony, a reception was held at the Ranch Manor Motor Inn at Denver, Colo. Cutting and serving the wedding cake were aunts, Mrs. Alfred Hance, who is also godmother of the bride, and Mrs. Gordon Anderson.

Assisting at the reception were friends of the bride. Miss Lynne Sancaez and Miss Jan Maxson served the punch, Mrs. Lyle Leitz presided at the guest book and Mrs. Yvonne Winkie and Miss Jan Blackburn arranged the gifts.

After a wedding trip to the Brandmoor, at Colorado Springs, Colo., the newlyweds are at home at 593 West Crestline Avenue, Littleton, Colo.

The bride is a registered nurse and is employed by the Littleton clinic. The groom is employed by the C. A. Norgren company of Littleton as a mold maker.

ASC Announces Changes for Farm Loan Plan

(Continued from Page 1)

government expenditures as an aid in the fight against inflation.

The department recognizes that on-farm storage is important for individual producers, Sparby said. Eligible producers who do not have on-farm storage or drying capacity equal to one year's production will still be able to get loans. The amount to be loaned, however, will be more restricted than in the past.

Of the total storage capacity gained under the 20-year farm storage and drying equipment loan program, more than one-fifth was put in last year. The following program changes are designed to encourage continuation of the program at reasonable levels:

(1) Reduction of the maximum amount for loans on dryers from 85 per cent to 65 per cent of net cost or $2,500, whichever is less; (2) restriction of loans to conventional type storage structures and elimination of loans on oxygen-free and silo-type structures; (3) no loans on foundations, electrical wiring and conditioning, handling and operating equipment; (4) elimination of loans for remodeling; (5) provision that storage needs be based on a farm's production for one year of eligible commodities; and (6) increase of the interest rate on loans from 34 cents to 50 cents for each $100 or fraction thereof for each calendar month. In view of the increase in interest rates, the service fee of $5 per storage-facility loan is being eliminated.

Although inflation has increased money costs, the low interest rate of farm storage facility loans has never before been increased. The increase announced today, up from about four per cent to six per cent, will bring the rate more in line with the rate paid by CCC on its borrowings, cost of which has increased substantially in recent years.

The farm storage facility loan program to aid producers in obtaining on-farm grain storage bins and dryer equipment has been in effect since June of 1949. Since the beginning of the program through the end of calendar year 1968, about $422.7 million has been loaned to farmers through 279,312 loans which included farm storage structures with a total capacity of almost 1.3 billion bushels.

More than 25 per cent of the total funds loaned and over 20 per cent of the total storage capacity built since the beginning of the program was accounted for in 1968. During 1968, producers borrowed $106.4 million through 44,249 loans for storage structures and drying equipment facilities with a storage capacity of approximately 270 million bushels.

By contrast, 8,491 loans were made to farmers for $7.4 million for structures with a 28.9 million-bushel storage capacity in 1949.

Construction on Junior College Bldg. Advances

(Continued from Page 1)

Legislature and funded, is expected to begin late this fall or early in the spring. Expenses for this new facility are expected to run $682,275. Of this amount, $120,000 will be used for site development, including athletic fields, landscaping and blacktopping parking lots and roads.

This addition to the campus is to be located just north of the present building, and will include recreational equipment and a gymnasium. Total cost of construction for the college will then be $1,282,275.

Some courses which are to be offered in the junior college program next fall include mathematics, which ranges from elementary education to calculus and four basic science courses, including natural sciences, biology, chemistry and physics.

Other courses offered by the college include wildlife management, forestry, pre-medicine, pre-pharmacy, pre-veterinary medicine, pre-mortuary and health. Classes offered to the business students include economics, accounting and business principles. Art students may choose subjects in drawing, painting, design, ceramics and sculpture. The music department will offer band, chorus, music theory, music history and music appreciation.

The English department will offer classes in remedial English, freshman English, American and English literature, speech, journalism and theatre. The physical education program for next year will be intensified, because of new facilities becoming available, President Charles said.

Courses in social studies will include U.S. and European history, anthropology, sociology, psychology, geography and international relations. New subjects for next year will include a one-credit course in photography and one in slide rule calculations. More may be included, depending on staffing of the college faculty, the president added.

The college tries to parallel the curriculum of most four-year colleges, so all credits are transferrable to those colleges.

Lt. Roger Fuller and his wife and son, Barry are in this city visiting at the home of Lt. Fuller's parents, Mr. and Mrs. Tom Fuller. Lt. Fuller recently returned from spending a year in Vietnam. While there he was stationed at Cam Rahn Bay and for his meritorious service was awarded the Bronze Star.

Funeral Services Held at Argyle For Mabel Fjeld

Mrs. Mabel (Martin) Fjeld, 76, of Argyle and a former longtime resident of the Stephen community died Tuesday morning, May 27, at the Warren hospital. She had been in failing health for several years.

Funeral services for Mrs. Mabel Fjeld were held Thursday at 10 a.m., at Our Savior's Lutheran church at Argyle with Rev. Charles Knorr officiating. Mrs. William Riopelle was the soloist and Mrs. Loren Johnson, organist. Interment was in the Woodlawn cemetery at Argyle with the Collins Funeral home in charge of arrangements.

Pallbearers were Lawrence Carlson, Van Mosselin, Robert Johnson, Wallace Rassmusen, Roman Kostrzewski and Donald Rivard.

Mrs. Fjeld, the former Mabel Swanson, was born May 7, 1893 in Bigwoods township, Marshall county, to Martin and Anna Swanson. She attended school and grew to womanhood at Bigwoods and was married there on June 29, 1915 to Martin E. Fjeld. The couple made their home at Oslo for several years where Mr. Fjeld was manager of the Farmer's elevator. In 1921, they moved to Stephen, living there for 37 years before moving to Clearwater, Fla., in 1958. The couple returned to Argyle three years ago and Mrs. Fjeld had since made her home there.

While living in Stephen, Mrs. Fjeld was an active member of the First Lutheran church and its ladies aid, where she served as an officer. She was a member of the Stephen Women's club and a member and past officer of the Order of Eastern Star. At the time of her death, she was a member of Our Savior's Lutheran church at Argyle.

Survivors are one daughter, Mrs. Reuben (Audrey) Carlson of Argyle; a son, Dr. Marvin Fjeld of Kent, Ohio; six grandchildren; one great-grandson; a sister: Mrs. Arnold T. (Clara) Johnson of Stephen and three brothers: Anton Swanson of Argyle, Joseph of Stephen and Oscar of Oslo.

She was preceded in death by her husband in February of this year; one brother and a sister.

Services Held At Stephen For Ellen Becklund

Funeral services for Ellen Louise Becklund, six-year-old daughter of Mr. and Mrs. Gary Becklund of Stephen, were held Saturday at 2 p.m., at the Hegland Lutheran church, near Strandquist.

A resident of the Roseau Children's home, Ellen Louise disappeared on Monday afternoon, according to the Stephen Messenger. A group of other children were playing in the yard at the home when a group of 90 grade school children from the Roseau Public school were passing by from a visit to the museum. Thinking possibly that she had fallen in step with the large group of children, they were checked only to find that she was not with them. Law enforcement officers were then called and dragging operations at the river were started. Several days later, her body was recovered.

Rev. Gene Sundby officiated at the services. Miss Ruth Gunderson was the organist and Willie Fossell, soloist. Collins Funeral home, Karlstad, was in charge of arrangements and interment was in the church cemetery.

Pallbearers were Boyd Becklund, Bruce Becklund, Morris Becklund, Roger Pagnac, Leon Freeman and Larry Freeman.

Ellen Louisa Becklund was born Sept. 30, 1962 at Karlstad. She lived with her parents on their farm near Stephen until entering the Children's home at Roseau in October of last year.

Survivors are her parents, three brothers and one sister: Leon, Larry, Guy and Charlene, all at home; her maternal grandparents, Mr. and Mrs. Edgar Qualley of Warroad and her paternal grandparents, Mr. and Mrs. H. I. Becklund of Stephen.

Rites Held For James Horejsh, Local Pioneer

Funeral services for James Horejsh, 92, a pioneer resident of this city, who died Thursday, May 29, at Northwestern hospital, were held Monday at 10 a.m., at the Green Funeral chapel. Rev. Merrill Harris, pastor at the United Methodist church, officiated at the services. Serving as organist and soloist was Mrs. Sherman Idso. Interment was in Greenwood cemetery.

Pallbearers were Alex Kosanda, Gedfred Svir, Frank Pesek, Ralph N. Hunt, George Lindbeck and Ole Ness.

James Horejsh was a native of Czechoslovakia. He was born there on Nov. 25, 1876 to Anton and Mary Horejsh. As a young boy, he immigrated to the United States with his parents. At first they lived at New Prague, before moving to a farm in Walsh county, N.D., near Pisek. He grew to manhood in the Pisek area. In 1899, he came to Thief River Falls where he had since made his home. He never married.

He was the last member of his family, having been preceded in death by six brothers and five sisters. His only survivors are nieces, nephews, grand nieces and nephews and great-grand nieces and nephews.

Rites Held At Halma Today For Mrs. R. Jacobson

Mrs. Ragnhild Jacobson, 79, who resided for a time at the Valley home in this city, died Saturday evening at the Kittson nursing home at Hallock.

Funeral services for Mrs. Ragnhild Jacobson were held today (Wednesday) at 10 a.m., at the Eidsvold Lutheran home at Halma with Rev. Russell Wierschke officiating. Interment was in the church cemetery with the Collins Funeral home, Karlstad, in charge of arrangements.

Pallbearers were [illegible] Jensen, Tilden Spilde, Lorene Spilde, Keith Spilde, Paul Spilde, and Merele Brevik, all grand nephews of the deceased. Special music included two duets by Mrs. Harold Hilde and Sevarin Spilde with Orvis Holm as organist.

Mrs. Jacobson, the former Ragnhild Spilde, was born Jan. 19, 1890 at Hardanger, Norway to Mr. and Mrs. Lars Spilde. She attended school in Norway and grew to womanhood there. As a young woman, she immigrated to the United States, settling at Halma. There she was married on April 17, 1910 to Jorgen Jacobson. The couple lived in the village of Halma for several years before moving to a farm in Norway township, Kittson county. In 1958, they retired from farming and returned to the village of Halma. Following the death of her husband in January of 1968, Mrs. Jacobson had resided at the Valley home in this city and at the Kittson Nursing home at Hallock.

Her only survivors are nieces and nephews and a number of grand nieces and nephews. In addition to her husband, five brothers preceded her in death.

Susan K. Carlson

Susan Carlson In College Book

Faculty members and fellow students at Moorhead state college this spring nominated 35 juniors and seniors for inclusion in the publication "Who's Who Among Students in American Universities and Colleges."

Susan K. Carlson of Thief River Falls was among the honored juniors in the group selected for the publication. She is the daughter of Mr. and Mrs. Myrle Carlson of Thief River Falls and is a graduate of Lincoln high school.

Final selection of students for this honor was made on the basis of both the students' academic ratings and their service to the college, by the national publication headquarters at Tuscaloosa, Ala.

Northrop School Has Top Return Of Dental Cards

Northrop elementary school had the highest percentage of dental cards returned this past school year, with 67 per cent according to Mrs. Margaret Race, school nurse.

Marvin Buschette's fifth grade class of Northrop had the highest percentage of cards returned this year with 27 out of 30 for 90 per cent. Other high percentage ratings came from Mrs. Dyer's class at Knox, 82 per cent; Mrs. Walton's class at Northrop, 80 per cent; Mrs. Etter's class at Mark Twain, 78 per cent; and Mrs. Elda Hanson's class at Mark Twain, 75 per cent.

Mrs. Race reports that the dental card return average for schools in general was low. Northrop was the highest with 67 per cent, Mark Twain followed with 59 per cent and Washington and Knox had an average return of 54 per cent.

Dental health is a 12-month program with all school students in Minnesota asked to see their dentist at least once during the year. To indicate work completed, grade school pupils are asked to return a pink dental card signed by their dentists.

Mrs. Race urges students having dental work done during the summer months to please return their dental cards to school next fall.

Dave Hanson To Graduate From Faribault School

Dave Hanson

Dave Hanson, son of Mr. and Mrs. Lowell Hanson of Goodridge, will be graduated from the Minnesota school for the deaf at Faribault on Friday, June 13, at 10:30 a.m. in the school's gymnasium.

Dave has been a student at the Faribault school during the past 13 years. He took the full academic and vocational course and also took part in extra-curricular activities.

The Minnesota school for the deaf offers a full course of study from kindergarten through high school. Many vocational classes help the students to prepare themselves to be self-supporting citizens [illegible] their home communities. [illegible]ong the vocations now being taught are woodworking, printing and linotyping, tailoring and art.

The school is a member of the Minnesota state high school league and sponsors a full program of sports.

Dave was a member of the boy's athletic association, "M" club, junior and senior Libertory society, junior and senior Luther league, Teenage book club, association of the deaf and Youth Luther club.

He has been a member of football, basketball and track teams and lettered in football and track.

Upon graduation, he will attend the newly established Technical Vocational Institute in St. Paul. Deaf students from a six-state civil service region will get advanced vocational training. This institute is one of three schools presently developing facilities for the deaf.

Dave will take advanced electricity as first choice, with a second choice in graphic arts. He will be under the direction of Robert R. Lourstien, coordinator of T.V.I.'s new program of deaf education.

Warrant Officer Fight Training Program to Open

U.S. Army recruiting command in this area has just announced that a special warrant officer flight training program is now available for area men.

Men qualified and accepted for this program will undergo 36 weeks of intensive training as a pilot for either helicopters or light aircraft. This training includes over 200 hours of flying time. Upon completion of this training, a man is qualified as an army pilot and promoted to the rank of warrant officer.

Vacancies in this program are normally limited, and there has always been a long waiting list. However, at the present time there are unlimited class openings. These openings will be filled on a first-come first-served basis.

To qualify, enlistees must be high school graduates, in good physical condition and willing to start training in May or June. Young men who are not willing to leave during May or June should not apply for this program.

A special selection board is being set up now in this area to interview all young men interested in this program.

For more information, young men from this area are asked to contact army recruiting Sergeant Clinton D. Quam at Room 105 federal building in Grand Forks, N. D., or call him at 772-2171 collect.

"Dear George:

They say that when prices go up farmers can never see the top and when they go down they can never see the bottom. Now that hogs have passed $27.00 and cattle $10.00 higher there is talk of $30.00 hogs and $40.00 cattle, with some predicting even higher prices. While these prices are higher than they have been for quite sometime they are no higher than they should be.

We still have a good demand for pigs with $17.50 being paid for the 40's plus 15 cents a pound for the pounds between 40 and 60 and 10 cents for pounds above 60. We pay extra for the really top quality pigs.

Remember, we're at the Joppru Livestock Market every Tuesday morning between 8:00 A.M. and Noon to buy pigs at private treaty.

Sincerely yours,
John Blake"

Sheriff's Office Reports Mishaps And Vandalism

Pennington county sheriff's department reports two auto accidents and vandalism at the Kratka town hall.

The first accident happened on May 19 on the Airport road six miles south of Thief River Falls. The driver of the vehicle was Richard Boman, St. Hilaire, and the car was described as a total loss. Boman was taken to Northwestern hospital for treatment of injuries.

It was reported that sometime during the past week someone had broken a corner pillar off the porch at the Kratka town hall and pushed it through a window, then entered the building and broke some more windows. Six windows were completely broken out and the amount of damage is estimated at $125 by the sheriff's department.

A traffic accident occurred on Tuesday at 11:15 a.m., one-half mile east of the intersection of highways one and 219 near Goodridge. A car driven by Selmar Erickson, Goodridge, was making a left turn into his driveway off highway one when struck from the rear by a car driven by Bertha Bottem, Mizpah. Damage to the Erickson vehicle was estimated at $200 while the Bottem vehicle received $700 in damage. There were no injuries reported.

Estimated Tax Installment Due

Notices have been sent to Minnesota taxpayers reminding them of the installment payment of 1969 estimated tax due by June 16, according to George Lethert, IRS district director.

Receipt of the reminder notice does not mean that the taxpayer is required to file and pay estimated tax, Lethert said. Forms and notices were prepared and mailed to those taxpayers who previously filed returns as well as those who might be potentially liable for the estimated tax.

"Disregard the notice if you find you are not required to file a return and pay estimated tax," Lethert stated.

Unless Congress acts on the President's recommendation to extend the surcharge tax before June 16, no amendment of the original return will be required. Enactment of an extended surcharge tax would require an increase in the estimated tax and payment for this installment and the remaining two quarterly payments, Lethert indicated.

Bond Sales Here Total $12,945

Sales of E and H saving bonds and freedom shares for April were announced today by Pennington county chairman J. M. Roche. Sales in Pennington county amounted to $12,945, bringing the total for the year to $36,573 or 20 per cent of the county's goal.

Sales in neighboring counties were as follows: Clearwater, $2,976 for a $13,839 total or 13 per cent of goal; Kittson, $1,122, for a $42,709 total or 37 per cent of goal; Marshall, $34,833 for a $68,735 or 36 per cent of goal; Polk, $34,833 for a $148,889 total or 36 per cent of goal; and Red Lake, $1,720 for a $8,214 total or 11 per cent of goal.

Jenson's Mink Farm Tops Trap With 3-0 Mark

Jenson's Mink Farm remained the only unbeaten team in the Thief River trap league as the result of shooting Monday night. Last week the team was tied for first place with the Pharmacy team with two wins each. On Monday night they faced each other with the Jenson team scoring a 123 to 110 win. The other team that was undefeated, in one match, was the Trap club team which lost this week to Coast-to-Coast by a 119 to 105 score.

Defending league champion Union state bank kept right on the heels of the Jenson's team as did four other clubs as there are six teams tied for second place with 2-1 records. The Union state bank team won its second with a 111-107 win over the Mostue Floral club.

Sandy Wilson recorded the only actual 25 on Monday night, the second recorded at the local trap club this season.

In other action on Monday night, the Times won its first of the season by defeating the A and W Drive-In by a 115 to 96 score. L. B. Hartz won its second of the season with a 118 to 106 win over Arctic Enterprises. Wilson Brothers upped its record to 2-1 with a 123 to 100 win over the Shrine team, and Custom Motors won its second of the season with a 115 to 103 win over Lind Motor Supply.

Because of the addition of two teams, bringing the total to 14, a schedule is now being worked on by trap league officials and as soon as it is available it will be published along with the results and standings each week.

Northern Minnesota Travel And Vacation Trade Show At Bemidji, Minnesota

May 1st thru the 4th, 1969, marked the FIRST adventure for Bemidji promoters engaging in a professional travel and sports show, a success, and look to the future shows ahead! The booths were filled with exciting exhibits from more than seven states, which covered the ample 31,000 square feet of travel and vacation industry exhibits. It is judged that their expected attendance fell a bit short but still came a steady stream of visitors; approximately five thousand or more.

Larry Laschkewitsch And Staff

Larry is the general manager of the Chamber of Commerce and executive director of the show. Bob Kohl is the show general chairman. Larry Lee is the executive director of the Paul Bunyan productions. Floor manager was Sid Swedmark, assisted by Vern Johnson. Floor manager of North hall was Bill Joyce, assisted by Don Grundmann. Persons desiring space in next year's show, kindly address the C & C early for the 1970 show. Larry's office personnel are exceptionally talented people and well trained.

Products Noted At The Show

LEITTE CO., represented their bug mist which is available at most hardware stores. These products are nontoxic to humans and pets. Were were given samples, along with soap samples from Tom Campbell, Village Bath Products, Mpls., Minnesota. Ifis Minn. Pine Soaps were a favorite of the show . . the whole aisle smelled outdoorsy!

Willard Murfin of the Golden Eagles production, of Tom Durant shows, Chicago, Ill., was in a booth next to Wally Olson, who represented Sports and Recreation magazine. Vern Yocum and his son from Detroit Lakes, were exhibiting HOLLY SALES PRODUCTS, Henny Penny Corp. You haven't tasted chicken until you tasted some prepared from their equipment.

Minnesota Booth Manned By Minnesota Arrowhead

Roy Plankers, assistant secretary, Minnesota Arrowhead association of Duluth, set up the Minnesota booth with brochures and answered inquiries. Many of the visiting press were housed at the Bel Aire motel on highway 2 and at the Markham hotel-motel in Bemidji.

KBUN-Radio-Bemidji

Bob Bergland, Chuck Matala and Steven Heslop treated us royally. We were guests on their station several times. We congratulate Ned Goodwin . KBUN radio boss; his announcers are ambitious and talented. They were "in tune" with the activity of the grads show. They interviewed exhibitors and show visitors. (May we make a personal comment?) These young men, all were dressed like gentlemen; had clean cut appearance, excellent manners and are a definite credit to their parents and their employer, as well as to the community they serve. There was NO generation gap. They are interested in people.

Resorts Well Represented

Resorters from several areas visited the show. Among a few noted were: Park Rapids, Detroit Lakes, Cass Lake, Bena, Walker, Grand Rapids, Longville, Hill City and Brainerd.

Press Parties

Parties for the press, radio and TV medias were held in the upstairs rooms of the curling club's building, where the trade show took place. A Play Boy club motif was used, and Bunny girls served food and refreshments. A delicious FISH FRY was prepared by the Chamber of Commerce for the guests. A farewell breakfast on the final day of the show was served in the club rooms.

A GREAT START

"THE BEST EARLY FISHING IN TEN YEARS". This is the opinion of almost everyone we talked to during our travels in Minnesota since the fishing season opened. At Ely where outdoor writers gathered for the opening, fishing was slow the first day, but on Sunday morning lake trout, walleyes and small mouthed bass cooperated. The largest lake trout we saw was a 14 pounder taken by a guest at Snowbank lodge.

Tom Yuzer, outdoor editor of the Fergus Falls Journal, took a small mouthed bass weighing 4½ pounds out of Snowbank Lake while Wayne Ligler, out door editor of the Kankakee Journal and editor of FARM POND HARVEST MAGAZINE, caught a five-pounder in Basswood Lake. Ray Gray, outdoor editor of Chicago's American, took the biggest walleye. It weighed five pounds four ounces. Hank Kehborn, outdoor editor of the St. Paul Pioneer Press, had his limit of small mouthed bass from Basswood Lake. In our opinion Basswood is the finest small mouthed bass lake in the world.

SPICER REPORT

If the bass season had been open, there would have been many happy fishermen as the small mouthed bass in Green Lake hit anything that came their way. Walleye fishing was great, however Gregg Melges, who runs the local fishing contest, told us that he saw more than 60 walleyes landed near the OLD MILL INN in a couple of hours. In the same area some six and eight pound walleyes were taken from Lake Kandiyohi south of Willmar.

BIG WINNIE

Bob Karbowski of Four Seasons Resort at Bena sends this report:

"Mother nature helped tremendously as Lake Winnie saw one of it's best openers in a few years. Practically everyone, at least those staying at the Four Seasons, caught their limits of walleyes in a short amount of time, and in every cluster of boats, you could see that someone was playing a fish all the time. Although the largest walleye I personally saw was a 7½ lb. beauty, most of the fish were 1½ to three pounds. Also saw several five lb., one 6¼ lb., and two 8½ lb. walleyes. Northerns were plentiful in the three and four pound range with tops being only 8½ pounds.

Cliff Oliver just left here and, as usual, with limits of beautiful walleyes. There were six in this party and all caught fish. Cliff then turned around and guided a Des Moines angler to his limit of nice walleyes and a dandy northern. Fishing remains very good here with all anglers limiting out."

Cliff Oliver is the outdoor editor of W M A Q-NBC, Chicago.

WALKER-LEECH LAKE

Art Litke and Randy Clark of Walker got their limit of two to five-pound walleyes in three hours using minnows. They fished out of Merit Lodge. Bob Curry of Minneapolis caught a 24½ pound muskie out of Hiawatha Beach.. the biggest reported to this column so far this season.

ALEXANDRIA REPORT

Harvey Hammergren writes: "We had the biggest opening of fishing season that we have had in many years. We had more fishermen, better weather and the fish cooperated very nicely."

"Lyle Bestle of St. Louis Park, caught a 5¼ pound walleye while fishing on Lake Oscar and using a Lazy Ike for bait. Dennis Anderson and his son from Faribault with Edmund Anderson of Appleton and brother Dale Anderson from Marshall caught a string of crappies and walleyes, one walleye weighing seven pounds. They were using spinners and minnows for bait. Ken Mitchel of Minneapolis and Tom Walker of Kensington caught their limit of walleyes while fishing on Lake Oscar and the walleyes averaged 2-3 lbs. Billy Lou Sater, a lady from St. Paul, got a nine pound walleye while fishing on Miltona. Mark Weingarts and party from Mankato, while fishing on Lake Mary, caught their limit of walleyes, the biggest going about 4½ pounds.

Womack, Edlund in State Tournaments

Two members of two spring sports at Lincoln high school will be entered in Minnesota state high school tournaments on Friday and Saturday. They are Rob Womack in golf and Steve Edlund in tennis.

The state golf meet is scheduled for Friday in Minneapolis, while the state tennis tournament will be held at the University of Minnesota in Minneapolis on Friday and Saturday.

Womack gained a berth in the state golf meet last Wednesday as he finished in the top ten in the Region Eight tournament held at Walker. Womack fired an 85 for a tie for fifth place in the Region Eight meet. He is the lone Prowler to make the trip along with coach Jack Boyer.

Steve Edlund, for the second time in two years, will be entered in the Minnesota state high school league tennis meet to be held on Friday and Saturday at the University of Minnesota. Edlund won the singles title in Region Eight on Monday at Bemidji. The tournament lasted for two days as the start of play on Saturday was halted by rain and had to be finished on Monday. Even on Monday rain halted play outside and the meet was finished in the Bemidji state college field house.

Edlund and Gary Conda, Bemidji, will represent Region Eight in the state singles tournament while the Bemidji doubles team of Bob Thoreson and Harlan Brooker will take part in the state doubles.

Bemidji won the Region Eight crown for its third Region 8 sports title this spring. The Lumberjacks scored 13 points, while the Prowlers were second with six points. Ada was third with two points while Crookston finished in fourth place with one point.

Edlund and Conda both drew opening round byes in the Region Eight tournament as they had the best records in the meet.

In State Golf Meet

Steve Edlund
Region Eight Singles Champion

Kip Puppenhagen, the Prowlers' other entrant in the Region Eight meet, met Mark Johnson of Ada in first round action and lost by set scores of 7-5, 1-6 and 8-6. Johnson then moved into the semi-finals against Conda who defeated Johnson by set scores of 6-0 and 6-1.

Edlund's first round opponent was Arden Nelson of Bemidji, who gained the semi-finals by stopping Rick Sullivan of Ada by scores of 6-1 and 6-0. In the match with Edlund, Nelson fell by scores of 6-0 and 6-3.

The championship match found Edlund and Conda meeting for the singles title with Edlund coming out on top with set scores of 11-9 and 6-2.

In consolation action, Nelson stopped Johnson by scores of 6-0 and 6-2.

In doubles action Crookston drew a bye, while Bemidji met Ada. The Bemidji team of Thurson and Brooker posted wins of 6-1 and 6-1 over Paul Ogaard and Chuck Gunnerson of Ada. In the final the Bemidji team defeated Bruce Reichart and Scott Johnson from Crookston. Crookston won the consolation championship on an Ada forfeit.

Results of the Region Eight tennis tournament are as follows:

Singles
First Round

Steve Edlund, TRF, bye; Arden Nelson, Bemidji, defeated Rick Sullivan, Ada, 6-1 and 6-0; Mark Johnson, Ada, defeated Kip Poppenhagen, TRF, 7-5, 1-6 and 8-6, and Gary Conda, Bemidji, bye.

Semi-Finals

Edlund, TRF, defeated Nelson, Bem., 6-0 and 6-3; Conda, Bem., defeated Johnson, Ada, 6-0 and 6-1.

Championship

Edlund, TRF, defeated Conda, Bemidji, 11-9 and 6-2.

Doubles
Semi-finals

Bob Thorson and Harlen Brooker, Bemidji, defeated Paul Ognard and Chuck Gunnerson, Ada, 6-1 and 6-1. Crookston drew a bye.

Championship

Thorson and Brooker, Bem., defeated Bruce Reichart and Scott Johnson, Crookston, 6-4 and 7-5.

TRF-Warroad Region Eight Game Tonight

Rain halted the second game of the Region Eight baseball tournament in Thief River Falls on Tuesday evening. The game was to have pitted the District 31 champions, Thief River Falls, against the District 32 champions, Warroad. After a half-hour delay from the time that the contest was expected to start, Region Eight officials, Prowler coach Ralph Skay and Warroad mentor Tony Stukel decided to call the contest.

The game has been reset for tonight (Wednesday) at 7 p.m. at the fairgrounds in Thief River Falls, weather and field conditions being favorable. This has pushed back the Region Eight championship game to Thursday night at 7 p.m.

In the opening game of Region Eight play, defending Region champions Bemidji stopped Ada by a 6-0 score.

Expected to do the pitching for the Prowlers in tonights contest is senior righthander Tony Johnson, while Warroad is expected to go with senior lefthander Jon Frolander. Johnson is the Prowlers winningest pitcher with a 5-1 record, and is second among the staff in strikeouts with 38. Dan Sullivan leads the team with 50, 27 of them coming in his last two outings.

Leading the Prowlers in hitting are Johnson and Steve Daley as they are both over the .300 mark. Johnson has a .363 average, while Daley is hitting .315.

Bemidji Tops Ada in Region Eight Baseball

Bemidji gained the finals of the Region Eight baseball tournament on Tuesday night as they halted Ada by a 6-0 score. The game was played at Thief River Falls. The Lumberjacks will now meet the winner of the second regional game which was also scheduled for Tuesday night but was called off because of rain. Teams that were to play in that contest were Warroad and Thief River Falls.

The championship game is scheduled for Thursday at 7 p.m., providing that the game between Warroad and Thief River Falls can be played tonight (Wednesday).

The Lumberjacks struck in the first inning for two runs. Leadoff batter Larry Shadiow took the first pitch from Ada pitcher Tim Sipe for a called strike, then laced the second pitch over the left-center field fence for a home run and a quick 1-0 lead for the District 29 champions. Jim Yost, the second batter, singled to right and when the right fielder couldn't come up with the ball, moved all the way to third. Tom Hill, third Bemidji batter, drove in Yost with the second run of the inning as he doubled down the left field foul line giving Bemidji a 2-0 lead.

In the top of the second inning Ada's first two batters reached base on a single and walk, and were moved to second and third by a sacrifice, but died there as Bemidji's Jim Hoyem pitched his way out of the jam.

Bemidji added three runs in the third inning as Yost drew a walk, stole second, moved to third on an error on Ernie Blackburn's grounder and scored as Tom Reise gained first on another error, with Blackburn moving to third and Reise taking second. Blackburn scored on Gary Sargent's second single of the game to right field, with Reise moving to third on the hit. On a delayed steal Reise came home with the fifth run of the game as Sargent was tagged out in a run-down for the final out of the inning.

The Lumberjacks added their final run in the sixth inning as Reise singled, stole second, moved to third on an error and scored on a wild pitch.

The line score of the contest is as follows:

Ada	000	000	0—0-5-7
Bemidji	203	001	x—6-6-1

Sipe and Balzum, Hoyem and Blackburn. WP—Hoyem; LP—Sipe. HR, Shadiow.

Bit and Bridle Club To Award Special Trophy

Bit and Bridle club held its regular meeting May 25 at the Jack Radniecki home, with president Norma Hanson presiding. Business for the evening concerned a trophy to be given to a 4-H member with an outstanding horse project record.

The trophy will be given to the individual selected by the Pennington county 4-H council awards committee, announced on 4-H night at the county fair and presented at 4-H awards night in the fall.

The club will plan a camp out ride for July 4, with further discussion at the afternoon meeting June 8 at the Roman Radniecki home.

Jaycee Junior Golf Tournament Set For Monday

Thief River Falls Jaycees announced that the annual Jaycee junior golf tournament will be held on Monday at the Thief River golf course with tee-off time set for 6:15 a.m. General chairman for the event this year will be Jim Huseth.

This year the winner and the second place golfer will advance into the state Jaycee meet to be held in Fergus Falls on July 26-28. Like last year, there will be two divisions with the winners of Division 'A' going to the state meet.

Division 'A' will be for 16 and 17 year olds while division 'B' will be for those under 16. There will also be a chip and putt contest for prizes.

Entry fee this year will be $2 with entry blanks being made available at the golf course for those wanting to enter. Deadline for entries will be Friday.

Last year's winner was Rob Womack while Tim Carlson finished in second place in the event. The tournament is open to all boys in the Thief River Falls area.

The average age of the 5,840,000 veterans who served in the Korean conflict is 39.5 years, according to the Veterans administration.

AMERICAN LEGION Post 117 in Thief River Falls held election and installation of officers Tuesday evening in the local club rooms. New officers pictured left to right are, seated, Donald M. Dison, commander; Erwin Ferber, first vice commander; Calvin Bradley, third vice commander; Ormond Johnson, adjutant; and Fred Dallmann, finance officer; standing, John Kotaska, sergeant-at-arms; Leonard Rondorf, fourth vice commander; M. R. Levorson, service officer; C. W. Rodekuhr, chaplain; Allan Paulson, past commander; Robert Reeve, installing officer; Orelin Billing and Donovan Bruggeman, executive board members. Not pictured is John [illegible], second vice president.

19 Games Face Junior Legion This Summer

A 19-game schedule has been set for the Thief River Falls American Legion junior baseball team this season, beginning with a game on Friday night against the Newfolden club.

In addition to these 19 games, some five or six practice sessions and a game against a team made up of players who played on the team last year is also being considered. The 19 games will include nine in the Northwest conference, of which the local club is the defending champion.

The game on Friday night will be played only if the Prowlers fail to gain a berth in the Minnesota state high school baseball tournament scheduled for next week at Midway stadium in St. Paul. Should the Prowlers gain the tournament, the game will be rescheduled in July and a league game with Newfolden next Wednesday will be pushed back to its orginal date of June 24.

It is expected that the 15 players that are on the Prowler team right now will also be playing American Legion baseball this summer, along with some others who don't play the sport in high school. The team will be made up of 18 players, who are not in college or have not reached their 19th birthday by August 1, 1969.

Teams that the Junior Legion will be playing include the nine Northwest conference teams which include Hallock, East Grand Forks, Middle River, Newfolden, Crookston, Karlstad, Oslo, Warroad and Warren. Non-league teams that they will be facing are Moorhead, Bemidji, Grafton, N. D., Detroit Lakes and Fergus Falls.

A team practice has been set for Thursday night at 7 p.m. at the fairgrounds, with all prospective players asked to bring gloves and spikes to the practice as a squad will be determined at this time, according to Bob Wielinski, coach of the team. Uniforms will be handed out after the practice session.

The complete schedule is as follows with home games in capital letters:

June 6th—NEWFOLDEN; June 11th—at Newfolden (at Viking); June 17th—at Middle River; June 19—CROOKSTON; June 26—EAST GRAND FORKS; June 30th—MOORHEAD; July 1—HALLOCK; July 7—BEMIDJI, 6:30 p.m.; July 8—KARLSTAD, July 10—OSLO; July 12—GRAFTON, 6:30 p.m.; July 14—at Grafton, 6:30 p.m.; July 15—at Warren; July 17—at Warroad; July 23—at Bemidji, 6:30 p.m.; July 24—DETROIT LAKES, 6:30 p.m.; July 26—at Fergus Falls, doubleheader at 2 p.m.

All other games which do not have times listed start at 7 p.m. with all home games being played at the fairgrounds diamond.

Ladies Softball

A ladies' organizational softball meeting will be held Monday at 6 p.m. in the meeting room of the city auditorium.

It is planned to have a four-team league this year. About 21 more girls are needed in order to get started with league action.

All interested parties are asked to contact Janice Dargus at 681-3290, or Florence Froschheiser at 681-4337 after 5 p.m. Those who have already contacted someone about playing softball are asked to do so again as the list of names has been misplaced.

NEEDED FUNDS for the Thief River Falls day care center for retarded children were contributed recently by the local Elks lodge to the day care center board. Jack Boyer, Elks exalted ruler, presented a $250 check to Mrs. James Carlson, representing the day care center's board of directors. The center has an expanding program of activity for retarded youngsters of the area and is dependent upon volunteer contributions for the success of its endeavors.

Bring 'Em Back Alive Is Summer Driving Theme

"Have a happy holiday, but BRING 'EM BACK ALIVE!" That's the message from the Minnesota AAA as thousands of Minnesotans prepared to launch the 1969 summer vacation season.

In announcing Minnesota AAA's second annual holiday safety campaign, Harlan Held, Mankato, president of the 350,000-member motoring organization, urged all vacationing Minnesota motorists to observe the following safe and sane holiday driving habits:

Drive with care, caution and courtesy. Observe the golden rule while driving; drive like a gentleman (or a lady), and show other drivers on the highway that you're a mature, mannerly motorist.

Do not drink...and drive! Alcohol and driving are a deadly mixture. If you have had something to drink, turn the wheel over to someone else. More than half of all fatal accidents in Minnesota last year involved a drinking driver.

Plan your trip...well in advance. Don't rush. Obey all speed limits. Allow enough time so you won't have to hurry to your holiday destination. Remember, it takes only a second or two to become a traffic statistic, so take it easy!

Beware of "highway hypnosis". Don't try to prove you're a superman behind the wheel. Stop at highway rest areas for rest and refreshment. Should you feel too tired to continue driving, turn the wheel over to someone else or stop at a hotel or motel and continue your journey in the morning.

Throughout the summer vacation season—from Memorial day through Labor day—Minnesota AAA and its affiliated automobile clubs, the American Legion, Minnesota FFA, Minnesota highway department and other safety organizations, will be conducting the holiday safety campaign which encourages Minnesotans to get out and enjoy their state's scenery and attractions, but to..."BRING 'EM BACK ALIVE!"

4.5 Million Trees Planted on State Land This Year

Approximately 4.5 million trees were planted on lands administered by the conservation department's division of lands and forestry this spring, it was reported today.

Most of the trees, sufficient to reforest an area of 4,500 acres, were planted in designated state forests.

More than half of the trees were Norway pine although jack pine, white pine, black spruce and white spruce were also planted.

In southeastern Minnesota, 35,000 black walnut seedlings were planted in the Memorial Hardwood state forest.

Included in the total were more than 20,000 trees and shrubs planted for wildlife food and cover including honeysuckle, caragena and wild plum.

Forestry officials said it was an ideal spring for tree seedlings due to cool wather and good amounts of moisture prior to planting time.

However, conditions have since turned dry and precipitation is needed to insure good survival.

100,000 Salmon Released Into Lake Superior

Stocking has been completed on Minnesota's first contribution of coho salmon to Lake Superior, the conservation department has announced.

The salmon—100,000 of them—were put into the lake by way of the French river during the past few days in groups of about 10,000.

Now the state must wait until the fall of 1970 to see if the silvery fish return to the river to spawn or simply disappear into the vastness of the huge lake.

If all goes well the salmon will find their way back to the river when the spawning urge hits them [illegible] fall when the fish are three years of age.

Although the fish will probably disperse throughout the lake, their remarkable homing instinct is supposed to bring them back to the stream from which they entered.

Even more remarkable, assuming the fish return, is the fact that they were not hatched in the French river and most spent only a few hours or days in the river before moving downstream to the lake.

The first load of cohos—about 8,000 fish—was placed in the pool above the dam at the French river hatchery on Thursday, May 15.

The fish had become extremely active during the previous days while being held at the Spire Valley rearing station near Outing, a sign that they were entering the migratory stage of their life.

Several of the fish jumped out of the pails into the pool at French river before the buckets of fish could be emptied into the stream.

A few of the fish immediately went over the dam and downstream toward the lake but the bulk of them remained in the pool.

Department fisheries specialists were hopeful that the cohos would remain in the pool for two or three days to help insure "imprinting"—the ability to recognize the waters of the French river when they begin seeking a spawning stream.

The fish were about six inches long when stocked but should grow to a length of 20 inches or more by the fall of 1970.

In addition to the 100,000 cohos stocked into Lake Superior, the conservation department has introduced the salmon into several inland lakes in northeastern Minnesota.

One lake—Hare lake in Lake county—received [illegible] coho last October and recent test netting indicates that the fish grew two inches in length during the winter months.

Dick Hassinger, department fisheries biologist at French river, said the growth rate is excellent for the winter months and encourages hopes that the coho may provide good sport fishing in reclaimed inland lakes.

These are lakes which have been treated with toxicants to remove unwanted panfish species which compete with the salmon for food.

Two hoodlums shoot it out in an exciting sequence from "Bullitt," the Warner Bros.-Seven Arts suspense drama showing Thursday through Saturday at the Satellite drive-in Theatre. The Technicolor film stars Steve McQueen and Robert Vaughn and co-stars Jacqueline Bisset. Phil D'Antoni produced, and Peter Yates directed.

Entry Closings Are Announced By State Fair

Closing dates for entries in Minnesota state fair competitive departments were announced today by secretary-general manager John E. Libby.

Butter and cheese entries are due July 2 at Land O'Lakes Creameries Inc., 2201 NE Kennedy St., Minneapolis. The other July closing date is for horses (except hunters and jumpers) on Saturday, July 19. Entries in all departments should be addressed to Entry Department, Minnesota State Fair, St. Paul, Minn. 55108.

Entry closing dates in August include: Friday, Aug. 1, FFA judging contests; Monday, Aug. 4, cattle, hunters and jumpers, FFA cattle; Tuesday, Aug. 5, poultry; Wednesday, Aug. 6, sheep, swine, FFA sheep, FFA swine; Friday, Aug. 8, auto race; Saturday, Aug. 9, fine arts; Monday, Aug. 11, agriculture, horticulture, FFA crops, mink; Wednesday, Aug. 13, bee culture; Friday, Aug. 15, FFA utility certified seed; Saturday, Aug. 16, home activities; Monday, Aug. Will it be Enough?

John 14:1-15

Acts 2:14-21
Acts 3:1-10
Acts 3:11-26
Acts 4:1-13
Acts 4:13-22

Scriptures selected by the American Bible Society

Today it's just a skeleton against the sky. But tomorrow people will live in it, and it will become a home. Within its walls, the pattern of life will be carried out.

But will this be enough? As a home, will this house stand or fall as the years pass? Will the people who live in it develop into better, stronger human beings? Or will they acquire selfishness, greed, indifference, conceit?

Remember the foolish man who built his house on sand, only to have the rains wash it away, and the wise man who built his house permanently on a rock? The future of this house—the future of a home—depends upon its foundation.

In the story, the "rock" symbolizes the Church. Those who build their faith upon its foundation will take into their homes the strength to keep them standing, regardless of what life may bring.

For Goodness Sake, Serve A Luscious Citrus Salad!

You'll travel in the right circles with your guests when you serve a generous platter of Florida grapefruit sections, orange slices and sweet onion rings. Besides their marvelous flavor, citrus fruits offer many nutrients in addition to daily-needed vitamin C.

The sweet-tasting, seedless Valencia oranges and plump, juicy grapefruit from Florida combine deliciously with the flavor of sweet red onions. Weather permitting, Florida expects to supply the nation's produce markets with an ample amount of top quality Valencia oranges and grapefruit through June, or about one month beyond the normal wind-up date for quantity shipments of fresh citrus.

A French dressing made with grapefruit juice is wonderfully zesty poured over this salad, and it's not too rich for the average person's diet. If overweight is a problem, enjoy this refreshing salad with just a vinegar dressing or one of the many commercially prepared dietetic dressings available.

Orange, Grapefruit and Onion Salad

4 Florida oranges	2 medium-sized sweet onions
2 Florida grapefruit	Crisp salad greens

Chill fruit before preparing. To peel fruit, cut slice from top, then cut off peel round and round, spiral fashion. Go over fruit again, removing any remaining white membrane. Slice oranges crosswise, ¼-inch thick. Section grapefruit by cutting along side of each dividing membrane from outside to middle of core. Remove section by section over bowl to retain juice. Slice onions ¼-inch thick and separate slices into rings. Arrange orange slices, grapefruit sections and onion rings on assorted salad greens and serve with Grapefruit French Dressing.*

YIELD: 6 servings

Grapefruit French Dressing

⅔ cup salad oil	1 teaspoon salt
⅓ cup vinegar	1 teaspoon paprika
⅓ cup Florida grapefruit juice	1 teaspoon tarragon or chopped parsley
1 teaspoon sugar	

Combine all ingredients and shake well before serving.

YIELD: About 1¼ cups.

Cook-out tips from Speas

MARINATE an economy steak in Speas Vinegar. Speas tenderizes, improves flavor. Leave the meat in the marinade several hours or overnight in the refrigerator before grilling.

SPARK a salad with Speas Vinegar. Make a fresh dressing; use your favorite recipe or go creative and invent a new one! Try it in "better than bottled"! Try it yourself and see.

$101 less than last year's Impala with comparable equipment.

Impala Custom Coupe

Match that, anybody.

We give you an honest increase in car at an honest decrease in price. Take the '69 Impala above. We improved the ride. Made it quieter inside. Added an anti-theft locking device. Put steel guard rails in the doors. Still, this Impala with a 300-hp V8, Turbo Hydra-matic, advanced-design power disc brakes, head restraints, whitewalls and wheel covers is priced $101* less than in 1968. The 300-hp V8 is priced $40 less than last year's 275-hp. Turbo Hydra-matic costs less. Power disc brakes about half as much. Whitewalls a little less. Wheel covers about the same. And head restraints are now standard. Upping value and dropping price. That's the way Chevrolet operates.

Putting you first, keeps us first.

> "I came into this world, not chiefly to make this a good place to live in, but to live in it, be it good or bad. A man has not everything to do, but something; and because he cannot do everything, it is not necessary that he should do something wrong." —Henry David Thoreau

Do You Remember Me?

Flag day will be observed June 14 and Independence day on July 4, both days in the near future to display proper respect for the nation's banner of honor. Origin of the following is unknown, but it provides timely thought for the coming observances:

Hello, remember me? Some people call me Old Glory. Others call me The Stars and Stripes. I have also been referred to as The Star Spangled Banner. But whatever they call me, I am your flag, or as I proudly state, the flag of the United States of America. There is something that has been bothering me, so I thought I might talk it over with you—because it's about you and me.

I remember some time ago—I think it was Memorial Day — people were lined up on both sides of the street to watch the parade. The town's high school band was behind me and, naturally, I was leading the parade. When your daddy saw me coming along waving in the breeze, he immediately removed his hat and placed it against his left shoulder so that his hand was directly over his heart. Remember?

And you — I remember you. Standing there as straight as a soldier; you didn't have any hat but you were giving the right salute. They taught you in school to place your hand over your heart. Remember little sister — not to be outdone, she was saluting the same as you. I was very proud as I came down your street. There were some soldiers home on leave and they were standing at attention, giving the right salute. Ladies as well as men all paying me the reverence that I deserve.

Now I may sound as if I'm a little conceited. Well, I am. I have the right to be. Because I represent the finest country in the world, the United States of America. More than one aggressive nation has tried to haul me down. But they all felt the fury of theis freedom-loving country. You know — you had to go overseas and defend me.

What happened? I'm still the same old flag. Oh, I have a couple of stars since then added to me. A lot more blood has been shed since Memorial Day so long ago. Dad is now gone. The old home has a new look. The last time I came down your street, I saw some of the old landmarks were gone, but in their place, shining new and majestically in the sun were new buildings and homes. Yes sir, the old town has sure changed.

But now I don't feel as proud as I used to. When I come down your street, you just stand there with your hands in your pockets, give me a small glance, and then look away. When I think of all the places I've been, Anzio, Guadalcanal, Korea and Viet Nam. Then I see the children running around and shouting — They don't seem to know who I am. I even saw one man take his hat off and put it back on again because when he looked arund not one else had their's off.

Is it a sin to be patriotic any more? Have you forgotten what I stand for? Have you forgotten all the battlefields where men fought and died to keep this nation free? When you salute me you know you're actually saluting them. Take a look at the memorial honor rolls some time. Look at the names of those who never came back. Some were friends or relatives of yours. Probably went to the same school as some of them — that's what you're saluting. Not me.

Well, it won't be long until I'm down your street again. When you see me, stand straight — place your hand over your heart — and you'll really be seeing me waving back. My salute to you, and I'll know that you remembered.

Going to the Races?

Saturday will be Thief River Falls day at Assiniboia Downs at Winnipeg where the feature race of the day will be named for Thief River Falls. Many area residents will journey to Winnipeg for the event, as they have the past several years.

For the novice, the Jockey Club Limited of Rexdale, Ont., Canada, has prepared an information sheet entitled "How to Act As Though You've Been Going to the Race Track for Years". The suggestions (not to be taken literally) are as follows:

Sooner or later you'll be going to a horserace. We know that. You know that. Because it's just too much fun to miss. But the one thing that may make you hesitate just a little is you might feel a bit inexperienced about what you're supposed to do when you get there.

Don't worry. We can make you look as though you've been going for years.

Before you head for the track, there are a couple of nifty little things you can do that'll make you feel way ahead of the game when you arrive. One is to write for our free booklet on thoroughbred racing (The Jockey Club Limited, Box 156, Rexdale, Ontario).

It gives away all the secrets that race track veterans have been carrying around for years.

Secondly, buy your Racing Form (the tabloid paper that tells you all about the horses running that day) before you go to the track. Rumple it up. Fold it. And sort of roll it into your pocket. Man, if this doesn't make you look like you've been part of the scene before, nothing will.

When you walk through the turnstile, very casually look at the gateman and say, as if you've done it every day now for the past eleven weeks, "Hiya buddy, how's tricks?"

By the time he recovers, you'll be through the gate and headed for bigger and better things.

(If you buy tickets to the clubhouse you have to have a jacket. If you decide to go to the grandstand, you can dress anyway you feel).

Now, with your form sort of swaggering in your hand, lean on the walking ring rail and throw off something like, "Hmmm, I'm a little worried about that fetlock." Then go about your business of checking and rechecking the form. Even the sturdy inveterate racegoer will be certain you know something he doesn't.

By the time the race comes, you'll have set yourself up as the man to watch. This is it. So be really, really cool. Before you place your wager, wander down by the track and drop this line, "Looks like another fast one". Then as though weighing this in your mind, head back to the mutuel area.

As you're about to make your wager, here are a couple of other hints you'll find helful. Hum or whistle off-tune while you approach the window. Make some nondescript code signs on your form. Look very judicious. Then, go all confident. Stare straight ahead. And without hesitation and with nerve of steel, toss off the number of the horse you've picked to the man in the mutuel window. ("Number six.") Be deliberate. You are now part of a horse race.

Serious Reservations

Commenting on passage of the omnibus liquor bill in the Minnesota legislature, the editor of the Murray County Herald at Slayton expresses some opinions regarding that area of the state which are also applicable to some extent in this area. He writes as follows:

Passage of an omnibus liquor bill last week, and the reported agreement of Gov. Harold LeVander to sign the measure, comes as more than a mild surprise to many veteran observers of the capitol scene.

Two major changes are incorporated in the omnibus bill. First, it permits the so-called "split liquor" practice whereby communities with municipal stores can also issue on-sale licenses, and second it declares a two year suspension of minimum price laws as they now affect liquor.

The liquor lobby, one of the most powerful in this or any other state legislature, is noted for its jealous guardianship of the status quo. Any changes in legislation involving the liquor traffic are usually greeted by the liquor interests with extreme caution. Bearing this in mind, passage of the omnibus bill is even more surprising.

The Herald greets this new approach to liquor sales and licensing with mixed emotions. We are happy to note that local option is still the key factor as far as split liquor is concerned. The Herald has always championed the free enterprise system, yet where liquor is concerned we quite frankly bend our convictions a bit. A town such as Slayton, for example, would be hard pressed to get along without all of the approximately $30,000 net annual income it receives from its municipal store. As long as local option is involved, we cannot conceive of any council issuing an on-sale license in this city.

A moratorium on enforcement of minimum price laws is another matter. This could and probably will have serious repercussions on both private and municipal stores in the smaller communities. Slayton and possibly Fulda are probably the only two towns in the county that will not feel the effects of this. They are large enough to buy in volume, and by so doing will receive prices that permits them to be competitive with the larger cities of the area. The other villages may find themselves facing price competition wich they cannot match.

Only time will tell how wise the legislature was in bringing about these changes. While we basically oppose governmental control of pricing in any industry, it must be remembered that the liquor business, like the taconite and public utilities business, is not quite the same as any other industry and must be treated differently.

We hope that the benefit the legislature so obviously anticipates are forthcoming—but we have serious reservations.

There's Action A-Plenty In Weeds

By Tom Andrews

Remember the last time you were out on the water on a dead-calm, blistering-hot day? The early-morning action probably persisted a bit later than usual. And before you knew it, your watch said it was 11 a.m. and you realized it had been 30 minutes or more since your last nibble or strike.

So you just packed up your gear and went in for lunch—right? Well, I'm afraid that's what most of us do, and as a result, we lose hours of potentially great fishing time out of our too-few summer days.

Many long years ago, I used to advise fishermen to knock off during midday hours in hot weather. But that was before my "Weedbed Education" was complete!

There's a better way!

First, let's assume you have spotted the weedy areas in that favorite lake, or that a local angler can point them out to you. Next, you've got to have a weedless Johnson *Silver Minnow* and pork rind in your tackle box.

Matter of fact, there ought to be two of these spoons—one silver and one purple—and some purple or black pork as well as white rind, frogs, or rubber skirts.

Move to the outer edge of the weedbed and anchor to get absolute control of the lure. Snap on a silver-finished *Silver Minnow* and a white pork strip.

Now cast inshore a couple of dozen times; later casts can be parallel to the shore. Let your spoon sink, but don't begin the retrieve. Count to 10 first, then start an extremely slow retrieve.

Turn the reel handle only a few times, then stop. Repeat the count, and once more move the lure.

This is the secret to weedless, productive weedbed fishing!

That *Silver Minnow*, even though it's the best weedless lure I've ever used, can't work miracles if it's ripped through the weeds with a hell-for-leather retrieve.

So if many casts fail to bring a lunker out of his weedy den, dig your purple *Silver Minnow* and a purple or black pork rind out of the tackle box. Then cast and retrieve as we've suggested, and watch for action!

For reasons that fish alone seem to understand, the combination of a dark lure and trailer on a hot, bright day seem somehow irresistible.

HEALTH & SAFETY

Mainly for Mothers

by Carol Hart

Open Doors Can Be Hazardous

Sometimes it takes a smashed finger or a crack on the head to remind us that doors are meant to be shut as well as opened.

To help prevent such accidents from happening to you and your family, the Council on Family Health suggests a "door tour" of your home. The Council is a non-profit organization sponsored as a public service by leading members of the drug industry, to promote home safety and family health.

Start with cabinet doors, not only because they are the most numerous in a home, but because they are in areas where Mom spends so much of her time. There are cabinets high and low in the kitchen, utility room, basement, storage room, home workshop and bathroom.

Eye level cabinet doors can be particularly hazardous if left open. Painful and serious face and head injuries can result to the person who stands up suddenly under the corner of a cabinet door.

An open door on a medicine chest, paint locker or household chemical storage cabinet presents an additional hazard. A toddler, seeing it open, may investigate. In that case you may have an accidental poisoning to deal with.

It's the unexpectedly open door that causes many accidents. Did you ever run into an open closet door? Many face injuries happen this way. If there are pre-school youngsters at home, watch out for open cellar doors, and doors that lead to the street.

Fingers seem to be particularly vulnerable to injury by doors, but a little extra attention can help prevent this. When a child is around, be careful how you close doors. Little children tend to put their fingers on the hinged side of a door.

When closing the door of an appliance such as a refrigerator, freezer, oven, washer or dryer, grasp the door by the handle and not by the edge.

Cadillac

The 1969 Hardtop Sedan deVille, Cadillac Motor Car Division

You've admired it long enough from the outside.
Now find out what it's like inside with a Command Performance Drive.

This is your finest opportunity to fulfill that ambition to get behind the wheel of a new Cadillac. It's the one way to satisfy yourself that only Cadillac offers the luxury, comfort, driving pleasure and pride of ownership you have a right to enjoy in an automobile. And there's no obligation.

Once inside a Cadillac you'll discover even more than you anticipated: elegant fabrics, beautiful appointments and considered comforts that match the distinctiveness of Cadillac's styling.

Perhaps more impressive—only because you tend to think first of Cadillac's luxury—is its performance. Cadillac's big 472 V 8 engine is spirited in its response to every driving command, yet so quiet you'll scarcely hear it. And as you drive, you'll note how deftly you can handle a Cadillac in any kind of traffic, in any situation.

Your authorized Cadillac dealer is eager to show you how much more a Cadillac offers . . . that it costs no more to own and operate than many cars of lesser stature. Now is a particularly advantageous time to see him for a Command Performance Drive. You'll be glad you did.

SHELLY GACKSTETTER, daughter of Mr. and Mrs. Winton Gackstetter of Red Lake Falls, will be one of 10 candidates for the Miss Thief River Falls title at the 15th annual Jaycees Aquaeade this year. The official Miss America preliminary pageant—where Miss America herself will be a guest of honor—will be held July 12 at the Lincoln high school gymnasium. Shelly's talent number for the pageant will be a piano solo.

Red Lake Falls Girl in Pageant

by Marvin Lundin
Times Editor

(This is the first in a series of personal interview features with candidates for the Miss Thief River Falls title at the 15th Annual Jaycees Aquaeade. Other candidates will be featured in future issues.)

Music and sports hold special interest for Shelly Gackstetter, as she has studied piano for nine years, played a flute in her high school band and enjoys swimming, skating, camping and outdoor activities.

The daughter of Mr. and Mrs. Winton Gackstetter of Red Lake Falls, Shelly is a 1969 graduate of Lafayette high school there. She is five feet, seven inches tall, weighs 115 pounds, has brown hair, brown eyes and a 34-24-36 figure. Her talent presentation at the Miss Thief River Falls pageant will be a piano solo.

While in high school she played in a flute trio as well as the school's concert band, and the trio won top ratings at the district and state area contests. She also sang in the school choir and served on the staff of the "Lafayette Eagle", school newspaper, as page editor, junior editor and senior co-editor.

As a junior she was selected to attend Girls State by the Red Lake Falls American Legion auxiliary, and this past winter was crowned queen of the snow festival sponsored by the Red Lake Falls Jaycees. Her sponsor in the Miss Thief River Falls pageant will be the Red Lake Falls Jaycee chapter.

Shelly's talents also extend into the field of sewing. She has made many of her own clothes, including the formal she will wear in evening gown competition and the dress to be used for her talent number. Designing her own clothes is also a hobby for Shelly.

Next fall Shelly will be enrolled at Northland state junior college in Thief River Falls, and expects to complete her four-year college training at Jamestown college or Bemidji state college. She lists world travel as a goal—especially to Scotland—and is considering teaching or Peace Corps service as post-college possibilities.

Goodridge Board Hires Teachers, Uses Gymnasium

Goodridge school board met on Friday night, hired three teachers for the coming year and announced that the school gymnasium will be open on Thursday evening and the following Tuesday night for students at the Goodridge school.

The three teachers hired were William D. Fisher, vocational agriculture; Fred A. Sorensen Jr., English; and Wallace D. Payne, science, mathematics and social studies.

The school gymnasium will be open for recreation for all students from grades seven through 12 next year on Thursday from 8 to 9:30 p.m., and the students in grades one through seven will be allowed to use the gymnasium on June 17, Tuesday, at the same time. Street shoes can't be used and the shower rooms will not be open, according to Dr. D. M. Brown, superintendent of the Goodridge school.

Township Clerks And Chairmen To Meet Here Tues.

Area township clerks and chairmen will meet in Thief River Falls on Tuesday at 8:30 p.m. in the city auditorium. The meeting has been called by the Minnesota Association of Township officers, according to Henry Waale, secretary-treasurer of the Pennington county association of township officers, who urges a good attendance.

The meeting is the result of a discussion held at the annual meeting in Little Falls last year, where it was pointed out that there is a lack of communication between members and the officers of the state association. The association reportedly has "very good and strong memberships," but few members know what the state association has done and what it is attempting to accomplish, Waale said.

Several meetings are being held in different parts of the state, including one for the northern part of the state in Thief River Falls. Another is being held in Detroit Lakes at the municipal fieldhouse on June 9. These meetings are being held to better advise the members of just what the state association is trying to do.

The meeting is not just for Pennington county, Waale emphasized, but for all other northern county officers and clerks. It is expected that a large number of township officers will take the opportunity to become better informed, especially of the active participation of the association in legislative matters affecting townships and rural areas in general.

A light lunch will be served after the meeting.

Arctic Sales of $21,755,765 Are Noted Last Year

Arctic Enterprises, Inc., has announced net sales for the year ended March 31, of $21,755,765, an increase of 266 per cent over the volume of $8,183,736 the previous year.

Lowell T. Swenson, president of the manufacturer of snowmobiles and other leisure time products headquartered here, said net income after taxes was up 300 per cent. Net income of $1,278,221 this past year compared to $420,094 the year earlier.

Earnings per common share increased to $1.24 from 41 cents. The $1.24 figure includes 1968 earnings of Allan Engineering company, Minneapolis, a wholly-owned subsidiary acquired in February, under the pooling of interests method of accounting.

As of April 30, there were 1,081,740 common shares outstanding.

In addition to its plants here and its Minneapolis subsidiary, Arctic has manufacturing facilities in Clearbrook and Karlstad, and in Rainy River, Ontario, Canada.

Summer Reading Program Begins At TRF Library

Boys and girls of Thief River Falls who took part in a summer reading program at the library last year are reminded that again this year the library will have a summer reading program, but this one will be different. Youngsters will join the "Silver Saddle Reading Roundup."

To join the club, boys and girls must read and report on three books. The library staff will put the participant's name on a card showing a picture of a ranch with horses, and will give him or her a badge to wear with the name of the club. After that, every time the child reads a book, the library staff will paste a sticker with a picture of a horse on his or her card.

"There is room for 12 stickers, which means that by the end of the summer you will have read 15 books," states Miss Dorothy Last, librarian. "When you have completed the program, you will be invited to a party at the library. The program will begin June 9 (today) and will end July 19. No one may report on books before or after these dates. One more thing—we suggest that you read books on your own grade level. We cannot give you credit for books that are too easy for you."

Newfolden Band Program Begins

Summer band program in Newfolden begins today, Monday, and band director Kreger would like to have a beginners program started now. Any parents of fifth grade or older students, whose children are interested in participating in band, should contact Kreger at his home phone or at the school by Friday of this week.

All students in the summer band program who have set up lessons should start coming this week at the properly scheduled time. Some time next week the Larson Music company of Thief River Falls will explain a plan for renting and buying instruments at the Newfolden school.

Miss TRF Enters State Pageant

Penny Engstrom, Miss Thief River Falls of 1968, will leave Tuesday to attend the Miss Minnesota pageant to be held Tuesday through Saturday in Austin.

Accompanied by Mrs. Nell McEwen, Penny will make the trip to Austin by airplane donated by Rantanen Flying service at the Thief River Falls municipal airport. Ralph Hunt will pilot the plane.

Story Hour To Start at Library

At 10 a.m. Tuesday morning, June 17, the Thief River Falls public library will begin its weekly story hour for pre-schoolers. Miss Patricia Rustad and Miss Bertha Hastad will have charge of the sessions which will include recordings, stories and popular games.

The program will be geared to pre-schoolers, but older children may attend. Youngsters of the Thief River Falls area are invited.

201 Entries Received For Dairy Day Tuesday

Physicals For Pre-Schoolers Due by June 30

Parents of five-year-old children who are to attend kindergarten next year, are reminded of the need for pre-school physicals. All physicals should be completed by June 30, according to Mrs. Margaret Race, school nurse.

Mrs Race gave a special reminder to those parents whose children have not had their measles vaccine. Protection from measles is required by law in Minnesota before school entrance.

Seek Bids For Carrying Mail

Sealed proposals will be received by the director, Transportation division, post office department in Minneapolis until 3 p.m. June 25 for carrying the mail from July 1, 1969 until June 30, 1973, between Thief River Falls and Bemidji. Vurnie Hopwood
NW Dairy Princess

Linda Louwagie
Princess Kay

Two-hundred and one entries have been received for the dairy show at the 20th annual Northwest Dairy day to be held in Thief River Falls Tuesday. Dr. William Mudge and Dr. E. C. Fredricks will judge the show which will be held in a downtown parking lot if weather permits or at the fairgrounds livestock pavilion in case of rain. Harley Sharson, East Polk county agent, will be show supervisor.

Special guests at the event will be Linda Louwagie, Princess Kay of the Milky Way, and Vurnie Hopwood, Ada, 1968 Northwest Dairy princess. The new princess will be crowned from a group of county finalists at a coronation ceremony following the dairy show in the afternoon.

Annual parade of champions, including bands, floats, princess contestants, Princess Kay, the Northwest Dairy Princess and her attendants and other units, will follow the coronation. Parade forms at Second street and Knight avenue and continues east to Horace avenue, north on Horace to Third street, west on Third to Knight avenue and south on Knight to Second street.

Once again this year the dairy show will have entries from every major dairy breed. Although Holsteins will predominate in number of entries, there are a number of animals entered from Ayrshire, Brown Swiss, Jersey, Guernsey and Milking Shorthorn breeds.

All participants in the dairy show will receive awards for participation, with special awards given to various champions. Top awards are a purebred dairy calf and a trip to the International Dairy Cattle congress at Waterloo, Ia.

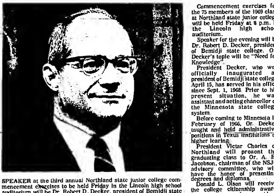
All first year exhibitors receive show halters with other prizes including: Second year, show jackets; third year, grooming kits; fourth year, show blankets; fifth year, travel alarm clocks; sixth year, engraved pen sets; seventh year, transistor radios; and eighth, ninth and 10th years, engraved trophies.

Judging the dairy princess contest will be Owen Hallberg, Minneapolis, and Robert Rupp and Mrs. Marge Weyandt, St. Paul. Contestants are expected from each of the Dairy day counties of Beltrami, Clearwater, Kittson, Lake of the Woods, Polk, Red Lake, Mahnomen, Marshall, Norman, Pennington and Roseau.

Previous winners of the Northwest Dairy Princess title include the following: Marian Mueller, Mahnomen, 1950; Vivian Thompson, Roseau, 1951; Marlene Jensen, Norman, 1952; Betty Ranstrom, Marshall, 1953; Sonja Sharpe, Norman, 1954; Barbara Droppo, Pennington, 1955; Varlene Peterson, Roseau, 1956; Angie Refling, Norman, 1957; Diane Schroeder, Norman, 1958; Bonita Christiansen, Beltrami, 1959; Jeanette DeVries, Norman, 1960; Betty Johnson, Roseau, 1961; Kathleen Hjelle, Marshall, 1962; June Walter, Red Lake, 1963; Shirley Rowland, East Polk, 1964; Janice Swanson, Polk, 1965; Kaye Webster, Polk, 1966; Arlene Ubel, Lake of the Woods, 1967, and Vurnie Hopwood, Norman, 1968.

Of the 19 previous winners, Diane Schroeder and Kathleen Hjelle went on to become Minnesota's Princess Kay of the Milky Way.

75 Graduate From Northland on Friday



SPEAKER at the third annual Northland state junior college commencement exercises to be held Friday in the Lincoln high school auditorium will be Dr. Robert D. Decker, president of Bemidji state college. Dr. Decker's topic for the evening will be "Need for Knowledge". Before coming to Minnesota in February of 1966, Dr. Decker taught and held administrative positions in Texas institutions of higher learning.

Commencement exercises for the 75 members of the 1969 class at Northland state junior college will be held Friday at 8 p.m. in the Lincoln high school auditorium.

Speaker for the evening will be Dr. Robert D. Decker, president of Bemidji state college. Dr. Decker's topic will be "Need for Knowledge".

President Decker, who was officially inaugurated as president of Bemidji state college April 15, has served in his office since Sept. 1, 1968. Prior to his present situation, he was assistant and acting chancellor of the Minnesota state college system.

Before coming to Minnesota in February of 1966, Dr. Decker taught and held administrative positions in Texas institutions of higher learning.

President Victor Charles of Northland will present the graduating class to Dr. A. E. Jacobson, chairman of the NSJC advisory committee, who will have the honor of presenting degrees and diplomas.

Donald L. Olson will receive the college citizenship award from sophomore class president Henry Hoefer.

The commencement program also includes musical selections by Northland's band and choir, with invocation and benediction by Rev. Val Hauck of the First Baptist church in Thief River Falls.

Ushers and usherettes for the evening will be Beverly Borgen, Barry Froiland, Debra Holvorson, Shawn Jahnke, Emily Johnson, David Lind, Marsha Mattson and Nathan Mikaelson, all freshmen at Northland.

Graduates at Northland include the following:

Thief River Falls—John Adolphson, Roger Aker, Daryl Augustine, Suzanne Bedard, Douglas Brandt, Robert Bredeson, May Lee Broten, Marvin Carlson, Keith Craik, Birdell Davies, JoEllen Erickson, John Feragen, David Halvorson, Ray Hedahl, John Hellquist, Rodney Helgeset, Larry Johnson and Terry Lappegaard;

Army Private First Class Brad R Nelson, son of Mr. and Mrs. Richard F. Nelson of rural Goodridge, was assigned May 13 to the 9th Infantry division in Vietnam as a reconnaissance specialist.

The last things to do before heading off for your summer vacation should be to check your home. Be sure that light switches and water taps are off and be extra sure that all doors and windows are firmly secured.

Award Contracts for City Arena

BID OPENING for the new Thief River Falls arena took place last week in the council chambers of the city auditorium. Clockwise around the table from the extreme left foreground are Art Rambeck, alderman; Mayor A. E. Jacobson; William Froiland, alderman; Ambrose Wysoski, alderman and chairman of the building committee; Robert Wurst, city attorney; James Gravender, representing the architect; Robert Carlson, council chairman; Morris Owen, superintendent of utilities; Arnold Narverud, alderman; and Ola Engelstad, alderman. With contracts let for construction, the arena is scheduled to be ready for use by December 1.

After waiting a year and rejecting one previous group of bids, the Thief River Falls city council opened bids on the new Thief River Falls city arena on Thursday afternoon and awarded contracts on Thursday night in a meeting of the city council.

Total bids for the entire project amount $561,215 or $86,215 over the amount originally adopted in the arena bond issue. That bond issue was heavily approved by the voters in February of 1968 for $475,000.

Low bidders that were awarded contracts Thursday were Witcher Construction, Minneapolis, general contract for $387,700; Lee Plumbing and Heating, Thief River Falls, mechanical contract with a bid of $40,300; Metropolitan Mechanical contractors, Minneapolis, refrigeration contract with a bid of $88,475; and Langlie Electric, Thief River Falls, electrical contract with a bid of $44,740.

The building is expected to be completed by December of this year, and will be of concrete block, 150 x 250 feet in size, and will include an olympic size skating rink with artificial ice. The building will seat approximately 2,700 persons and will have four locker rooms plus a large storage room for the resurfacer.

There were five bidders on the general contract with Witcher being the low bidders at $387,700, while the highest bid was $429,000. There were two bids for the electrical contract with Langlie being the lowest while the highest was $53,400. Lee Plumbing and Heating was the only bidder on the mechanical contract. Three bids were received on the refrigeration contract with the highest bid being $110,450.

Theatre Plans Auditions for Next Production

Thief River Falls Community theater will hold auditions for its summer production, "The Night of the Iguana", on Tuesday and Wednesday at 7:30 p.m. at the Lincoln high school auditorium.

Any person interested in a part in the play or in any other phase of the production should attend or notify theater personnel if unable to attend. The play will be under the direction of Lan Miller and will be presented as a production of the Jaycee Aquaeade in July.

ICC Will Hold Annual Meeting

Annual meeting of the Inter-County Community council, Inc., will be held at the Oklee high school library at 7:30 p.m. June 18. Business includes election of board members and officers for the next fiscal year.

Ladies Golf Club Season Opens With A Luncheon

Thief River Falls Ladies golf club season opened officially Tuesday with a noon luncheon at the club house. Hostesses for the event were Sammy Rasmussen, Marie Sorenson, Tress Noel and Gladys Narverud, 1969 officers of the club.

President Mrs. Mary Jane Wurst welcomed the members and their guests. She also read the list of officers and committee members for the coming season. They include Mrs. Wurst, president; Marie Sorenson and Gladys Narverud, co-vice presidents; Tress Noel, secretary and Sammy Rasmussen, treasurer.

Also Marion Tygeson, Ruth Legvold and Yvonne Bredrson, finance committee; Avis Goddard, telephone chairman; Marvel Van Rooy and Phyllis Moum, golf co-chairmen, and Keks Lee, housekeeping chairman.

Also Sunny Wold, publicity; Sylvia Olson, Vi Larson and Harriet Hartz, purchasing; Mary Schuneman, activities, and Ella Anderson and Eunice Flynn, membership chairmen. Bridge chairmen for the three months were also named. They are Ruth Olson for the month of June; Margaret Weigelt, July; and Marge Thompson, August.

During the business session, it was announced that anyone desiring lockers may contact Sammy Rasmussen and those wanting a stall should contact the Golf Pro office.

Rules and practices of the club were also reviewed. Members were asked to sign up at the bulletin board for luncheon serving dates. Those not wishing to serve were asked to compensate by paying $15. Each member is also expected to assist twice during the season at men's tournaments by working once and donating once.

Mrs. Wurst also stated that some club house dishes were missing. Members were urged to return these if they have any in their homes. Due to the shortage, donations of extra bowls were requested.

Announcement was made that league play will begin Tuesday, June 10, with dues at one dollar. Members interested in league play were asked to contact either Phyllis Moum or Marvel Van Rooy. It was emphasized that play should be made Tuesday, if possible. A few days grace will be given for this event, but for the remainder of the season, play must be on Tuesdays or before. It was also noted that regardless of score, there is a place provided in the league for everyone. Substitutes are available. A special game is scheduled every Tuesday for league players and members were asked to inquire at the club house before starting play.

Anyone not wishing to join a league, Mrs. Wurst said, may serve as a substitute as substitutes are badly needed. In serving as a substitute, it was stressed that anyone may qualify, regardless of score, as handicaps are used. She concluded by reminding players to replace all divots during the season and to repair the ball marks on the greens.

Following the business session, three tables of bridge were played. Winners at bridge were Ellen Peterson and Ruth Olson.

The home is a lucrative target for the burglar. Stolen property value in each home burglary averages $263, compared to $227 taken in the average commercial theft.

Marlys Lofberg Is Bride Of Francis R. Anderson

Miss Marlys Mae Lofberg and Francis R. Anderson, both of this city, exchanged marriage vows on Saturday, May 10, at 8 p.m., at Redeemer Lutheran church in this city.

The bride is a daughter of Mr. and Mrs. Arthur Lofberg of this city and the groom is the son of Mrs. Andrew Anderson of Karlstad and the late Andrew Anderson.

Rev. Dennis Rodin officiated at the double ring ceremony. At the altar were baskets of yellow mums and carnations accented with white gladioli. Presiding at the organ was Mrs. William Halbasch, who played a program of traditional nuptial selections as the guests were ushered in. Seating the guests were Neil Lofberg of Park Rapids and Brian Lofberg of Kalamazoo, Mich., brothers of the bride, together with brothers of the groom, Roy and Elmer Anderson, both of Karlstad.

Miss Mary Kraemer, a friend of the bride, was the soloist. She sang "A Wedding Blessing" and "The Lord's Prayer."

The bride was given in marriage by her father. She was attired in a floor-length, A-line gown fashioned with a lace bodice styled with a high lacy neckline and wrist length, bell sleeves. Matching lace motifs, appliqued in nosegay pattern and re-embroidered with sequins, were scattered across the bridal satin skirt and watteau train attached at mid-shoulder. A forward headpiece of lace petals, outlined with seed pearls and teardrops, held her double tiered veil. She carried a colonial bouquet featuring a nosegay of yellow roses surrounded by white carnations flowing into a modified cascade.

Mrs. E. T. Stokke of Colorado Springs, Colo., attended her sister as matron of honor. Bridesmatrons were Mrs. Merle Brevik of Red Lake Falls, a sister of the groom, and Mrs. Steve Gjerstad of Chicago, Ill., a friend of the bride. They were attired in floor-length, A-line gowns of yellow rayon chiffon lined with matching satin. Accenting the gowns were satin wedding-band collars, covered buttons down the front, and a floating back panel topped by a matching satin bow. Their circular veils were held by sheer bows accented with a forward cluster of daisies and simulated pearls. To complete their attire, they wore yellow fabric shoes, white elbow-length gloves and each carried a colonial bouquet of yellow roses and white carnations, similar to the bridal bouquet.

Wearing similar attire was Miss Desiree Lofberg of Park Rapids, a niece of the bride, who served as flower girl. She carried a white basket filled with yellow and white flowers. Paul Anderson of Karlstad, a nephew of the groom, was the ring bearer.

Tom Britten of Karlstad, a friend of the groom, served as best man. Groomsmen were Adolph Anderson of Thief River Falls, brother of the groom, and Michael Lofberg, Thief River Falls, brother of the bride. The men of the wedding party, together with the ring bearer, all wore black tuxedos with white carnation boutonnieres.

For her daughter's wedding, Mrs. Lofberg chose a pale pastel peach-colored one-piece knit dress accented with mink brown gloves, shoes and hat and drop earrings featuring a peach-colored rose. The mother of the groom wore a soft pastel green one-piece knit dress with coordinating hat and bone-colored shoes and gloves. Both wore identical corsages composed of two yellow cymbidium orchids.

A reception in the church parlors followed the ceremony. Mr. and Mrs. Alvin Anderson of Lancaster served as reception host and hostesses. Their daughter, Miss Linda Anderson, presided at the punch bowl.

Centering the serving table was round a four-tiered wedding cake, iced in white and trimmed with yellow roses and green leaves. The second tier was topped with a white Bible, two silver wedding rings and miniature white doves. A Christogram graced the top tier. Cutting and serving the cake were Mrs. Duane Lofberg of Gilby, N.D., and Mrs. Roy Anderson of Karlstad. Mrs. Dean Homs of Thief River Falls and Mrs. Norman Berg of Karlstad, poured.

Distributing the groom's cake was Miss Holly Andersan, daughter of Mr. and Mrs. Adolph Anderson of this city. Miss Cheryl Vik of Halma registered the guests while her mother, Mrs. Robert Vik and Mrs. Brian Lofberg of Kalamazoo, Mich., served as waitresses.

Opening and arranging the gifts were Mrs. Neil Lofberg of Park Rapids, Mrs. Elmer Anderson of Karlstad, Mrs. Adolph Anderson of Thief River Falls and Mrs. Boyd Johnson of Middle River.

Relatives and friends attending were from Gilby, and Grand Forks, N.D.; Chicago, Ill.; Kalamazoo, Mich.; Halma, Karlstad, Strandquist, Newfolden, Viking, Kennedy, Hallock, Lancaster, Goodridge, Warren, Stephen, Clarissa, Lake City and the Thief River Falls area.

For traveling on the wedding trip to Colorado Springs, Colo., the bride was attired in a matching coat and dress ensemble complemented by black patent accessories.

Mr. and Mrs. Anderson are at home in this city at 912 North Arnold.

The bride is a graduate of Lincoln high school and the Thief River Falls area vocational technical school. She is employed at the Fashion Shop. The groom, a graduate of the Strandquist high school, manages Anderson Bros., Phillips 66. Photo, Ted Swanson's Studio, Grand Forks, N.D.

KITCHEN KARNIVAL

Features from the Kitchen of

MRS. RAYMOND SOURDIF
of rural Newfolden

People who live in apartments where the heating system has been turned off for the summer season, are finding some of these mornings rather uncomfortable. To make the kitchen cozy, many homemakers resort to baking. Today's recipe for Honey Butter Balls, will serve a double purpose. Not only will it fill the cooky jar, but due to the unusual length of time needed for baking, will provide the heat needed.

HONEY BUTTER BALLS

1 cup butter
½ cup honey
2 teaspoons vanilla
½ teaspoon salt
2 cups sifted flour
2 cups finely chopped nuts

Method: Cream together butter, honey, salt and vanilla until light and fluffy. Gradually add flour and mix well. Add nuts, mix and form into balls the size of a hickory nut or walnut. Place on a greased baking sheet, fairly close together, and bake in a slow 300 degree oven from 40 to 45 minutes. While warm, roll in powdered sugar.

The Raymond Sourdifs live near Newfolden where they are engaged in diversified farming. In addition, Mr. Sourdif is also engaged in carpenter work in the area.

Of their eight children, only three are living at home. They are Joyce, a junior at the Newfolden high school; Wayne, in the fourth grade; and three-year-old Danny. Two daughters, Mrs. John Lubitz and Mrs. Richard Moe, live in the Thief River Falls area while Susan, Mrs. James Bevel, resides in California. Gordon is married and lives at Greenbush and Larry is stationed with the U.S. Army in Germany. Five grandchildren complete the family circle.

BUILDING SITE for the Thief River Falls city arena will be at the fairgrounds in Thief River Falls. The building will come within 20 feet of the current race track. The women's building and the Jaycee dunking stand will be moved, along with some light poles. Work is expected to begin this week on the new arena with completion in time for the first Prowler hockey game scheduled for December this year.

Jean Holthusen Heads Marshall MiSCCA Appeal

Miss Jean Holthusen, Grygla, will head the Marshall county crippled children's appeal for 1969, according to W. B. Schoenbohm, executive director of the Minnesota Society for Crippled Children and Adults, Inc. (MiSCCA).

Miss Holthusen will choose township chairmen who will recruit volunteers to help with the door-to-door campaign, which is being held this year during May and June.

Miss Holthusen emphasized that the physical problem is just the beginning of the difficulties encountered by a handicapped person. MiSCCA's program is designed to meet more than just the physical needs of the handicapped. Camp Courage, Minnesota's only residential camp for the physically handicapped, provides the opportunity for much needed recreation in the out-of-doors. It develops independence and maturity and helps the campers to overcome their handicaps. The 14 day camps which MiSCCA runs throughout the state also have these same goals.

MiSCCA supports four sheltered workshops where the handicapped can gain a sense of greater self-sufficiency, and where some are prepared to enter competitive employment. Six rehabilitation centers, which give all kinds of therapy from vocational to physical, are also supported by MiSCCA.

The crippled children's appeal supports these services, all of which are used by people from every county in the state. All parts of the state benefit from the equipment loan program, from scholarships that are offered statewide, and from research and education. The appeal is held only in areas that have no united program of giving to the handicapped.

Rev. Harris and Porter To Attend Methodist Meet

Annual conference of the United Methodist church in Minnesota will be held the week of June 9 in St. Paul. The Evangelical United Brethren conference will begin on Monday, June 9, at Maunds Park church, and the Methodist conference will begin on Tuesday, June 10, at Hamline university. Attending from the United Methodist church in Thief River Falls will be K. L. Porter and Rev. Merrill Harris.

Major business at both conferences will be voting on the plan of union which is to join the two conferences into one Minnesota annual conference of the United Methodist church. Both conferences are a part of the United Methodist church as a result of the union on a national basis in Dallas, Tex., in April of 1968.

If the plan of union is affirmed by both conferences, Friday is planned as a united conference with organizational meetings in the morning, a communion service in the afternoon and an ordination service and reading of appointments in the evening.

Callers at the Curtis Lemky home on Memorial day were Fred Erdman of St. Cloud, Bud Mitchell, Mrs. Mabel Lemky, Mrs. Pearl Welch and Mr. and Mrs. Stanley Lemky.

Recover Fifth Drowning Victim

Recovery of the last body of five persons who drowned in Lake of the Woods last Monday evening, including two from the Times' area, was made on Thursday.

Dead are Lawrence K. Knutson, 40, Gatzke; Stanley C. Aasvold, 48, Wannaska; Earl E. Knutson, 52; his wife, Margaret H. Knutson, 49; and their son Kevin E. Knutson, 12, all of Bloomington. Mrs. Knutson was born in Middle River.

Four of the bodies were recovered by 1:30 a.m. on Tuesday, while the fifth body, that of Earl Knutson, was not recovered until Thursday.

Thirteen children survive in the Earl Knutson family which once lived at Williams and worked on the Peper Farms. Some of the 13 children attended school in Williams. Lawrence and Earl Knutson were brothers.

The multiple drowning has been theorized as follows by investigators, according to the Baudette newspaper:

The party drove to Arneson's Rocky Point resort, where they launched their boat. They were not guests at the resort, but did ask if they could borrow life cushions and the favor was granted by the resort.

Some of the party went fishing in the afternoon and stayed in the sheltered water behind the point. It was thought that Mrs. Knutson and perhaps Kevin didn't go on the first trip.

At about 6:30 p.m. the boat was seen returning to shore, apparently by Steve Arneson. The boat with all five persons aboard headed out once again, this time into the unsheltered water.

Lake of the Woods coroner Joe Forney stated that Mrs. Knutson's watch had stopped at 6:45 p.m., indicating the second and fatal trip was brief.

Steve Arneson and Winton Wenner, a Warroad school teacher, spotted the overturned craft about 6:30 p.m. The overturned boat was offshore about a quarter of a mile, where the water is approximately eight feet deep. There was heavy sea rolling and the bodies were close to shore.

Lake of the Woods officials at the scene of the tragedy Monday night and Tuesday were Forney and sheriff's deputies Erie Guenin and Melvin Johnson. There were also a number of Roseau county officials there.

Coast Guard auxiliary unit commander Robert A. Anderson and GCA division captain Jack Cox drove to Rocky point on Monday. They reported that the boat was a 14-foot runabout powered with a 30 horsepower outboard engine. For the condition of the lake at the time of the accident, they said the boat was "undersized, overpowered and overloaded."

Earl Knutson was the manager of American Legion Post 550 of Bloomington and had moved to Bloomington three years ago. Lawrence Knutson was unmarried, while Aasvold was married and the father of one son.

A daughter of Mr. and Mrs. Earl Knutson, Mrs. John Kilner, Shoreview, stated that the Knutsons had been due home Tuesday from a fishing trip that began on Friday. The Knutson children include a son, Lyle, 28, serving with the U.S. Air Force in Vietnam.

Earl Knutson "knew the Lake of the Woods well," said Orvin Kruger of Bloomington, a close friend. "He's fished it for many years."

Kruger, an officer in Knutson's Legion post, said Post 550 was starting a fund for the Knutson children.

The parents of the two brothers, Earl and Lawrence, live in Roseau.

Mrs. Knutson was born in Middle River on April 16, 1920. A sister, Mrs. Terry (Mildred) Sobolik, resides in Grand Forks, N.D. Their son Kevin was one of 14 children ranging in age from six to 28 years. Four of the children are married while six were living at home.

North Central To Install New ESCORT System

North Central Airlines has announced that the company will install a new $8 million passenger reservations and communications system. Bernard Sweet, president, stated that contracts have been signed with International Business Machines for the real-time computer system which will be known as "ESCORT"—the Electronic System Combining Operations, Reservations, Telecommunications.

ESCORT will be operational by March of 1970 and is designed to expedite passenger reservations and flight information inquiries. The basic computer equipment includes two IBM 360 Model 65's and will be located in the airline's new general office and main operations base at the Minneapolis-St. Paul International airport.

"This electronic network is a vitally important part of North Central's expansion program. It assures improved, high-quality passenger reservations service for our present route system and will also handle the increase in traffic which we anticipate from new routes and continued growth," Sweet added.

LOCAL NEWS

Mr. and Mrs. Clarence Mount of Minneapolis left Sunday for their home after spending the week at the Werner Jacobson home. Visiting with them on Saturday were Mr. and Mrs. Harry Sahlberg and family of Blomkist and Mrs. Clara Elseth of Warren. On Wednesday the Mounts and Jacobsons were luncheon guests at the Carl Gustafson home in Viking.

C. A. Jenson left Friday morning by car for Benicia, Calif., to make his home with his son-in-law and daughter, Mr. and Mrs. John (Delphine) Stanford. He was accompanied by his daughter, who came here to help him drive. Jenson has been a resident of Thief River Falls since 1940 and at the time of retirement, he had been employed at L. B. Hartz Wholesale for 35 years.

The home is becoming an increasingly attractive target for burglars. While businesses have employed watchmen, watchdogs and highly intricate alarm devices, many homeowners don't even bother to lock their doors when they go out.

Retarded Topic Of Discussion At Area Meeting

Eighteen persons from a seven-county area (Marshall, Polk, Norman, Red Lake, Pennington, Mahnomen and Kittson) met at the Northwest achievement center, Fergus Falls recently to discuss future plans for the mentally retarded.

Northwest Retardation Advisory Planning committee officers are: Chairman, Mrs. Ethel Engelstad, Warren; vice chairman, Lon Miller, Thief River Falls; and secretary, Mrs. Cecelia Plante, Crookston.

Permanent members of the organization are representatives of the association for retarded children, day activity center boards, day activity center staff, Northwest mental retardation center at Crookston, Northwest achievement center at Fergus Falls and the state ARC consultant and state DAC consultant. Members are requested to invite interested persons from their community to attend meetings.

Following the business meeting, Dale Offeman, program director of the Northwest achievement center, explained functions, goals and purposes of the center.

Many of the retarded persons of the trainable level, 16 years and over, are being transferred from the Brainerd and Cambridge state hospitals to the Northwest achievement center. This will bring the retarded person closer to his home community, and the main goal of the NAC is to prepare retarded persons to return to their homes or sheltered boarding homes in their own communities.

Areas of learning at the Northwest achievement center are keeping living quarters neat and orderly. The amenities of such as daily living includes telling time, recognizing signs and labels, use of money, etc. Occupational therapy includes woodworking, rug weaving, sewing and crafts; and recreational therapy to socialize, swim, play games, dance and have fun.

Offerman also spoke of the parental relief program for the retarded living in their home. This is short term help in a crisis in a home, as well as offering a family freedom for a vacation that otherwise would be impossible.

Next meeting of the Northwest Retardation Advisory Planning committee will be held at the Northwest mental health center in Crookston on July 1 at 10:30 a.m.

Researchers at University Get Funds for Study

University of Minnesota researchers F. F. Busta and E. A. Zottola recently received a $5,500 grant to study the incidence of potentially pathogenic microorganisms in turkey products.

The researchers, who are both associate professors in the university's department of food science and industries, were awarded the research grant by the Minnesota turkey research and market development board as part of the board's larger program to support research at the University of Minnesota.

If potentially pathogenic organisms are found in processed turkey products, the researchers will establish the routes of contamination, study factors that affect the growth and survival of undesirable organisms and recommend procedures to control the microorganisms.

"This grant is part of a continuing program by the Minnesota turkey research and market development board to insure optimum quality and consumer safety in marketed turkey products," Busta said.

Last year this organization supported research directed by Zottola on the occurrence of salmonellae in the environment of turkey processing plants. Other programs supported by the Minnesota turkey research and market development board include research in turkey production and diseases.

Msgr. O'Rourke Will Speak at Red Lake Falls

A nationally-known rural life leader will speak in Red Lake Falls Thursday evening. Msgr. Edward O'Rourke, director, National Catholic rural life conference, will speak on "A Future For Rural America" at the Washington elementary school gymnasium at 8 p.m.

Msgr. O'Rourke is well acquainted with the farms and towns of the Upper Midwest. He spends much time in Washington, D.C., and is very familiar with the government's rural programs. The speaker has worked closely with leaders of national farm organizations.

This program is sponsored by the Catholic churches and a group of area farmers. The public, both town and country, is invited to Msgr. O'Rourke's discussion of conditions in rural America.

Be sure to burglar-proof your home while away. The record indicates that most home burglaries are performed by amateurs and usually in the daytime when no one is home.

BSC Development Project Helps Counsel Youth

Northwest Minnesota youth development project of Bemidji state college, during the past nine months, has made strides in identifying youth of academic potential and encouraging and assisting them to continue their education beyond high school.

The project has held over 2,400 individual counseling sessions with 741 high school students and young adults. Mark Poulson, project director, and project counselors Joseph Horacek and Kenneth Lahti have provided counseling services to 13 high schools during the past school year.

Counseling services were conducted in Cass Lake, Clearbrook, Blackduck, Kelliher, Northome, Laporte, Nevis, Akeley, Mentor, McIntosh, Erskine, Oklee and Gonvick.

High school seniors made up the majority of the total number of youth counseled, and 68.5 per cent plan to continue their education beyond high school in colleges, vocational schools, registered nurse's training programs or apprenticeship training. The project staff assisted these students in gaining admittance and financial aids at the institutions they will attend.

In addition to individual counseling sessions, over 3,200 young people from numerous schools in the 18-county area served received information about opportunities for further education and financial aids.

The project was recently notified of renewed funding for 1969-1970 by the educational talent search section of the United States office of education. The name of the project in the future will be the Northern Minnesota Youth Development project.

Trees Defoliated By Cankerworms May Be Saved

Trees defoliated by cankerworms shouldn't be removed. Even trees that are completely defoliated will usually leaf out again two or three weeks after the worms stop feeding, says Phillip Harein, extension entomologist at the University of Minnesota.

Harein says trees in good condition won't be killed by one defoliation, but several complete defoliations in successive years cause dead branches to appear, and the tree may die.

The slender green or brownish "measuring" worms reach a length of about one inch. They prefer elm, basswood, boxelder and apple trees, but they also attack maple, oak, ash, fruit and ornamental trees and shrubs. The worms often hang from silken threads, and when numerous, become a nuisance by crawling on houses, outdoor furniture and other objects.

Spraying for cankerworms isn't recommended anymore this year. The worms have reached the stage where damage won't be continued and recent cold weather has limited their activity.

For more information ask the county extension office for a copy of Entomology Fact Sheet No. 21 entitled, "Cankerworms." You can also get a copy by writing to the Bulletin Room, University of Minnesota, St. Paul, Minnesota 55101.

Mrs. Olaf Hanson Pioneer Cook on Steamboat, Dies

Funeral services were held Saturday, June 7, at 3 p.m., at the Samhold Lutheran church in Gonvick, for Mrs. Olaf Hanson, 84. She was a one time resident of Thief River Falls who in 1899 worked as cook on the steamboat Christina on Red Lake River. She died June 2 at Gonvick.

Rev. E. M. Berg officiated at the services and interment was in the church cemetery.

Mrs. Hanson, the former Hilda Christine Clemenson, was born Jan. 23, 1885 at Fort Ransom, N.D., to Christian and Ingeborg Clemenson. She attended school in that area and was confirmed in the Lutheran church at Horace, N.D. In 1897, she came with her parents to Minnesota, settling on a homestead in Hangaard township, Clearwater county.

She was employed for a time as second cook on the steamboat, Christina on Red Lake River.

While working on the steamboat, she met the pilot Olaf B. Hanson. They were married Dec. 15, 1901 at Garness by Rev. O. Kolstoe. Following their marriage, they lived in Thief River Falls while Mr. Hanson continued steamboating until 1910. During that time, in 1904, they purchased land on the Red Lake River, near Erie, where they started a store and the Hilda post office. In 1914, they purchased land in Hangaard township, Clearwater county. There they lived and farmed until retiring in 1944. While living there, Mrs. Hanson served as president of the ladies aid at Oak Grove church, where they were active members.

After retiring from farming, they purchased a quarter of timberland, started a saw mill and with some of this lumber, they built a home in Bagley. When her husband's health began failing in 1965, they sold their home in Bagley and moved to Gonvick to live with their daughters, Mrs. Alvin Strand and Mrs. Dave Thorbeck. Following Mr. Hanson's death, on Feb. 16, 1966, Mrs. Hanson had made her home with her children.

Survivors are nine daughters, Mrs. Lathard (Stella) Jacobson, Little Marais; Mrs. Dave (Emma) Thorbeck and Mrs. Alvin (Ovida) Strand, both of Gonvick; Mrs. Ernest (Olga) Berger, Park River, N.D.; Mrs. John (Alice) Skjerven, Plummer, Mrs. Lester (Esther) Bergerson, East Grand Forks; Mrs. Bill (Maybelle) Greenley, Oakland, Calif.; Mrs. Gladys Weaver and Delores, wife of Rev. Richard Tulf, both of Spokane, Wash.; and two sons: Marvel Hanson of Sterling, Alaska and Helmer Hanson of Gonvick.

Also surviving are 43 grandchildren, 48 great-grandchildren, two sisters, Mrs. Roberta (Gefta) Berg of Gonvick and Mrs. Robert (Inga) Monsbraaten of Graftan, N.D.; and three brothers, Carl Clemenson of Conrad, Mont., and Clarence and Edwin of Cedar Rapids, Iowa.

A son Walter, nine brothers and two sisters preceded her in death.

Funeral Services Today for Mrs. Knute Gjesfjeld

Mrs. Knute Gjesfjeld, 80, a resident of this city, died Saturday at Northwestern hospital.

Funeral services for Mrs. Knute Gjesfjeld will be held today (Monday) at 2 p.m., at Our Saviour's Lutheran church with Rev. Melvin Walla officiating. Interment will be in Spearfish, S.D. The Green Funeral home is in charge of arrangements.

A complete obituary will be in the Times on Wednesday.

Olga Bottem Funeral Services Set For June 11

Mrs. Olga Bottem, 77, a resident of this city, died Friday evening at Northwestern hospital.

Funeral services for Mrs. Olga Bottem will be held Wednesday at 2 p.m., at the Zion Lutheran church with Rev. Harold Peterson officiating. Interment will be in the Holt cemetery.

The body will repose at the Green Funeral home from this evening (Monday) and at the church for one hour prior to the time of services. A complete obituary will be in the Wednesday edition of the Times.

G. Brandvold, Once St. Hilaire Resident, Dies

Funeral services for Gerhard Brandvold, 81, a former resident of the St. Hilaire area who died at Wyndmere, N.D., were held Monday, June 2, at 10 a.m., at the Immanuel Lutheran church at Wyndmere. Rev. John Johansen officiated at the services and interment was in the Lanstad cemetery, rural Thief River Falls.

Serving as pallbearers were Hans Newman, Jerome Lillestal, Duane Lillestal, Martin Rux, Gerald Friskop and Clayton Halmrast.

Gerhard Brandvold was born Dec. 31, 1887 at St. Hilaire to John and Elizabeth Brandvold. He attended school and grew to manhood in the St. Hilaire community. In 1907, he went to Wyndmere, N.D., where he resided at the Julius Batland farm where he was employed and made his home.

A veteran, Brandvold had been a member of the Wyndmere American Legion post for 50 years.

His only survivors are eight nieces and two nephews.

L. Knutson, 46, Funeral Services Held at Gatzke

Funeral services for Lawrence Knutson, 46, of Gatzke, who drown Monday, June 2, in Lake of the Woods, near Rocky Point, were held Friday at 2 p.m., at the United Lutheran church at Gatzke.

Rev. Donald Fredine officiated at the services. Interment was in Randeen cemetery with the Helgenson Funeral chapel, Roseau, in charge of arrangements.

Pallbearers were Melan Abrahamson, Duwayne Thygeson, Ronald Simmons, Russell Simmons, Gustave Monson and Edwin Monson.

Lawrence Knutson was born Aug. 2, 1922 in Lunsell township, Marshall county, to Oscar and Augusta Knutson. With the exception of time spent in military service, he spent most of his life in Linsell township, near Gatzke. He entered the U.S. Army on July 32, 1944 and received his discharge on June 27, 1946. At the time of his death, he was employed as a gravel trucker. He never married.

He was a member of the American Legion, VFW and was president of the Gatzke Sportsman club.

Survivors are his parents, Mr. and Mrs. Oscar Knutson of Gatzke; one brother: Leverne Knutson of Little Falls; and two sisters, Mrs. Lawrence (Elna) Rallnad of Enderlin, N. D., and Mrs. Wallace (Eunice) Koelsch of Rochester.

Rites Held For Herman Klopries, 82, Of Fourtown

Funeral services for Herman Klopries, 82, were held Friday at 1 p.m., at the Green Funeral chapel in this city. A longtime resident of the Fourtown community, Klopries died Tuesday, June 3, at Northwestern hospital.

Serving as pallbearers were Charles Dablow, Andrew Hendrickson, Sherman Sax, Herbert Holthusen, Einard Johnson and Walfred Johnson. Interment was in the Lane Oak cemetery, north of Fourtown.

Herman Klopries was a German emigrant. He was born in Essen where he attended school and grew to manhood. In 1906, he immigrated to the United States, living at first in Monroe county, Iowa. He then moved to northern Minnesota, homesteading for a time in Lake of the Woods county, before settling in Minnie township, Beltrami county, northeast of Fourtown. There he was engaged in trapping and farming.

His only survivors are three brothers: Henry, John and Frans Klopries, all residing in Essen, Germany.

William Puppe Dies Friday at Local Hospital

William Puppe, 69, a resident of this area since 1953, died Friday at Northwestern hospital.

Funeral services for William Puppe were held Sunday at 1:30 p.m., at St. John Lutheran church with Rev. Paul Biegner officiating. Interment was in Greenwood cemetery. Green Funeral home was in charge of arrangements.

A complete obituary will be in the Wednesday edition of the Times.

2 TRF Teachers Attend NWERDC English Workshop

Northwest Minnesota Educational Research and Development council, an educational service organization serving the needs of the public and private schools of 20 counties in northwest Minnesota, has scheduled a three-week summer workshop on the campus of Concordia college in Moorhead, beginning June 16 and ending July 3.

Teachers from Thief River Falls selected to attend this in-service education session are Mrs. May A. Larson and Mrs. Alice C. Lendobeja. Attending from Goodridge will be Mrs. De Lores E. Engevik.

Funds for this workshop have been provided by Title III of the elementary and secondary education act and approved by the office of planning and development section of the Minnesota state department of education, headed by Gregory J. Waddick and with the approval of Commissioner of Education, Duane J. Mattheis.

Main objective of this summer session is to improve the instruction of language arts with emphasis on reading and the teaching of English. Thirty elementary teachers will concentrate on techniques of teaching reading while 30 secondary teachers will be concerned with the improvement of teaching English in the junior and senior high schools of northwestern Minnesota.

Miss Ruth Youngren of Humboldt, who is in great demand as a director of workshops, will head the list of consultants in the reading section of this session. Harlan Shuck, head of the English department at Moorhead high school, will be the leading consultant in the area of English.

A unique session of one week beginning with June 30 and concluding on July 3 is a motivation and production session of UNIPAC. This is a course devoted to an intensive program of creating single concept lesson plans and will be conducted by nationally-known consultants.

At 1:30 p.m., June 19, a dialogue between the teacher-participants and a college panel including some public school administrators will discuss the possibility of revising and improving teacher preparation programs so that teachers can more adequately meet the needs of students in their care. It has been indicated that Concordia, Moorhead state, and Bemidji state colleges are receptive to the idea of making a study for the improvement of teacher education.

Roadway Grass Not To Be Cut Until July 15

State and county highway agencies and township boards are again being asked by the conservation department to delay mowing of roadsides until July 15 or later to give nesting pheasants and other wildlife a chance to hatch their young.

The department's game and fish division annually seeks such agreements with the state and with counties located within the prime pheasant range.

Dave Vesall, supervisor of game, said importance of roadsides as nesting areas grows each year with the steady decline in acreages of small grain fields and other grassy cover in the pheasant range.

"Each year finds more of these sites disappearing as cropping practices switch from small grains to row crops, which offer no nesting cover," he said.

The steady loss of this habitat along with the severe blizzards experienced during several recent years have dealt a severe blow to our pheasant population, said Vesall.

"By agreeing to hold off mowing of roadside ditches," Vesall said, "the highway agencies are making a substantial contribution to the state's wildlife resources."

Mrs. Rufus Olson attended the Lutheran Church Women meeting at the Redeemer church Monday evening.

Mr. and Mrs. Herb Goethe and Howard, and Mr. and Mrs. Alvin Rondorf and Ronnie spent Friday fishing at Waskish.

Mrs. John Conzeunztmeus of Wadena and Mrs. Emma Brossoit of Thief River Falls were Saturday dinner guests at the Truman Hemmestvedt home.

Wayne Tieman of Morris visited Sunday evening at the Orrin Anenson home.

Guests at the Arnold Hammer home in honor of the graduation of John Hammer, Gloria Skreland and Harlan Mickelson were Mr. and Mrs. Adrian Nelson, Peter and Douglas of Detroit Lakes, Mrs. Olaf Dahlen of Willmar, Mrs. Alice Skreland, Gloria and Marton, Mr. and Mrs. Walter Skreland, Dawn and Lisa, Mr. and Mrs. Bill Traxler, Nancy and Billy, Mr. and Mrs. Henry Waale, Mr. and Mrs. Erling Dahlen, Elaine Dahlen and Ken Forbrage of Bemidji, Mr. and Mrs. B. F. Beiswenger, Henry Dahlen, Mr. and Mrs. Clarence Peterson, Becky, Karl Jo and Jon, Mr. and Mrs. Rufus Olson, Mr. and Mrs. Arnold Hammer, John, Ruth, Lynn and Dale, Mrs. Helen Stenseth and Jerry and Mr. and Mrs. Roger Mickelson, Beattie, Harlan, Paula, Harold, Stuart, Timmy and Tommy.

Mr. and Mrs. Ted Koropatnicki, Kim, Kelly and Koni visited Saturday evening at the Alton Skallet home. Others there were Margaret Asp and Mrs. Gordon Phelps and Bobby.

Mrs. Gary Johnson, Bradley, Robyn and Brian, visited on Saturday at the Allan Hamme and Saphie Nordby homes.

Mr. and Mrs. Truman Hemmestvedt and family visited on Sunday evening at the Herb Goethe home.

Mr. and Mrs. Adam Lendobeja were Memorial day supper guests at the Steve Jaenette home. Also present were Mr. and Mrs. Lloyd Johnson and cousins of theirs, Mr. and Mrs. Maurice Graman of Seattle, Wash., and Mrs. Hubert Jacobson of Everett, Wash., who were spending their vacations visiting relatives and friends in this area. They were all supper guests at the Adam Lendobeja home Saturday evening.

Mrs. Knute Knutson spent the past week in the Twin Cities visiting with relatives. While there she visited her daughters, Mr. and Mrs. Clarence Smith and Jana of Minneapolis and Mr. and Mrs. Earl Mathison of Jordan and with her sister Mr. and Mrs. Robert Oden and family and Mr. and Mrs. Paul Senstad and family. Together with Mr. and Mrs. Earl Mathison she visited with Mr. and Mrs. Orville Jensen and Joel of Mankato.

Mr. and Mrs. Bernie Wilson and Michelle of Minneapolis spent the Memorial Day weekend at the Sidney Wilson home.

Mr. and Mrs. John Wroblewski and Mr. and Mrs. David Hanson and Brian of Minneapolis spent Memorial day visiting at the Helen Stenseth home. Mrs. Wroblewski is the former Carol Stenseth.

Mr. and Mrs. Robert Anenson and Patty of St. Paul spent the Memorial day weekend at the Henry Anenson home.

Sunday dinner guests at the Steve Jaenette home were Mr. and Mrs. Adam Lendobeja, Mr. and Mrs. Lloyd Johnson of St. Hilaire, Mr. and Mrs. Clifford Jorde and family, Mr. and Mrs. Richard Jorde and family, Clarence and Olaf Jorde, Mr. and Mrs. Edwin Swanson, Mr. and Mrs. Curtis Swanson and family, Mr. and Mrs. Lavern Rondorf and family, Mr. and Mrs. Curtis Johnson and family all of Thief River Falls and the honored guests, Mr. and Mrs. Maurice Graman of Seattle, Wash., and Mrs. Hubert Jacobson of Everett, Wash.

The community was saddened to hear of the death of little Sharon Mack, daughter of the Donald Mack's and granddaughter of Earl Akin's. We extend our sympathy to the bereaved family.

Mr. and Mrs. Clarence Smith and Jona of Minneapolis and Mr. and Mrs. Earl Mathison of Jordan spent the Memorial day weekend at the Knute Knutson home. Mr. and Mrs. Earl Mathison attended Anita Swanson's wedding Sunday evening where Mrs. Mathison's was Anita's personal attendant.

Mrs. Fred Virkus spent from Monday to Thursday with her sister, Mrs. Hilda Wilson at her home in Thief River Falls.

PLUMMER . .

Mrs. John Skjerven received word Monday that her mother Mrs. Hilda Hanson of Gonvick had passed away that morning after a lingering illness.

A farewell party was given Saturday evening at the Plummer hall in honor of Mr. and Mrs. Louis Moreau, who are leaving to make their home at Collinsville, Ill. Dancing and a social time was held with lunch being served and a gift of money was presented the Moreaus by their many friends here.

Memorial day supper guests at the Art Leining home were Mr. and Mrs. Francis Leining and family of Minneapolis, Mr. and Mrs. Wayne Leining and children and Miss Carole Leining.

Mr. and Mrs. Eldon Vigstol and family of Osseo visited on Memorial day at the Ray Vigstol home at Ely and they spent Saturday evening and Sunday visiting at the J. H. Bjerke home at Thief River Falls and at the Nels Vigstol home here.

Salute to Dairymen

Boys and girls from dairy families will gather in Thief River Falls Tuesday to enter animals from their dairy herds in various classes of competition. Northwest Dairy day will be one of many observances across the nation during June Dairy Month, but is particularly significant because the first Dairy day ever was held in Thief River Falls.

With the 20th annual event this year, participants in the dairy program from the board of directors through the first-year calf exhibitor can take pride in being a part of a great tradition. To many youngsters, Dairy day is more eagerly anticipated than county fair competition and ranks in thrills with state fair participation.

While we congratulate Stuart McLeod—the only president Dairy day has had in its 20-year history—and his board of directors on the 20th annual Northwest Dairy day, we must also give special emphasis to the dairymen of our state and particularly the northwestern part of Minnesota.

Minnesota has 51,000 dairy farmers with 1,057,000 cows which produced more than 10.2 billion pounds of milk last year. Average milk production per cow in Minnesota was 9,710 pounds—compared with 9,006 pounds nationally. Our state is number one in the United States in production of butter and dry milk, second in total milk production and third in American cheese production.

What does all this add up to? It adds up to more than $432 million or 22 per cent of Minnesota's farm income. The state's dairymen contribute to the economic as well as physical health of Minnesotans.

Milk has long been recognized for its nutritional value. It has energy builders such as carbohydrates, fats and proteins; basic minerals including calcium, iodine, phosphorus and iron; and vitamins such as thiamine, riboflavin, niacin, ascorbic acid and vitamins A and D. This most complete, all-purpose low-cost food is manufactured from grass, water and grain by that walking production plant known as the dairy cow.

As we salute the dairy farmers of Minnesota, we are aware that there are problems in the dairy industry. Synthetics are moving into the market to take some of the sales away from butter, cream and even milk itself. Minnesota lost an estimated 4,000 dairy producers last year, although those who remained boosted the total milk production by about 23 million pounds with 37,000 fewer cows.

The number of creameries making butter declined from 221 to 191 from 1967 to 1968. Number of bottling plants was reduced from 99 to 90, number of cheese plants declined from 16 to 15, number of ice cream and ice milk plants was pared from 46 to 43 and number of dry milk plants for human food dropped from 64 to 59. The road is not all smooth for dairymen.

We welcome the young exhibitors to Dairy day Tuesday and hope there is a good future for them in the dairy industry. We congratulate their parents for giving their youngsters an opportunity for competition and to develop their citizenship. And we salute the dairy industry for its many contributions to the welfare of Minnesota and Minnesotans.

The Pace of Progress

Within the span of life of persons living today there has been an explosion of scientific knowledge beyond comprehension only several generations ago. As each new discovery is made, the door is unlocked to other discoveries and knowledge compounds itself. The growth of knowledge is not so impressive as the rate of that growth.

Modern man has become so accustomed to spectacular accomplishments that they are accepted as common place happenings. Within a few weeks the United States plans to land a man on the moon. Successful completion of this project will be a major stepping stone toward further adventures in the unknown and untested vastness of outer space.

Man has existed on earth for thousands of years, and for all but a small portion of that time made progress ever so slowly. There were hundreds upon hundreds of years from one major discovery or accomplishment to the next. Think of what progress has been made in travel, communications, medicine and other fields in just your lifetime!

Then ponder this: It was only 216 years ago that Benjamin Franklin was trying to learn the nature of electricity with his kite and key. It was only 93 years ago when Bell invented the telephone and 89 years ago when Edison invented the electric light bulb. The first gasoline automobile was operated by Duryea only 76 years ago and the first successful airplane flight was made by the Wright brothers only 65 years ago.

Progress is setting a fantastic pace.

Your Own Saloon

Following is an example of what can evolve when people start thinking about "economy", as published in a West Coast newspaper:

"Since you cannot refrain from drinking, why not start a saloon in your own home? Be the only customer and you will not have to buy a license. Give your wife $55 to buy a case of bar whiskey. There are 240 drinks in a case. Buy all your drinks from your wife at 60 cents a drink and in 12 days when the case is gone, your wife will have $89 to put in the bank and $55. to buy another case. If you live 10 years and continue to buy all your whiskey from your wife and then die in your boots, your widow will have $27,085.47 on deposit—enough to bring up your kids, pay off the mortgage on the house, marry a decent man and forget she ever knew a drunken bum like you."

Time To Be Kids

In this highly developed and regimented society of today, with almost everything operated on an organizational schedule which has been planned and programmed, the summer "vacation" period must be something less than it used to be for school-age youngsters. It seems like there really isn't enough time left for kids to be kids.

Adults are so occupied with their obligation—real or imagined—to build children into money-making, financially secure adults....so determined that competition be regulated and learning supplied professionally....so anxious that youngsters have all the "advantages" of other children, that they forget a young boy or girl needs some time to be a child.

Sure, we did our share of summer work on the farm in our school-age years, and we enjoyed the competition of organized—however loosely—sports activities. We cut, raked and stacked or hauled loose hay, pumped water by hand for a herd of thirsty dairy cattle, milked cows, cleaned calf pens, picked rocks, weeded the garden, cultivated corn, worked summer fallow and a number of other necessary farm chores.

We played PeeWee, Midget and Legion Junior baseball as we grew in years, riding bicycle 12 miles round trip every day to participate. And we rebelled a little—generally confined to a pout and a grumble and a guilty conscience later—when the will of someone in authority was contrary to our own desires.

But we had time to be a kid every now and then; to let our imagination build castles in the air. We meticulously formed sticks and paper into model airplanes that invariably crashed on first flight. We experienced the never-to-be-forgotten feeling of soft mud squeezing up between bare toes as we ran on the ungraveled driveway after a rain. We watched tadpoles grow into frogs in the pool at the end of a culvert. We trapped pocket gophers at a dime each to raise enough money for that coveted BB gun and spent Sunday afternoons coaxing Dad to take the .22 out and let us shoot at targets or hunt gophers in the pasture.

We played with the neighbor kids on exchange visits by bicycle, building "hideouts" from some imagined enemy in the cool confines of the farm groves. We carved bows from supple willow branches and made carts from discarded wheels and raised crows for pets and dozens of other things. We had the opportunity and found the time to learn a few of our own lessons and grow up a little by ourselves.

Today the youngsters finish classes, eager for the summer recess when they can have some time to be themselves. They are met by church school classes, summer school sessions, little league baseball, organized softball, planned golf, canned crafts, scheduled swimming and other scheduled activity—all with adults teaching, instructing, supervising, coaching, assisting, helping, pushing, controlling, planning, organizing.....

We are victims of our own regimentation and our children are becoming prisoners of our so-called efficiency. Children need guidance, of course. They need leadership and supervision, certainly. But kids need time to plan their own games, think their own thoughts, make their own mistakes and learn their own way. Kids need time to be kids....just because they are just kids.

Borrowed Nonsense

The Staunch Captain was going down with his sinking ship, and his young first officer decided to remain with him. "You're in the fine old tradition, my boy," the captain said and offered him a cigarette.

"No, sir, thanks just the same, but I gave up smoking a week ago, and I don't want to get into the habit again."

Students at Western Kentucky University found they were not interested after they read a notice on a bulletin board. The notice said: "WANTED—Riders to Louisville. Call at Room 819. Ask for 'Crash' Jones."

What would happen if our Minnesota forests suddenly disappeared? Would you notice? Of course you would! Dramatically and immediately!

The forests of Minnesota are a continuing and vital part of the daily scene, used for both business and pleasure. In fact, much of the economy and recreation enjoyed by the millions of people who live in our state or visit it in the course of a year is greatly influenced by the forest. Nevertheless, the casual relating of forest to people in recreational activities might eventually bring about a complacency in which people would take the forest for granted.

Taking the forest for granted is not really surprising. It is easy to believe that the forest will always be there—stable, unchanging and patiently providing the background for outdoor recreation.

With continued protection and management, our forest will certainly be there for everyone to enjoy, but just as certainly it will not be unchanging and the processes of change affect not only the vacationer and outdoorsman, but every Minnesotan as well. Many of the forest changes are merely phases of natural rotation or survival, however, many previously unrecognized changes are being brought about by the continously increasing pressure of people. People with leisure, money, transportation and a desire for the good life of outdoor activity, either real or fancied. Leisure is no longer a static interlude between working schedules. It's a dynamic and often unpredictable force that is really putting great strain on recreational resources everywhere.

Pressures of this type coupled with financial difficulties, legal technicalities and localized problems often deter and seriously hamper progressive recreational development of the forest in much the same ratio as indiscriminate burning or severe infestation of disease and insects have been known to do in the past. Leisure among active people may lead to undisciplined and demanding attitudes. These in turn may bring about the expectation that creature comforts will be systematically produced in vast amounts from natural resources while at the same time guaranteeing that virgin forests, fresh waters, and other values will be available for use in sufficient amounts to meet all desires. Hopefully, there may be a compromise.

Designated state forests and other forest lands in Minnesota are in a position to play an increasingly large part in providing recreation opportunities. Many of the now established forests are situated astride highly important watersheds. Most of them combine good timber production, good game country, good fishing water and very little erosion. Pollution is still relatively minor. These forests are ready for additional action now.

The forester can no longer be interested in forestry as only a means of bringing "broad boards" to market, as was so aptly stated by Thoreau many years ago. The recreational need must be considered in the high priority group in current and future planning and development.

A good deal of work has already been accomplished. Campgrounds, picnic areas, day-use sites and trails of all kinds have been developed or planned. Public accesses to lakes and wildlife areas have been developed and have proved to be valuable recreational assets. Streams and lakes have been improved with good success. Yet the total development consistently falls to keep pace with the demand.

The continuing effort in developing the state lands and forests depends not entirely upon adequate appropriation of funds. Resource education is equally important.

Balanced use of the land, the forest, the water and the wildlife will surely improve resource management and result in better hunting, better fishing and better outdoor recreation of all types.

1040 U.S.I Taxpayers Ask IRS

This column of questions most frequently asked by taxpayers on Federal income tax matters with authoritative answers is provided by the Office of the District Director of Internal Revenue, St. Paul, Minnesota.

Q—My refund was lower than I expected. How can I find out why it was reduced?

A—In some cases, mistakes in arithmetic account for the adjustment. You should receive an explanation shortly explaining the adjustment.

This year, mistakes in arithmetic are being made on the surcharge. Taxpayers are either reading the surcharge tables incorrectly, making mistakes by not adding it to their tax or making a mistake when they multiply by 7½ per cent to determine the amount of the surcharge.

Q—Can I add the medical insurance premiums I pay for my dependent mother to my own for the purpose of tax deductions?

A—Premiums paid for medical care insurance for yourself, your spouse and your dependents are deductible. Total all of these premiums you paid last year and deduct one-half of them up to $150 without regard to the three percent rule. The balance of the premiums should be included with your other medical expenses which are subject to the three percent limitation.

Q—Is a company pension taxable?

A—Your tax liability depends on how much you contributed to the pension fund. This is explained in the instructions for Schedule B of Form 1040. Copies of this schedule and the instructions are available at many banks and post offices as well as local offices of the IRS.

Q—When do I have to file my estimated tax declaration?

A—Estimated declarations and first quarter payments are due April 15. Use the pre-addressed 1040-ES voucher form you received in the mail when you file to assure proper crediting of payments to your account.

Q—How does the $100 limitation apply to casualty losses? We suffered damage from two different storms last year.

A—The $100 limitation applies to each separate nonbusiness casualty. Deduct the excess over $100 not reimbursed by insurance for each separate loss. See page 9 of the instruction booklet for details.

Q—When does a person have to pay self-employment tax?

A—To be liable for self-employment tax, a person must have income from a business or a trade or profession which he conducts as an independent contractor or as a member of a partnership. To be subject to the tax net earnings from self-employment must be at least $400.

Q—I forgot to deduct my medical expenses when I filed my 1968 tax return. Is it too late to do it?

A—No, you may amend your 1968 return. To make a change, obtain a Form 1040X, Amended U. S. Individual Income Tax Return, from your local IRS office and enter the information called for. It is not necessary to file a completely new return.

Q—My son is taking a job this summer and plans to put most of the money he earns in the bank to pay his college expenses in the fall. If he earns over $600 will we lose our dependency exemption for him?

A—If your son is under 19 at year end or will be a full-time student during the year, the amount of money he earns will not disqualify him from being claimed as your dependent as long as you furnish more than one-half of his support and the other dependency tests are met. He must file his own return, however, if he earns $600 or more during the year.

Q—I lost my refund check. Can I get it replaced?

A—Yes, report the loss to the IRS Service Center in Kansas City. They will send you the forms needed to apply for a replacement check.

Q—Do you have to be a doctor or a lawyer to set up your own retirement plan?

A—No, other persons in business for themselves can take advantage of the tax provisions allowing them to deduct contributions to a self-employed retirement plan. This includes people who have their own business and also those who have income from part-time self-employment which is in addition to their regular job.

Publication 566, Questions and Answers on Retirement Plans for the Self-Employed, gives more information on these plans. Send a post card to our office for a free copy.

Q—I have my refund. Does that mean my return was alright and will not be audited?

A—The fact that you have your refund indicates only that your return contained all the required information needed to process it. IRS generally has three years from the filing deadline of the return to examine the return and propose an adjustment in the tax liability.

For this reason, keep your tax records for at least three years from the due date of the return. Some records, such as those relating to the acquisition of a house or other property, should be kept longer.

U of M Uses Space Science Center Bldg.

by Bill Hafling
University of Minnesota
Science Writer

You—because you pay taxes—are part owner of a new space science center at the University of Minnesota.

Located on the Minneapolis campus of the university, the seven-story building, recently dedicated, cost $3 million to build—$2.5 from a National Aeronautics and Space administration (NASA) grant and another half million from the state of Minnesota.

Fifty-five research projects now operating in the building cost another $1.5 million each year—most of the money coming from federal agencies.

Although the cost of the space science center is just a drop in the bucket compared to what Americans spend on chewing gum (over $300 million a year) or tobacco products ($9 billion a year) or alcoholic beverages (over $14 billion a year) people still have a right to ask "What's in it for me?" when they chip in to buy something as esoteric as a space science center.

In short then, how will the new space science center benefit you as a resident of Minnesota?

In one obvious way, the boy or girl down the street, or your own son or daughter, now has the opportunity to study at the university for a space-science career without having to leave the state. What might such a career encompass?

Space research involves far more than landing men in space. A good deal of space research, for example, involves sending satellites loaded with technical equipment out to explore the space around our own planet.

Carl T. Rowan, noted newspaper columnist, commented in a recent column that the benefits from our space program are helping in "every field from medicine to agriculture, industry to education."

He pointed out that thousands of Mexicans were saved from disastrous flooding in the wake of Hurricane Naomi last year "thanks to photos and data from a weather satellite launched by NASA."

If orbiting weather satellites help forecast hurricanes in Mexico—how about Minnesota tornadoes?

In a recent interview, Professor Laurence J. Cahill Jr., newly appointed head of the space science center, said, "Research is being done on satellites which might eventually be used for accurate, early forecasting of tornadoes.

"We have the technical capability. It's just a matter of doing enough research to put it into actual use. . ., fitting the parts together."

Crop blight, disease or hordes of insects might also be spotted by satellite equipment in the future, giving farmers ample warning ahead of time so that steps can be taken to avert disaster. Such equipment, however, is still in the early stages of research.

"People take the products of basic research, such as we are doing here, pretty much for granted," Cahill said. "Few people stop to consider that such things as TV components, household thermostats, air-conditioning—even the milking machine—rest on a broad basis of research.

"You wouldn't expect to find a man working on something as prosaic as pump design at a space science center—but we have one." Although pumps used in space applications are more expensive, what's learned from the research for improved design will benefit anyone using pumps—in industry, on the farm, in the home.

"Much of our research at the center doesn't end up only out in space. We have people working on problems ranging from molecular biology to solving urban problems such as transportation and traffic control," Cahill said.

Perhaps our successes in space will provide the inspiration we need to keep trying to solve the problems Professor Cahill thinks are the toughest of all—those of man on earth. Both kinds of problem are being tackled at the space science center at the University of Minnesota.

Not long ago, a University of Minnesota student received a telephone call informing him that he had won a four-day Florida vacation. He could pick up his vacation certificate at a downtown office.

When he arrived at the office, a fast-talking salesman tried to sell him an expensive set of encyclopedias. The student, not interested in encyclopedias, had to listen to the salesman nearly an hour before he was given the vacation certificate.

When he checked the certificate, he found that it covered only the cost of his room—nothing else. He'd have to pay for transportation, meals and other expenses.

In another case, a St. Paul woman registered at a local business establishment for a chance to win a free Hawaii vacation. She received a letter later informing her that she was a second-place winner. The prize—two days in Los Vegas listening to land promotion sales pitches.

These two are examples of the various forms of "free vacation" promotions. Some are legitimate, some are questionable. In most cases, the winner of any so-called "free vacation" must listen to a sales pitch or pay a fee, usually about $15. If there is any prize at all, it is nearly always limited to payment of a hotel or motel room.

We learned of a new variation of the "free vacation" promotion last week. The promotion involved the publication of an advertisement in TV Guide inviting readers to participate in what was described as a travel survey. They were asked to fill out and return a questionnaire regarding their travel habits. The ad promised that 2,000 of those participating would win free vacations to Hawaii or Acapulco.

Our Consumer Division and U.S. Postal Inspectors, working with Better Business Bureaus, began an immediate investigation.

We learned that most or all of the readers who had submitted questionnaires received, by return mail, form letters informing them that they had won vacations. They were then directed to send $25 to a listed return address within 10 days to qualify for the promised vacations. The return address was that of a mail receiving agency in Hollywood, Calif.

The advertisement had been placed in the magazine by a company called the Deluxe Vacationer Company. The address listed in the ad, however, was that of a Los Angeles service station.

Postal authorities arrested the promoters of the scheme, charging them with mail fraud. They alleged that the promoters could not possibly deliver the promised vacations. It was determined that the company had sent letters to some 57,000 persons throughout the country, informing them that they had won vacations. If each recipient had sent in $25 as directed, the company would have received nearly $1½ million.

Postal authorities have stopped delivery of mail to the mail receiving agency, and begun steps to return letters already delivered.

If you are informed that you have won a free vacation, check carefully what you must pay and exactly what you will receive in return. Check out the company with your Better Business Bureau or Chamber of Commerce.

GENERAL NOTICE — to — DESTROY WEEDS

Notice is hereby given this 11th day of June, 1969 pursuant to Minnesota Statutes 1965, Sec. 18.271, all owners, occupants, agents, and public officials in charge of lands in Pennington County, Minnesota, that noxious weeds standing, being, or growing on such lands shall be destroyed or eradicated by effective cutting, tillage, cropping, pasturing or treating with chemicals or other effective methods, or combination thereof, approved by your local weed inspector, as often as may be required to prevent the weeds from blooming and maturing seeds, or spreading by roots, root stocks, or other means.

Upon failure to observe this notice, the local weed inspector is required to proceed pursuant to the law and have the weeds destroyed by such methods as he finds necessary, the expenses of which shall constitute a lien and be entered as a tax against the land, and be collected as other real estate taxes are collected, or by other means as provided by law.

Residence Halls At U of M Are Filling Rapidly

Students who want to live in a residence hall on the University of Minnesota Twin Cities campus this fall should apply immediately, according to the Office of University Housing. Several of the halls are already filled, with others having only a few vacancies.

The office also announced the opening of the first West Bank residence hall and a change in the priority system for granting space in all residence halls.

Middlebrook hall, a coeducational, 12-story high-rise residence hall located on the West Bank, will be open for 711 occupants this September. The fully air-conditioned hall is designed for family units of 16, with four people to a bathroom.

"We have 200 women and 100 men signed up, so here is a real opportunity for the guys to move in," Dennis Weber, West Bank housing director, said today.

The priority system—which allows current hall residents to have preference for hall space till April 1—no longer discriminates against Twin Cities students, Weber said. Space is allocated on a first-come, first-served basis. In the past, students from out-state areas were given priority over Twin Cities students.

"A residence hall is more than a place to eat and sleep," said Weber. "It's a learning experience that the metropolitan student should have as much opportunity to benefit from as others."

Halls that are already filled, with waiting lists, are Pioneer hall, Pioneer court and Sanford hall on the Minneapolis campus, and Bailey hall on the St. Paul campus.

There is still space available for women in St. Paul's Dexter hall, for men in Territorial and Frontier halls, and for men and women in Centennial hall. Comstock hall, which will house freshmen through senior women this year, also has a few vacancies.

Students who wish to apply for housing should write to the Office of University Housing, 180 Westbrook hall, Minneapolis 55455.

In high school, she participated in FHA, pep club and the school newspaper. She will begin a program in fashion merchandising.

Letters to the Editor

To The Editor,

To make people think, why can't farmers who feed the world get cost of production like the manufacturer's: About 25 years ago wheat was $2.50 per bushel and a loaf of bread about 20 cents. Now wheat is $1.37 per bushel and bread 30 cents per loaf. Oats was $1.00 per bushel then, now 50 some cents per bushel and out-meal 35 cents per pound.

Since then machinery, taxes, etc., almost doubled in price. Now big machinery is swallowing smaller machinery, big farms swallowing smaller farms, big towns swallowing smaller towns except the empty buildings. They might as well swallow them, too.

Customs Service Answers Several Travel Questions

The U.S. Customs service receives many inquiries from citizens and foreign visitors on customs regulations. Some of these questions are answered below.

Q—In returning from Europe I arranged all of my purchases in one bag, yet all of my baggage was examined. Why?

A—It is a great help to the customs inspector to have all of the declared merchandise in one piece of baggage, but proper enforcement of the law often requires the inspection of all of the baggage. Having your baggage examined is not a reflection on the individual, but proof that the officer is doing his duty.

Q—About how many people enter the United States annually?

A—Over 200 million people enter the United States from other countries each year. That is equivalent to moving the entire population out and bringing them back in again.

Q—In making a purchase in another country, I was offered an invoice for less than the price I paid. What would have happened if I had used it?

A—You might very well have found yourself in trouble. Customs officers know values, and invoices of lesser amounts simply arouse their suspicions and can result in the seizure of the merchandise plus duty charges.

Q—Every so often we read of customs seizing marihuana or heroin that has been carefully concealed. Are these seizures the result of advance "tips"?

A—Treasury customs agents and port investigators frequently come upon information which leads to the seizures you mention. But very often customs inspectors make what are called "cold seizures," i.e., without any advance information. These inspectors develop a sixth sense which alerts them, with the result that an extensive search is initiated resulting in finding the hidden items.

Q—In arriving from Canada to the United States by car, I have noticed that certain cars are moved ahead to a parking area and the people sent into the customs office. Is this a sign that they are smugglers?

A—No. There may be an immigration problem, or duty to collect, or other reasons why the car is set aside. The inspector (whether customs or immigration) finds it necessary for a further examination. Rather than hold up an entire line of cars, the car and passengers are sent to one side, and other officers continue the examination. In the meantime, the regular traffic can be handled at a rapid rate. While smuggling or an attempt at smuggling might be suspected, it is usually a routine matter that can be taken care of by the officers inside the office.

ASC Will Give Credit If Crop Was Not Seeded

Producers who have been unable to plant their wheat or feed grain due to a natural disaster, such as the spring flood, are urged to contact their ASC county office, according to Marcei Dahl, Marshall county ASC chairman.

Any area which the county office committee determines would have been planted to wheat or feed grains with the expectation of producing a normal crop for harvest, and which was prevented due to the above conditions, is eligible to make an application in the county office.

Men's Slow Pitch Softball League Begins Play Fri.

Four teams will comprise the Thief River Falls slow pitch softball league which will begin play on Friday at the East Side diamond, with a double header scheduled to begin at 6:30 p.m. and 7:45 p.m.

First round action will pit defending champion Bridgeman's against the Thief River Falls Jaycees at 6:30 p.m., with Wilson's Sport Center meeting Wennberg's in the 7:45 p.m. contest.

At a recent meeting held in the office of parks and recreation, rules were adopted and other business of the league took place. Rules adopted by the league include: No players that are playing in the fast pitch league will be allowed to play; there will be no bunting; gloves will be worn only by the catcher and first baseman; there will be no stealing; the roster is due before the second game; there will be only two strikes, even if the ball is hit foul; three balls will constitute a walk; and only one base allowed on an overthrow, but the runner must make it to the base, even if the ball is in fair territory.

The complete schedule is as follows:

June 13—Bridgeman's vs. Jaycees, 6:30 p.m.; Wilson's Sport center vs. Wennberg's, 7:45 p.m.

June 20—Bridgeman's vs. Wennberg's, 6:30 p.m.; Wilson's Sport center vs. Jaycees, 7:45 p.m.

June 27—Bridgeman's vs. Wilson Sport Center, 6:30 p.m.; Wennberg's vs. Jaycees, 7:45 p.m.

July Fourth—No Games.

July 11—Wennberg's vs. Wilson's Sport center, 6:30 p.m.; Jaycees vs. Bridgeman's, 7:45 p.m.

July 18—Jaycees vs. Wilson's Sport center, 6:30 p.m.; Wennberg's vs. Bridgeman's, 7:45 p.m.

July 25—Jaycees vs. Wennberg's, 6:30 p.m.; Wilson's Sport center vs. Bridgeman's, 7:45 p.m.

Playoffs will be held the week of August 4 with the first place team meeting the fourth place team and the second and third place teams meeting in first round action. The two winners will play for the championship.

Schmidts, VFW Win Opening Softball Rounds

In opening rounds of the men's fast pitch softball league last week, Schmidt's defeated Wennberg's by a 16-14 score, while the V.F.W. pushed across three runs in the top of the eighth inning to beat Hartz 12-9. One other game, Hartz vs. Melvie's, was postponed.

Jim LaCouraiere swung the big bat for Schmidt's as he slammed out two home runs for the winners as Kermit Malberg picked up the win. Harv Ebbighausen had one home run for the losers. John Drury was the losing pitcher.

In a game postponed Wednesday to Friday night, the V.F.W. topped Hartz by a 12-9 score, as they came up with three runs in the top of the eighth inning.

Home runs for V.F.W. were by Roy Pederson and Del Ray Olferdahl, while Dwight Tangquist had one for Hortz. Winning pitcher was Wally Grovum, while LeRoy Christianson took the loss. Nickie Drees, playing third base for the V.F.W., had 13 chances in the field and committed only one error.

Games this week will find Wennberg's meeting the V.F.W. tonight (Monday); Hartz vs. Schmidt's on Tuesday; and Melvie's vs. V.F.W. on Wednesday. All games begin at 7 p.m.

Jr. Legion Nips Newfolden 2-1 In Years' Opener

Thief River Falls American Legion Junior baseball club opened its season Friday night on a successful note, edging Newfolden 2-1 in a game played at the fairgrounds in Thief River Falls.

A fine relief job by Goedy Peterson, who pitched one-hit ball for three innings, picked up the win for the locals. It was Peterson's first appearance on the mound this year, as he failed to do any pitching for the Prowlers during the past season. Kenny Lindquist started on the mound for the Junior Legion but ran into wildness and lack of fielding in the four innings that he pitched.

Hitting star of the game for the locals was Steve Daley who banged out two of the team's four hits and scored both runs.

Newfolden took the lead in the first inning after two were out as John Tunheim reached on an error by the second baseman. Singles by Marlin Bjornrud and Dave Sethre loaded the bases and Lindquist then walked Terry Lubitz to force in Tunheim, giving Newfolden a 1-0 lead.

Thief River Falls then evened the score at 1-1 as Daley singled to center field, was sacrificed to second by Dan Sullivan, stole third and when the catcher threw wild to third came home with the first run of the game for the local club.

The winning run came as Daley tripled to right center after two were out in the fifth inning. After an attempted bunt by Sullivan, which was fouled off, Bjornrud threw a wild pitch allowing Daley to score the second run of the game which proved to be the winning run. Gordy Peterson came on in relief to hold the Newfolden club scoreless for three innings.

Next action for the Thief River Falls Legion team will be Wednesday evening against the same Newfolden club, in a Northwest conference game which has been moved up from June 24. Game time will be 7 p.m. at the fairgrounds. The game was scheduled for Newfolden, but because of the new school being built in Newfolden, the Newfolden club is without a field.

A practice session for the local club will be held tonight (Monday), beginning at 7 p.m., for all interested in playing Legion ball this summer. There are still a number of uniforms left and the final decision of who will make the team will be made tonight after practice, according to Bob Wieilnski, coach of the squad.

BSC Will Offer Special Classes For Retarded

Bemidji state college will offer classes for the educable mentally retarded and for preparing teachers to teach educable mentally retarded students during the first and second summer sessions at BSC.

The first session of summer school at BSC will have classes for the educable mentally retarded. Direct experience between mentally retarded students and teachers who plan to work with the mentally retarded will be made possible. First summer session begins June 16 and ends July 18. Parents of mentally retarded students who wish their children to attend these classes should contact Dr. Gerald Nelson at the laboratory school.

In addition to the classes for mentally retarded children there are three separate classes offered for preparing teachers to teach educable mentally retarded students.

During the first summer session the methods of teaching the mentally handicapped child will be offered. Two classes will be given during the second session July 21 to August 22. They are: "The Exceptional Child" dealing with the various types of exceptional children whether bright, dull or handicapped and "The Retarded Child" with emphasis on physical, emotional, social and academic development of the retarded child.

Bemidji state operates an approved program for training teachers of the educable mentally retarded. The state department of education approved the program in January of 1968 and for the last 18 months experienced and beginning teachers have been enrolled in the program.

Nearly 25 students plan to specialize in this type of teaching currently and there are many experienced teachers who are taking coursework to make this teaching their specialty.

For more information, write Dr. Gerald Nelson, Laboratory School Principal, Bemidji State College, Bemidji, Minn., 56601 or call 755-2930.

ASC Asks Delay In Mowing To Aid Game Birds

Marcel Dahl, chairman of the Marshall County Agricultural Stabilization and Conservation committee, has requested that mowing of diverted acres under the feed grain program, the designated acres under the soil bank and cropland adjustment programs and other areas such as ditchbanks, roadside ditches and fencelines, be delayed until after the ground nesting birds have left their nests.

The department's policy is to encourage better wildlife conservation practices. There is need for increasing the number of ground nesting game birds which will result in better hunting for sportsmen, Dahl said.

If at all possible any mowing of diverted acres, designated acres, ditchbanks, roadside ditches and fencelines should be delayed until after July 15 to give the ground nesting birds and their young a better chance of survival.

Where noxious weeds are a problem, possibly spot spraying or spot clipping at least six inches high could be used as an alternative. Delaying plowing of land on which conservation reserve contracts expire at the end of this year until after July 15 will also benefit game birds.

Contractors To Stress Caution During Holidays

The big holidays of the summer, including the Fourth of July and Labor day weekends, are periods when extra caution will be observed by all highway contractors to insure a reduction in hazards.

W. S. Ekern, deputy commissioner of highways, has directed all district and area maintenance engineers that this year special safety precautions be taken when traffic is carried through a construction project.

In order to alert traffic to existing hazards, contractors will be directed to provide additional signs, warnings, delineators, etc., where required.

Ekern emphasized that no last-minute operations should be started by the contractor immediately before the holiday. It is felt that such efforts may result in creating unnecessary hazards and require last minute erection of emergency signs to protect traffic.

On all maintenance projects already underway, it is directed that work should be completed and the roadway left clear of any obstructions insofar as it is possible to do so. Emphasis is made that no windrows of material should be permitted on the traveled roadway if it is possible to move such windrows over onto the edge of the roadway or shoulder during the holiday. In those cases where it is necessary to have a windrow along the roadway, frequent warnings should be placed not only at each end of the windrow, but at intervals along the windrow as well.

Wherever it is possible to do so, any special maintenance work underway should be terminated by noon on the day preceding the holiday weekend.

Tim Dalzell

Tim Dalzell To Make Three-Week European Trip

Tim Dalzell, son of Rev. and Mrs. Floyd Dalzell, Thief River Falls, left on Saturday afternoon for a European trip as part of his studies at Trinity college and Divinity school at Deerfield, Ill., where he is majoring in Bible and history.

Some of the places he will be visiting during his three-week travel in Europe will be Rome, Pompeii, Cairo, Luxon, Cyprus, Galilee, Jerusalem, Beirut, Ismeir (Turkey), Athens and finally to London. Many places recorded in the Bible will be visited on the tour.

The Library Corner

Books for Teenagers

"Call of the Valley" by Avery, has a Welsh background, authentic in the know-how of one of England's best story tellers, the plot with a thick Welsh accent that will give you a good bit of history of the 1800's as you go. Younger teens, this is for you.

Gretchen Sprague's "White in the Moon" is for music-lovers, mostly, because its setting is the world of the summer music camp. "Jeanne, the heroine, is at last face to face with love, and how she handles it makes for an interesting story. Jeanne must decide between "ideals of loolly, of dedicated musicianship, of love." At camp she meets genius and less-than-genius in her fellow musicians, and in pitting her talent against these other musicians achieves a sense of maturity that she would be needing in the competitive adult world she would soon be facing. You'll like this boy-girl sharing, especially if you're a girl.

"Choley" is for slightly younger readers, the older juveniles, if we may call you that. By Margaret Ogan, it tells an adventurous yarn about a lucky kid whose thing is boats and the sea, and whose grandfather buys a country place near the sea and thus starts the kid, Choley, on the road to realizing his dream of getting out of the city apartment and down to the seaside. The two of them discover a 30-foot schooner, or what is left of it and start out, over a number of objections, to rebuild it. There are many squalls in the making, both on shore and on the sea which they finally reach with their rebuilt wreck. You'll smile at Choley's ingenuity in getting his friends roped into helping restore the boat, much like Tom Sawyer got his friends to paint the fence. Smooth sailing from the day they launched the "Kathy"? Would you believe the waters were more than choppy? They'd have to be, to make a story, and this turns out to be some story.

Books for Children

Some of the cute "newies" include such titles as: "Chicken Ten Thousand" the story of the "Mama" incubator and her ten-thousandth chick. It's for third graders or the better readers in second grade, and tells the miracle of life as it's helped along by the mechanical mother. Chicken Ten-Thousand goes on to be a real Mama hen, hatching out a little family of her own, in the warm, fascinating story of renewal that thrilled all of us as children and still has fascination for the kids of today, even in the age of space and ultra-sophistication.

"Tale of a Crocodile" is the same story told by parents of African youngsters to their little ones down through the ages. Only it's in English, for American boys and girls, in this version. You'll learn why rabbits never go near rivers, especially when there are crocodiles about.

"Mary Ann's Duck" tells and pictures the adventures of the little duck who was given to Mary Ann by the milkman at a time when the duck was only a wee fluffy little yellow duckling. But the tiny creature grew up, as all little creatures do, and went right on belonging to Mary Ann. Her constant companion, he becomes separated from her one day. It is only his need for her that keeps him traveling on the long, hard road to finding her.

Books for Adults

Among the books you shouldn't miss are "Vegetables for Today's Garden," by R. Carlton. It delves into a number of less common vegetables you might (or might not) have thought about raising in your own garden. Since there is still time to plant a number of these, we highly recommend this book for type or variety selection, type of soil required, where, how, when to plant; garden tools, fertilizers, and hints on soil preparation.

Also: "Here is Your Hobby: Amateur Radio", by Byron Wels. Like-wise in the 620s are: "Sailboating: How to Choose and Operate a Small Sailboat." Hulls, rigs, racing, tactics, and designing boats...all are included in this guide for the would-be or already-is sailor whose thing is sailboating.

"Boat Carpentry" includes repairs, alterations, construction. "Bomber Parade" features headliners in bomber plane history, right up to and including the North American B-70. "Fighting Gear of World War II", and "Fighter Parade: Headlines in Fighter Plane History," to the Delta Dart F 106A, are for keeping right on tap of what's happening in our country's defense system, and recapping what has gone before.

In the 641 section the delightful, up-to-the-minute "Barbecue Cook Book" is waiting for all of you accomplished (or amateur) backyard chefs who have struggled with burned steaks, underdone turkey, and the works, and don't know the ins of marinade and other fine points of the summertime art. There are tips on building and maintaining your fire, purchasing and preparing the meat; marinades, basting, foil-barbecuing of meats and ah, here's a surprise, fruits and vegetables too! Whether in the patio or campfire mood, there are helps and tips in this masterful guide to outdoor cookery.

How long ago did you read "Gulliver's Travels" by Jonathan Swift? No doubt it was on some dull paper at that time and with no illustrations, and you probably gave it just ho-hum ratings. We've just received the book in "Golden Illustrated Classic" form and this time really took an interest in it ourselves. The illustrations enchant, and going over the story from an adult's point of view gives an entirely new interpretation of Swift's purpose in writing it, along with a new kind of reader enjoyment. Middle and upper grade kids, why not check it out?

"Sunday the Rabbi Stayed Home" is the latest Kemelman addition to the "Rabbi" books, as such, it contains the same Jewish idiom to add realism, and a mysterious death as a new circumstance. If you liked its predecessors, you'll like this one.

Bemidji Defeats Warroad For Region Eight Title

Warroad Halts LHS In Semi-Finals 6-4

by Bob Wielinski
Times Sports Writer

Defending Region Eight champion Bemidji defended its baseball crown this past week as they once again will represent Region Eight in the state tournament. The Lumberjacks defeated Warroad for the crown, 5-4, at the fairgrounds in Thief River Falls on Thursday night.

Bemidji reached the finals by stopping Ada 6-0 on Tuesday night. Rain halted the second game that night, but on Wednesday night the Warroad Warriors ended the Thief River Falls Prowlers' hopes of gaining the state meet, winning by a 6-4 score.

The Lumberjacks, in winning the Region title in baseball, made a clean sweep of all spring sports Region 8 titles, winning the golf, tennis and track crowns earlier. They also won the wrestling and basketball titles to put their number of regional crowns at six this past school year.

The Warriors found themselves in trouble in the first inning as Bemidji scored one run. Larry Shadlow led by being hit by a pitch and, after advancing to third, scored on a delayed double steal.

Warroad jumped on Bemidji's hurler Tom Hill in the third inning as they scored all four of their runs. Five hits and a walk provided the punch for the Warriors with Henry Boucha driving in two runs with a double in the inning.

Bemidji came right back in its half of the third to tally four runs. Errors helped the Bemidji cause, as catcher Ed Boucha had trouble coming up with the ball twice and a Bemidji runner scored from third. The winning run came as the result of Jim Yost reaching first on a called third strike when catcher Ed Boucha missed the ball and it went sailing to the back stop. He moved to second on a wild pitch and scored when the third baseman couldn't handle Ernie Blackburn's routine grounder. The ball ended up in left field with Yost coming home on the play.

Hill was in trouble most of the game as was his mound opponent, Henry Boucha, but they pitched themselves out of it inning after inning.

In Wednesday's semi-final game between the Prowlers and the Warriors, Warroad used the big inning to record the win. They scored five times in the fourth inning, sending nine batters to the plate and knocking Prowler pitcher Tony Johnson from the mound. Warroad gained the finals of regional play against Bemidji on Thursday evening by stopping the Prowlers 6-4.

The loss found the Prowlers' season coming to an end with a 12-8 record, and marked the end of high school baseball careers for Tony Johnson and Dana Stromberg.

Both will be missed in the line-up next season as coach Ralph Skay will be looking for new faces to take their places at shortstop or doing the pitching for the Prowlers. Johnson finished his high school playing days by leading the club with the best average, in hits, runs batted in, stolen bases and tied for the home run leadership. His 24 hits were tops for the Prowlers, while his .363 average was also highest. He drove in 18 runs, eight of them coming in the final game of District 31 against Fisher. He stole nine bases and had one home run, tied with Stromberg and Tim Duke for that department leadership.

Stromberg finished his career with a .163 batting average, having nine hits in 55 at bats. Included in the hits were one double and one home run, an inside-the-park job in the district contest against Climax.

On Wednesday, the Prowlers jumped to a 3-0 lead as they tallied three runs in the top of the second inning. Dana Stromberg led off the inning with a single to centerfield and Gordy Peterson struck out for the first out. Tom Wurst drew a walk, moving Stromberg to second. Brian Peterson then hit a liner to third which the third sacker had trouble with, but the shortstop covered third and retired Stromberg on the play with Wurst moving to second and Peterson reaching first on the fielder's choice. Sullivan then doubled home Wurst and Peterson as the left fielder misjudged the ball and it dropped over his head. Sullivan scored as Don Balmer singled to leftfield, giving the Prowlers a 3-0 lead.

Warroad came back in its half of the second inning to score one run as Henry Boucha walked on a three-two pitch, moved to second and third on ground outs and scored on John Taylor's double to left center field, cutting the score to 3-1 in favor of the Prowlers.

The Warriors then jumped on Johnson for four runs in the fourth inning and added a fifth run in the inning off relief pitcher Dan Sullivan. The inning found Ed Boucha leading off with a single, and Jim Blackorby and Taylor both drawing walks to load the sacks for the Warroad club. Alan Hangsleben drove in two runs with a single to left field with Taylor moving to third. Jon Frolander loaded the bases with an infield single. Taylor scored on an infield out as Gordy Peterson threw to first when he didn't have a play at the plate. Frank Krahn then doubled to left centerfield, driving in Hangselben with the fourth run of the inning with Frolander stopping at third. Pat O'Donnell flyed to center with Frolander tagging up and scoring the Warriors last run of the frame and of the game.

The Prowlers added one run in the sixth and had the opportunity for scoring more but failed to come up with the base hits needed.

Tony Johnson singled and Dana Stromberg reached on a fielder's choice as Warroad cut down Tony Johnson at second. Gordy Peterson then reached on an error by the third baseman and Stromberg moved to second. Stromberg came home on Wurst's single to left. The leftfielder threw wild to the infield and Peterson moved to third on the play. Brian Peterson struck out to end the rally.

Men's Golf Loop Will Begin Wed.

Thief River men's golf league will begin play on Wednesday evening at the Thief River golf course. There are still openings on many of the teams, according to Fred Sorensen, who is in charge of the league.

Men wanting to play on a team this season are asked to sign up at the golf course or contact Sorenson at the Union state bank. There are 13 teams entered so far in the league and there is a possibility that more teams will sign up before Wednesday.

Complete rosters of all the teams will be published in Wednesday's edition of the Times.

Use squares of bright-colored cotton fabrics as both napkins and centerpiece at your next dinner party. With a solid color tablecloth add napkins that are wildly different in color and pattern. For the centerpiece, arrange napkins in a big brandy snifter, gathering them in folds like a bouquet.

GAME OF THE WEEK

PROWLER SEASON

The Thief River Falls Prowlers baseball club saw its season come to a halt on Wednesday evening as they lost to Warroad in the opening of the Region Eight tournament played at Thief River Falls. The Prowlers, with only two seniors listed on the squad, should be of the strongest teams in the district and region next year, but will have a tough time finding two players to replace Dana Stromberg and Tony Johnson, both of whom played shortstop and pitched for the Prowlers.

Coach Ralph Skay did another tremendous job in coaching the Prowlers to their 13th overall and fourth straight District 31 crown.

With two-thirds of the Prowler pitching staff lost next year, Skay will be looking for players to replace Johnson and Stromberg in this department. It is hoped that Tim Duke, Gordy Peterson, Steve Joppru, Kenny Lindquist and Mike Hamerlinck can come through and give some help to Dan Sullivan, the lone experienced pitcher that will return next season for the Prowlers.

In the catching department, Skay will have three players to choose from in the presence of Don Bolmer, perhaps the best catcher defensively in the Region, Jerry Morben and Tom Wurst.

First base next year will more than likely be handled by either Duke, Sullivan or Homerlinck. Duke played the spot this year and did a real good job.

Second base finds Brian Peterson and Dale Gilbertson fighting for this position with Peterson having the edge because of the experience he received this past year.

Shortstop will be the big hole with both Johnson and Stromberg gone. Skay will have to come up with someone who can cover the ground that both did during the past season. Lindquist has the best shot at the position, but someone in the lower grades could take over the position also.

Gordy Peterson will hold down the third base position and when he isn't playing third Mike Hamilton could move into this spot.

In the outfield you could find Wurst, Steve Daley, Sullivan, Hamerlinck, Gilbertson or Joppru. Daley has the only speed in the outfield and will be a sure bet to hold down the centerfield spot again next season.

In all the Prowlers look on paper like the team to beat next year, but the hitting will have to improve from this year.

Johnson was the leading hitter for the club this past season with Daley behind him.

Sullivan was the leading pitcher and strikeout artist with over strikeouts 50 and will be back next year as the Prowlers' number one moundsman.

The Prowlers finished the season with a 12-8 record.

EARN NUMERALS

Earning freshman numeral awards at the University of North Dakota for playing junior varsity baseball this spring were two members of last year's Lincoln high school Prowler squad. They were shortstop Nick Drees and pitcher Tom Tunberg. Two other players also receiving awards were Harvey Johnson, Erskine, and Scott Kleven, Red Lake Falls.

Men's Horseshoe Meet Set Thurs.

An organizational meeting of the men's horseshoe league will be held on Thursday at 8 p.m. in the office of the parks and recreation director in the basement of the Thief River Falls city auditorium.

All those interested in pitching horseshoes this summer are urged to be present at the meeting. The meeting is set to discuss league play, set a date for a tentative tournament and enroll new members in the organization.

Dairy Foods Help Homemaker Keep Her Cool

Make for Tasty, Nutritious Meals, More Time for Summer Fun

The living is easy in summertime for the smart homemaker who uses her refrigerotor for "cooking."

The first order of business is stocking tho refrigerotor. The first stop: the grocer's dairy case — full of the dairy foods that are so tasty "as is" — and so compatible with other good things to eat.

Because they're always ready to serve, dairy foods cover a multitude of suromertime eating situations deliciously, nutritiously — and with (happy thought) a minimum of effort from the cook.

For instance, when friends drop by unexpectedly, a selection of cheeses from tho refrigerator, a few minutes in the kitchen and thero's a snack tray. Hot, thirsty youngsters, ready for a "play break"? Mugs of cool milk all around!

For family dinners or patio entertaining, a help-yourself assortment of crisp vegetables or in-season fruits arranged around cottage cheese is easy on tho chef and delightful for tho diners.

For dressing green salads, try an easy "custom-mado" dressing—sour cream, thinned with a bit of lemon juice and herbed to complement tho menu.

When it comes to dessert, is there a quicker, surer-to-please choice for any occasion than ice cream? Or a moro effortless way to add flavor to all kinds of foods than butter?

No doubt about it, dairy foods help keep families well-fed — and give homemakers moro time to enjoy "tho good old summertime."

Here are more ideas to keep tucked under your sunbonnet for a summer full of easy, excellent eating:

• **TINY CUBES OF CHEESE**, such as Swiss, Gouda, Cheddar, Brick or Blue added to a tossed green salad make a flavorful surprise note for an ordinary everyday food.

• • •

• **FRESHLY SHREDDED CHEDDAR** cheese is a wonderful topping for fruit salad . . . sprinkle it over cooked green vegetables . . . or use it to top hamburgers prepared on your outdoor grill.

• • •

• **ICE CREAM IS EASIER** to scoop or slice if moved from freezer to refrigerator to soften. Allow about 20 minutes for a half-gallon, 10 minutes for a pint for scooping; half this for slicing. When using a half-gallon, spoon ice cream from center to side of carton. To measure ice cream packed in half-gallons for recipes, remember: a half-gallon cut in half makes 2 quarts; a half-gallon cut in fourths makes 4 pints.

• • •

• **PROPER SELECTION OF FOOD** is of prime importance for a clear complexion, shining hair and healthy teeth. And for the teenage girl who's counting calories, as so many wisely are these days, milk is a bargain in terms of calories, because they're not empty calories. An 8-ounce glass of homogenized milk which contains 147 calories also provides important amounts of protein, calcium, riboflavin and vitamin A.

Grilled in butter just until the Swiss cheese begins to melt, the popular Reubon Sandwich takes on even greater appeal. Use your waffle iron for easy grilling.

WAFFLED SANDWICH - REUBEN

Waffle or sandwich grill
Makes 6 sandwiches

- 12 slices rye bread
- 3 tablespoons prepared mustard
- 6 tablespoons sauerkraut
- 12 slices (1-lb.) corned beef
- 12 slices Swiss cheese
- 6 tablespoons butter

On each of 6 slices bread, spread ½ tablespoon mustard; top with 1 tablespoon sauerkraut. Arrange 2 slices of corned beef and 2 slices of Swiss cheese on each; then top with remaining slices of bread. Butter outside of each sandwich, using ½ tablespoon of butter; grill until cheese begins to melt.

Variation: Substitute dairy sour cream flavored to tasto with chili sauce and prepared horseradish sauce for the mustard.

Either sandwich is noteworthy enough to make a meal with tho simplest of menu-mates—crisp relishes, icy cold milk, and a centerpiece of fresh fruit to double as the dessert course.

June is Dairy Month for the Thirty-Third Year

Besides boasting 30 days that "what is so rare as," June contains National Little League Baseball Week (8-14), Jefferson Davis' Birthday (3), Let's Play Golf Week (7-14), Flag Day (14), and Father's Day (15). It's a very big season for the cap and gown business, and a busy time at the wedding license bureau, too, though, alas for tradition — no longer the month with the most brides.

But, prepare to pour a toast all 'round anyhow — in milk. One tradition that remains, after 33 years, is that "June is Dairy Month."

In the beginning, the month was selected because, with its clement weather and verdant pastures, it was a peak production month for milk, a season when dairy foods were plentiful, and an ideal time to call attention to their nutritive value.

In addition, the celebration of Juno as Dairy Month reminded the nation of the dairy industry's role in the country's economy. Because of this valuable contribution, leaders in agriculture, government and businesses allied with the dairy industry became active participants in the month-long activities honoring dairymen.

To a great extent, seasons have given way to science in the dairy industry. While May and June remain at the top of the milk production ranks, the other months, too, are productive. Why is Juno still Dairy Month, then?

Because peoplo still need to be reminded of the industry's contribution to their family diets, their enjoyment and the economy.

During the annual "reminder campaign," food stores help celebrate June Dairy Month with dairy food specials, newspapers and magazines feature dairy recipes, restaurant menus spotlight dairy items. Imaginative special celebrations abound, sponsored by local dairy groups.

The timing remains apt because June marks the start of a new season when today's energetic consumers embark on a summer way of life, both active and casual.

Dairy foods—fresh, refreshing, and so easy to serve they've been called "nature's own convenience foods" — fit right into this warm-weather living scheme.

Besides which, they serve nutritional interests and eating preferences in all age groups so well that it looks as though June will be Dairy Month for at least another 33 years!

To Get More Out of Life . . . . .
Plan Program of Exercise

Exercise should help you get moro out of life, mentally and physically, says tho American Medical Association, quoting some suggestions from *Today's Health*. They may help you shape a program of regular exercise adapted to your needs.

- Have a thorough medical examination at regular intervals to determine the type of exercise most beneficial to you.
- If possible, select a sport or activity around your house. During one season you may resort to gardening and during another you may prefer calisthenics.
- After 40, cut down on the "explosive" sports requiring fast starts, quick stops, and prolonged activity without rest.
- If you are out of training in a sport, return to action gradually. A little today and a little more tomorrow is a good prescription.
- Take your exercise out-of-doors or with a window open, if you can.
- Be sure the activity selected is suitable to you.
- Give your full attention to your exercise or physical activities. As you do so, try to lay your worries aside.
- The way you recuperate after your exercise should guide you in its wise use. Breathing and heart rate should not be excessively fast ten minutes after you stop exercising. Extreme fatigue should not persist two hours after you stop.
- The activity should not cause broken sleep at night or a tired feeling the next day. If any of the above symptoms occur, cut down on your activity. If they continue, see your doctor.

‘Eating Out’ Tastes Now, Seek Gourmet Menus

More Exciting ‘Made Dishes’ Claim Interest of Selective Public

Eating out is a growing national pastime in the United States — from grabbing a bite in school or plant cafeterias, to picking up a drive-in hamburger after a movie, to going out to dinner at the best restaurant in town.

There are about 371,300 away-from-home eating establishments — one for every 539 people in the country. These establishments serve some 38 billion meals a year, employ about 3.3 million people, and use almost 20 percent of all the food produced in the country.

Americans like to eat out — more of them dine away from home by choice than necessity. But they don't want to wait to be seated. Asked why they didn't eat out more often, respondents to a restaurant survey listed the leading deterrent as that hungry wait.

Reasons they enjoyed dining out were: freedom from cooking and clean-up; good food; nice, quiet atmosphere; good way to entertain friends; and change of pace.

What are they looking for when they dine out? First and foremost, a good meal — 85% considered quality of the food a very important factor. Next in order of importance: cleanliness of restrooms, speed of service, friendliness of waiters or waitresses, then "atmosphere."

Who's the Customer?

The "average" restaurant customer comes from a family composed of husband, wife and one or more children in which the head of the family is between 35 and 44 years old, earns less than $7,500 annually and lives in the central city of a metropolitan area. The family spends about 10% of its eating-out dollar on meals at work, the other 90% on discretionary dining out and snacks.

Most eating places (40%) offer varied American foods, 31% serve mainly sandwiches and refreshments, 11% foreign foods. The remaining 18% of restaurants specialize in steaks, seafood, chicken and other limited menu selections.

The food service industry gets an interesting indication of the eating public's changing tastes from what menu items "sell" and which are in a decline. For instance, salads are gaining popularity on school lunch menus, with fruit and cottage cheese a pet of figure-conscious high school girls.

In low to moderate price restaurants, demand for pies is down (except for pumpkin, apple and cherry) but patrons are splurging on more cake variations.

The lobster and steak combination is the most often reported new item on higher price restaurant menus. But chicken, popular for home cooking and ready to take out in numerous chicken specialty eateries, has gotten too "usual" for dining out in style.

Personal Selection

A la carte menus and buffets give diners a chance to exercise personal selection and are gaining in popularity, but to be a solid hit the buffet needs special atmosphere.

The results of the recent fashion for gourmet cooking show up in some unusual ways — beef stew is "out" in college dining halls but Stroganoff and Goulash are "in."

Some items are fixtures on the food hit parade. When that major food service, the U.S. Army, polled soldiers' tastes most recently, they found milk the number one favorite as usual—preferred even to steak. The troops' most liked "accessory foods" or garnishes are butter and whipped cream.

Food trends don't always start with the public — sometimes restaurants invent them. Sour cream on baked potatoes was considered an unlikely combination when Lawry's introduced it in Los Angeles. Now, it's standard. Maybe there's a new favorite aborning in the West in Pickle Ice Cream — a flavor that's actually available!

Is it any wonder that Americans like to eat out? There's no telling when a meal will become an adventure!

YOUR ‘FILL-IN’ ON

Imitation Milks

Despite the welter of milk-like drinks on the market, there are just two basic types — filled milk and imitation milk. Shoppers are sometimes confused about which is which, and what the differences are between these and real milk.

Filled milk is a product, made with skim or non-fat dry milk, in which the butterfat has been removed and other oils or fats substituted.

Imitation milk is really "non-milk" with none of real milk's components. It's made of such ingredients as vegetable fat — often coconut oil; water; sugar or corn syrup solids; flavoring, coloring and thickening ingredients; and protein such as sodium caseinate or soybean protein.

In an article, titled "When Milk-Like Products Are Not Milk," *Good Housekeeping* pointed out that: "Filled-milk producers often advertise 'no butterfat' or 'only pure vegetable oil used.'

"However, the American Medical Association says that filled milk using coconut oil, the most common butterfat substitute, is not a satisfactory replacement for butterfat in fat-modified diets. Coconut oil has a high percentage of saturated fats and is low in polyunsaturated fats.

"Both filled and imitation dairy products contain about the same number of calories as whole milk, but a higher percentage of the calories in nondairy milk is derived from carbohydrates and fewer from protein.

"The AMA warns that many of these nondairy products may be deficient in essential nutrients and should not be substituted for milk or other important food groups in the diet of infants and children."

Seventy-Eight Percent of Shoppers In Supermarkets Choose Dairy Foods

More than half are between 30 and 49 years old, shop for three people or less, and have yearly incomes of more than $5,000. They're typical members of a group almost everyone fits into — food shoppers.

The average shopper spends 26.1 minutes in a supermarket with 6,500 items on display. Most (62.5%) don't carry shopping lists, but make 66.9% of their buying decisions in the store. They average two-three supermarket visits weekly, spending an average $8.21 per trip for about 13 items.

About three in ten female family shoppers are employed, making ease of shopping, time and convenience important to them. Today's shoppers spread their business around — 61% normally buy at least one product in another store.

Of every 100 shoppers who enter the supermarket, 93 pass the dairy case and 78 of them buy at least one dairy product (as compared to 94 passing, 80 buying fresh meats; 90 passing, 55 buying produce). Dairy sales account for 8-11% of store sales.

The average number of in-store decisions made in the dairy department is 57.3%. Broken down by product, for example, such purchasing decisions as these are made while in the store: 76.6% cheese; 54.8% fresh milk; 74.5% other dairy products.

Biggest food spenders are in the 25-40 age range; have a five or six person family; a $10,000-$15,000 income; and shop for food as a group—man, woman, children.

To get to the store, 94% use a car, 5% walk, 7/10 of 1% use the bus, and 2/10 of 1% other modes of transportation, such as taxi. Thirty-two percent of shoppers travel more than two miles to their favorite store in spite of the fact that 51% report other supermarkets are closer.

Weekend customers spend nearly three times the total weekly average purchase. Thursday, Friday and Saturday business accounts for 77% of the week's sales, with Friday the biggest day, Saturday next and Thursday third best.

As anyone could guess, women food shoppers outnumber men four to one. The ladies also take longer to shop and usually spend $3.00 more!

Clergy Says ‘Holy Cow’ Fare Okay

Customer booths are made from church pews, and the walls are hung with cartoons of Brother Sebastian and Brother Juniper in a St. Louis self-service soda parlor named the Holy Cow.

On the menu headlined "Services," are Pearly Gate Parfaits, Celestial Shakes, Friends Float, and Disciples Dilemma, a sundae. Ice cream comes in flavors like Fundamentalist Fudge, Pentacostal Pecan, Mormon Maple, Catholic Crunch, and Rabbinical Raspberry.

There are also more than 40 kinds of pastries, dubbed "Indulgences" that "will make you do penance for a week." In keeping with all the rest, employees wear monks' robes.

"We did it just to be different," explains one of the owners. The name, Holy Cow, is a familiar St. Louis expression, he says, popularized by sports announcer Harry Caray who has a copyright on the term (which does not extend, however, into the food business).

To assure good taste, the owners checked their idea before opening with the Ministerial Alliance, a group of community clerics.

The clergyman approved — and so does the public. So heartily that the ice cream parlor is expanding into three more shopping center locations. Holy Cow!

• HERE'S A SIMPLE WAY to make deviled eggs. Add ¼ cup crumbled Blue cheese, ¼ cup dairy sour cream and ½ teaspoon vinegar to the yolks of six hard-cooked eggs.

Summer Egg Nog

If you've been thinking of nogs as winter's special sipping pleasures, think again. This light and cool one is designed with summer in mind. Indeed, it takes its name — Waikiki Nog — from the exotic state where summer's never out of season.

It's simple to put together — a "must" in the leisurely islands scheme of living. Just beat chilled milk until frothy with egg yolks, sugar and a dash of salt. Then add Hawaiian flavor via the special ingredient, pineapple-grapefruit juice drink. For fluffy lightness, beat the egg whites into airy peaks, then gently fold in the fruit juice mixture. Top off Waikiki Nogs with scoops of vanilla ice cream.

The unusual combination of creaminess and tart-sweet citrus flavor makes for refreshing summer sipping.

WAIKIKI NOG

2 cups milk
4 egg yolks
¼ cup sugar
⅛ teaspoon salt
2 cups pineapple-grapefruit juice drink
4 egg whites
1 quart vanilla ice cream
Nutmeg

In a large bowl, combine milk, egg yolks, sugar and salt; beat until foamy. Stir in pineapple-grapefruit juice drink. In large mixer bowl, beat egg whites until stiff; fold in fruit juice mixture. Ladle into glasses. Add scoop of ice cream to each glass. Sprinkle with nutmeg. Makes eight 6-oz. glasses or 12 punch cups.

Origin of Evaporated Milk Traced to Napoleonic Era

Because "an army travels on its stomach," Napoleon offered a prize of 12,000 francs in 1795 to anyone who could find a satisfactory method of preserving food.

It was 15 years before an obscure Paris confectioner named Nicholas Appert was awarded the prize. He had discovered that he could keep foods for long periods by cooking them, sealing them airtight and then cooking them once again.

Appert's evaporated milk was a far cry from today's, but he had demonstrated the practicality of concentrated milk.

Swiss-born dairymen in Illinois perfected the machinery and techniques for processing evaporated milk as we know it. Today it's pasteurized, concentrated, homogenized, fortified with vitamin D, sealed in cans and heat-sterilized to keep without refrigeration.

Cooks find it a handy shelf item. Napoleon would have loved it.

Use of butter in the United States in 1968 increased 69 million pounds.

WHAT DO FARMERS DO WITH THEIR MONEY? Well, here are some ways in which they spend it annually:

- $1.4 billion for weed and insect control chemicals.
- $5 billion for new buildings.
- $1.5 billion for gas, oil, fuel, grease.
- $1 billion for tractors.
- $2 billion for implements and equipment.
- $1.8 billion for fertilizer.
- $5 billion livestock and poultry feed.

And like all other folks everywhere, they also buy clothes, furniture, appliances and all the other things people need, including food, in their local stores.

Finns Leaders In Dining On Dairy Foods

Americans are not the world's most conspicuous consumers of dairy foods — far from it.

That championship goes to the Finns. In milk equivalent, they eat and drink 1,513 pounds of dairy products *each* per year. The Irish aren't far behind—their average is 1,356 pounds.

The U.S. ranks only 16th of 17 nations listed. Americans consume 584 pounds apiece each year.

The U.S. figure includes an annual per capita milk consumption of 31.4 gallons — ahead of coffee (26 gallons), tea (7.9 gallons) and soft drinks (16.1 gallons).

Americans eat 4.8 pounds of butter per person a year — compare that with 40.3 pounds for Finns.

SELF-TAUGHT with help from friends, Wendy Jensen plays the guitar for her own enjoyment and occasionally for small group entertainment. She will sing and play the guitar as her talent number when she competes July 12 for the Miss Thief River Falls title at the Lincoln high school gymnasium.

Wendy Jensen Is Queen Candidate

by Marvin Lundin
Times Editor

(This is the second in a series of personal interview features with candidates for the Miss Thief River Falls title at the 15th annual Jaycee Aquacade. Other candidates will be featured in future issues.)

Two years as a drummer and vocalist with the all-girl "Velvet Glove" teen dance band gave Wendy Jensen of Thief River Falls a background in public appearances. She estimates that the group performed at least 250 times during those two years, including Canadian tours as far as Prince Albert, Saskatchewan.

Seventeen-year-old Wedny is the daughter of Mrs. Catherine R Jensen of Thief River Falls and a 1969 graduate of Lincoln high school. She is five feet, six and one-half inches tall, weighs 115 pounds, has brown hair, hazel eyes and a 35-24-35 figure. Her talent number at the Miss America preliminary pageant July 12 will be a vocal number with guitar self-accompaniment.

While in high school Wendy was active in extra-curricular activities. She was in Lincoln Singers one year, choir one year, German club one year, Pep club, GAA and FHA three years. She was on the Lincoln Log newspaper staff three years, the last as business manager, and was a majorette for three years. A wrestling and basketball cheerleader, she also was a member of the Usherettes group, participated in the school operetta and played a lead role in the junior class play.

During the summers she enjoyed horseback riding and has been a member of the Bit and Bridle saddle club. She also took ballet lessons from the late Mrs. Earl Gjernes and assisted with instruction of younger pupils. She was also in the Bridgettes drum and bugle corps for four years.

An avid sewing enthusiast, she makes about 80 per cent of her school clothes. She has made her formal and talent costume for

Federal Grants Announced by Langen's Office

Department of housing and urban development has approved a grant of $274,733 to be used to provide salaries for professional and technical personnel to staff the Northwestern Mental Health center at Thief River Falls.

The federal office of economic opportunity has also approved a grant to the Inter-county community council of $181,331 for program planning and administration for a neighborhood services system, health program, recreational facilities and senior citizens opportunities at Oklee. The new facility will serve Clearwater, Pennington, Polk and Red Lake counties.

The grant to the Northwestern Mental Health center is made available through the National Institute of health. The center is available to 95,000 people in northwestern Minnesota. Announcement of the grants was made through congressman Odin Langen.

Principal Named For Lincoln To Succeed Edlund

Robert J. Ostazeski of Carlton has been named the new principal of Lincoln high school to replace Richard Edlund, who recently resigned to become assistant principal in the Osseo school system.

Ostazeski, a native of Superior, Wis., received his baccalaureate degree and his master's degree from the Wisconsin state university at Superior, and is currently completing his work toward the specialist degree in education. He began his educational career as a science teacher at the Carlton high school in 1957 and assumed the high school principalship in 1962.

Ostazeski is married and has two children.

Memorials Given

Cancer fund memorials in the name of the late Mrs. Thelma Bjorkman were recently received by the Pennington county unit of the American Cancer society, according to Mrs. Charles Krause, memorial chairman. Memorial gifts are used entirely in cancer research to assist in discovering causes and cures for cancer.

Northland Will Graduate 75 Students Friday

Dr. Robert D. Decker, president of Bemidji state college, will give the major address at commencement exercises for 75 graduates who will receive either an Associate of Arts degree or a college diploma from Northland state junior college in Lincoln auditorium Friday at 8 p.m.

The commencement program will include musical selections by Northland's band and chorus, special citizenship awaed for outstanding community service and the presentation of diplomas and degrees by Dr. A. E. Jacobson, chairman of the NSJC advisory committee.

Summer School To Open Monday

Summer school will begin in Thief River Falls on Monday, with registration still open, according to summer school officials. Those who have not registered can do so at the Lincoln or Washington schools on Monday.

All junior and senior high school students enrolled in summer school are asked to meet in the Lincoln high school auditorium at 8 a.m. on Monday. Elementary school children are asked to report to Washington elementary school at the same time.

Holstein Ass'n. Plans Meeting

"Management Makes Money in Dairying," will be the theme for the Red River Valley Holstein association twilight meeting at the Gerald Visser farm one mile east of Gary at 7:30 p.m. on Sunday.

Rex Sibert, a professional hoof trimmer from Marion, Kan., will give a hoof trimming demonstration. Jim Muzzy of Thief River Falls will demonstrate the proper way to show dairy cattle.

School Board Meets On Several Matters

Opening of bids on several items of supplies, acceptance of eight resignations, approval of 14 contracts and setting of administrative salaries occupied the Thief River Falls board of education at its regular meeting Monday evening.

Contracts were awarded for the following: Coal, O'Hara Fuel and Transfer company, $24 per ton; fuel oil, Gustafson Oil company, Minneapolis, 11.83 cents per gallon for No. 2; bread, Eddy's Bakery of Grand Forks, 20 cents per loaf; gasoline, Gulf Oil company, 14.3 cents per gallon; milk, Bridgeman and Land O'Lakes Creameries, 75 cents per gallon for bulk white and 83 cents for chocolate; and classroom furniture, United Chemical and School Supply company, Minneapolis, $3,474 for chairs and $2,404 for tables.

The chairs and tables are to be used in all four departments of the local school system, including the area vocational-technical school. A contract for suspending a ceiling and laying sub-floor at Lincoln was awarded to Home Lumber company and a carpeting contract was given to Robertson Lumber company.

Administrative salaries were approved as follows, with 1968-69 contract figures in parentheses: William Desrocher, elementary principal, $14,300 ($12,400), Neil Taverna, junior high school principal, $14,800 ($13,500); Arnt Aune, director of the area vocational-technical school, $15,900 ($14,500); Frank Hamerlinck, administrative assistant, $16,800 ($14,800); and Lloyd M. Johnson, superintendent, $19,500 ($17,500). All are for 12-month contracts.

Resignations were accepted from Orren Bendickson, high school biology; Dorothy L. Bridger, business education in the vocational school; Linda Rolfson, junior high school home economics; Marilyn E. Wigness, practical nursing instructor in the vocational school; Judith Wold, fourth grade at Washington; Frank Womack, elementary principal; and ReNae Sherman, junior high school physical education.

New contracts approved were for the following: Robert Ostozeski, senior high school principal; Michael Tillmann, English; [illegible] physics and driver education; James Hustad, junior high school vocal music; Ralph Hanson, architectural drafting in the vocational school; DeWnyne Jensen, grade 8 at Mark Twain; Kaye Marvin, grade 1 at Knox;

Also F. K. Womack, grade 6 at Washington; Vernon Treat, grade 4 at Washington; Ronald Leverington, grade 8 at Northrop; Jano Oberg, junior high school librarian; Evan Armstrong, special education, trainable; Dennis Wilkins, welding in the vocational school; and Duane Brown, auto mechanics in the vocational school.

Approval was also given by the board to a request by Thomas J. O'Gorman for a leave of absence and a request from Mitzi S. Nelson for a high school equivalence certificate. Decision was also made by the board to revamp the heating system at Knox.

Girls Win Top Awards At Annual Dairy Day

GRAND SHOW CHAMPION at Northwest Dairy day in Thief River Falls Tuesday was this purebred two-year-old shown by Mary Kay Kasprick, 15, daughter of Mr. and Mrs. Lloyd Kasprick of Angus. Enroute to winning the top place in the dairy show, Mary Kay showed her animal to the Holstein breed championship and the purebred show championship. She will receive a trip to the International Dairy Cattle congress at Waterloo, Ia., as showman of the purebred champion.

REALIZATION OF A DREAM came to 15-year-old Cathy Boman of Twin Valley at Northwest Dairy day Tuesday when she won the showmanship contest in a total field of 179 animals shown. The champion showman ribbon completed her "grand slam" at the annual event, for she had won the purebred show championship in 1968 and the grade championship in 1967. In both of those years her animals were judged grand champions of the entire show. This year she had the champion grade of the show and reserve champion of the entire show. She is the daughter of Mr. and Mrs. Rey Boman

Under overcast skies which threatened rain, Northwest Dairy day survived its 20th annual production as an outdoor show in Thief River Falls on Tuesday. Girls won seven of the eight top awards in exhibiting cattle, a new Northwest dairy princess was crowned in ceremonies held in the city auditorium, and the annual parade was canceled due to the cold and windy weather.

Jeanette Tjon of Twin Valley, an attendant to the Region One princess last year, was named Northwest dairy princess at the coronation ceremony. The 18-year-old daughter of Mr. and Mrs. Tilford Tjon is five feet, six inches tall, has brown hair and blue eys, and has completed her freshman year at Moorhead state college.

Attendants were Gayle Krogstad, 17, daughter of Mr. and Mrs. Erl Hovden of Ada, and Phyllis Olson, 17, daughter of Mr. and Mrs. Harold Olson of Fertile. Miss Krogtad graduated from Ada high school this year and plans to major in physical education at Bemdji state college this fall. Miss Olson is a 1969 graduate of Fertile high school and will major in home economics at Moorhead state college.

Mary Kay Kasprick, 15, daughter of Mr. and Mrs. Lloyd Kasprick of Angus, showed her two-year-old purebred to the grand show championship. Enroute to the show title she won the Holstein breed championship and the purebred show championship. As showman of the grand champion purebred of the show she will receive an expense-paid trip to the International Dairy Cattle congress at Waterloo, Ia.

Reserve show champion was a grade Holstein shown by 15-year-old Cathy Boman, daughter of Mr. and Mrs. Roy Boman of Twin Valley. The animal was reserve champion Holstein, grand champion grade of the show and was used by Cathy to win the showmanship contest. As champion showman, Cathy completed a "grand slam" of the top Dairy day awards in three years, showing the grand champion grade in 1967 and the grand champion purebred last year. She had the overall show champion in both 1967 and 1968.

Reserve champion purebred was a three-year-old Jersey shown by 16-year-old Allyn Workman, son of Mr. and Mrs. Gary Workman of Borup. Susanne Bruggemann, 16, daughter of Mr. and Mrs. Donovan Bruggeman of Thief River Falls, had the reserve champion grade of the show and was reserve champion showman. Since Miss Boman had previously won the purebred dairy calf given to the grand champion grade showman, and was not eligible for a second major award under Dairy day rules, Miss Bruggeman will receive a purebred dairy calf at the 1970 show.

Breed Champions

Grand and reserve champions in the six breeds shown included the following:

Holstein—Mary Kay Kasprick, 15, Angus, grand champion; Cathy Boman, 15, Twin Valley,

NW Trails Asks Rate Increase

Northwest Trails, Inc., has announced, along with seven other transportation lines, that it has filed a petition with the Public Service commission requesting authority to increase Minnesota intra-state passenger fares by 10 per cent.

Each of the eight petitioners supports its petitions by stating there is a substantial increase in operating expenses since the last adjustment, and a passenger fare increase is needed to continue to provide adequate, efficient and improved regular scheduled service for the traveling public.

The petitions will be brought for hearing before the Minnesota Public Service commission in its hearing room, fourth floor of the state office building, at 10 a.m. June 25, and will continue on the next day.

Dianne Wiberg-Olaf Watne Vows Spoken at McIntosh

Vernrs Lutheran church of rural McIntosh was the scene of the recent wedding of Miss Dianne Geraldine Wiberg and Olaf Leslie Watne.

The bride is a daughter of Mr. and Mrs. Gerald Wiberg of Fasston and prior to her marriage was employed at the Credit Bureau in this city. The groom is a son of Mr. and Mrs. Lawrence Watne of Gully. He is engaged in farming in the Gully area.

Rev. Norman E. Benson officiated at the double ring candlelight ceremony. Miss Dolores Narverson of McIntosh served as organist and also accompanied Mrs. Earl Malmanger of Gully as she sang, "The Wedding Prayer" and "Crown with Thy Benediction." The assembled guests participated in the ceremony by singing, "O Perfect Love."

Given in marriage by her father, the bride was attired in a floor-length gown of candlelight satin styled with a fitted bodice with a slightly scooped neckline and long tapered sleeves that came to a point over her wrists. Pearl embroidery enhanced the bodice and sleeves. A crown of pearls and crystals held her bouffant veil of silk illusion. She carried a cascade bouquet of red tea roses accented with white stephanotis.

Mrs. Michael Ophus of Roseau, a sister of the bride, was matron of honor. Bridesmatrons were Mrs. Gerald Nelson of Crookston, a cousin of the bride, and Mrs. Warren Solheim of Gully, a sister of the groom. They wore empire fashioned, floor-length gowns of blue satin with matching veiled headpieces, blue shoes, and long white gloves. Their bouquets were of red tea roses and white carnations.

Attired like the bridal attendants was Miss Elaine Wiberg, a sister of the bride, who served as flower girl. She also carried red tea roses and white carnations. Serving as ringbearer was Mark Wiberg, a brother. He wore a black tuxedo with a white carnation boutonniere.

Vance Nargaard of Gully, attended his cousin as best man. Groomsmen were Dean Watne of Gonvick, cousin of the groom, and Ernest Samsan of Troll, a friend of the groom. Serving as ushers were Michael Ophus of Roseau, a brother-in-law of the bride, and Howard Hanson of Trail, a friend of the groom. All wore black tuxedos with white carnation boutonnieres, except the groom, whose boutonniere was a red rose.

For her daughter's wedding, Mrs. Wiberg was attired in a navy blue ensemble with a corsage of red roses and white carnations. The mother of the groom chose a light blue ensemble, also with a corsage of red roses and white carnations.

Following the ceremony, a reception was held in the church parlors with Miss Ardith Syverson of McIntosh serving as hostess. Forming the setting were blue and white streamers with white wedding bells.

The three-tiered wedding cake was cut and served by Mrs. Oscar Erickson of Biwabik, aunt of the bride, and Mrs. Gunda Syrtveit of Oklee, aunt of the groom. Mrs. David Wiberg and Mrs. Elizabeth Finseth, grandmothers of the bride, poured.

Mrs. Edward Nicolay of Garrison, a sister of the groom, registered the guests while Mrs. Ray Norgaard of Anoka, aunt of the groom, and Mrs. Gary Erickson of Halloek, a friend of the bride, presided at the punch bowl. Serving the groom's cake was David Malmange of Gully and Gladys Finseth of McIntosh, a cousin of the bride. Carol Opdahl of Trail distributed the rice bags.

Nancy Jensen of Thief River Falls attended the bride, as her personal attendant. Miss Karen Svendsgaard, also of Thief River Falls, together with Miss Diane Watne, of Minneapolis, a cousin of the groom, and Mrs. Vance Norgaard of Gully, a friend of the couple, presided at the gift table.

Waitresses were cousins of the groom, Mrs. Howard Hanson of Trail, Miss Carol Watne of Gonvick and Miss Robin Norgaard of Gully.

Out-of-town relatives and friends attending were from Hatton, N. D., Trail, Oklee, Thief River Falls, Biwabik, Gonvick, Halloek, Bemidji, Erskine, Garrison, Anoka, Goodridge, Minneapolis and Red Lake Falls.

For traveling on the wedding trip, the bride was attired in an aqua suit with black accessories and a corsage of red roses and white carnations. Photo, Oklee Herald

Hanson and Garcia Engagement Is Told

Mr. and Mrs. Harvey R. Hanson of Thief River Falls announce the engagement of their daughter, Renae Karen, to Ralph Garcia, son of Mr. and Mrs. Rafael Garcia of San Juan, Puerto Rico.

Miss Hanson is in the Women's Army corps, stationed at Fort Gordon, Georgia. Her fiance is with the U.S. Army Signal corps, stationed in Vietnam.

No wedding date has been set.

Kloubec Speaks At Sun-Brite Club Meeting

Bob Kloubec was the guest speaker at the June meeting of the Sun-Brite garden club held at the William Kruse home. His topic was "Gladioli." In encouraging gardeners to raise gladioli, Kloubec emphasized the points to remember when placing blooms for show. He also listed the pitfalls that may hinder bulbs from reaching full maturity. In conclusion, he expressed the joys and feelings of accomplishments as rewards for raising these flowers.

A question and answer session, regarding plants and flowers, followed Mr. Kloubec's discussion. Roll call was answered by members stating the new varieties of flowers and vegetables planted this season.

Guests at the meeting were Mrs. Carl Anderson and Mrs. Merle Johnson.

The next meeting of the club, scheduled for July 1, will be a wild flower tour, beginning at the Person home. Misses Hazel and Gladys Person will serve as hostesses. Roll call will be "The historic spot I would like to visit."

Squarenaders Trail End Dance Is Set

Crookston Squarenaders Trail End dance has been scheduled for Thursday June 12, at the McKinley school gymnasium. Dancing will be from 8:30 to 11:30 p.m., with Loren Mumm of Crookston, calling the tips. Lunch will be served and all area dancers are welcome.

SIXTIETH WEDDING anniversary was celebrated by Mr. and Mrs. Alfred Johnson of Newfolden on Thursday, May 29. The Johnsons have been residents of that community during their entire married life and much of that time they have been active in church school and community affairs. Mrs. Johnson is a lifetime resident of that community. She was born in New Solum township, Marshall county, south of Newfolden and is the former Caroline Stamnes. Mr. Johnson came with his parents from Windam in 1903. To commemorate their anniversary, a small family gathering was held at Bemidji at the Lloyd Streeter residence on Lake Mevti. Many congratulatory greetings have been received from friends and relatives.

Dist. President Speaks at Viking Club Breakfast

"A Perfect Morning in June," described the morning of June 4, the day set for the Viking Town and Country garden club breakfast. The event was held at the Egbert Malberg home.

The guests were seated at a large table, centered with an arrangement of tulips in a wooden shoe. Candles and napkins complemented this motif.

Special guest at the breakfast was 13th district horticultural society president Mrs. A. K. Krohn of Williams. She displayed several pieces of driftwood which she had finished and demonstrated how they could be used effectively.

Other guests, in addition to the members of the garden club, were Mrs. Herbert Malberg of Yuma, Ariz., Mrs. Vernon Malberg of Thief River Falls, Mrs. Richard Olson of Williams and Mrs. Lloyd Nareen, a representative of the Sun Brite garden club.

Following the breakfast, served by Mrs. Malberg and Mrs. Earl Erickson, a short business meeting was held. The premium lists for the 1969 Flower Show were distributed to the members and the date was set for planting the garden plot at Viking.

A tour of the Malberg yard concluded the event.

Local Day Camp For Crippled Children Slated

Dates have been set for the Thief River Falls day camp for crippled children on July 28 to August 8. The camp is to be held at Camp M.O.E., and will be directed by Mrs. Barry Fellman.

Such summer recreation programs as these have served a wonderful purpose in opening up new worlds of enjoyment to handicapped children, recreationally, socially and in exposing them to the beauties of nature, Mrs. Fellman said.

Since 1960 the Minnesota Society for Crippled Children and Adults (MISCCA) has promoted a program of day camping for crippled children between the ages of six and 14. In the belief that handicapped children also should have opportunities to participate in supervised summer recreation in their home communities.

At the day camp handicapped youngsters enjoy the benefit from such activities as swimming, nature study, field trips, cookouts, arts and crafts and a variety of games.

Recently a day camping seminar was held at Camp Courage. New staff members worked with the experienced staff, and an exchange of ideas took place. Other cities throughout Minnesota are to offer day camping programs for handicapped youngsters. Anyone desiring additional information regarding the day camp may contact Mrs. Fellman at 119 Parkview, Thief River Falls.

Marshall Cancer Crusade Reaches $2,275 of Goal

Marshall county cancer crusade collection now totals $2,275 of the county goal set at $2,600, according to Mr. and Mrs. Theodore Ranstrom, county chairmen. The quota is expected to be reached soon, as the cancer drive is not completed in several townships and villages.

The response in Marshall county is gratifying and all chairmen and crusaders are to be commended for their willingness to help in this worthwhile project, according to Mrs. Ranstrom.

Contributors to the Marshall County Cancer Crusade not previously reported are as follows:

Tamarac township, $18.30; Wanger, $49; West Valley, $43.50; Newfolden, $51.50; New Salum, $34; Huntly, $13; Spruce Valley, $25; Excel, $41; Comb., $14; Whiteford, $10; Moose River, $5; Eckvoll, $25; Linsell, $5; Valley, $11; Espelie, $10.

Memorials received since the last report were in memory of Merton Morrissey by Maynard Morrissey and in memory of John Augustine by Mr. and Mrs. Marlan Augustine.

Northland Class In Astronomy Has Trip to Winnipeg

Northland students in William Moeglein's astronomy class visited the Manitoba museum of man and nature planetarium in Winnipeg on an all-day field trip June 5.

The 22 students and four guests making the trip saw two showings at the planetarium. The first show covered the constellations and prominent star identification, and the second depicted the evolution of constellations. Each showing lasted an hour.

Students were able to better understand relationships of constellations to each other and to see how their positions change throughout the year after seeing this display, according to a release from the college.

Special Awards

At the awards program held Tuesday afternoon, the second annual young dairyman award was presented by the Northwest Dairy Improvement association, sponsor of Dairy day. Robert Brinkman of Roseau was presented with the award which is given to a past participant in Dairy day who is now actively engaged in dairying and holds a position of leadership in his community.

Brinkman and his wife Dorothy have two daughters, ages 6 and 4, and farm 240 acres in the Wannaska area. Their dairy herd of about 34 cows has an average production of 16,090 pounds of milk and 638 pounds of butterfat.

In 1953 Brinkman showed the grand champion grade animal at Dairy day and received a purebred calf at the 1954 show when he also won the showmanship contest. He and his wife are both active in dairy, church, agricultural and community organizations and events.

At a special gathering Monday evening at the American Legion club rooms, recognition was given to Stuart McLeod who has served as president of the Northwest Dairy Improvement association since its beginning in 1949. He was presented with a clock - barometer - thermometer bearing an engraved plaque, with presentation made by Dick Huggett of Oklahoma City, Okla., ADA manager, who was creamery manager at Roseau when Dairy day began 20 years ago.

Also a special guest at the gathering of Dairy day directors and past directors was Glenn Carlson, Chamber of Commerce manager at St. Cloud. Carlson was executive secretary of the Thief River Falls Chamber of Commerce when Dairy day first began.

She is making a trip to the West Coast this summer, but travel is not new to her. Her late father was a construction foreman on projects of building dams, and she has lived in many states as well as Dutch Guiana, South America.

Wendy has four sisters, including Mrs. Ron (Judy) Lindberg, Thief River Falls; Mrs. Cam (Cheri) McQuade, Daytona Beach, Fla.; Mrs. Don (Kathy) Graef, Philadelphia, Pa.; and Miss Mary Jensen, senior at Mankato state college.

Dentists Attend Annual Meeting

Attending the annual meeting of the Northwest Dental society at Fair Hills resort near Detroit Lakes on June 5-7 were Doctors Donald Goodrich, Erwin Kiesz and Edward Nelson, all from Thief River Falls. Dr. Nelson presided at the session.

Elected as president for the coming year was Dr. David Fihn of Detroit Lakes. Scientific lecturer at the meeting was Lt. Col. James Brudvick, who spoke on partial, complete and maxillo-facial prosthesis.

CONCERT by the Karlstad Family Singers will be given at Bethlehem Lutheran church in Newfolden on Friday, June 27, at 8 p.m. The singers are now in their tenth year as a concert group and are currently on a concert tour through 17 states. The singers have previously made nine nation-wide tours, having appeared in over 700 churches in major cities of the U.S. and Canada. No admission is charged for the concert, but a free-will offering will be received. The public is cordially invited.

Legion Auxiliary Wins Awards at District Meet

Thirty women from Thief River Falls attended the annual convention of the American Legion auxiliary Friday and Saturday in Mahnomen. Memorial services were held Friday evening with the Rev. Loren Fevig, 9th District chaplain from Oslo, as the main speaker.

Auxiliary sessions were held on Saturday with Mrs. Oiger Olson of Warren presiding. In the auxiliary competition the Thief River Falls unit received the Americanism trophy for project work accomplished during the year, and had winning numbers in chorus, sextette, quartet and trio which will compete at the department convention in July in Minneapolis. About 30 from the local unit attended.

Officers for the coming year were elected with Mrs. Eugene Radeke of Red Lake Falls, president; Mrs. Thomas Glawe, Barnesville, first vice-president; Mrs. Nelson R. Lake, Fergus Falls, second vice-president; and Mrs. Robert Schroeder, Glyndon, and Mrs. James Cuppett, Thief River Falls, executive board members. They were installed by Mrs. C. J. Paulson, Shevlin. Mrs. Harald M. (Mae) Johnson of Thief River Falls, a past department president, presented Mrs. Olson with a past president's pin.

Historians From Manitoba Will Visit This Area

Pennington county will be host to 80 members of the Manitoba historical society, under the guidance of Wilson Green of Winnipeg, along with other northern Minnesota counties on June 21 and 22.

The tour, coordinated by the Red River Valley historical society, will be passing through the Viking-land communities in northern Minnesota, including Pennington county and the Old Mill state park. Chambers of Commerce in each of the visited communities are planning to welcome the Canadians as they proceed along the route of their tour.

Davis Receives Well Contract

Milton Davis of Newfolden has been awarded a contract to drill three wells at the Hayes Lake state park site, according to word received this morning by Rep. Andrew Skaar from U. W. Policyholder Questions Answered by the Health Insurance Institute, 277 Park Ave., N. Y., N. Y., 10017

Q. We're planning to send our three youngsters to camp this summer. Although they are all covered under our major medical health policy, I'm wondering — should we take out more to protect them while they're gone?

A. Probably not. Accredited camps, such as those that belong to the American Camping Association, usually have group health insurance for the campers. The youngsters are insured at all times when they are in the care and custody of the camp — including while they are on the camp premises or on a camp trip. At an accredited camp, an infirmary and a doctor or registered nurse are usually readily available.

When choosing a camp for your youngsters, check the health set-up. Undoubtedly your own family policy will cover the children while they are at camp, too.

If the camp does have a group health plan, it's not unusual to be billed separately for the coverage.

• • •

Q. I have a neighbor who knows it all — you know the type — and she says medical costs are rising faster than any other expenses. She's usually right but I'd like some ammunition to show I'm not completely out of it. Can you tell me just how much medical costs have gone up compared, say, to food?

A. See if this helps. In 1967 the American public spent $33 billion in private expenditures for health care — seven per cent of all of its expenditures on personal needs.

From 1957 to 1967, the public's spending for medical bills has increased exactly 125 per cent. For the same period, money going for personal items increased 75 per cent. Neighborhood discussions aside, with the continuing rise of medical costs — and no let-up foreseeable in the near future — it would be wise to check your own health insurance policy to see that the benefits are in line with medical charges in your community.

Mrs. O. Granum Of Grand Forks Dies June 3

Mrs. Oscar Granum, 56, of 1611 Seventh Avenue north, Grand Forks, N. D., and formerly of Thief River Falls, died Tuesday, June 3, at Grand Forks.

On Sept. 27, 1911, she was united in marriage to Peter A. Lundeen at Roscoe, S. D. Following their marriage, the couple lived for about 15 years at Layalton, S. D., where they operated a general merchandise store and her husband served as postmaster. In 1926, they homesteaded in Custer county, near Hot Springs. There they made their home for 30 years, moving in 1956 to Spearfish. Her husband died there on May 4, 1958. In the fall of 1959, she was married at Lapeer, Mich., to Rev. Knut Gjesfjeld and since then she had made her home in this city.

She is survived by her husband, Rev. Knut Gjesfjeld, two sons: Normon Lundeen of Romeo, Mich.; and Marvin of Olson, Mont.; one daughter: Mrs. Bud (Verna) Miller of Sundance, Wyo.; seven grandchildren, three great-grandchildren; three brothers: Milton Huck of Kalispell, Mont.; Joe of Buttonwillow, Calif.; and William of Spearfish, S. D., and one sister, Mrs. Averil Ellis of Aberdeen, S. D.

She was preceded in death by her first husband; two grandchildren, one sister and two brothers.

Several Thefts Noted by Sheriff And Police Dep't.

Thief River Falls police department and the Pennington county sheriff's department reported a number of thefts during the past week.

On June 3 a break-in was reported at the Thief River Falls curling club, where entry was made by breaking a window. A fire extinguisher was taken and its contents sprayed over the lunch room.

On June 8 it was reported that a pair of slacks were stolen from a local launderette, they are valued at $12.

On June 9 a juvenile shoplifter, a boy age 11, was apprehended in a local store and turned over to police for investigation.

Pennington county sheriff's department reports that sometime during the night of June 6 four tires and wheels were taken from a farm implement on the Howard Ilursman farm, rural Goodridge.

Encounter Team Participates In Plummer Parish

Visiting the Plummer Lutheran parish June 16-22 will be the Lutheran Encounter Team, consisting of Lutheran high school and college students who sing religious numbers at various performances in churches in the area.

On Monday at 7:30 p.m., a father and son banquet is planned to be held in the Immanuel Lutheran church, where the team will present a program, and the speaker is to be "Casey" Stengel, former Plummer coach and counsellor at the Brainerd high school.

On Tuesday at 8 p.m. the team will be in the Ebenezer Lutheran church and present a musical program. In the afternoon, they will meet with the youth of the congregation for Bible study and art work.

Wednesday morning the team will meet with the vacation Bible school in the Immanuel Lutheran church at Plummer, and in the evening will present another program in Immanuel. Another program is slated Thursday evening.

Friday a communion service will be conducted in the Ebenezer Lutheran church at 8 p.m. On Saturday and Sunday the team will be in the Immanuel Lutheran church. They will conduct the worship services in both congregations—Immanuel at 9:30 a.m. and Ebenezer at 11 a.m. In the afternoon, the team will conduct a youth rally in Pershing high school at Plummer for all of the youth in this area.

Drotts Elected State Treasurer At Gideon Meet

David Drotts of this city was elected state treasurer of the Minnesota Gideon International Society at the annual meeting held recently in Wadena. Active in the local camp, he has also served as zone leader of District I.

It was reported at the convention that the total world membership in the Gideon society has now gone over 20,000, with work being done in 83 different countries. Over 80 million copies of the Bible have been distributed in nearly every country in the world.

Attending the convention from Thief River Falls, in addition to Drotts and his wife were John Vielguth, chaplain of the local camp; Mrs. L. A. Ulvin, chairman of the woman's auxiliary, and Mr. and Mrs. Rodney Brodin.

Spring cleaning time is here again and one place that definitely should not be neglected is the medicine cabinet. Check to see that medicines are not over-age. If any are, throw them out. They could make you feel better but also might make you feel a lot worse.

DEPARTING Tuesday morning for the Miss Minnesota pageant in Austin are Miss Thief River Falls, Penny Engstrom, and her chaperone, Mrs. Neil McEwen of Thief River Falls. Penny will stay in Austin until Sunday, with the conclusion of the pageant held on Saturday evening. Air transportation was donated by the Rantanen Flying service at the Thief River Falls municipal airport, with Ralph Hunt as pilot. Mr. and Mrs. McEwen accompanied Miss Thief River Falls to Austin where full-time chaperones are provided by the state pageant. They returned the same day.

BUYER BEWARE BE WISE
by
DOUGLAS M. HEAD
Attorney General
State of Minnesota

Not too long ago, a 75-year old woman withdrew her $5,000 life savings and invested it in an Arizona land development project.

The retired widow learned about the Arizona land sale through her local newspaper. A glowing ad had caught her eye. Said the ad: "The lots are livable now, laid out, waiting for people, water available, roads, phones. Not raw, inaccessible land."

Two months after making the investment, the woman packed her bags, boarded a bus, and was on her way to the new "king sized western estate" she had supposedly purchased.

When she arrived she was stunned. It was the first time she had actually seen the land. Not a house, not a street, not a telephone pole or a power line, much less another person, was in sight.

Just desert. Miles and miles of it. Oh, yes, there was water. But it was a two-mile walk from her plot of land and it cost—50 cents for 100 gallons.

More than 3,000 other people, many of them retired persons of limited means, invested in the same project before the promoters were convicted of mail-fraud.

Of course, this is not a typical case. Many land developers and land promoters are honest, reputable businessmen.

Nevertheless, the fact remains that thousands of people have lost money through various mail-order land investments.

If you are considering the purchase of land, take some precautions before buying. Here are a few things to keep in mind.

First and foremost, personally examine any property you are considering buying. If you buy land without first seeing it, you may find that what you get has little resemblance to what you though you were getting.

Also, check on the developer. Find out who he is, what his background is, and how well he has performed in the past. Your Better Business Bureau will probably be able to supply you with this information.

Remember, too, to read advertising carefully. Ask yourself: does it sound like a come-on. Does it sound like something for nothing. These are almost always danger signs.

You should also determine the current selling price of neighboring land. If the land you're offered isn't priced about the same, find out why.

Base your decision to buy on facts you have gathered, rather than on representations made by the seller. And proceed even more slowly if you are told that you must decide quickly.

Finally, when you have decided to buy land, consider seeking the services of an attorney in handling the transfer of ownership.

Few things are more pleasing than the smiling face of a young child especially in the eyes of a proud parent. Naturally, baby pictures are extremely popular.

Most photographers are master craftsmen, who depend on their skill and fair dealing to achieve a reputable position in the community.

As our Consumer Division files illustrate, however, there are those who use the photography business to swindle unwary parents.

Young parents are particularly vulnerable to the fraudulent schemes employed by this type of con artist. Increasingly, itinerant photographers have directed their attention to parents with young children.

The schemes are numerous, but parents should be particularly skeptical of the "free coupon" offer. A photographer may inform you that you have been selected to receive a free coupon which may be applied toward the purchase of beautiful color portraits. In many instances, however, the price of the photos far exceeds the usual cost and the quality of the work is often shoddy.

A variation of this scheme takes the form of "free picture" offer. Unless the parents purchase additional photos, however, the photographer will charge a service fee or refuse to give the picture.

If you have a new baby, be particularly skeptical if told that you have been "especially selected" to receive a "free" album. All you have to do is agree to have taken a series of pictures tracing the development of your child. The album is never free, but is included in the cost of the photographs.

One of the more popular gimmicks is to offer enlargements of family photographs for the cost of materials. The catch is that an over-priced picture frame must be purchased. Often the enlargement is of inferior quality, bearing little resemblance to the original.

High prices and shoddy work are the trademark of many photographers using these schemes. Parents would be wise to deal with photographers known for their reliability and fair dealing.

One of every three persons over age 65 has some hearing loss, and that's probably a conservative estimate. The figure may well be as high as 60 per cent.

Understandably, many people—not only the elderly—turn to hearing aids. The right hearing aid can usually improve a person's hearing ability.

You, too, may have some hearing problem. A hearing loss usually occurs gradually, but there are warning signs. Do you have trouble hearing water drip from a faucet? Do you strain when listening to someone talk? Do you ask people to repeat what they've said?

If you answer "yes" to these questions, you may have a partial hearing loss.

If you are considering the purchase of a hearing aid, keep these suggestions in mind.

First, see an ear specialist (otologist). Although the odds are that a hearing aid will help, you should consult a doctor, some people cannot be helped by hearing aids.

Also, an ear specialist can determine the extent of hearing loss and can recommend the hearing aid which is best suited to your particular problem.

If a doctor does recommend a hearing aid, deal with a reputable dealer. Shy away from any door-to-door salesman unless he establishes that he is a representative of a reputable company. Your doctor may be able to recommend a reliable dealer.

Most hearing aid companies are reputable. Yet, our office receives occasional complaints about hearing aid salesmen who charge exorbitant prices for inferior merchandise.

Not long ago, for example, our office received a complaint from an elderly Minnesota woman who paid $500 for a hearing aid after being assured that it would correct her hearing problem. The hearing aid didn't help her at all and she later learned that it was really only worth about $200.

Hearing aids need periodic adjustments and other servicing. Find out whether the company will be responsible for servicing.

Consider buying on a trial basis. Most reputable dealers offer a 10-to 30-day trial basis so you can determine how the aid works under various conditions.

A rural Minnesota couple had long wanted to have their home carpeted. Their income was modest and they feared they could not afford it. But the husband was nearing retirement and they decided to invest in carpeting as their last major household purchase before he stopped working. They hoped they could get a good deal.

The couple read a dealer's ad for bargain priced commercial carpeting. They visited the store the very same day.

They were met by a salesman who said that he could make them a terrific deal on some top-quality carpeting which was left over from a big carpeting job at a large office building. He said that the carpeting was far better than ordinary home carpeting.

He told the couple that the carpeting was originally priced at more than $30 a square yard, but since it was left over, he could let them have it for a mere $15 a square yard.

The deal seemed too good to pass up, and they signed a contract that afternoon agreeing to pay a total of $500.

Two weeks later, they learned that the carpeting was no bargain at all. They could have bought exactly the same carpeting for less than $10 a square yard. The carpeting they bought was not even top quality home carpeting, much less $30 a square yard commercial carpeting. Obviously, the carpeting was not left over, as the salesman had said.

Their experience, of course, is not a typical one. The majority of carpet dealers are reputable businessmen who treat their customers fairly.

Nevertheless, our office does receive complaints from some carpet buyers who, for one reason or another, are not satisfied with their purchases.

Here are a few things to keep in mind when buying carpeting. First of all, know your dealer's reliability. If you don't know him personally, check his reputation with your Better Business Bureau or Chamber of Commerce.

Quality is the most important thing to look for when buying carpeting. While quality is often reflected in price, it is also there for the eye to see. Take the carpet and fold it back. The thicker, the denser the pile, the better the carpeting.

Be realistic about cost. Remember that heavy traffic areas require top-quality carpeting, and that top-quality carpeting is bound to cost more than lower grades.

Know the total cost before signing a contract. The total cost should include charges for the carpeting itself, padding, installation, and delivery.

See that the order contains full information about your purchase, such as brand name, quality, color, and total price.

Keep a sample of the carpeting to compare with the carpeting that is put in your home.

And one more thing. If you see ads for commercial carpeting that is supposedly left over from big carpeting jobs, heed the words of one industry expert, who says that "there is seldom enough carpeting left over from a commercial installation to cover an average-sized bathroom."

DISCUSSING the opening of the North Star Natural Gas company's new office, located just north of Penneys on Third street, is North Star Natural Gas company president George Lucas, Mayor A. E. FU Oil Company Has $70,000 in Sales Increase

Sales increase of over $70,000 was announced at the annual meeting of the Farmers Union Oil Company of Thief River Falls on Saturday in the city auditorium. The audit report also revealed total net savings for the year in the amount of $42,119, or a net of $10.64 for every $100 worth of purchases by the company.

The company paid back in cash to the patrons during the past year a total of $26,357, for a grand total paid back in cash since the company was organized of $359,465.

Total assets of the cooperative climbed to $416,693, with total liabilities at $16,857.00.

Jesse Bakke, who retired from the board, received a 25-year pin from the Farmers Union Central Exchange in recognition of his years of service as director. Melvin Melin was re-elected to the board and Irwin Aaseby was elected as a new director, replacing Bakke.

Philip Bergland, who is employed by the Agency for International Development and has spent four years working in the Philippine Islands, spoke on his work in that country.

The board of directors of the cooperative now includes William Rupprecht, president; Jarvis Torgerson, vice president; Melvin Melin, secretary-treasurer; Juell Chervestad and Irwin Aaseby, directors. Ferdie Mandt is manager of the company.

Names Farmers From This Area To Committee

Gov. Harold LeVander today announced the appointment of a 21-member steering committee for the governor's farm conference to be held July 10 in the Willmar high school auditorium. Named from the northwest region were Gerhardt Ross, Crookston; Medard Yutrzenka, Argyle; and Paul Horn Jr., Moorhead.

All 21 members of the steering committee are actively engaged in farming and represent the broad spectrum of the industry, including all four major farm organizations and the more than 30 commodity production and marketing groups.

The governor said the committee members will have important roles in conducting the regional workshop sessions at the July 10 conference.

Region 3 (Midstate) - Roman Wermenskirken, Jordan; Harold Barton, Silver Lake, and William Pearson, Ogilvie.

Region 4 (West Central) - Keith Langmo, Litchfield; John Evans, Jr., Montevideo; and Charles Berg, Chokio.

Region 5 (Southeast) - Arnold Nonstad, Spring Grove; Gordon Yates, LaCrescent; and Phil Parsons, Northfield.

Region 6 (South Central) - Lauris Krenik, Madison Lake; Martin Annexstad, St. Peter; and Edgar Urevig, Lewisville.

Region 7 (Southwest) - Claud VanDriel, Hills; James Fellows, Worthington; and Frank Crippen, Sanborn.

Carriers Given Trip To Cities For Ski-O-Rama

A special trip for qualified salesmen of the Minneapolis Tribune and Minneapolis Star will be to Ski-O-Rama, on Lake Minnetonka, near the Twin Cities. The qualifying youngsters from Thief River Falls who will be attending Ski-O-Rama are Greg Sorenson, Scott Reed, Mike Holmes, Randy Dallmann, Tom Galt and Steve Sorenson.

Ski-O-Rama includes water skiing, speedboat riding, houseboating, swimming and, as an addition, the boys will be treated to several hours at Excelsior amusement park on the shores of Lake Minnetonka. Each boy will receive water safety instruction and have the opportunity to race go-carts, play miniature golf, sightsee and ride water bikes. The two nights will be spent in downtown Minneapolis motels.

V. Ronald Kvikstad

V. Ronald Kvikstad of Thief River Falls received his degree in dentistry from the University of Minnesota at commencement exercises at Memorial stadium Saturday.

Upon graduation, he received his commission as Lieutenant in the U.S. Navy and will report for duty on July 10 to the Naval Air base in Alameda, Calif., where he will be stationed until his next assignment.

Tips on Saving Water 12 Months of the Year

Most of us associate the importance of conserving water with hot weather. That's because shortages and municipal restrictions on the use of water occur mainly during summer months.

However, water conservation should be a year-long affair. Wasting water is just pouring money down the drain. These tips for saving water come from the Plumbing-Heating-Cooling Information Bureau:

1. Make sure there are no leaky faucets. A one-sixteenth inch leak wastes 3,000 gallons a month. If your faucet is old, replace it. A modern one enables you to get the temperature you want almost at a touch of the controls, without wasting water to arrive at the desired temperature.

2. Aerators on your faucets will introduce millions of air bubles into the water. You use less water because it suds up faster and rinses off easier.

3. A circulating pipe loop installed between your water heater and individual fixtures will give you hot water immediately instead of having to run it awhile.

4. Old-fashioned showerheads use a great deal of water. The newer ones not only save water, they increase your enjoyment of a shower because you can regulate the spray from fine, needle and coarse through full-flow. Automatic temperature controls enable you to preset the temperature you want before turning on the water—thereby saving all the water that usually goes down the drain while you're attempting to get the desired temperature.

5. Get into the habit of turning off the water while doing dishes, washing vegetables, shaving, etc. except when you're actually using it. Some authorities claim about 50 percent of the water from a municipal system is wasted because people turn on the water, then let it run while performing their chores. Wasting water is just a bad habit. Saving it is a good habit to acquire.

Tree Roots in Pipe? Here's What to Do

Big, healthy trees are nice to have around your home, not only because of the natural beauty they lend to the landscape but also because they help to prevent soil erosion. However, the Plumbing-Heating-Cooling Information Bureau points out, they can create a real problem when their thirsty roots get into your underground pipe.

Tree roots are extremely strong because they have a deep instinct to live and grow. They spread in all directions, seeking out life-giving moisture. If there's a leak or a break in your underground pipe, they'll find it. Then, before you know it, your pipe becomes clogged, requiring corrective measures.

The most effective way of dealing with the problem calls for the tools and services of a plumbing contractor. He'll use a special flexible auger that can be reeled into the pipeline, cutting away all growth. This definitely is not a job for an amateur, since improper use of the auger can break the pipe and worsen your problem. Special root solvents also can be flushed through the line to clear it.

These corrective measures are only temporary, however, since the thirsty roots soon will find their way back into the pipe. The only sure way to avoid a root problem is to make certain the pipe is of top-quality, water-tight material. Strong as tree roots are, they can't break into good-quality pipe. When it comes to your pipeline, quality doesn't cost, it pays!

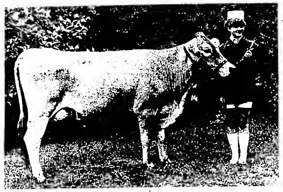
Times Camera Records 20th Annual Dairy Day

LINE-UP of animals and their owners for the showmanship award at the 20th annual Northwest Dairy Day in Thief River Falls, was held in front of the portable stage in the municipal parking lot on Knight avenue. Harley Shurson, East Polk county agricultural agent, is shown at the microphone on the stage. Dr. Ed Fredricks, one of the judges for the show, looks over some of the animals at the right.

THREATENING weather was one of the major concerns at the 20th annual Northwest Dairy Day in Thief River Falls Tuesday, but due to a good outlook on the forecast, the show was held in the city parking lot across from the arena as scheduled. Shown here is judging of the showmanship participants as they led their animals around the ring. Rain fell during the night but stopped about 7:30 a.m. Light drizzle fell for short periods in the early morning and the skies remained overcast during the day. The parade of champions was canceled and the awards program and princess coronation were moved indoors.

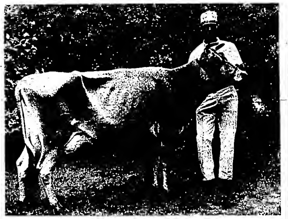
June is dairy month



BROWN SWISS breed champion at the 20th Annual Northwest Dairy day was this two-year-old purebred animal shown by Judi Carlson, 14, daughter of Mr. and Mrs. Milton Carlson of Winger. This is the third year Judi has shown at Northwest Dairy day.

PRINCESS KAY of the Milky Way made an appearance, along with the Northwest Dairy Princess of 1968, to the afternoon dairy judging at the 20th annual Northwest Dairy day in Thief River Falls on Tuesday. Northwest Dairy Princess is Vurnie Hopwood of Ada and Princess Kay of the Milky Way for 1968 is Linda Louwagie.

BREED CHAMPION Milking Shorthorn was this two-year-old purebred animal shown by Scott LaVoi, 12, a four-year showman at the annual Northwest Dairy Day in Thief River Falls. Scott is the son of Mr. and Mrs. Francis LaVoi of Fosston.



JERSEY breed champion for 1969 was shown by Allyn Workman, 16, of Borup. His purebred three-year-old animal was also the 1968 breed champion. Allyn is the son of Mr. and Mrs. Gary Workman, and has shown for six years at Northwest Dairy day.

JUDGES of the contests at the 20th annual Northwest Dairy day in Thief River Falls Tuesday were Bill Mudge, left, and Ed Fredricks of the University of Minnesota. They are pictured here making a decision on the placing of an animal in one of the 24 dairy classes included in the judging events of the day.

GUERNSEY breed champion was this six-year-old grade animal shown by Vicky Erickson, 16, daughter of Mr. and Mrs. Earl Erickson of Viking. Vicky is a seven-year showman at Northwest Dairy day, which has been held in Thief River Falls each year since 1949. She also won the breed championship in 1968 and went on to win grand champion grade honors for the show, winning a purebred calf awarded this year.

EIGHT YEAR SHOWMEN at the 20th annual Northwest Dairy day Tuesday are Loretta Swenson, Fertile; Jerry Katzenmeyer, Lake Itasca; Jerry Muzzy, Thief River Falls; Greg Zak, Angus; and Cheryl Okstad, Gonvick. These participants have shown cattle at Dairy day for the past eight years, and received trophies for their participation this year.

THIS TWO-YEAR-OLD Ayrshire was selected as breed champion at the 20th Annual Northwest Dairy day in Thief River Falls Tuesday. She was shown by Michael Hanson, 15, son of Mr. and Mrs. Lynn Hanson of Goodridge. This is the sixth year that Michael has competed in Dairy day.

NINE YEAR SHOWMEN at the 20th annual Northwest Dairy day are being presented with trophies by Conrad Swanson of Ada. Qualifying for the awards were Danny LaVoi, Fosston; Susanne Bruggeman, Thief River Falls; Jonathon Benesh, Ada; Charles Edgar, Warren; and Gale Wittman, Warren. This picture shows those present to receive their trophies.

Two Remain In Tie For Second In Trap League

Wilson Brothers and Custom Motors moved into a tie for second place in the local trap club standings as the result of shooting on Monday night. A week ago the two were tied for second with four other clubs, but they won matches on Monday while the other two received setbacks.

Jenson's mink farm remained the only undefeated team in the standings as they posted their fourth straight win on Monday night, edging the Times squad by a 123-121 score.

Wilson Brothers, paced by Stan Wilson's 25 actual, has four of the five members of the team posting 25's with their handicaps. Si Schantzen had a 24-2-25, Mervin Skadsen a 20-5-25, Wally Vagle a 22-5-25 and Orville Feragen a 17-6-23. The total team score was 123 to Coast-to-Coast's 108 total.

Mark Mattson paced the Custom Motors team over the Shrine, as they defeated the Shrine by a 122-121 score. Mattson had a 24 with a five handicap for a 25, while Dave Larson and Steve Johnson each had 22 and with handicaps posted 25's.

Stan Wilson was the only shooter to record an actual 25 on Monday night, but five others missed only one clay pigeon. They were Bob Mattson, Si Schantzen, Floyd Ball, Howard Hagen and Mark Mattson.

Monday's individual results are as follows:

Lind Motor Supply (121)—Floyd Ball, 24-3-25; Dick Bjorkman, 15-7-22; Hal Lage, 17-7-24; Charlie Abentroth, 22-5-25; and Dick Griesen, 20-7-25. Pharmacy (118)—Ray Thyren, 23-3-25; Russ Embury, 23-7-25; Stub Pahlen, 20-6-25; Jim Huseth, 14-7-21; and Wally Sparby, 18-4-22.

Avoid Adopting Orphan Wildlife, Bureau Urges

Every year about this time, thousands of small children suddenly become caretakers for thousands of young wild ducks.

If you have young children in your household, you can avoid the problem of what to do with young wild birds if you take a suggestion from the U.S. Bureau of Sport Fisheries and Wildlife.

If your children bring home "lost" wild ducklings or other wildlife babies, have the children return the bird or animal to the spot where it was found—immediately.

Chances are, the federal agency says, the young wild creature wasn't lost in the first place, even though the children didn't see the bird or animal's parents around. The odds are good that the youngster's mother will be waiting near the spot where the young duck was "found."

Better yet, the bureau says, parents should instruct their children to leave wild birds and animals alone. Young wildlife is seldom abandoned; usually the parent birds or animals are out looking for food and will return to the nest or den shortly.

Young Wildlife Not Abandoned

If this spring runs true to form, the Conservation department will soon begin receiving calls from well meaning persons who have picked up newly born birds and animals in the wild, and are now wondering what to do with them.

In most cases, the caller will say something like, "We were out for a walk in the field and found these baby ducklings (or pheasants, rabbits, deer, etc.) all by themselves. Guess their mother must have abandoned them . . . ."

Department game officials say young wildlife are seldom abandoned by their parents.

"They would not have survived thousands of years of evolution if they were," said one.

Often the mother of these apparently abandoned wildlife specimens is nearby but fearful of showing herself while humans are present. In many cases, she is out seeking food.

In either case, the mother will soon return to take care of her young providing she is not frightened by the presence of humans.

In short, stay away from young wildlife encountered in the field and forest.

A LITTLE THING like two broken wrists didn't dampen the interest in fishing of 14-year-old David Forney, son of Mr. and Mrs. Walter Forney of Thief River Falls. His enthusiasm was rewarded Monday evening when, after a 45-minute battle, he landed this 14½-pound northern in the Red Lake river. Dave broke his wrists almost a month ago when he slipped while lifting weights. Friday he talked his Dad into going fishing, and they anchored their boat in "Carlson's Cove". On the fourth or fifth cast, with a small spoon, Dave said he thought he "had something". After lengthy maneuvering, Dave brought the fish to the boat and his dad slipped the net around it tail to head. But he ran out of net before he ran out of fish, and the northern flopped out and made another run. Agonizing minutes later Dave brought the fish in again and Dad scooped it into the boat with the net. The fish, which went through the bottom of the net, was 38½ inches long and 16½ inches in girth. And Dave, in spite of his angling prowess, with six-pound test line, couldn't even hold his catch after it was taken ashore—the casts on both arms wouldn't let him.

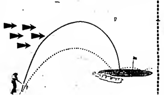
HOW TO SOLVE GOLF PROBLEMS

JIMMY DEMARET...
NARRATOR "SWWG" *



WITH THE WIND AT YOUR BACK

On a par-3, 150-yard hole, the average golfer would probably use about a 6-iron. However, when a brisk wind is at the golfer's back, the better choice might be a 7 or 8-iron.

Tail wind has a tendency to knock the ball down and reduce its backspin. If you start too low, you may not carry any hazards guarding the green and will probably get too much run on the ball (dotted line).

By playing the shot high in the air (solid line) you will benefit from the carrying power of the tail wind and, at the same time, compensate for lost height.

The ball should carry just onto the front edge of the green. Lacking much backspin, it will run far enough to reach the pin.

How's Your Health

(Prepared in the public interest by the Minnesota Medical Association.)

Could you be caught without a doctor? If you had an emergency in the next hour, would you know which doctor to call?

Your parents or grandparents probably had a family doctor to whom they could turn in any crisis. He was probably a general practitioner. General practitioners are the backbone of American health care. They deliver babies, give complete medical care from cradle to grave, and perform common operations.

However, a broad medical field called internal medicine has its well-rounded physicians called internists. Quite often they make splendid family doctors and may handle most of your family's health problems.

Your family doctor knows the medical history of your whole family and is alert to problems which may arise in each member. This makes early diagnosis and successful treatment possible where delay can be costly.

Your family doctor knows the specialists, so you don't have to go through the process of choosing if he wishes you to see one. And, he will help you get to the right kind of specialist.

If you would like to decide on a physician to be your family doctor for many years, several ideas may be helpful:

1) Your place of employment may recommend a plan of family care. Ask at the employee health office.

2) If you are going to ask a hospital for recommendations, look first in the lobby of the hospital for a framed certificate from the Joint Commission on Accreditation of Hospitals. This shows that the hospital has met certain professional standards and the doctors on its staff also have met professional standards.

3) If you ask your local medical association for names, it will suggest members who possess certain professional qualifications.

You can arrange for a general health examination for yourself or a family member during which you can decide whether you like his professional approach to your care and his personality. Both are important to your good care, says the Minnesota State Medical Association.

It is easy to hide behind the dangerous notion that nice people don't talk about VD or that they don't get VD. But nice people and nice kids from nice families contact venereal disease by the thousands," says the Minnesota State Medical Association.

In the case of syphilis, too many teenagers misinterpret or rationalize the illusive symptoms. Or, afraid of being "found out", they try self-treatment. But, when it comes to syphilis, there is no room for self-diagnosis or self-treatment.

The spirochete, germ of syphilis, finds an ideal home in the human body and sexual intercourse is the swiftest and safest means of spreading it from person to person. It cannot survive in the air for more than a few seconds nor endure great fluctuations in temperature, therefore, it is extremely unlikely that a person will pick up this infection from a toilet seat, eating utensils, or from shaking hands with an infected person. It could be caused, however, from open sore to open sore.

For the first ten days to three weeks the spirochetes multiply preparing for their onslaught. The tissues surrounding the entry site may become irritated, sometimes causing a "pimple" or chancre which doesn't hurt, itch or even become purulent (filled with pus) unless invaded by another germ. Most people do not have the "pimple" examined. They wait to see if it will go away, as it always will, within a week or two. The spontaneous healing, however, merely indicates that the germs have migrated to others parts of the body.

After about two years following the patient's original infection, the disease passes into a dormant or latent stage during which the germs may give no sign of their presence for sometimes as long as 20 years. It is during this period that the organs of the body deteriorate and terrible complications of syphilis set in: blindness, madness, heart failure, paralysis. Eventually, the brain heart or liver will be so badly damaged that death results.

Penicillin cures syphilis during its early stages but adequate treatment is not necessarily accomplished with one shot. Follow-up observations are necessary, including a blood test every month for several months and every six months thereafter for several years. After that, the patient should have a blood test every year, preferably every six months, for the rest of his life.

If you think you might have syphilis, the only reasonable course of action is to see your physician or go to a public health clinic. Put all reserve aside and ask for a complete examination for syphilis.

Some persons may live through life without an attack of appendicitis while others may develop the condition in childhood. Appendicitis is quite common but deaths have diminished appreciably in recent years, says the Minnesota State Medical Association.

The appendix is a small, apparently useless organ jutting out from the beginning of the large intestine. When the appendix becomes inflamed, because of infection or foreign materials blocking the organ, you have appendicitis. Pain, which may be dull or sharp, is accompanied by nausea or vomiting and a rise in temperature. The abdomen is sensitive to touch, particularly over the appendiceal area.

Ignorance is responsible for many deaths from appendicitis. Because the pain and distress associated with the disease closely resemble the symptoms brought on by constipation, patients sometimes resort to laxatives. Laxatives increase peristalsis, the movement by which the contents of the intestine are moved along. This increased pressure may extend the swelling and cause rupture of the appendix, spreading the infection to the peritoneum, the lining of the abdominal cavity.

This condition, called peritonitis, is always dangerous even though drugs have reduced the incidence of death. If peritonitis occurs, however, the road to recovery is long because of the rapidity with which the infection spreads throughout the system.

While there is no way to prevent appendicitis, serious complications can be averted if the physician is called immediately on the appearance of soreness of the abdomen or pain.

Do not take laxatives or cathartics. Do not apply ice packs or heat. Do not rub or massage the abdomen. Do not swallow anything except water until you have consulted a physician.

Early recognition and treatment of appendicitis is highly important, says the Minnesota State Medical Association. When surgery is performed early, the recovery rate is very high. Neglect increases the chances of serious complications.

When you want to see as well as you look, think twice about your sunglasses! Many are only dark glasses that shut out light, warns American Optical Corporation. A primary purpose of sunglasses is to protect the eyes against potentially harmful infrared and ultraviolet light rays, as do the lenses in AO's Sunvogues — that's the "Everglade" frame style shown at left and "Sunswept" at right. Style is important, of course, says the 135-year-old firm. But, along with good looks is an obligation, on the part of the optical industry, to provide sunglasses that "just don't cut down glare, but really filter out potentially harmful rays."

THE FAMILY LAWYER

"Don't Blame Me!"

Startlingly simple was the defense offered by a young man accused of murdering his own father.

"I'm a rough character," he conceded in court, "but only because my father brought me up that way. He taught me to drink whiskey, use a gun, and run around with a gang. So don't blame me for what I did. Blame my father."

No doubt the slain father bore a share of the fault. But the court held the son guilty anyhow, because he was old enough and rational enough to take responsibility for his own behavior.

To what degree should extenuating circumstances excuse what would otherwise be a crime? To what degree should a killer be allowed to blame his upbringing? a thief his poverty? a rapist his passion? a vandal his youthfulness?

In an earlier day, there was little of such talk in the courtroom. Wrong brought retribution almost as a matter of course. Scarcely a century ago, a murderer was put to death in an American prison even though he was only 12 years old.

But with greater insight into human motivations has come greater understanding in fixing blame.

Thus, mental deficiencies are increasingly taken into account—not only in deciding on legal guilt but also in setting the punishment. And all states recognize a minimum age below which a person cannot be held to criminal liability.

Nevertheless, while today's law avoids total responsibility, it also avoids total irresponsibility. It holds that most people, in most situations, do indeed have freedom of choice between doing right and doing wrong.

Because of that freedom, an individual is expected to stand on his own feet, be his own man, and "take his medicine" for what he does wrong—just as he is entitled to take credit for what he does right.

In short, despite outer influence or inner weakness, despite the pressure of adversity or the lure of temptation, he usually has the power to refrain from harming others—if he tries hard enough.

And, for the sake of society, the law demands that he try that hard.

QUESTIONS Answered for VETERANS

Q—I was wounded in Vietnam and evacuated to a military hospital in the United States. I will be separated from service at this hospital. Will I receive any counseling or information about veteran benefits before separation?

A—Yes, a Veterans administration representative will visit you at the hospital to advise you of your veteran benefits. Further, he will help you file for these benefits. After separation, your records will be forwarded to the VA regional office having control over your records. That office will follow up to insure any applications you filed at the military hospital are processed in a timely manner.

Q—My grandfather served in the Confederate army. His grave is unmarked. Will the government furnish a marker for his grave?

A—Yes. The department of the army will furnish at no cost a headstone or marker to be placed at the unmarked grave of a member of the armed forces of the U.S., or of the Confederate states of America, who died in service or whose last discharge was honorable. The applicant must arrange for placement of the marker. Your nearest Veterans administration office will assist you in applying.

Q—I am planning to get a loan on my 30-pay government life insurance policy. I understand the interest rate is four per cent, but am not sure as to how much I may borrow and how I repay the loan. Can you tell me?

A—You may borrow up to 96 per cent of the cash value shown on your policy. No regular repayments are required. You may send in a payment on your loan at any time, as long as you send $5 or more. Payment should be made to the Veterans administration insurance office where you send your premiums. Be sure to put your policy number on your loan repayment and designate it as repayment so that it won't be applied to your premium account. If you are receiving disability compensation from the VA, you may authorize loan repayments to be deducted from your compensation each month. Any unpaid annual interest charges will be added to the amount of the loan to be repaid.

Q—How can I check to determine whether my wife is the designated beneficiary of my National Service Life Insurance. This may be a strange question. However, my mother, who was my beneficiary when I went into service, died recently and I cannot remember for certain that I filled out any form changing the beneficiary designation to my wife.

A—Write to the Veterans Administration office to which you send your NSLI premium payment and request that you be advised as to the beneficiary you have designated to receive the proceeds of that policy. In the event that your wife is not the designated beneficiary ask the VA to send you form (29336); It would also be a idea to check the method of payment you may have previously selected to insure that the proceeds of your policy will be paid to your wife in the manner you desire.

Q—My brother has been in a VA hospital for some three months. His last pension check was reduced to $30. Why was it reduced? Can it be increased to the amount he received before going into the hospital?

A—Your brother's pension check from the Veterans Administration was reduced to $30 a month because of a law limiting pensions to this amount for veterans without dependents after two full calendar months of hospitalization. Your brother's full pension will be restored after he is released from the VA hospital.

Q—My son received his college degree under the War Orphans Educational Assistance Act. He used his full 36 months entitlement. I am now eligible for up to 36 months of Veterans Administration educational assistance as the widow of a veteran killed during the Korean Conflict. If I don't use my entitlement, may my son use part of it to obtain a graduate degree when he goes out of the Army after two years of service?

A—No, your entitlement is not transferrable. The purpose of this education and assistance program for widows of veterans who died as the result of military service and the wives of permanently and totally service disabled veterans is to enable them to advance their own skills and improve their own education so that they can reenter or remain in the mainstream of American academic, social and economic life. However, as a veteran himself, your son will be entitled to an additional 12 months of VA educational assistance as the result of a recent law permitting an aggregate of 48 months of educational assistance under two or more VA programs.

Q—What are the maximum charges allowed by the Veterans administration on a GI loan?

A—The veteran-borrower is permitted to pay reasonable closing costs customarily paid by borrowers in home mortgage financing. These include fees or charges for VA appraisal of the home, credit report, survey (if required by the lender), title evidence, recording fees and a lender's origination fee not to exceed one per cent of the loan amount. Instead of any other fees for the lender's services. The initial installments of such recurring expenses as property taxes and hazard insurance must also be paid at the time the loan is closed. In addition, a veteran separated from service after Jan. 31, 1955, must pay a statutory fee of one-half of one per cent of the loan amount. This is a one-time payment which may be included in the loan amount.

Q—I have the "total disability income provision" on my National Service Life Insurance policy. When applying for the total disability income benefit after the six-month period, will payment be made retroactive from the first month of total disability?

A—Payment of the total disability income benefit starts with the seventh month and continues as long as the total disability exists.

There are 284 living holders of the Medal of Honor, the nation's highest award for bravery, the Veterans administration reported.

In Memoriam

In memory of our dear son and brother, Terry Boyd Garfve, who passed away two years ago June 14th.

His sunny smile, his carefree way,
The sun would shine on darkest days,
But though his smile and laughter's gone,
His dearest memories linger on.
Your place is here, the empty still,
God called you home, that was his will,
Though we wonder, but know not why,
You wait beyond the bluest sky.
If we could look back thru the years,
We'd see your smile thru many tears,
But 'tis the price we have to pay,
Until we meet on Judgement Day.

Sadly missed by his parents, Mr. and Mrs. Maynard Garfve, sister, Diane and brothers, Timmy and Todd. 1t47c

In Memoriam

In loving memory of our dearly beloved son and brother, David, who was taken from our family circle June 11, 1960.

A ray of sun shine
Has gone from our home
And a place is vacant today
And the boy
That we loved so well
Seems so very far away
But we're trying to live
Just day by day
Trusting the father for light
Knowing that some day
He will be with us again
In the home in the City of Light

Sadly missed by his parents, brothers and sister, Mr. and Mrs. Lester Nordhagen, Leslie, Bruce, Richard, Steven and Shirley. 1t47p

PUBLIC NOTICE

The Board of Directors of the Inter-County Community Council, Inc., will hold their annual meeting at the Oklee High School Library in Oklee, Minnesota, on June 18, 1969, at 7:30 P.M.

The meeting will include election of new board members.

This meeting is open to the public.

WINNERS OF THE THIEF RIVER FALLS Jaycee golf tournament on Monday at the Thief River golf course were, left to right, front, Division 'B'—Jeff Bottem, Paul DeBryn and Steve Charlson; back, Wally Sparby, Jaycee president, Division 'A' winners, Jay Moum, Tim Carlson and Lee Sorensen, and tournament manager Jim Huseth. Moum and Carlson will now be entered in the state tournament to be held in Fergus Falls. Moum had a 78, while Carlson had an 80. Moum also won the chip and putt contest, with Brad Adolphson second and Randy Carlson third. Merchandise prizes were given to the Jaycees by Ekeren Drug, Tunberg Motors, Bjorkman's and Wilson's Sport center.

Summer Recreation Program Under Way

"Summer Fun for Everyone" is the theme for this summer's city-wide park and recreation program for children of all ages and adults. The summer program will move into full swing on Monday, June 16, as both the Northrop and East Side playgrounds will open.

Baseball for the youngsters is now under way, along with men's softball and American Legion baseball.

Organizational meetings for the men's horseshoe league will be held Thursday evening, while playground registration will be held on Thursday and Friday at both Northrop and East Side playgrounds. Times of registration for the playgrounds will be on Thursday afternoon from 1 to 4:30 p.m. and all day on Friday.

Ladies interested in playing softball this summer held a meeting on Monday night and it was hoped that four teams would be formed to make up a regular league this summer.

For men not playing in the men's fast pitch league which plays Monday, Tuesday and Wednesday evenings, there is a slow pitch league which will be comprised of four teams and will begin play this Friday night at the East Side diamond.

In charge of supervision of the programs is Mike Mongoven, Thief River Falls parks and recreation director. In charge of the baseball program is Ron Novak, with Nickie Drees in charge of the Eagles team and Bob Wielinski coach of the American Legion baseball team. In charge of the playgrounds this year will be Jone Wurst at Northrop and Lynn Dorn at the East Side playground.

Besides all of these, Mongoven is responsible for life guards at both the Franklin junior high school pool and Tindolph swimming beach.

The local baseball program is open to all boys, starting with the eight-year-olds who will be meeting for instructional league practice at the fairgrounds at 1 p.m. on Mondays and Wednesdays. If there are any boys who haven't registered for these programs, they are asked to come to the fairgrounds at the times when their age groups are playing and see Novak.

Schedule for the recreation program is as follows:

Prowlers Fail To Score in State Meets

Steve Edlund and Rob Womack, both entered in the Minnesota state high school tennis and golf tournaments last week, failed to pick up any points for the Prowlers.

Edlund, the number one singles champion from Region Eight in tennis, drew a first round bye and then lost to Mike Dobrin, Bloomington Cooper, by scores of 6-3 and 7-5. He then was entered in the consolation round and lost to Rick Hill, Mahtomedi, by set scores of 6-1 and 6-3.

The Region Eight doubles team from Bemidji, along with the number two singles man from Bemidji, also failed to get by their first round opposition.

Austin took the state crown with 12 points. Edina was second with 11, Minneapolis West third with 10 and Rochester Mayo fourth with nine points.

Womack finished in the middle of the state golf tournament with a 164 while a sophomore from Albany took medalist honors with a 143. Bemidji finished third in the state meet.

Youth Baseball Program for Year Is Outlined

This year the youth baseball program for Thief River Falls will be divided into four divisions, according to Ron Novak, who is in charge of the program this summer. There will be an eight-year-old instructional league, Little National league for nine and 10-year-olds, Little American league for 11 and 12-year-olds and the American league for boys 13 and 14 years old.

At present the teams have been working out at the fairgrounds diamond with all boys playing at one time or another on the diamond. The eight-year-old league will meet every Monday and Wednesday at the fairgrounds at 1 p.m., throughout the entire summer.

Nine and ten-year-olds will practice the remainder of this week and will practice on Tuesday and Thursday next week (June 16-23). All practices will be at the fairgrounds beginning at 1 p.m. on Tuesday and Thursday next week. Once teams have been completed and adopted, the boys will be given a schedule of games and times for the entire season and this schedule will be printed in the Times.

Last year and the years before the Little American league was made up of boys 11-14, but this year another league has been started for the 13 and 14-year-olds.

Boys in the 11 and 12-year-old league will practice on Thursday of this week at the East Side diamond at 1 p.m. Uniforms will be given for this league on Friday at the city arena at 1 p.m. The teams and schedules of games also will be issued at this time and the complete schedule will be published in Monday's edition of the Times.

The 13 and 14-year-olds will receive their uniforms, schedules and teams on Thursday at the city arena at 1 p.m.

Novak asks for volunteer help for teams in the 13 and 14-year-old league as he would like to have a coach for each of these teams. Any adults who would be interested in helping or coaching with these boys are asked to contact him at 681-3969 or see him during the day at the fairgrounds.

Line scores and the week's schedule will be published in the Times under the heading of "Youth Baseball Scoreboard" and will appear in each Monday's edition of the Times.

Paul Peterson Is Wisconsin Grad

Paul T. Peterson of Thief River Falls received the bachelor of business administration degree at the University of Wisconsin's commencement exercises at Madison, Wis., on Monday at Camp Randall. Sunday afternoon an honors convocation cited 955 students, the largest in the college's history, for their achievements during their school careers.

Jr. Legion Opens League Season With Newfolden

Thief River Falls American Legion baseball team will be in action tonight (Wednesday) against Newfolden in a Northwest conference game at the fairgrounds in Thief River Falls. Thief River Falls is defending league champion. The game was originally set for June 24 but was moved up to Wednesday because of conflicts. The game was also set for Newfolden, but construction of the new high school there has left the Newfolden club without a home park. They intend to play their other home games at Viking.

Dan Sullivan will get the starting pitching assignment tonight against the Newfolden club, which the Junior Legion club defeated last Friday 2-1 in a non-league contest.

Next week the team will be on the road for two games and one other game will be at home. On Tuesday they travel to Middle River; Wednesday they will be at Moorhead; and Thursday will play host to Crookston. The Middle River and Crookston games are conference games.

Other starters for tonight's contest against Newfolden will be Don Bolmer, catching; Dana Stromberg, first base; Brian Peterson, second base; Gordy Peterson, third base; Tony Johnson, shortstop; Sheldon Joppru, right field; Steve Daley, center field; and Tom Wurst, Tom Duke and Jerry Marben battling for the left field spot. Others expected to see action will be Dale Glibertson, Terry Johnson, Steve Bakke, Larry Lee and Lee Nelson.

The game is scheduled for 7 p.m.

Coach Bob Wielinski also announced that two more games have been added to the schedule with a home-and-home series with Red Lake Falls. The local club will travel to Red Lake Falls on July 2 with the Red Lake Falls club coming to Thief River Falls on July 16.

Season Opens At Tri-County Speedway, Oklee

An estimated 1,500 to 1,800 fans attended the first races of the season at the Tri-County Speedway at Oklee Sunday. There were 30 racing cars registered.

A double header scheduled a week earlier was rained out.

There were no roll-overs, but an 11-car pile-up in turn one in the first lap of the main event put three cars out of operating condition, including the consistent winner, number 94.

Racing will continue every Sunday at 2 p.m. throughout the summer.

Winners in their order across the finish line, were:

First heat—Tom Adams (car 86) of Grand Forks, Larry Torkelson (21), Plummer; Larry Sorenson (99) of Gonvick; Al Carriere (01) of Oklee.

Second heat—Duane Anderson (94), Emarado, N.D.; Ken Nareen (8) of Thief River Falls; Jim Cummings (565), Grand Forks; Byron Kaupong (32), Winger.

Third heat—Dick Johnson (4), Mentor; Lynn Lucken (30), Winger; Warren Targerson (7), Clearbrook; and Larry Rahn (67); Red Lake Falls.

Trophy Dash—Duane Anderson (94), Emarado, N.D.

Consolation—Orlan Homme (8), Thief River Falls; Rick Smith (31), McIntosh; Curt Swenson (24), Fosston; Al Clark (69), Oklee.

Feature—Lynn Lucken (30), Winger, Larry Sorenson (99), Gonvick; Byron Kaupong (32), Winger; Dick Johnson (4), Mentor.

Campsites Now Open in State

Minnesota conservation department reported this week that 650 campsites are now available in the 45 campgrounds operated by the department's division of lands and forestry.

Six of the campgrounds are new this summer and three of these are located on canoe routes.

The canoe route campsites are the "Wannagan" on the Mississippi between Itasca state park and Bemidji, the "Harrison" on the Big Fork river and "Indian Lake" on the Cloquet river.

The new "Kruger" campground near Wabasha, the first site to be opened by the division in the Memorial hardwood state forest, is ready for use at the present time.

Another new campground is the 'Gafvert' located on Pickerel lake near Nickerson in Carlton county.

Several new nature and hiking trails have been cleared in the following campgrounds: Birch lake north of Melrose, Eckbeck near Finland, Hay lake southeast of Jacobson, and Washburn lake northwest of Outing.

A camping fee of $1 per night is charged at some state forest campgrounds.

A brochure listing all the campgrounds and their location is available without charge from the Minnesota Conservation Department, Bureau of Information and Education 350 Centennial Building, St. Paul 55101.

Weeds May Be Killed by Lake Property Owners

Owners or lease-holders of lakeshore property on public lakes are permitted to do a small amount of aquatic weed control work on the lake area adjacent to their property without the need for a permit from the Minnesota conservation department, it was pointed out today.

Aquatic plants in such waters (except in posted areas) may be cut, pulled or treated with herbicides of specified kinds on a site established for swimming or boat docking that does not extend along more than one-half of a property owners lake frontage or 100 feet, whichever is least.

The total area on which plants are controlled may not exceed one-half acre. A boat channel 15 feet or less in width extending to open water may also be cleared of plants where necessary.

The specified or approved herbicides are aquathol, aquathol plus, aqua-vex, copper sulphate, diquat, dowpon, kuron, radapon, 2, 4-D and 2, 4, 5-T.

If aquatic weeds are removed on a larger area or if an unspecified chemical is used, a permit from the department's division of game and fish is required.

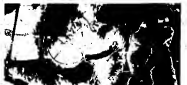
The use of earthmoving equipment for aquatic vegetation control is allowed only where a permit has been obtained from the department's division of waters, soils and minerals.

Jack Skrypek of the division of game and fish technical section said some advertising on aquatic herbicides tends to mislead the public concerning the effectiveness of chemical treatment. Proper identification of the problem weed is necessary before a particular herbicide is purchased.

"No single herbicide is effective on all aquatic plants at dosage rates that are safe for fish and other aquatic life," said Skrypek.

He also cautioned that sodium arsenite may not be used in public waters for the control of aquatic vegetation after October 1. Use of the chemical is being discontinued because of the availability of substitute chemicals which are less persistent and remain in the environment for a much shorter period of time.

A bulletin on the control of aquatic nuisances and the state regulations on aquatic weed control can be obtained from the Conservation Department, section of technical services, Centennial Building, St. Paul.



Members of the crew are engulfed in flames when an accidentally broken light bulb ignites an oil well in Universal's exciting story of the men who fight monster oil well fires, "Hellfighters," photographed in Technicolor. John Wayne, Katharine Ross, Jim Hutton and Vera Miles star in the film to be shown Sunday and Monday at the Satellite drive-in theatre.

Waterbank Proposal Would Aid Wetlands

Several Minnesota counties would be included in a pilot "waterbank" program under terms of a proposal being made by the Minnesota Waterbank Steering committee, composed of state and federal conservation agencies and some farm groups.

Basically, the waterbank program would offer federal funds through the U. S. department of agriculture to landowners who agree not to drain or fill their wetland areas.

It is a means, says the committee, whereby society, believing that wetlands have value, may share the costs of maintaining them.

Dave Vesall, supervisor of game for the Minnesota conservation department and chairman of the committee, said that thousands of wetland acres in Minnesota are in private ownership with no drainage restrictions.

"Wetlands in this category make up a large percentage of marshes in the state," he pointed out. "If we are to continue to enjoy the benefits of wetlands for storing water, for recreational and aesthetic values and for wildlife production, new programs are needed that will help prevent their destruction."

State and federal wetlands acquisition programs are bringing important waterfowl marshes under government protection, said Vesall, but not at a rate rapid enough to offset the loss of wetlands by draining and filling.

He said the waterbank program would preserve marshes in private ownership and help maintain a quality environment.

Landowners would receive annual payments for retaining wetlands. They could also participate in other water conservation programs.

The program offers options to the landowner, said Vesall, and sets certain requirements for eligibility. Under one option, landowners would be able to retire uplands adjacent to the wetlands.

"The next move," he said, "is up to Congress. A waterbank bill (S 2257) has been recently introduced. It is hoped that this legislation will provide for regulations as proposed by the Minnesota Waterbank committee."

Deer Losses Less Than Expected From Starvation

A sudden break in the weather starting the first of February apparently averted serious starvation losses in Minnesota's deer herd, the conservation department reported today.

Department game officials said widespread losses were feared as a result of the heavy snowfall which had broken all existing records by January 31.

An extensive deer feeding and browse cutting program was undertaken in order to reduce losses as much as possible, but department game managers anticipated the worst deer starvation in the state's history.

Suddenly, however, on the first of February there was a complete change in the weather. There followed 10 consecutive weeks of sunshine, warm temperatures and little or no snowfall.

This was followed by thick crusting conditions in many areas which allowed deer to walk across the surface of the snow and reach browse outside the wintering yards.

Although the expected first starvation losses showed up during the last week of March, the heavy losses did not materialize.

Game and fish division game managers searched deer yards for dead deer and watched roadsides for sightings of starved deer this spring.

They have concluded that losses of adult deer were minimal but cautioned that many fawns may die shortly after birth this spring due to weakened condition of the doe.

Shortage of fawns could reduce deer hunting success this fall and would reduce the number of yearling deer available for the 1970 season.

Game managers agree, however, that the outlook for the deer herd is much brighter now than it was in January.

Burglars usually "case" a home before attempting their theft. When you go on vacation this summer; be sure not to leave any tell-tale signs that you are away.

$2 State Park Permit on Sale

The present $2 motor vehicle permit fee for Minnesota state parks will remain in effect until October 1, it was announced today.

The legislature increased the fee to $3 effective with the issuance of the 1970 permit, which means tourists entering the parks this summer will be able to do so on the old permit price.

The increase in the vehicle permits will enable state park officials to meet rising costs of construction and maintenance.

Good Bass Opener

In spite of bad weather, the fishermen who braved the elements had good luck the opening week end of bass season. Fishermen got their limits of small mouthed bass on Lake Cormorant out of Deer Point Lodge at Audubon. Some of the bass were three pounds. Jigs were most effective. At Alexandria, Lake Carlos produced some large mouthed bass averaging about three and a half pounds. Mrs. Keith Olson of Carlos got a 3½ pounder using a Rapala. Lloyd Osborn of Alexandria got one weighing 5 pounds one ounce using a worm. A 4½ pounder was taken from this same lake by Carl Wickstrom. Round Lake in the Tamarac Wildlife Refuge near Ponsford produced some nice bass. Fishermen out of Angler's Wharf got limits using worms. Some two pound crappies were taken from this lake. Jim Farbes says that the lake has shown excellent results since the opening.

Walleyes

Leech Lake at Walker has produced some good walleye fishing. Several limits of three pounders were taken at the south end of the lake out of Merit Lodge. At the north end of the lake out of LITTLE HARDWOOD RESORT, Richard Ummach of Park Ridge, Illinois and his party got limits. His largest weighed 7 pounds 2 ounces. At Deer River, Wagner Hess, Tom Larson and John Roden, all of St. Paul, got walleye limits on Big Winnie out of Shady Rest Resort.

Baudette Report

(Mrs. Elmer Hamre sends this Report:)

"Fishing has picked up tremendously this past week. The Rainy River was fished with good results, the Walleyes were mostly of medium size. The guided launches from the Resorts found good Walleye beds, and large size Walleyes were brought in from Knight's Island."

"Reports are good for Morris Point Gap, and Light House Gap, and along Curry Island. Wheeler's Point reported that Jerry Baker from Kansas City, Mo. hooked a 4½ lb. Walleye in Four Mile Bay, Lake of the Woods, on Monday, June 2nd. Baudette Bay was a good place to fish Northerns this week."

"Memorial Day the fishing was good, and good weather lasted until Friday night. Saturday and Sunday was windy, rainy, and cold, which cut fishing in the Gaps almost completely. River fishing wasn't hampered too greatly, where you could get in the lee of the wind."

Travel Notes

The Little Crow Country Club opens this summer. Located between New London and Spicer, it has an 18 hole championship course. Ye Old Mill Inn at Spicer has new owners, Al and Shirley Kamstra of Beardsley, Minnesota. Allen Dilley of Spicer has opened a fiber glass boat works in the old Thompson Boat Works at Spicer. There still is a model of the old Thompson Boat hanging from the ceiling. Dale Nathe of Paynesville says Lake Koronis had the best opener in ten years.

Ely Report

Two walleyes over ten pounds have been taken in the Ely area since the opening: Charles McDonald of Wabasha, Minnesota in White Iron Lake—11 pounds 12 ounces. Gene Halberg of Aurora, Minnesota in Insula Lake—10 pounds 12 ounces.

Northerns

Robert Lendway of St. Paul in Basswood Lake—22 pounds 8 ounces.

John Pavlica of Chicago in White Iron Lake—20 pounds 8 ounces.

A six pound small mouthed bass was taken by Frank Kupka of Berwyn, Illinois. It was taken from Basswood Lake.

Busy Summer For Arrowhead

The Minnesota Arrowhead association will host several big events this summer. From June 15 to 20, Duluth will host the OUTDOOR WRITERS OF AMERICA ASSOCIATION CONVENTION. From June 24 to 28 the state convention of the Veterans of Foreign Wars will be held in Duluth. Then in September (26-28) the A G L O W (Association of Great Lakes Outdoor Writers) will be in convention in the Big Winnie area at Bena. This summer will see a record number of outdoor writers from all over the nation coming to Minnesota.

Birthday

Brainerd's Paul Bunyan will be 20 years old this summer. Larry Lapp is staging a big birthday party at Paul Bunyan land June 28 and 29. Casey Jones of WTCN-TV, Minneapolis, will run the model railroad. There will be fireworks each evening.

Fishing Report

A number of nice rainbow trout from Benjamin lake have been displayed at Wolden's Service center in Blackduck. Art Blakeley of Bemidji reports several 18, 19 and 20-inchers have been caught in the last few days.

Changes

Fisher's Houseboat on Leech lake has new owners. They are Tom Plinke, who used to coach basketball in the Chicago high school system, and Martin Wiedbush. "We must not stay as we are, doing always what was done last time, or we shall stick in the mud. Yet neither must we undertake a new world as catastrophic Utopians, and wreck our civilization in our hurry to mend it." — George Bernard Shaw

First Our Problem . . .

President Richard Nixon asked several questions of major fundamental importance to the United States and then answered them in his commencement address at the Air Force academy recently. He discussed military strength as important to our nation.

"What is America's role in the world?" is one question which he said must be asked. "What are the responsibilities of a great nation toward protecting freedom beyond its shores? Can we ever be LEFT in peace if we do not actively assume the burden of KEEPING the peace?"

He said that some people believe ". . .we can be conciliatory and accommodating only if we do not have the strength to be otherwise. They believe America will be able to deal with the possibility of peace only when we are unable to cope with the threat of war. . .They assert that the United States is blocking the road to peace by maintaining its military strength at home and its defense forces abroad. . .America's presence on the world scene, they believe, makes peace abroad improbable and peace in our society impossible."

The President notes that there is power in the thought that 'Charity Begins at Home' and 'Let's solve our own problems and then we can deal with the problems of the world.' It would be so easy if this theory would work. President Nixon states that it would be popular to go along with the isolationists, but that ". . .it would be disastrous for our nation and the world."

And then he gave the reasons why isolationism will not work. He said:

"The danger to us has changed, but it has not vanished. We must revitalize our alliances, not abandon them.

"We must rule out unilateral disarmament. In the real world that simply will not work. If we pursue arms control as an end in itself, we will not achieve our end. The adversaries in the world today are not in conflict because they are armed. They are armed because they are in conflict, and have not yet learned peaceful ways to resolve their conflicting national interests.

"The aggressors of this world are not going to give the United States a period of grace in which to put our domestic house in order—just as the crises within our society cannot be put on a back burner until we resolve the problem of Vietnam.

"Programs solving our domestic problems will be meaningless if we are not around to enjoy them. Nor can we conduct a successful policy of peace abroad if our society is at war with itself at home.

"There is no advancement for Americans at home in a retreat from the problems of the world. America has a vital national interest in world stability, and no other nation can uphold that interest for us.

"We stand at a crossroad in our history. We shall reaffirm our aspiration to greatness or we shall choose instead to withdraw into ourselves. The choice will affect far more than our foreign policy; it will determine the quality of our lives.

"A nation needs many qualities, but it needs faith and confidence above all. Skeptics do not build societies; the idealists are the builders. Only societies that believe in themselves can rise to their challenges. Let us not, then, pose a false choice between meeting our responsibilities abroad and meeting the needs of our people at home. We shall meet both or we shall meet neither."

Half Truths

The following editorial appeared in a recent issue of the Waseca Journal:

This nation is the victim of half truths. Half truths spread by our own people who look only at the dark side of every question.

These citizens never stop to compliment the people who make up this nation. A word of praise might do wonders but they prefer to find fault at every turn.

Nixon is pictured as a failure because he hasn't accomplished in a few months what others failed to accomplish in eight years.

We hear much today about the fact that 10 per cent of our people live in poverty. This is not to be denied. We believe it to be true.

But, have you ever heard anyone say that in the year 1900, 90 per cent of our people lived in poverty? Have you ever heard anyone point out that since 1900 we have lifted 80 per cent of our people from a life of poverty?

If you have never heard anyone point this out, and we are certain you have not, then shouldn't you ask, why? Why haven't our people been praised rather than condemned? Why can't we let our people enjoy a little of the spirit of accomplishment? Why must we always have to listen to those blabber mouth politicians who continually tell us how bad we are?

Interesting Statistics

This article appeared in the East River REA publication and indicates what farmers already know; that they are getting less than they have before in percentage of the consumer's food dollar. Here is the way the paper explains the situation:

The small portion of the consumer's food dollar that finds its way back to the farmer is noted in the updated issue of "Food Costs—Farm Prices" by the House Agriculture Committee, and will provide food for thought for those who want further cuts in the farm program, continuation of high taxes and interest, and removal of the 7 percent investment tax credit for small farmers.

"Many people find it hard to believe," said Rep. W. R. (Bob) Poage, D-Tex., the committee chairman, "that the farmer is actually getting less per unit for some basic commodities, such as corn and wheat, then he did some 20 years ago. But that is a fact. And at the same time he is having to put out three to four times as much for farm implements and machinery and materials that go into production."

The publication documents in detail the sorry story of how farmers are victimized in the economy. The farmers get only 2.6 cents for wheat that goes into a 22.4-cent loaf of bread. The baker and wholesaler get 12.3 cents, the retailer 4.6 cents, and the remainder goes for such things as milling, handling and transportation. The farmer gets 23 cents for the cotton in a shirt that retails for $4.60; 2.4 cents for the corn in a 31-cent box of cornflakes. Despite the increased take of other segments of agri-business, food is still a good buy and American consumers spent only 17.2 percent of their income for food last year. An hour's work in a factory buys more today than it did 20 years ago—2.6 pounds of round steak in 1968 compared to only 1.5 pounds in 1948; 11.2 quarts of milk compared to 8.4 quarts 20 years ago; 3.7 pounds of bacon compared to 1.7 pounds.

According to a report by the Associated Press, several congressional economic experts say the government "must do something about the unexpected rise in the cost of food now predicted for the year if inflation is to be controlled."

USDA predicts that food prices will rise about 3 per cent in 1969. They jumped a little more than 4 percent last year. So the hunt is on for a scapegoat, some poor soul to blame for climbing food prices. Rep. Henry S. Reuss, D-Wis., got up in Congress to say: "The Agriculture Department's absurd policy of subsidizing wealthy corporate farms not to grow crops causes food prices to rise." Now that's a good propaganda statement for those who want to kill all farm programs.

Hundreds of thousands of commercial family farms—good, efficient units—are cooperating with the government program to retire some land from production. Eliminate farm programs entirely, which the government is being urged to do, and it is doubtful that it would make even a smidgen of difference in retail food prices.

100 New Workers

A recent editorial in the Marshall (Minn.) Messenger suggests graphically what new jobs mean to a typical community:

359 more people in the community;
112 more households;
91 more children;
$710,000 more personal income per year;
$229,000 more bank deposits;
97 more passenger cars registered;
Three more retail establishments opened and $331,000 more retail sales per year.

"Other jobs, in addition to the 100 factory jobs, are also created to serve the new industrial workers and their families," the newspaper editorial pointed out. "It will take 65 new jobs in the retail, construction, transportation and professional fields to serve these people."

All of which is potent evidence that industrial development—and the jobs it helps create—is absolutely vital to the progress of Minnesota!

Governor LeVander Reports

Minnesota's battle against crime has been stepped up markedly by actions taken in the just-completed legislative session.

This administration recognized many months ago that crime was of major concern to the people of Minnesota. We moved quickly to put together a package of crime-fighting proposals which were presented to the legislature in a special message early in the session.

I want to personally commend the legislature for passing so many of these proposals. I know that our law enforcement officers agree that we are much better equipped to meet the rising crime rate as a result.

A most significant accomplishment was the reorganization of several law enforcement agencies into a single department of public safety. The new department will include the bureau of criminal apprehension, state highway patrol, civil defense department, fire marshal, motor vehicle registration, drivers' licensing division and capitol complex security division.

The consolidation of these functions under one head should ensure more efficient and effective law enforcement.

Police officers were assisted greatly by new laws which increase the penalty for obstructing a law enforcement officer while performing his duty and another which prohibits unlawful use or disruption of the proper use of a public building.

A good samaritan law was enacted which allows citizens who are injured while assisting a policeman to submit claims to the state.

Funds were authorized by the legislature for planning a new detention center for hard core juveniles, for a system of regional jails, and for regional detention centers for juveniles. All three of these laws will help Minnesota plan for an orderly and effective detention system.

A law was also passed making a three-year jail sentence mandatory for any felony committed with a gun. Joint trials for persons jointly accused in a crime were authorized.

The sale of pornographic materials to minors was banned by the legislature and, in another bill, pre-sentence investigations for all persons arrested for sex offenses were prescribed.

All in all, I believe this session has been a very good one for all our citizens who are interested in strict law enforcement. I feel that the legislature has done an excellent job and I also want to thank Atty. Gen. Douglas M. Head who assisted me immeasurably in the preparation and passage of this crime control package.

QUESTIONS Answered for VETERANS

Q—My income doubled last year because of profits I made on the stock market. Can I use income averaging to cut my taxes?

A—No, income from capital gains can not be included for averaging purposes. If you owned the stock for more than six months, however, only one-half of your net profit has to be included in income.

Q—When I took my present job I was reimbursed for my moving expenses. Is that considered income?

A—Whether the reimbursement is taxable depends on the nature of the moving expenses you were reimbursed for. Certain distance and length of employment tests also have to be met. Page 8 of the 1040 instructions explains this in greater detail.

Q—I lost the envelope that came with my tax forms. Where should I send my return?

A—Mail your return direct to the IRS Service Center, Kansas City, Missouri 64170.

1040 Taxpayers Ask IRS

This column of questions most frequently asked by taxpayers on Federal income tax matters with authoritative answers is provided by the Office of the District Director of Internal Revenue, St. Paul, Minnesota.

Q—Where should I inquire about a missing refund? I filed my return months ago and so far have heard nothing from IRS about it.

A—If it has been more than 10 weeks since you filed your return and you have not received any information about it, write to our St. Paul office even if you filed your return in the Service Center. Give your name, address and social security number and the approximate date you sent in your return.

Q—Where can I get more copies of the tax forms I need to deposit taxes withheld from employee wages? I can't find the forms I got this quarter.

A—Additional forms can be obtained by contacting your regional IRS Service Center. When you request the forms, give your name, address, employer identification number, type of tax, the tax period to which the deposits relate, and the number of forms you need. Ask for FTD Form 501.

If these forms do not arrive before your next tax deposit is due, send your deposit direct to the IRS office where you file your return. Make your deposit payable to the Internal Revenue Service and be sure to give your name, address, and employer identification number, type of tax paid and period covered.

Q—What records should I keep on last year's taxes?

A—Keep the records and other information used to prepare the return. If your return is audited, your records will enable you to substantiate items reported on the return.

Q—I'm going to work this summer and will need a social security card. How do I get one?

A—Application for a social security number should be made on Form SS-5. This form is available at local Social Security and IRS offices. Return the completed application to your Social Security office and they will assign you a number.

Q—I am planning to sell my house this summer. Is there anything besides the broker's fee I can deduct as a selling expense in figuring the gain?

A—Advertising and legal fees paid in connection with the sale can be deducted from the selling price in addition to the broker's fee and similar commissions.

Further information on this subject is contained in Publication 523, Tax Information on Selling Your Home. Free copy is available at local Revenue Service offices.

Q—I received a reminder notice on my estimated tax instead of a bill. How much should I pay?

A—Figure your second installment payment using the estimated tax worksheet you received in February as part of your estimated tax package. Be sure to make your payment using preaddressed Voucher 2. The filled-out voucher should accompany your payment to assure proper crediting to your account.

A schedule on the worksheet can be used for adjusting your estimated tax if there have been changes in your tax situation.

Q—Can Form 1040X be used to correct a mistake on a 1040-A?

A—Yes. Form 1040X (Amended U.S. Individual Income Tax Return) should be used to correct mistakes made by taxpayers filing either Form 1040 or 1040-A.

Q—I'm earning money not covered by withholding. Should I file an estimated tax return now or wait until next year?

A—If you expect your 1969 tax liability to exceed your withholding by $40 or more you may have to file an estimated tax declaration. Forms and filing instructions are available from your local IRS office.

If you first meet the requirement for filing after April 1 and before June 2, the declaration should be filed by June 16.

Q—I lined the property around my home with rose bushes. Can I deduct the cost for tax purposes?

A—Landscaping expenses can be capitalized and added to the cost of your property. Normal maintenance costs of your shrubs and lawn, however, are not deductible.

Q—Is there a difference between alimony and child support payments for tax purposes?

A—Alimony payments are deductible for the payer and are taxable income to the recipient. Child support payments are not deductible for the payer and are not taxable to the recipient.

Looking like a doctor holding a stethoscope to his patient's chest, engineer Tom Keilmann uses high frequency sound waves to check wall thicknesses of pipe at the Wisconsin Steel Works of International Harvester Company in South Chicago.

Pipes, up to 45 inches in diameter, carry blast furnace and coke oven gases at the International Harvester division facility. The portable ultrasonic measuring instrument "sees" whether corrosion has reduced the pipe wall to the point that it is weak or unsafe and that sections must be replaced.

Keilmann works with ENTEC, a new division of Allied Structural Steel Co., Hammond, Ind., that gets its name from the engineering and technical services it offers.

ENTEC conducts structural investigations and can prepare design drawings for any recommended structural changes to mill, factory, or other industrial buildings. The service is similar to a medical checkup for people.

Creation of the new division, with offices at 80 River Oaks Arcade, Calumet City, Ill., now gives Allied turnkey (complete job) capabilities. The company has steel fabricating plants at Clinton, Iowa; Knoxville, Tenn.; and Hammond, and a steel erection and general contracting division, Industrial Construction Division at Minneapolis, Minn.

Vice president and general manager of the new division is C. P. Ulstad, former chief engineer at Allied. He says ENTEC will investigate and report on both mobile and permanent structures. These include conveyor galleries, materials handling structures, crane runways, etc., in addition to piping systems or structural framing.

Ulstad and his crew of engineers and technicians will check out structural strength and safety by seeking evidence of weakening through corrosion, weld cracks, wear, vibration, etc. They also will make sure that structural members are not overloaded.
